EXACTLY SO.—The New York Atlas, in a ll digested article on the practice of economy in the use of articles of food that mmand famine prices, has the following thful paragraphs:

We do not raise food enough for consumption, although we have an immense ount of unemployed labor in the Atlantic cities, and numerous practical agricultural inventions which are supplying the nt of it, in the Western states.

As long as stout able-bodied men prefer get a living by selling peanuts and cough ndy, or dealing in pins and needles, and th brushes, we shall not find agricultural pursuits in much favor; and while ry speculator in stock and town lots, pects to get rich in six months, the plow, e noblest machine, directed by the hands man, will never be popular, or have too ny followers.

All true, and more too: for farming, ides being the best, most healthful, independent, and manful employment in the ld, is really and undoubtedly the most nunerative,—taken any twenty years together. There is no other business, which judiciously followed, is so sure to pay a n, as tilling the ground.

Washington termed agriculture "the nost pursuit of man," and although we e printing too well to leave it, and have good a business to swap for an uncertainty—when "we do change work, we an to "*take* up the shovel and the hoe" and if our business was as dull as many ks are eternally complaining theirs is, would answer that advertisement of ay-maker wanted," to-day.

FREEMASONS OF THE CABINET.—The Freeson's Magazine says: "It is probably own to most of our readers, that Gen. ss is a Past Grand Master of the Grand dge of Michigan, and is, therefore, well alified to speak of the character and tenencies of the institution and its principles. President Buchanan is also a Past aster of a lodge, at Lancaster city, Pennsylvania. The Vice President, Hon. Mr. ckinridge, is a member, we think, of ebb Encampment of Knight Templars, Lexington, Kentucky; and the Secretary the Treasury, Hon. Howell Cobb, is a ember of the Order in Georgia. We are t informed, in this particular, as to the her members of the Cabinet."

NEW ZEALAND FLAX.—From experiments hich have been made recently, it has been early established that the New Zealand ax, when properly prepared, is equal in ength, to the best qualities of Russian Italian hemp, and would successfully mpete in the manufacture of cordage ith that material.

JUSTICE?—The Manchester Mirror contains a pretty full report of a theft case in Concord, before Justice Whipple,—where in the offence seems to us clearly proved—and a very poor *alibi* is clearly disproved. Nevertheless, the prisoner was discharged. The Mirror report says:

This closed all the testimony, and the case was submitted without argument.—John Whipple then gave one of his peculiar decisions, which took everybody and "the rest of mankind" completely by surprise. The decision was that he did not think the government had made out a probable case against Mr. Withan, and he therefore ordered him to be discharged.

As an effort is being made for the removal of John Whipple from the office of Police Justice of Concord, we have reported this case in full, so that if he can gain any new laurels by this decision he will have an opportunity to do so.

ALL THE GOLD IN THE WORLD.—Estimate the yard of gold at $10,000,000, which it is in round numbers, and all the gold in the world might, if melted into ingots, be contained in a cellar twenty-four feet square, and sixty feet high. All the boasted wealth obtained from California and Australia would go into an iron safe nine feet square, and nine feet high—so small is the cube of yellow metal that has set populations on the march, and roused the world to wonder.

Capt. Stone, a few years since one of the most popular steamboat captains on the Hudson river, died in the lock-up, at New York, Thursday night, having been picked up in the street, in a dying condition, caused by intemperance.

☞ A Mormon elder who was preaching the beauties of Mormonism in Sheffield, England, praising Brigham Young as a saint, was pushed from his rostrum by the inhabitants, and ducked under the town pump. He then left town.

☞ Whalebone has nearly doubled in price within the past four months, in consequence of the enormous consumption of the article in skirt hoops. Where the wholesale price was forty or fifty cents, it is now worth ninety cents a pound.

☞ Czarnico Crespo, a wealthy Spaniard, 60 years old, worth $2,000,000, on a visit to New York, with his family, died suddenly, on Saturday, of congestion of the brain. He was the owner of extensive sugar plantations in Cuba.

WHY DO WE LAUGH?—Laughing is caused by the very opposite influences that produce sighing. The nervous system is highly excited by some external cause. The impression is so intense, and the mind so fixed upon it, that the respiratory process is irregular and uncontrolled. Persons excited to a fit of laughter, generally hold their breath until they can hold it no longer, and then suddenly there is a quick expiration, causing eccentric sounds, the mind being too intently fixed upon the cause of excitement, either to moderate the sounds or to control the breathing.—*The Reason Why.*

THE WORK.—The ravages of the canker worm are over,—they do not survive the 20th of June; but in this short campaign, they have done a pretty clean work in some sections. There are hundreds of trees within five miles of Newburyport, that have no more leaves on them, than they had last January. There is one orchard in Oldtown, where not a single green leaf can be found. This year, the canker worms did not go over the Parker river, southward, nor come in this direction past Rowley Village. They select districts. To supply the place of the canker worm, the onion maggot, among the Newbury farmers, is doing quite as destructive a work.—*Herald.*

Morning Chronicle.

FRIDAY, JUNE 26, 1857.

THE NEW YORK RIOT.

New York City, during several days of last week, was the scene of riot and partial anarchy, occasioned by the troubles which have been for some time existing between Mayor Wood and the State authorities.—To give a history of the real cause of all these troubles, it would be beyond our power.—The Manchester American gives the following summary view of it.

Our readers understand that by an act of the last New York Legislature, the police establishment of the city was re-constructed, and the city authorities shorn of much of their appointing power, expressly and by implication. The Metropolitan police bill, passed by the last Legislature was not applied for, directly by Mayor Wood, but it was based upon his recommendations, frequently reiterated in his Messages to the Common Council. He said of the police in his message of Jan. 11, 1855: "While the power to appoint, suspend and remove political and elective, it will be expecting too much of human nature, to suppose that political influence can be excluded altogether." On his own confession, that any elective officer, having the control of the Police, would use them for his personal advancement, and the notorious fact that he did so use them in the November election, the Metropolitan police bill was framed. It passed the Assembly by 73 to 28, and the Senate by 27 to 4. The appointment of Commissioners was given to the Governor, on the ground that he is far removed from the city and its political broils, while the Mayor himself was made one of the Commissioners.

This act took effect from its passage, about the middle of April. When the Commissioners met for organization, they were at once served with an injunction by Mr. Wood, restraining them from entering upon that office. This was argued, and promptly dissolved.—He got out another, and this was dismissed, but Mr. Wood obtained a writ of quo warranto, demanding that the Commissioners should show by what authority they claimed their offices—in other words, to settle the constitutionality of the law, under which, they proposed to take control of the Police Department. This writ was passed up to the full bench of the Supreme Court. Here an argument was made, and after a patient consideration, the Court affirmed that the act was constitutional, and denied the motion to take the case to the Court of Appeals. But the Mayor forthwith appealed, and the case is now under consideration before that Court.

On the death of the City Street Commissioner, the question arose, as to whom the power, under the new act, belonged to fill the vacancy. Governor King consulted two of the most eminent jurists in the State—one of them Nicholas Hill, a political opponent—and they united in the opinion that the appointing power belonged to the Governor, on the grounds that the Mayor and Aldermen have no power to fill this vacancy *expressly* given to them in the act, while all cases within their jurisdiction being expressly designated, excludes this by implication, thus referring this case back to the general appointing power of the Governor, as defined in the statutes of 1849.

Accordingly, Gov. King proceeded to fill the vacancy by appointing Mr. D. D. Conover as Street Commissioner. The difficulties which this gentleman met with in attempting to take possession of his office were the occasion of the riot between the old and new police forces, and the death of one of the metropolitan police. Thus Mr. Wood, the Chief Magistrate of the first city in the Union, has, by his refusing to comply with, or rather setting the laws at defiance, produced a riot, and caused bloodshed. What shall we expect will be the result of this high-handed course, if pursued by Mr. Wood, in a city which is filled more than any other with inflammable materials, and therefore more exposed to the contagion of bad examples in high places?

MASONIC.—St. John's Festival Day was celebrated in Nashua, on Wednesday, the 24th, under the auspices of the Rising Sun Lodge, No. 39, of Nashua. The day was ended by the ringing of bells. The city presented a general holiday appearance, flags being displayed on the several city buildings, halls, and private residences.—The city was crowded with visitors from abroad, all of whom appeared anxious to participate in the Grand Masonic Celebration of the festival of St. John the Baptist.

Gen. Israel Hunt, of Nashua, was Chief Marshal of the celebration, and was assisted by a number of gentlemen connected with the order. The arrangements were carried through in an excellent manner.

WEALTHY COLORED PEOPLE.—The New Orleans Crescent says, that the free colored population of that city are possessed of property to the amount of $4,000,000. Prof. Munroe calculates that there are 30,000 colored people in Ohio, and that they have $6,000,000 worth of property, on which they pay annually $60,000 tax

A JUVENILE SUICIDE.—On the 3d inst., Frank Noe, a boy 12 years of age, having been severely punished at New Orleans, for some offence, soon afterwards procured a rope and hung himself.

NEW HAMPSHIRE LEGISLATURE.

In the House, on Tuesday evening, on the Dred Scott resolutions:

The yeas and nays were taken on the first resolve, and resulted as follows:—Yeas 178, nays 108.

In the Senate, Wednesday, June 24, the following bills were read a third time, and passed.

An act to straighten and establish the town line, between the towns of Londonderry and Hudson,

An act in relation to administrators and guardians of minor children.

An act to incorporate the Merrimack Water Power Co.

A resolution in favor of Charles W. Batchelder.

An act to secure freedom and the rights of citizenship to persons in this State.

On the passage of the last bill, the yeas and nays were asked by Mr. Webster, and were—Yeas 6, Nays 4, absent 2.

In the House, the bill in relation to the wards in the city of Portsmouth, and repealing sec. 3 of the act to establish said city, came up on second reading,

Mr. Greenleaf objected to the bill as impolitic and not demanded by the interests of any party or class of citizens. He proposed an amendment to the bill, giving the legal voters of Portsmouth the privilege of voting upon it.

Mr. Hackett of Portsmouth said the bill was of that character which did not involve matters coming legitimately within the sphere of popular action. He favored the bill and opposed the amendment.

Mr. March of Portsmouth, opposed the bill, and asked that it might be referred to the people.

Mr. Hackett and Mr. Brown of Portsmouth spoke in favor of the bill, and against the amendment, after which

Mr. March of Portsmouth demanded the yeas and nays on the amendment of Mr. Greenleaf, and they resulted as follows: yeas 124, nays 171. The amendment was therefore lost. The bill was then ordered to a third reading.

Bills Read a third time and passed.—A joint resolution, appropriating $5000 for the maintenance of the indigent insane.

Appropriating $300 for the salary of the Chaplain of the State Prison.

Appropriating $100 for the purchase of books and stationery for the State Prison Library.

Appropriating $5000 for repairs of the State Prison—$3000 from the Treasury and $2000 from the earnings of the prison.

A bill relating to the payment of promissory notes and bills of exchange.

A bill authorizing the Trustees of the House of Reformation to sell property bequeathed by James McKean Wilkins, and in amendment of chapter 1660 of the pamphlet laws.

A bill to incorporate the Mechanics Steam Mills in Dover.

A bill in relation to the wards in the city of Portsmouth.

A bill in relation to minors and married women.

A joint resolution in favor of the widow of Daniel A. Rowe.

A bill to incorporate the Berlin Falls Manufacturing Co.

A joint resolution in favor of Frank W. Miller and others.

The House of Reformation Appropriation.—Mr. Varney, chairman of the committee on the House of Reformation, called up the bill which was laid upon the table a day or two since, making an appropriation of $15,000 for the completion of the House of Reformation at Manchester, and the bill was ordered to a third reading.

SNUFFING DANGER.—The Richmond South sees danger to "Southern institutions" in the attempt to put down Brigham Young in Utah. It says:

"It is gratifying to be assured that the President meditates the severest measures for the chastisement of Mormon insubordination. Yet one cannot but be apprehensive lest this interposition of the Federal Power may hereafter furnish a pretext for some unwarrantable encroachment on the Territories and the sovereignty of the States. Hence the necessity of extreme caution in the application of a principle which may be perverted to a very mischievious purpose. Undoubtedly, in its social and religious aspects, Mormonism is a very repulsive thing; but so is slavery in the judgment of a great many people; and if it be allowed that the Federal Government may interfere to extirpate the evil of polygamy, perhaps an abolition majority will apply the same remedy to that other "iniquity."

MASSACHUSETTS.—At Worcester, the Republican State Convention, on a second ballot for Governor, threw 431 votes, of which N. P. Banks had 337; Mr. Goodrich 78; Eliot 11; Hudson 4. Oliver Warren was nominated for Lieut. Gov. without a division.

☞ Fairfield, who was sentenced, about two years ago, to the State Prison for three years, for adultery in Newburyport, has been pardoned. Since his conviction, his wife has been divorced and married again.

☞ Mrs. Cynthia S. Norway has been appointed Postmistress at East Brewster, Ms., in place of Geo. W. Higgins, resigned.—Mr. Higgins had held the office more than thirty years.

YOUNG AMERICA.—The Dalton (Georgia) Intelligencer says that the following letter was sent to Mr. Buchanan by a juvenile Georgia politician:

ALANTA, Ga., Nov. 10, 1856.

Hon. James Buchanan—Dear Sir—The Election is now over and you are President. During the canvass I have hollered for you until I am hoarse, and my throat is sore, and I have spent all my small change. If you have any office that would suit a boy of my age (13 years) I would like to have it—and if not please send me ten dollars.

☞ In the Newburyport Police Court, Tuesday, F. W. Ricketson, charged with causing the abortion and death of Emma Post, was held to answer in the sum of $2000, to the next term of the Court of Common Pleas. He was committed. The Herald says, — "Ricketson is less than thirty years old, well-built, of fair complexion, and gentlemanly in his appearance. He bears the marks of intelligence, and is said to be possessed of considerable property. This is one of the most frightful crimes ever committed in our midst; and creates a sensation in our community seldom experienced, and deeply to be regretted. Ricketson is also reported as having an illegitimate child, some two years old, living in Salisbury."

Portsmouth Testimonials.

I have purchased a pair of Professor Franks' improved Spectacles, and on use find them easier and better for my sight than any others I have ever had, both by day and candle light.

SAMUEL P. LONG, Portsmouth.

My sight, in consequence of sickness, has been for a long time much impaired. I could not procure a pair of spectacles to suit correctly, until I obtained a pair of Dr. Franks' improved ones, which I find suit me well. I can see through them with perfect ease and comfort, and have found my sight much improved.

DANIEL R. ROGERS, Portsmouth.

I have tried to obtain a pair of spectacles suitable for my eyes, both in the States, and in London, England, and never could get any through which I could see any better than without, therefore considered it impossible to get any, until I called upon Professor Franks, when he at once suited me to perfection with a pair of his, and also my sister, Salome, who is affected with the same kind of vision, and we are both delighted with our glasses.

New Crockery and China Ware.

NOW opening from the above vessel a splendid assortment of New Goods comprising a complete assortment of
JOHN ALCOCK'S
WHITE GRANITE DINING AND TEA WARE.

In point of style, and especially DURABILITY, this ware has no equal among the other manufacturers of Europe, for while the Glazing of Alcock's Ware is *proof* against any test, almost every other make will crack in the glazing, causing the ware to have an old and worn out look, at first using.

A beautiful assortment of
BAND AND WHITE CHINA,
Solar Oil and Fluid Lamps, Lanterns, China and Glass Vases, Britannia Tea and Coffee Pots, elegant Tea Trays and Waiters.

Table Cutlery of every description, and all kinds of GLASS WARE for Table use.

Purchasers of any of the above goods will find this the only complete stock to select from in this vicinity, and at as low prices as in Boston or elsewhere.

POLICE COURT.

Before Justice Odell.—June 24.—Two of the frail sisterhood came, one charging the other with an assault, pulling off of a bonnet, &c.—Fined $5; costs 4.80; $30 bonds to keep the peace.

Another lady charged two gentlemen with assaulting her in the night time of June 23, in her own house, with a slung shot, knocking her down, and injuring her seriously. This case was continued to next Monday.

We learn that the case has these features among others: A woman went into the premises of one of the parties, and accused the owner of saying certain things derogatory to her reputation; she also called him to account for certain defects in his own character, and blots on his history. Whereupon he answered in angry mood, and advanced towards her, to assault or put her out. She presented a pistol which she drew from her bosom, and ordered him to stop; he did so, and she left.

Now the scene changes to the house of Mrs. ———, where the woman boards.—The time, eleven o'clock at night. The man mentioned and a friend make an entrance, a general fuss is raised, and as Mrs. ———alleges in her complaint, she is assailed by the two and knocked down by a slung shot in the hands of one of them.—The woman appears again with her pistol, and fires it (loaded with powder only) at the assailants, who hastily retreat, and the curtain falls.

Scene 3 is the Police Court, where a rich variety of testimony was given, and the case continued as above.

We live so near to scene 2d, as to hear the crash of the door and the screams of the women.

Just before sundown, on the same evening, a copper-faced man, with some bad liquor in him, threw a stone through the window of a respectable and excellent woman who lives near the Steam Factory; and in a few minutes afterwards a copper-faced man, supposed to be the same, having his hands full of stones, stepped up by the side of Uncle Toby and his cow, asking protection against the people who insulted him, and urging that they ought to go into the lock-up. Uncle T. did not see the police; if he had, he would have commended copper-face to their care. He professed to belong to Biddeford.

Next night, as the sufferer tells the police, a poor man, having been drinking, was shaken down by a strange woman, and robbed, as he says, of $225. [Served him right.]

☞ In the Court Com. Pleas, at Newburyport, Wednesday, Susan L. Hawkins alias Allen of Boxford, Polygamy,—verdict of guilty. The jury unanimously recommended her to the tender mercy of the Court. Thomas O. Briley of Lawrence, common seller—verdict of guilty. Two others, charged with being sellers, were acquitted; and in a fourth case, the jury could not agree.

SOLEMN AND TRAGIC DEATH.—In Philadelphia, during the height of the storm Sunday evening, a fearful scene occured. A family was seated around a table engaged in ordinary conversation, when a dispute among some of the children and young people took place. Words grew high, and the mother attempted to quell the disturbance. In turn she was made the object of their anger, and while the heated blood was finding vent in words, the parent arose from her seat, and once more interposed. It was of no avail, and the parties came nearly to blows. At that moment, while from her own children coals of mental fire were being heaped upon the mother, she suddenly sank down dead, and her last breath was drowned by the angry voices of her offspring. The feelings of those present no words can adequately describe, but on their minds for years to come we should imagine that an impress would remain of the angry group, the little room, and the dying mother reviled by her own children.—*Philadelphia Eve. Journal.*

ADVANCE WAGES TO SEAMEN.—*Philadelphia, June 24.*—At a meeting of the ship owners this morning, an agreement was made that after the first of July next, the payment to advance wages to seamen will be discontinued, in accordance with the plan of ship owners of other ports. Hereafter they will furnish one suit of warm clothing, and give a bounty of 10 per cent. on the earned wages of those of the crew who perform the voyage: and in case of the loss of the ship on an outward voyage, the seaman to be paid the wages earned to the time of such loss, and in no case less than one month on foreign, and for two weeks on coastwise voyages.

MAINE REPUBLICAN CONVENTION.—*Bangor, June 24.*—Delegates to the Republican State convention are assembling here in large numbers. The position the party may take upon the prohibitory liquor law, is the only matter of interest to be brought before the Convention. Hon. Lot M. Morrill, of Augusta, will undoubtedly be the nominee for Governor.

MEMPHIS, TENN., June 24.—John Able, known as a gambler here, was shot dead this afternoon by a man named John Everson, in front of the Washam House.—Able asked Everson for some money that he owed him, and the reply that he got was a pistol ball through his body. The affair created quite a sensation among the citizens, who assembled at the jail, determined to hang Everson, but through the persuasion of the Mayor and others, they were calmed down. A meeting was appointed for this evening, to determine what shall be done with Everson.

WASHINGTON, June 24.—The Virginia delegation unanimously protest against the removal of any Virginian in the diplomatic service, and insist upon the appointment of Wm. F. Ritchie, of the Enquirer, as Minister to Naples, in addition. It is semi officially announced that certain Mormons will be hanged for treason. Gov. McMullen leaves for Wahington Territory on the 20th of July.

DEATH OF HON. LYMAN B. WALKER.—Lyman B. Walker died at Laconia, N. H., on Sunday, aged 71. He was Attorney-General of the State from 1842 to 1847.—He was, says the Manchester American, a man of extensive learning and brilliant talent. In conversation, Mr. Walker was excelled by but few. He was until late years a firm Democrat, but during the last two years he has acted with the Republicans. He was for some time given to habits of inebriety, but died a temperance man.

THE SECRET DISCOVERED AT LAST.—We have noticed in passing through Market street, lately, that the NEW STORE, No. 15, always seems crowded with customers. We have at last discovered the secret of it. On stepping in side, we find that the proprietors, MESSRS. ALLEN & PAINE, in fitting up their store in the beautiful manner they have, had an eye for the useful, as well as for the ornamental; we noticed that the store appeared very light and cheerful, and on looking for a solution of the mystery, we discover that the store contains a Sky Light, giving them facilities for showing their Goods possessed by no other Dry Goods store in town; as Customers by such a light, have no difficulty in seeing just what they are purchasing, and can not be deceived in the color or quality of goods. We notice, also, that their stock is always composed of the best qualities and very latest styles, which is explained by the fact that one of the firm visits the market to replenish their goods every ten days,—and as they buy for Cash, all together, they are able to offer their goods at as low prices as any other parties.

Those about to purchase Dry Goods will do well to visit them. Read their advertisement in another column.

☞ Tilton & Nowell, at their Union Store, No. 12 Market street, sell the following Medicines at reduced prices:—Dr. Larookah's Indian Vegetable Pulmonic Syrup, warranted to cure coughs, colds, whooping cough, asthma, bronchitis, croup, catarrh, consumption, and disease of the throat and lungs. Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, price 68 cents per bottle.

"IN PEACE PREPARE FOR WAR."—In the days of our youth, it behooves us to make some preparation for the approach of age. How many persons have become prematurely bald by neglecting to apply appropriate remedies to prevent the hair from falling out. The use of Professor Wood's "Hair Restorative" will prevent the hair from falling off, impart to it a healthy growth, and even restore the hair of the bald. Thousands have testified to its efficacy. To be had of Druggists everywhere.

DOES ANY OF OUR HIGH LIVERS ever eat too much dinner? If any of our readers have cooks who tempt their appetite a little too far, I will tell a secret that will lead them to the enjoyment of their dinners, without a visit from that gouty old gentleman, Dyspepsia. Take a dose of Dr. Sanford's Invigorator after eating, and you will never be troubled with indigestion; but on the contrary, before the next meal time approaches, the appetite will be sharpened to appreciate any kind of food. If the food rises or sours, the Invigorator will fix the matter right at once, for there is something in it that, to use the expression of a friend, will let a man eat gravel stones, and take the Invigorator and they will digest. We have tried it in double doses, on one or two occasions, for sick headache, and it acts like a charm.

What we want to say to our readers, young or old, is, if anything ails you, go without delay and get a bottle of Dr. Sanford's Invigorator, and if it don't cure, come and tell us, for we want to see one person that it will not benefit.

TO THE CITIZENS OF THE UNITED STATES.
CAUTION TO THE PUBLIC.

After several years experimenting in the manufacturing of Gin, I fortunately succeeded, in the year 1848, in making a discovery in its manufacture by which it was deprived of all acrid and inflammatory properties, and rendered perfectly pure.

My manufactory is at Scheidam, Holland. After several months' reflection what title to give it, I introduced it to the American public under the name of "Wolfe's Scheidam Aromatic Schnapps." Scheidam is the name of the place in Holland where the Gin is manufactured. Aromatic derives its name from the Italian Juniper Berry with which it is flavored, and the word "Schnapps" is the German for drink—Cogne, Dram—Wolfe's Scheidam Aromatic Drink. No sooner had my Schnapps been introduced to the American public and received with approbation, than the Liquor Mixers of New York, Boston and Philadelphia, started in pursuit with their mixed and poisonous stuff under various names: Scheidam Gin, Scheidam Schnapps, London Club House Gin, London Cordial Gin, &c., and in several cases my labels have been so perfectly imitated, with only the addition of a few letters to plead a technical avoidance of the law, and so carefully prepared as to impose on careless purchasers. I understand a large quantity has been purchased by the merchants of the Eastern States on account of the cheapness of the articles. A merchant who participates indirectly in the fraud by selling the spurious articles, is as much an offender as the principal who planned the imposition.

I hope every respectable citizen who values the health of the community in which he lives will aid me in ferreting out and exposing the unscrupulous merchant, who, for the sake of a few cents, will put in jeopardy the lives of the community in which he lives. Such men should be nailed to the pillory of popular execration.

WOLFE'S SCHEIDAM AROMATIC SCHNAPPS is made from barley of the first quality, selected with great care from the products of the most celebrated grain-growing districts, is flavored with the essence of the aromatic Juniper Berry of Italy, and is rectified by a peculiar process, which expels from the spirit every acrid particle.

As a means of preventing and correcting the disagreeable and often dangerous effects produced upon the stomach and bowels by a change of water—a visitation to which travelers and settlers, and all unacclimated persons in the West, the South and South-West are peculiarly liable—the Scheidam Aromatic Schnapps will be found absolutely infallible; while, in cases of dropsy, gravel, obstructions of the kidneys, diseases of the bladder, dyspepsia, and general debility, it is recommended most emphatically by the most distinguished members of the medical profession

It is put up in quart and pint bottles, in cases of one dozen, with the name of the undersigned on the bottle and cork, and a fac-simile of his signature and label.

CHARLES' LONDON CORDIAL GIN is shown by the Records of the Custom House to be the only London Cordial Gin IMPORTED and sold in bottles; all others are made here in imitation of it.

It is a delicious tonic beverage, and by its peculiar flavor (so different from other gins) is universally esteemed by all who use it. It is adopted with great success in cases of Dyspepsia, Gout, Rheumatism, Dropsy, Gravel, Colic, Cholera, Fever and Ague, Stricture, Diseases of the Urinary Organs, Epilepsy, Female Irregularities.

Dr. Valentine Mott of New York, in a letter to the proprietor, says:

Charles' London Cordial Gin, is the purest, best, and most reliable Extract of Juniper I have seen.

CHARLES' LONDON CORDIAL GIN is sold by all Druggists and Grocers in the United States, and so also are numerous poisons called "London Cordial Gin"—to avoid them buy only "CHARLES'." Reject any other offered to you as you value your health. Price one dollar for quarts, fifty cents for pints.

HOUSE LOTS AT AUCTION.

A grand chance to lay the foundation for a home.

WILL be sold at Public Auction on the premises, in Portsmouth,
On SATURDAY Afternoon, June 27th, at 3 o'clock,

TEN HOUSE LOTS!

Consisting in the aggregate of about 90,000 square feet of Land, which is bounded on the south by Islington street, on the east by Creek street, on the west by land of True M. Ball, bordering on Frenchman's Lane, and on the north by a new street, being the land now owned by Kittredge Sheldon.

This is in every respect the most eligible and desirable position for House Lots now in the market. It is about 10 minutes' walk from Market Square, in a direct line through the pleasantest and best street in the city, with a good sidewalk the entire distance, and combining in an unusual degree the advantages of rural and city life. The land is dry, the grounds are shaded with tall and graceful elms, forming the most picturesque landscape to be found in this vicinity. The lots vary in size from 600 to 22000 feet; the smallest affording ample garden, as well as building room.

An accurate plan of the Lots may be seen at H. F. Wendell's Store, No. 70 State street, and further particulars may be obtained of the subscriber. KITTREDGE SHELDON.

City Hotel, Portsmouth, N. H.
BY WM. S. HADLEY.

THE SUBSCRIBER has the pleasure of announcing to his old patrons, and the travelling public generally, that he has leased this well-known, commodious and pleasant House, and would invite travellers and others to make "themselves at home" on the premises—promising to spare no reasonable effort which may conduce to the comfort and satisfaction of visitors.

While acknowledging the liberal patronage with which we have been so long favored, in our old quarters; we would solicit a continuance, now that our accommodations are so much increased and improved. WM. S. HADLEY.

Portsmouth, June 15, 1857.

Atlantic House,
RYE BEACH,

IS now open for visitors. The reputation of this House is too well established to need any lengthy description of its advantages. The Proprietor will, as heretofore, devote himself to the comfort of his guests.

Passengers by the Eastern Railroad will stop at the North Hampton station.

Rye Beach, June 20. 6w J. C. PHILBRICK.

Appledore House,
ISLES OF SHOALS,

IS now open for Public Accommodation.

The schooner SIBYL, (one of the beautiful yachts belonging to Mr. Gen. Steers,) will run daily to this Island from Pier Wharf, in Portsmouth, immediately after the arrival of the morning train of cars from Boston, and return in the afternoon.

The Sibyl is commanded by Capt. RUFUS A. PEEBLE, a thorough seaman, who will give every attention to the comfort and enjoyment of his passengers.

The Sibyl has a magnificent cabin, water closets, tanks, and every accommodation which a first class Packet requires.

The advantages this purely Ocean Retreat possesses over other resorts are well known. Resting on the broad bosom of the Atlantic—free from heat, dust and noise—it is peculiarly fitted to restore health to the invalid, and rest to the care-worn and weary. j22 THOMAS B. LAIGHTON.

On hand for Rye Beach.

THE Subscriber respectfully informs the public, that he will run a Coach in connection with the Cars on the Portsmouth & Concord Rail Road, to RYE BEACH, daily.

Passengers by taking Cars on the Boston & Maine, and Portsmouth & Concord Railroads, stopping at Greenland, will find this a pleasant and convenient route.

WM. BERRY, 2d., Proprietor.

Greenland, June 19, 1857.

Portsmouth and Cape Neddick
DAILY STAGE.

THE SUBSCRIBER will run a Coach daily, for the accommodation of passengers between Cape Neddick and Portsmouth, commencing in June, 1857.

Leaving the Cape Neddick House, (Freeman's Hotel,) every morning, at half past 7 o'clock, arriving at Portsmouth in season for passengers to take the morning train for Boston or Concord.

Leaving City Hotel, Portsmouth, at 3 o'clock, P. M., every day, for Cape Neddick.

I shall endeavor to give satisfaction to all who wish an easy passage to and from the above named places; and shall be ready to attend to all errands that may be entrusted to my care, and at such rates as will give satisfaction.

If at times, passengers wish to be conveyed to or from the Ogunquit, I will accommodate them as far as possible. STEPHEN E. GRANT.

York, June, 1857.

S. D. & H. W. Smith,

—MANUFACTURERS OF—

Melodeons, Organ Melodeons,

—and—

PEDAL BASS MELODEONS,

No. 511 Washington Street, Boston,

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Hall, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instruments, and securing the tones of flute and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,

Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by means of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is not too heavy to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON

Is designed for parlor and church use. The construction is similar to the Church Instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of a great variety of tone, and of the Church Instrument when used without the pedals. Also, every variety of Melodeons for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. In short, we will promise our customers an Instrument equal, if not superior, to any Manufacturer, and guarantee as represented, satisfactorily.

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Manufactory at any time and examine or test the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,

who have examined our Instruments, and will express their opinion when called upon:

Chickering & Sons,	Hallett & Cumston,
T. Gilbert & Co.,	Wm. P. Emerson,
Brown & Allen,	A. W. Ladd & Co.,
George Hewes.	Woodward & Brown,

Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair trial of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

The Medicine THAT NEVER FAILS!

IS DR. WILSON'S

DYSENTERY POWDER,

Which cures Dysentery, Diarrhœa, Cholera Morbus, and all the affections of the Bowels attended with Pain and frequent Discharges.

This Medicine is now being introduced into all parts of the United States and British Provinces, and proves to be the most reliable remedy ever used. These Powders are now offered to the world as a PERFECTLY SAFE AND EFFECTUAL MEDICINE, for the purposes they are recommended, and in nine cases out of ten

ONE POWDER WILL CURE THE WORST CASE,

when they are taken in the first stages, and almost invariably *two will effect a permanent Cure*; and unlike all other medicines, they watch, if they check the disease, leave the person in a condition that requires physic after it, which is not the case with the Dysentery Powders, for they *regulate the Bowels*, tone up the system, and leave it in a healthy state.

These Powders are put up in boxes, with full directions on each box, and sold for 25 cents.

Please try them; if they do not *give perfect satisfaction*, return them and take your money.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which B. Homer Hamilton and Jas. Pedigo are managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present. Persons who send money or facts which the managers call attention to, as that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special act of the legislature, which is known every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The price of tickets range from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are published in the papers by number on each ticket (enter the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100 '00. All orders for tickets or packages will receive prompt attention and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

Address No 39 Fayette st., or box No. 10,
ja 21 tr Baltimore, Maryland.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the state of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the schemes one ticket in every ten must draw a prize. Tickets range from $1 to $25; quarters, $2 50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that a child can tell to whom to send them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $20,000; every prize below drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville, Ga., *Atlanta Intelligencer*, and New York *Weekly Dog Book*. Write address plainly, and all direct to S. SWAN & Co., Atlanta, Georgia.

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18 ly

MARRIAGE GUIDE,

BY DR. WM. YOUNG.

YOUNG'S great THYSIOLOGICAL WORK, The POCKET ESCULAPIUS, *Every One His Own Doctor*, by WM. YOUNG, M. D. It is written in plain language for the general reader, and illustrated with upwards of one hundred Engravings. All young married people, or those contemplating marriage, and having the misfortune to married life, should read this book. It discloses secrets that every one should be acquainted with. ARREST OF MAYOR WENTWORTH.—We pied last week, a paragraph announcing arrest of Hon. John Wentworth, Mayor Chicago, for stealing mail bags. The ole thing was one of Douglas's tricks to grace Wentworth, who is one of the st formidable obstacles in the path of t arch demagogue to power and place. uglas found, however, that he had waked up the wrong passenger," as entworth's counsel offered to prove that uglas had twice as many as Wentworth. is was a poser; and the Judge who was e of Douglas' tools, decided with great ecrity, that the bags, which were filled th public documents, were properly in entworth's possession. The North West-n Christian Advocate, speaking of this e, says:

The late political conspiracy to impeach character of our Mayor, has reacted, nally, against its instigators. The *modus operandi* in the case—the time selected executing the writ (when he was preing over the council)—the attempt to ng the case before a petty officer instead the U. S. District Judge—all show that lice and revenge were at the bottom. t without entering into a discussion of e matter, we will simply inform our aders that Mayor Wentworth is trying arrest crime, to economize in the public penditures, to bring unfaithful city offials to punishment, to stop swindling, to press licentiousness, to preserve order—short, to do his duty.

OPEN-AIR PREACHING IN ENGLAND.—The v. Thomas Atkins, lately officiating at Simon's Church, Salford, and who now devoting his time and energies to gratuous open-air preaching, has had his name ered as a member of the Alliance, and mmenced his gratuitous labors in the use; he appeared in his surplice and ds at the New Cross, Oldham-road, anchester,) took his stand on a chair, d, having sung a hymn, read the 23rd apter of the Book of Proverbs, presented extempore prayer, and announced for t text the 29th and three following verses that chapter:—

"Who hath woe? Who hath sorrows? o hath contention? Who hath babing? Who hath wounds without cause? o hath redness of eyes? They that tarlong at the wine; they that go to seek xed wine. Look not thou upon the ne when it is red, when it giveth its colr in the cup, when it moveth itself ight. At the last it biteth like a serpent, and stingeth like an adder."

As a discussive from intemperance, the eacher stated that three fourths of the nsperism, of the diseases, of the insanity, the crimes, of premature deaths, are the sults of intemperance. And to confirm e truth of his statements, he invited his udience to visit the union workhouses, the spitals and infirmaries, the lunatic asyms, the prisons and reformatories, the ove yards and cemeteries, and abundant idence would be afforded of the truth of e assertions.

From the Home Journal.

THE BOUQUET.

BY T. B. ALDRICH.

Two hundred miles of land and sea
Are stretched between my love and me:
She hears the bluebird's matin hymn,
She walks through forests deep and dim,
Where roses hang their leaves of fire,
Where grow the tansy and sweet-brier;
While I, in rain, or dust, or heat,
Go wearily from street to street;
And turn, at times, from haggard faces,
To dream of pleasant woodland places,
Where all delights and quiets be,
And all that's dear and true to me!

May comes not into crowded towns,
The child of meadows, dales and downs!
The only glimpse I've had of May,
Thus far, has been the sweet boquet,
Which, over miles of land and sea,
The little girl has sent to me!
With silver dews it still is damp,
And there it stands—a fragrant lamp,
Upon my desk, and seems to shed
A tremulous crescent, white and red,
Above its roundness on the gloom,
Filling with vapors of perfume
The study, till my fancy takes
Quick flights to woods and water-breaks!

These odorous buds and bloomsWere pluck'd
In lanes and pastures, where they sucked
The sunshine till their tender veins
Grew pink or azure! Some bear stains,
(The finger-prints of roguish fairies!)
Golden prints! and one there is
Of all gay hues you ever saw,
Like harlequins at *Mardi Gras!*
These by the road-side grew, and these
Anear the gnarled roots of trees;
These first glistened in the clover—
Stop! I'll count the rosary over:

Tulips, breathing of the South,
Crimsoned like a leopard's mouth!
Large Pond-lilies, white as pearl,
Almond-shaped and set in beryl:
Slips of Heart's-ease: purple clots
Of Memory's Forget-me-nots!
Poppies almost gone to seed,
And one rose that seems to bleed
Like the pale Madonna's heart!

* * * * * * *

Tulips! they are like her breath,
As sweet as fancy fancieth!
Like the whiteness of her bosom
Is the Lilies' snowy blossom:
Heart's-ease! Ah, the maid was sly!
No one needs it more than I.
Ease of heart! Ah, well-a-day,
She took all I had last May!
So, to keep her in my thoughts,
She need not send Forget-me-nots;
For, if I should press my face
Against the Poppies in this vase,
Till poppied languors on me creep,
The thought of her would fill my sleep!
But all my wit cannot disclose
Why she sent this budding Rose:
The half-blown bud, the red eclipse,
Is like to nothing but her lips!
So from the modest Rose I'll take
A feast of kisses for her sake!

ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. From the Portsmouth Journal.

STATE RETRENCHMENT.

A committee of the Legislature on the subject of Retrenchment and Reform have been seeking in vain to find anything to cut down. They report that they find the compensation of the chief officers of the State was fixed at a time when the expenses of living were much less than at the present time, and present no cases for reduction.—They also find the prices of work to have been fixed at a time when the cost of performing it was much less than at present.

The Committee find that about two-fifths of all the State tax raised is required to pay the expenses of the House of Representatives, and are of opinion that an amendment of the Constitution, which would reduce the House to one hundred and fifty members, would result in an efficient retrenchment of the public expenditures, and also prevent a large expenditure for the enlargement of the House.

They ask whether there may not be a reduction in the size of the Journals of the Senate and the House,—and whether there might not be a further saving made by withholding from the Report on Education the extracts from the reports of superintendents.

The reduction of the House is desirable—but it cannot be effected without the expense of $40,000 or $50,000 for another constitutional convention, which the public will not submit to.

One of the proposed amendments of the constitution which the people ought to have adopted, would have placed us in a way of remedying this evil without the expense of another convention.—The amendment adopted by the convention of 1850 allowed of future amendments being made by a vote of two-thirds of the people, after two successive legislatures had decided by a majority vote to submit such amendment. Had this one amendment been adopted by the people, it would have placed some desired reforms in the reach of the people which are now virtually beyond their grasp.

If the question of the revision of the Constitution which the Legislature have voted to submit next year to the people, had been narrowed to two or three *definite points*, or even to the simple one of the mode of future amendments, it might have been of some use. As it is, all will go against a revision.

HOME ENTERPRISE.—There is no more pleasant feature in a town than that active business enterprise which sets many wheels in motion. It is pleasant to greet an adventurer who puts in successful operation schemes which in benefitting himself will give useful employment to a neighborhood around him. We do not always know where to look for such men—indeed they are not to be looked up—they spring up of themselves, and soon become visible to the public.

It is only four years since that in a small room we daily passed, might be seen a young man, not then of age, with no capital but his trade, busily employed with an apprentice, his only aid, in the manufacture of ladies' shoes. Close application was manifest, and occasionally a box of shoes for the expressman might be seen at his door. In this way, after months of labor, a capital of $200 was obtained. A second year found him in a more convenient room, more hands were employed—and more frequently the boxes were filled. The work was approved, and the demand for shoes increased. Portsmouth ceased to send to Lynn for ladies' shoes, and our dealers were generally supplied with the home manufacture. The enterprising manufacturer increased, and he is now doing a business of $25,000 a year, giving employment to not far from a hundred hands, in different sections of the city, and expending here much of the capital which was sent abroad in former times. We regard MR. THOMAS S. NOWELL a benefactor in this respect, and should rejoice in the opportunity of recording the successful introduction of manufactures of other kinds, by private enterprise, and with like success.—*Journal.*

CITY COUNCIL.

The committee of conference on the Appropriation bill reported an addition to the amount named by the Common Council for streets and common sewers of $250, making the sum to be raised $2250; and an addition of $450 to the school appropriation, making $10,950 for schools—striking out the amendment in relation to building a new schoolhouse. The report of the committee was adopted in concurrence, and the bill as amended passed. The amount of appropriations for the year is $48,726,87.

A resolution passed by concurrent vote, releasing the reversion of any right or title which the city may have in the lot to be occupied by the new Custom-House.

The Street Commissioner was instructed to rebuild the common sewer on Cabot street, and also the culvert at the Creek on Islington street.

The following resolution was passed by concurrent vote:

Resolved, That the joint committee on schoolhouses be authorized to procure plans and specifications for the construction of a new school-house in Dist. No. 2, and that the same be laid before the City Council, preparatory to fixing the location and inviting proposals for a new school-house to be erected next year.

GO AND "SEE THE ELEPHANT."—The grand circus with the trained elephants, will visit this city on Saturday. We copy the following notice of a late performance in Boston from the Journal:

CIRCUS ON THE COMMON.—Last evening, the great American Circus Co., under the management of Messrs. Sands, Nathans & Co., gave their first public performance in this city, in their spacious amphitheatre, which, by permission of the city authorities, they have erected on the parade ground on the Common. The first part of the programme introduced the splendid stud of horses attached to the stables of this establishment, in various feats usual in performances of this nature, which were performed in a manner never excelled by any company in this city.

The horsemanship of Masters Nathans and Sands, and of Madame Brower, elicited a storm of approbation as hearty as it was deserved. The posturing of Mons. Ferranti, and children, and the gymnastic performances of the German Brothers were feats of strength and skill almost beyond any conceivable power of the human frame, and constituted a marked feature in the performances. The wonderful elephants of Mons. La Grange decidedly capped the climax of the evening's entertainments, and certainly opened the eyes of those who had no knowledge of what can be produced by the docility and sagacity of this wonderful brute.

All that the show bills promise of these animals is more than executed, and one must really "see the elephant" to judge in any degree of how they appear. The performance of the trained zebra, and the Shetland ponies is just the thing to captivate the young people, and capitally winds up a most excellent entertainment. The large tent was crowded to repletion last evening, and the Circus will remain during the week, and perform every afternoon and evening.

SATURDAY, JUNE 27, 1857.

REFUSING TO BE MADE FREE.—Henry Dixon prefers to remain a slave with James Dean of Macon, Ga., rather than return to New York, as a freeman. He was claimed by Gov. King of New York, and it appearing that he was born in Michigan, and had become enslaved in Maryland, on account of his own misconduct; Mr. Dean, who had come honestly by him, offered him up for half his value, and the sum was eventually raised by the New York friends of freedom. But when told that he was free, and that his passage would be paid to New York, Dixon declined the boon, saying that Mr. Dean was very kind to him, and that he was as *free as ever he desired to be.* He said that if he returned to New York, the interest of those people would cease the moment he was free, and he should have a harder time getting along there, than in Georgia, whereas, in Mr. Dean, he had a friend and protector who would not permit him to suffer.—*Argus.*

We mark a few words in italics.—A man who lives *where he chooses*, and *as* he chooses, can hardly be deemed a slave.—He is as free as he desires to be. No dispute can be raised out of this case. It is beautiful, and tells for humanity, on a scale that knows no North and no South.

THUNDER-STORM.—There was a severe thunder shower in Boston on Thursday afternoon, at about six o'clock. A tree upon the Common, situated near the burying ground, upon the right-hand side of the path from the head of West street to the Providence station, was struck by lightning. The electric charge passed down the trunk of the tree into the ground. A man who was standing near the tree narrowly escaped: three buttons were torn from his coat by the shock. The umbrella of another man was perforated in several places. A pair of horses standing near the Providence railroad station took fright and ran out of town on the railroad track. The wagon to which they were attached was smashed to pieces, and one of the horses was thrown down and considerably hurt.

☞ At Concord, N. H., on Wednesday, Mr. G. M. Hamlin, a student at the Methodist Biblical Institute in that city, of which he was commissary, broke both his legs by jumping from a wagon while the horse was running away with it.

Mr. Hamlin, was riding in the wagon, in company with two other men rowing to some disarrangement of the harness, the horse became unmanageable and rushed towards the sidewalk. Mr. Hamlin undertook to jump from the carriage, and in the attempt, by reason of the entanglement of the rein probably, he made a misstep and was throw with violence against the lamp-post, and both of his legs were broken between the knee and the ankle.—His two companions were carried down street by the ungoverned horse, till they were thrown from the carriage,—but received no injury.

☞ In the Court of Common Pleas, Newburport, on Thursday, Stephen G. Snow, of Lawrence, common seller, verdict of guilty. Warren Brickett, Charles Eaton and Joseph Whittier of Haverhill, were tried upon one indictment as common sellers. The jury returned a verdict of guilty in the case of Brickett, and not guilty in the case of Eaton and Whittier. Wm. H. Thompson, of Newburyport, common seller, verdict of guilty on the first count.

The court adjourned. Judge Perkins complimented the jury for the able manner in which they had discharged their duties. It is a singular fact, that there was but one disagreement during the term, notwithstanding the great number of cases which were tried.

One of those frightful accidents from the use of burning fluid, which are so frequently reported, occurred in South Danvers last Monday night. The circumstances are as follows:—

MRS. MARY PRESCOTT, who resides in Lowell, but is visiting at the residence of Mr. Moses Jewett, having occasion to arise about ten o'clock, to attend to the wants of her child, lighted a fluid lamp, when it instantly exploded, throwing the fluid over her person, burning her hands, face and breast in a serious manner.—*Salem Gazette.*

☞ Many of our readers will be surprised to learn, that there are about a hundred and seventy arrivals of vessels annually at Danvers-port, with cargoes of coal, wood, lime, cement, flour, grain, lumber, &c., of which about fifty are from the British Province of Nova Scotia.

☞ Hon. N. P. Banks is to be the next Governor of Massachusetts. Both Republicans and Americans have nominated him.

He lives long, that lives well; and time misspent is not lived, but lost.

NEW HAMPSHIRE LEGISLATURE.

On Thursday June 25, in the Senate, Mr. Sawyer reported without amendment an act relating to minors and married women, and an act in relation to the wards in the city of Portsmouth, and the first was ordered to a third reading.

On motion of Mr. Burns, the latter bill was recommitted.

On motion of Mr. Pike, the bill relating to proxy voting was taken from the table and postponed to the next session of the Legislature.

In the House,—Messages came from the Senate, announcing its concurrence with the House in the passage of the following:

The resolutions in relation to the decision of the Supreme Court in the Dred Scott case; the resolution requiring the vote of the people on the question of altering the constitution; in the appointment of two committees of conference; acts amending the act attaching new duties to the office of Deputy Secretary of State; relative to the return of votes, amending chapter 241 C. S.; allowing further time to the town of Somersworth to accept a city charter; severing lands from Albany, and annexing the same to Somersworth.

The Senate asked the concurrence of the House in the amendment to the following bills:

An act to incorporate the Mechanics Steam Mills, and the act to incorporate the Berlin Falls Manufacturing Company.

The House concurred.

On Wednesday, in the House, the question was then taken upon the passage of the Dred Scott resolutions; the yeas and nays were ordered; and resulted in a majority of 88 in the affirmative—yeas 164, nays 83.

We see it stated that some members of the Democratic party voted for them and others absented themselves or refused to vote.

The most labored speech on the side of slavery, (as the Independent Democrat says,) "was made on Tuesday and Tuesday evening by Mr. Greenleaf of Portsmouth, whose age, public services, and political experience give him a right to lay down the platform of the party. As the whole speech is to be printed, we will only say, at this time, that it bravely met the issues raised by the Dred Scott decision, and honestly avowed the position of the party to be in favor of slavery, and against admitting the colored race to any of the rights of citizenship."

The Legislature will doubtless adjourn on Saturday. [This day.]

Correspondence of the Missouri Democrat.

FROM KANSAS.

LEAVENWORTH, K. T., Thursday, June 18, 1857.

The returns of Monday's election come in very slowly, but enough are received here to show that the whole affair has proved a most complete fizzle.

The number of votes polled here was but 225. The whole number in this county (which is the most populous in the State and could poll several thousand votes) does not exceed 500. Jefferson county, which has also a large population, is said to have polled but 50 votes. Douglas county, which includes Lawrence and Lecompton, and embraces a large and populous region in that portion of the territory, gives 175 ballots. In Franklin county it is claimed that there are 500 voters, but I am assured by a gentleman who has just arrived from there, that practically there has been no election there. When he left, he could only hear of about 30 votes that had been polled in the whole county.

It is believed here, by those who have the best facilities for knowing, that there have not been more than 1500 votes given in the whole territory. Selah! The pro-slavery residents are greatly discomfited, and declare that the free State men are a "d——d stubborn set of people."

A young man named Alexander Ware, a native of South Carolina or Georgia, while in charge of a claim held by another man, on the Shawnee lands, a few miles south from this city, was ordered off on Tuesday by one Coram, who professed that the claim belonged to him. He referred Coram to the man who employed him, and who was near by; but Coram insisted that he should leave. He still refused, when Coram drew his revolver and commenced firing. Two shots missed, but the third took effect in the heart, and he died immediately. His remains were brought here for interment. Coram is not yet secured, though officers are after him. A. D. R.

P. S.—I open this letter to give you information of the horrible massacre and destruction of an overland emigrant train to California, of which intelligence has just been received here.

The train, which consisted of seventeen wagons, when about a hundred miles west of Fort Kearney, was attacked by a party of Sioux or Cheyenne Indians, who murdered every person in it—men, women and children—burnt the wagons and drove off the cattle.

The number of persons on the train is said to have been about twenty. A. D. R.

Portsmouth Testimonials.

I have purchased a pair of Professor Franks' improved Spectacles, and on use find them easier and better for my sight than any others I have ever had, both by day and candle light.

SAMUEL P. LONG, Portsmouth.

My sight, in consequence of sickness, has been for a long time much impaired. I could not procure a pair of spectacles to suit correctly, until I obtained a pair of Dr. Franks' improved ones, which I find suit me well. I can now read with them as easy, and comfort, and have found my sight much improved.

DANIEL R. ROGERS, Portsmouth.

I have tried to obtain a pair of spectacles suitable for my eyes, both in the States, and in London, England, and never could get any through which I could see any better than without, therefore considered it impossible to get any, until I called upon Professor Franks, when he at once suited me to perfection with a pair of his, and also my sister, Salome, who is affected with the second sight of vision, and we are both delighted with our glasses.

FIRE IN NEWCASTLE.—About one o'clock this (Saturday) morning, a person rode into our city with the interrogatory—"Are you going to let all Newcastle burn up?" In answer to this, an alarm was given, and many of our citizens together with several of the engines proceeded to the rescue, but the latter were stopped, with the exception of 1 & 2, which pushed on to the place, and cast a damper on the whole affair.

The fire broke out about midnight, in a large barn belonging to Woodbury Locke, and from thence communicated to the house, both of which were totally consumed. The house was one of the oldest in Newcastle, probably two hundred years old, contained four tenements but recently vacated, and also belonged to Mr. Locke, who had sold his cottage near by, and purposed to move into the old house soon.

The flames communicated to two other houses near by, one belonging to Samuel Batson, and the other to Thomas White, (both of whom are at sea) but were speedily extinguished.

This, the first fire which has occurred in Newcastle for some years, was undoubtedly the work of an incendiary, and it is stated by some that it broke out nearly simultaneously in house and barn.

Mr. Locke's loss is about $800. Probably insured.

CARD.—The officers and members of Laconia Engine Co. No. 2 tender their sincere thanks to the Selectmen of Newcastle for the bountiful supply of refreshments furnished us after the fire this morning.—Also to Mr. Collum for his kind assistance in getting our tub home. And last, but not least, to the volunteers for their valuable services. The kindness of these individuals will long be remembered by Two's boys.

MAINE REPUBLICAN CONVENTION.—*Bangor, June* 15.—The Republican State Convention was largely attended to day.

Hon. Noah Smith, of Calais, President, and one Vice President from each county.

The Committee on Credentials reported 830 delegates present.

Afternoon Session.—The Convention balloted for a candidate for Governor, with the following result:—

Lot M. Morrill of Augusta, had	585
Scattering	16

Previous to the ballot, a letter was read from Hon. Jos. H. Williams of Augusta, the present Governor, declining to be considered as a candidate for the office of Governor.

Hon. J. J. Perry also withdrew his name from the convention.

The resolutions reported by the committee, and unanimously adopted by the convention, declare—That the tendencies of the times admonish the people of the free States to the exercise of a more jealous regard for their rights, and the adoption of measures of more determined vindication of State sovereignty; that the recent judgment of the Supreme Court, and the denials of the doctrines of the Declaration of Independence by the so-called democratic party, point to a serious change in the theory of the government, threatening alike to personal liberty and to the permanence of popular rule;—that the aim of the republican party is the assertion of the true principles and just interpretation of the federal Constitution; opposition to the modern heresy that freedom is no better than slavery; the defence of the personal liberty of the citizen, the rights of free labor, and the essential rights of man; declaring in favor of bringing, as far as practicable, all federal offices within reach of the people, by popular election: and in favor of preserving the Union as it was established by the founders of the republic.

The resolution in regard to the liquor law, recommends the withdrawal of the question from the arena of politics, and the submission of a prohibitory law to a direct vote of the people.

Hon. Hannibal Hamlin, Hon. Israel Washburn, Jr., Hon. Saml. Fessenden, and other prominent republicans addressed the convention.

WASHINGTON, June 25.—Gov. Cumming left this afternoon for Kansas. He will return in ten days, and receive his commission and instructions. By the act establishing the Territory of Utah, of 1850, right is reserved to Congress to abolish the territory at its pleasure. It provides said territory be divided or attached to any other State or Territory. The act passed on assurances that polygamy was not one of the institutions to be introduced into the territory. The vast majority of the Mormons are not citizens of the United States.

MEMPHIS, June 25.—At a meeting of citizens, last night, a jury was formed, having six representatives from each ward. Able, the murderer of Everson, was found guilty of murder in the first degree. Twelve of the jury were in favor of lynching Able, and the rest for disposing of him lawfully. A resolution was passed, requiring all the gamblers to leave the city in ten days, or be forcibly expelled.

The father of Able, who is also a murderer and gambler, has been required to leave the city, at noon to-day.

Last night, a crowd, having a cannon in their possession, proceeded to the jail, intending to take Able forcibly therefrom, and hang him, but they were dissuaded from doing so by the Mayor.

ST. LOUIS, June 25.—The Santa Fe mail has arrived, bringing dates to the 30th of May. 350 troops, under Col. Bonneville, had entered the Gila, Apache country, for the purpose of punishing the Indians, for the numerous outrages committed by them upon the whites.

The Governor of the Mexican State of Chihuaha also designed opening hostilities against the Indians, and would prevent their taking refuge on Mexican territory, and co-operate with Col. Bonneville, as much as possible.

PHILADELPHIA, June 25.—The main line of the public works was sold this evening, by auction, at the Exchange. There was a large attendance, and the Governor was present. It was purchased by J. Edgar Thomson, President, on behalf of the Pennsylvania Railroad, for $7,500,000, one bid only being made. Loud cheers were given for the Governor and the Pennsylvania Road, at the conclusion of the sale. Previous to the sale, an announcement was made, that the demands of certain owners of property on the line would affect the claim for immediate possession.

THE SECRET DISCOVERED AT LAST.—We have noticed in passing through Market street, lately, that the NEW STORE, No 15, always seems crowded with customers. We have at last discovered the secret of it. On stepping inside, we find that the proprietors, MESSRS. ALLEN & PAINE, in fitting up their store in the beautiful manner they have, had an eye for the useful, as well as for the ornamental; we noticed that the store appeared very light and cheerful, and on looking for a solution of the mystery, we discover that the store contains a Sky Light, giving them facilities for showing their Goods possessed by no other Dry Goods store in town; as Customers by such a light, have no difficulty in seeing just what they are purchasing, and can not be deceived in the color or quality of goods. We notice, also, that their stock is always composed of the best qualities and very latest styles, which is explained by the fact that one of the firm visits the market to replenish their goods every ten days,—and as they buy for Cash, altogether, they are able to offer their goods at as low prices as any other parties.

Those looking for purchase Dry Goods will do well to visit them. Read their advertisement in another column.

☞ Tilton & Nowell, at their Union Store, No. 12 Market street, sell the following Medicines at reduced prices:—Dr. Larookah's Indian Vegetable Pulmonic Syrup, warranted to cure coughs, colds, whooping cough, asthma, bronchitis, croup, catarrh, consumption, and disease of the throat and lungs. Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, price 68 cents per bottle.

"IN PEACE PREPARE FOR WAR."—In the days of our youth, it behooves us to make some preparation for the approach of age. How many persons have become prematurely bald by neglecting to apply appropriate remedies to prevent the hair from falling out. The use of Professor Wood's "Hair Restorative" will prevent the hair from falling off, impart to it a healthy growth, and restore the hair of the bald. Thousands have testified to its efficacy. To be had of Druggists everywhere.

DOES ANY OF OUR HIGH LIVERS ever eat too much dinner? If any of our readers have cooks who tempt their appetite a little too far, I will tell a secret that will lead them to the enjoyment of their dinners, without a visit from that gouty old gentleman, Dyspepsia. Take a dose of Dr. Sanford's Invigorator after eating, and you will never be troubled with indigestion; but on the contrary, before the next meal time approaches, the appetite will be sharpened to appreciate any kind of food. If the food rises or sours, the Invigorator will fix the matter right at once, for there is something in it that, to use the expression of a friend, will let a man eat gravel stones, and take the Invigorator and they will digest. We have tried it in double doses, on one or two occasions, for sick headache, and it acts like a charm.

What we want to say to our readers, young or old, is, if anything ails you, go without delay and get a bottle of Dr. Sanford's Invigorator, and if it don't cure, come and tell us, for we want to see one person that it will not benefit.

TO THE CITIZENS OF THE UNITED STATES.
CAUTION TO THE PUBLIC.

After several years experimenting in the manufacturing of Gin, I fortunately succeeded, in the year 1848, in making a discovery in its manufacture by which it was deprived of all acrid and inflammatory properties, and rendered perfectly pure.

My manufactory is at Scheidam, Holland. After several months' reflection what title to give it, I introduced it to the American public under the name of "Wolfe's Scheidam Aromatic Schnapps." Scheidam is the name of the place in Holland where the Gin is manufactured. Aromatic derives its name from the Italian Juniper Berry with which it is flavored, and the word "Schnapps" is the German for drink—Cogne, Dram—Wolfe's Scheidam Aromatic Drink. No sooner had my Schnapps been introduced to the American public and received with approbation, than the Liquor Mixers of New York, Boston and Philadelphia, started in pursuit with their mixed and poisonous stuff under various names: Scheidam Gin, Scheidam Schnapps, London Club House Gin, London Cordial Gin, &c., and in several cases my labels have been so perfectly imitated, with only the addition of a few letters to plead a technical avoidance of the law, and so carefully prepared as to impose on the unsuspecting chasers. I understand a large quantity has been purchased by the merchants of the Eastern States on account of the cheapness of the articles. A merchant who participates indirectly in the fraud by selling the spurious articles, is as much an offender as the principal who planned the imposition.

I hope every respectable citizen who values the health of the community in which he lives will aid me in ferreting out and exposing the unscrupulous merchant, who, for the sake of a few cents, will put in jeopardy the lives of the community in which he lives. Such men should be entitled to the pillory of popular execration.

WOLFE'S SCHEIDAM AROMATIC SCHNAPPS is made from barley of the first quality, selected with great care from the products of the most celebrated grain-growing districts, is flavored with the essence of the aromatic Juniper Berry of Italy, and is rectified by a peculiar process, which expels from the spirit every acrid particle.

As a means of preventing and correcting the disagreeable and often dangerous effects produced upon the stomach and bowels by a change of water—a visitation to which travelers and settlers, and all unacclimated persons in the West, the South and South-West are peculiarly liable—the Scheidam Aromatic Schnapps will be found absolutely infallible; while, in cases of dropsy, gravel, obstructions of the kidneys, diseases of the bladder, dyspepsia, and general debility, it is recommended most emphatically by the most distinguished members of the medical profession

It is put up in quart and pint bottles, in cases of one dozen, with the name of the undersigned on the bottle and cork, and a fac-similie of his signature and label.

For sale by all respectable druggists and country merchants.

CHARLES' LONDON CORDIAL GIN
Is shown by the Records of the Custom House to be the only London Cordial Gin IMPORTED and sold in bottles; all others are made here in imitation of it.

It is a delicious tonic beverage, and by its peculiar flavor (so different from other gins) is universally esteemed by all who use it. It is adopted with great success in cases of Dyspepsia, Gout, Rheumatism, Dropsy, Gravel, Colic, Cholera, Fever and Ague, Stricture, Diseases of the Urinary Organs, Epilepsy, Female Irregularities.

Dr. Valentine Mott of New York, in a letter to the proprietor, says:

Charles' London Cordial Gin, is the purest, best, and most reliable Extract of Juniper I have seen.

CHARLES' LONDON CORDIAL GIN is sold by all Druggists and Grocers in the United States, and so also are numerous poisons called "London Cordial Gin"—to avoid them buy only "CHARLES'." Reject any other offered to you as you value your health. Price one dollar for quarts, fifty cents for pints.

HOUSE LOTS AT AUCTION.
A grand chance to lay the foundation for a home.

WILL be sold at Public Auction on the premises, in Portsmouth,
On SATURDAY Afternoon, June 27th, at 3 o'clock,

TEN HOUSE LOTS!

Consisting in the aggregate of about 90,000 square feet of Land, which is bounded on the south by Islington street, on the east by Creek street, on the west by land of True M. Ball, bordering on Frenchman's Lane, and on the north by a new street, being the land now owned by Kittredge Sheldon.

This is in every respect the most eligible and desirable position for House Lots now in the market. It is about 10 minutes' walk from Market Square, in a direct line through the pleasantest and best street in the city, with a good sidewalk the entire distance, and combining in an unusual degree the advantages of country and city life. The land is dry, the grounds are shaded with tall and graceful elms, forming the most picturesque landscape to be found in this vicinity. The lots vary in size from 5000 to 12000 feet; the smallest affording ample garden, as well as building room.

An accurate plan of the Lots may be seen at H. F. Wendell's Store, No. 70 State street, and further particulars may be obtained of the subscriber. KITTREDGE SHELDON.

ISLES OF SHOALS,

IS now open for Public Accommodation.

The schooner SIBYL, (one of the beautiful yachts built by the late Geo. Steers,) will run daily to this Island from Pier Wharf, in Portsmouth, immediately after the arrival of the morning train of cars from Boston, and return in the afternoon.

The Sibyl is commanded by Capt. RUFUS A. PREBLE, a thorough seaman, who will give every attention to the comfort and enjoyment of his passengers.

The Sibyl has a magnificent cabin, water closets, tanks, and every accommodation which a first class Packet requires.

The advantages this purely Ocean Retreat possesses over all others are well known. Resting on the broad bosom of the Atlantic—free from heat, dust and noise—it is peculiarly fitted to restore health to the invalid, and come to the careworn and weary. j22 THOMAS B. LAIGHTON.

Portsmouth and Cape Neddick
DAILY STAGE.

THE SUBSCRIBER will run a Coach daily, for the accommodation of passengers between Cape Neddick and Portsmouth, commencing in June, 1857.

—MANUFACTURERS OF—

Melodeons, Organ Melodeons,

—and—

PEDAL BASS MELODEONS,

No. 511 Washington Street, Boston.

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instruments, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS, Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by means of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficient for any party to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON

Is designed for parlor and library use. The construction is similar to the Church Instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of the same variety of tone as the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. In short, we will promise our customers an instrument equal, if not superior, to any Manufacturer, and guarantee an *entire and perfect satisfaction.*

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to call and examine for themselves and examine or test the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,

who have examined our Instruments, and will give their opinion when called upon:

Chickering & Sons, Hallett & Cumston,
T. Gilbert & Co., Wm. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woodward & Brown,
Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, and enables the purchaser to a fair test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

The Medicine THAT NEVER FAILS!

IS DR. WILSON'S

DYSENTERY POWDER,

Which cures Dysentery, Diarrhœa, Cholera Morbus, and all the affections of the Bowels attended with Pain and frequent Discharges.

This Medicine is now being introduced into all parts of the United States and British Provinces, and great success has attended its use everywhere. These Powders are now offered to the world as a PERFECTLY SAFE AND EFFECTUAL MEDICINE, for the purposes they are recommended, and in nine cases out of ten

ONE POWDER WILL CURE THE WORST CASE,

when they are taken in the first stages, and almost invariably *two will effect a permanent Cure;* and unlike all other popular remedies, which, if they check the disease, leave the person in a condition that requires physic after it, which is not the case with the Dysentery Powders, for they *regulate the Bowels*, tone up the system, and leave it in a healthy state.

These Powders are put up in boxes, with full directions for use, and sold for **50 Cents.**

Please try them; it they do not give *perfect satisfaction*, return them and take your money.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. Tenney & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing, and for fact that the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by law in that state. Drawings take place every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. Orders are filled with the number on each Ticket, after the drawing plan, and Tenary combination. Prizes vary in amount from $20 to $100 '60. All orders for tickets or packages will receive prompt attention, and the drawings handed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers: Baltimore Sun, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

Address No 29 Fayette st., or box No. 40,
jn 31r Baltimore, Maryland.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send for tickets to Georgia, as the charter of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $1; halves, $5; quarters, $2 50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that any child can fall to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia.

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m13ly

MARRIAGE GUIDE,

BY DR. WM. YOUNG.

YOUNG'S GREAT PHILOSOPHICAL WORK, The POCKET ESCULAPIUS, or *Every One His Own Doctor*, by WM. YOUNG, M. D. It is written in plain language for the general reader, and is illustrated with upwards of one hundred Engravings. IMPORTANT NEW INVENTION

PATENT DOUBLE VISION SPECTACLES.

EDWARD S. FRANKS, PROF. OF OPTICS, *No. 2 Park Row, opposite the Astor House, New York.*

SPECTACLE MANUFACTURER.

Lecturer on the Anatomy and Physiology of the Human Eye, and Use and Abuse of Spectacles.

Optician by Diploma to the N. Y. Eye Hospital, And Spectacle-Maker to the New York Eye and Ear Infirmary.

Has much pleasure in announcing that he has secured *Letters Patent*, granted by the United States Patent Office, for very valuable improvements in Spectacle Glasses.

He has a complete assortment of his improved patent spectacles, in gold, silver, steel, and all other mountings. It will be understood that the Glasses, being the patentee, his spectacles can be obtained only from himself; as he has no other person authorized to manufacture or sell the same, unless specially licensed to do so by him.

THE ADVANTAGES OF THESE SPECTACLES OVER ALL OTHERS, ARE

1st. The only true lens known, being perfectly centered; so as the focus of each surface shall be opposite each other, which renders them nearly free from chromatic light, so injurious to vision, a lamentable defect existing in all the other kind of spectacle glasses, and makes the change of spectacles to glasses of stronger powers, so often required.

2d. Can be worn with perfect ease for any length of time without fatigue, or any of those painful sensations, particularly by candle or artificial light—so long to the specialists well known.

3d. Change of spectacles, instead of strengthening power, may be made with the same glass, which also effects none from age, disease, or peculiar vision—lines resulting to the patient good sight during life.

4th. When the eye is in pain or in the action of bright light, such as is reflected from snow, sunny weather, white paper, and in reading, writing or sewing on vivid colored bodies, these lenses by softening the rays, effect the most agreeable sensation, and a perfect cure.

5th. In all nervous affections of the eye, causing dull or startling pains in the eyeballs or temples, appearance of luminous or dark spots in the atmosphere, itching, or feelings like sand in the eye, the disturbed nerves are quieted, soothed, composed, and entirely restored.

6th. Ground by peculiar machinery got up at great cost, mathematically calculated exactly for the manufacture of this lens, so as to produce a true spherical accuracy, and the focus at the exact center, a point of vital importance, and which no other lens possesses.

7th. Proof of superiority over the old kind of spectacles: They are exclusively used at all the Hospitals for diseases of the eye in New York, and have received the following unqualified

MUST HAVE THEM.—It will be noticed by the proceedings of Monday that Mr. Pitman of Bartlett proposed a resolution instructing the judiciary committee to report a bill providing that Selectmen shall not be compelled to appoint agents to sell liquors in towns where the people do not want them, and that the resolution, on motion of Mr. Bellows of Concord, was voted down. Under the liquor law, the Selectmen of every town are compelled to established these rum shops. In many towns, before this law was passed, there were no rum-holes—no liquor was sold, and the design of Mr. Pitman's movement was to allow such towns to remain free from rum-selling, where they should so decide at a legal meeting. But it seems that our temperance legislators will not allow them this privilege. They are resolved that rum shall be sold in every town—that no town shall be free from it. This is the modern method of promoting temperance.—*Patriot.*

Mr. Pitman may be a strong temperance man, and desire to bring about temperance reforms; but he has the honor of representing a town the vitals of which have been about as completely eaten out by rum as any other in Carroll County.—It may be that Mr. Pitman made the above motion for the best of purposes.—We shall not call them in question; but it looks rather strange that it should come from such a town, and be backed up by the Patriot, as a movement designed to promote temperance reform. Very.—*Dover Enquirer.*

SUICIDE.—We learn that J. T. Blanchard, Esq., who has been connected with the Post Office at Limerick, Me., committed suicide on Tuesday night. He was found dead in his room on Wednesday morning, badly cut with a razor, but not sufficiently to cause his death, and it is supposed that he took poison.

He left letters stating that he had got into trouble, and that it would all be known shortly. Mr. Blanchard was a gentleman of respectable connections and a well-educated and gentlemanly appearing person.—*Portland Advertiser.*

Economists have long been inquiring what is the best disposal of the industry of the human race. Ah! if I could only discover the best disposal of its leisure! It is easy enough to find its work; but who will find its relaxation? Work supplies the daily bread; but it is cheerfulness which gives it a relish. O, philosophers! go in quest of pleasure! find us amusements without brutality, enjoyments without selfishness.

Dissimulation in youth is the forerunner of perfidy in old age; its appearance is the fatal omen of growing depravity and future shame. It degrades parts of learning, obscures the lustre of every accomplishment, and sinks us into contempt. The path of falsehood is a perplexing maze. After the first departure from sincerity, it is not in our power to stop; one artifice unavoidably leads on to another, till, as the intricacy of the labyrinth increases, we are left entangled in our snare.

AN ORIGINAL SERMON.—The Richmond Christian Advocate contains the following singular sermon for the times, which another paper calls "a skeleton in want of meat:"

Subject—Personal Poverty. *Text*—I am poor.

In discoursing to you on this subject today, I shall, by God's blessing, be enabled to establish the position assumed in the text, with but little effort. Let it be borne in mind that the subject is personal.

1. What I *must* pay by the 1st of April, 1857; 1. My note to A. B., for horse, &c., $135; 2. Board bill to C. D., one quarter, $125; 3. Servant's hire, $15: 4. Washing bill, $12; 5. Necessary for other expenses, $10. Total, $297.

2. What I have got wherewithal to pay it; 1. Salary for one quarter—if paid?—$200; 2. A wife; A child, which, though both excellent of their kind, must, in this account, be put down at $00 00. Total $200.

3. What I *must* have to get through with the right side up, and no mistake; 1. The sum of $97; 2. A friend to give it; 3. The thing itself, $297.

Application.—1. Will you give it? or, 2. Shall I quit the ministry to try to make it? If so, who will be responsible, and for how much?

BARNSTABLE, June 26.—Hon. Zeno Scudder died this morning. He was formerly a member of Congress from this District.

Round about what is, lies a whole mysterious world of what might be—a psychological romance of possibilities and things that do not happen. By going out a few minutes sooner or later, by stopping to speak with a friend at a corner, by meeting this man or that, or by turning this street or the other, we may let slip some great occasion of good, or avoid some impending evil, by which the whole current of our lives would have been changed. There is no possible solution to the dark enigma but the one word—"Providence."

Man is never wrong while he lives for others; the philosopher who contemplates from the rock, is a less noble image than the sailor who struggles with the storm.

"The ancients," says Julius Hare, "dreaded death; the Christian can only fear dying."

☞ A large range of cow stables, in Brooklyn, N. Y., were burnt down on Tuesday morning.—The stalls, capable of holding 1800 cows, were recently purchased for $9000. Six hundred of the stalls were destroyed by fire, and the loss therein is estimated at $3,000. The cows were all rescued.

☞ In the nine lager beer breweries in Philadelphia, more than a million dollars capital is invested, and every week 140,000 gallons of ale, beer and porter are produced. The materials annually used in the manufacture are—of barley 600,000 bushels, worth $1 60 per bushel; 350,000 pounds of hops, valued at 15 cents a pound; and from these are made 250,000 casks that are sold at $7 per cask.

BURDEN'S
Pressed Boat Ship, Brad & Countersunk Railroad Spikes
ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. MONDAY, JUNE 29, 1857.

BUCKMINSTER, WALTON, AND BALLOU.

These three distinguished men, whose names are here given, were at one and the same time, pastors of churches in the town of Portsmouth almost fifty years ago; and they were engaged in a religious controversy, the remembrance of which has been revived by Rev. Dr. Peabody's Historical Sermon at the closing of the Sunday School Room in Court street, Feb. 15, 1857.

Rev. Joseph Walton, as our readers know, preached in that house; and Rev. Dr. Peabody says of him, in his sermon, page 17:—

The only ripple in the quiet current of his life was a controversy, by letter, on Universal Salvation, with Rev. Hosea Ballou, in 1810. Mr. Walton was then nearly seventy years of age, and unused to controversy; Mr. Ballou, (at that time pastor of the Universalist church in this town,) was in the prime of life, and accustomed to the forefront of the battle. The result was such as might have been anticipated. In dialectic subtlety, in the wrestling, or I should rather say the wrenching, of scripture; in quick, sharp thrusts, and sudden back-handed blows; in all the arts of practised gladiatorship, the advantage lay with the younger combatant; with the elder, in gentleness, meekness, humility and reverence; while both were at an equal remove from the only true mode of conducting discussions on controverted points, which is not by games of sleight of hand with isolated texts, but by a broad induction of the aggregate teachings and spirit of the gospel.

From this paragraph some persons have inferred, contrary to the fact, that Rev. Mr. Walton was drawn into a controversy, commenced or invited by Mr. Ballou.

The true state of the case was far otherwise. In 1809, Dec. 28, Rev. Joseph Buckminster, D.D., the eloquent preacher and popular pastor of the North Church, addressed a doctrinal letter of admonition and reproof, to Mr. Ballou. Mr. Ballou replied; and half a dozen letters and notes passed between the parties, extending into the year 1810.

It is worthy of remark, that in Mrs. Lee's beautiful but fragmentary Lives of the Buckminsters, she makes no allusion to this controversy; possibly she knew nothing about it; and except by a few elderly persons, it is unknown here.

In the same year, 1810, Nov. 19, Rev. Mr. Walton wrote a similar letter to Mr. Ballou, "with a desire (as he expresses it) you [he] would receive it as a friendly admonition." Mr. Ballou of course replied; and this controversy also extended to half dozen letters. The MSS. of this controversy have been kindly given to us by some of Mr. Walton's descendants.

In 1812, Mr. George Forrester, a Baptist Preacher from Scotland, who taught a school here, also commenced a pamphlet controversy with Mr. Ballou, which lasted some months, and made three or four pamphlets.—The writer of these lines, then a pupil of Mr. Forrester, carried his letters to Mr. Ballou.

Thus it will be seen that in all three of these cases, the controversy was begun by Rev. Messrs. Buckminster, Walton, and Forrester, and in no case by Mr. Ballou.

The book, published in 1811, containing the Series of Letters between Messrs. Buckminster, Walton, and Ballou, has become scarce.—It may be well, therefore, to reprint some portions of it, especially the opening letters of Messrs. Buckminster and Walton,—not to revive the controversy in that form, which is now as impossible as it is undesirable,—but to give favorable specimens of the style of that day, of the honesty and earnestness of the men,—and withal to show, that in some important respects, the "former days were *not* better than these."

We will begin with Letter First:—

FROM THE REV. JOSEPH BUCKMINSTER TO THE REV. HOSEA BALLOU.

PORTSMOUTH, Dec. 28, 1809.

Dear Sir:—At the close of the interview which we had at my house, some little time since, you expressed a wish to live in habits of friendship with the ministers of this town, and I think I expressed a hope that I should be always disposed to treat you and all men with those fruits of benevolence and friendship which the law of our common nature and the spirit and principles of the christian religion, demand of me; with this profession, without its fruits, my conscience is not satisfied. It was neither friendship nor piety that dictated that early question, "*Am I my brother's keeper?*" There is a reciprocal responsibility among mankind, both for the interests of time and eternity. Were I to see you or any others exposing themselves to danger, or running into situations that I apprehended would be prejudicial and destructive, friendship would require me to warn and admonish, and endeavor to restrain; and can I support my pretensions to the principle in withholding my warning and admonition, while I am verily persuaded that the present tendency and final issue of that system of sentiments which you have embraced, and which you have come among us to advocate and to support, will expose you, and those that embrace and build upon it, to danger and distress, with which no temporal calamity or ruin can bear any sort of comparison?

I know not what system of universalism you have embraced or advocate, nor is it of any material consequence in my view; I presume I do not mistake or injure you in supposing that you publicly preach and advocate the final salvation of all mankind, their restoration and association with Jesus Christ in realms of glory. Whatever human ingenuity or plausible and sophistic reasoning may do with respect to either of these systems, they each and all of them are, in my view, destitute of divine authority, and have not a "thus saith the Lord" for their support.

There may be some little difference in the present tendency and effect of these different systems upon the present conduct of men, and so upon the interest of society; but in their general influence, and in their final results, they meet in the same point, and will be attended with the same dreadful consequences. They are neither of them true, and so can have no effect in quickening into life or sanctifying the soul, for it is the spirit that quickeneth, and the truth that sanctifieth; they may exhilirate, please, and produce triumph; but it will be a triumphing that is short, and a joy that is but for a moment; for God, to my apprehension, has been so far from giving any countenance to either of those systems, that he hath long ago pronounced them false, and their tendencies destructive—these are his words:—"Because with lies ye have made the hearts of the righteous sad, whom I have not made sad, and strengthened the hands of the wicked, that he should not return from his wicked way by promising him life." But it is not my intention to enter into a dispute upon this subject, neither to enlarge upon arguments to support my own sentiments, nor to disprove yours; I have no apprehension that any good would result from it; it would be a tax upon time that might be better employed.

When persons have adopted a system and are engaged in its support, when the pride of peculiarity or the influence of party views are enlisted as auxiliaries, there is little ground to hope for a conviction of its errors by formal disputation, however temperately conducted; nothing will effect a change of views and feelings but "that still small voice" which induced the prophet to wrap his face in his mantle. This voice is more likely to attend our calm, retired reflections, than the perusal of arguments that tend to disprove what we have been accustomed to advocate and support.

The object of this letter is not to revile, to censure, nor to dispute; but, in friendship and affection, to entreat you to reflect and consider the consequences to yourself and others of that system of sentiments which you are advocating—anticipate the day of judgment, and realize yourself called upon to give an account of your stewardship. I am not disposed, my dear sir, to impeach your sincerity and honesty. I know how far men may be deluded and deceived. I am disposed to believe that you conscientiously think the sentiments you advocate are true. But remember, dear sir, this does not make them true, nor secure you from the dreadful consequences in which they may issue.—With all this moral sincerity and uprightness, if you cease to warn the wicked, that he turn from his wicked way (and how can this be more effectually done than by leading him to expect final, everlasting happiness?) his blood will be required at your hands. The Apostle Paul most conscientiously persecuted the christians and declared to the council before whom he was arraigned, that he had lived in all good conscience before God till that day. He verily thought he ought to do many things contrary to the name of Jesus of Nazareth, yet his persuasion did not acquit him from guilt, nor would it have shielded him from destruction had he not been renewed to repentance and faith in Christ, while as yet Christ was in the way with him. Christ said to his disciples,—

"The time will come when whosoever killeth you will think he doth God's service." And he has added, "many will say unto me in that day, Lord, Lord, have we not prophesied in thy name and in thy name cast out devils, and in thy name done many wonderful works? then will I profess unto them, I never knew you, depart from me ye that work iniquity." What must be your situation in the day of retribution if the system you advocate should in final evidence prove false? of which I have not the least shadow of doubt upon my mind, and therefore have all the forebodings for my erring and deceived fellow mortals which may be supposed to be the result of such conviction.

I cannot cease to warn and to entreat you to consider, friendship forbids my withholding the voice of warning and adjuration; and both duty and respect to my own safety require me to endeavor to save you from the issue, of which I have such awful forebodings. We must both stand before the son of man, and each one must give an account of himself and of his stewardship to God. From our connection here, there will probably be some interest in each other in that day; and I cannot bear the thought of your being able to say when the scheme of Universalism shall all vanish like the baseless fabric of a vision, and all the hopes built upon it will be like the spider's web and like the giving up of the Ghost, that you should be able to say, I never warned you of this issue, nor admonished you of your danger.

I know not with what sentiments you will receive this address, nor what use you may make of it; my concern is with the sentiments and spirit that dictate it. I think they are such as will induce me continually to pray that you may not pierce yourself through with many sorrows, nor be left to mourn at the last.

Your friend and humble servant,

J. BUCKMINSTER.

TERRIBLE DESTRUCTION.

On Friday night, June 26, the steamer Montreal left Quebec, with 500 passengers, and when opposite Cape Rouge a fire was discovered on board. It spread with great rapidity. The steamer Napoleon being near by, ran alongside and rendered every assistance in her power. She succeeded in saving from 175 to 200.

The principal portion of the passengers were Scotch emigrants who had just landed at Quebec, and were bound West.

The commander of the Montreal, Capt. J. C. Rudolph, and the crew, are saved.

The Napoleon has arrived at Montreal with the rescued passengers. The number lost will reach three hundred and fifty.

GREAT FRESHET AT ITHACA, NEW YORK.—According to the Ithaca Journal of the 24th, Tompkins county was the scene of a terrible freshet on the Wednesday previous. Nearly all the towns in the county suffered somewhat; but the principal damage was done in Ithaca, where several grain and plaster mills, and buildings used for manufacturing purposes, and a number of stables and dwelling houses, were swept away. All the bridges over the Six Mile Creek were also destroyed. The planking in the streets was carried off; and any number of buildings floated away from their foundation by the current of water. Three lives were lost. A Mr. Matthew Carpenter, who was standing in a barn near one of the saw mills that was swept away, was floated down the current a few feet behind the barn till it struck a stone bridge and was shattered. An under current drew him under the falling timbers, and at the latest accounts no traces of his body had been discovered. David Coon, a gunsmith, and N. Hawley, a brewer, who were standing on two of the bridges carried away, were swept off in the stream and drowned. The Journal estimates the damage done by the freshet in Ithaca alone at from $100,000 to $150,000.

☞ On the 23d inst., a negro, while digging in a sand bank, near Meadville, Miss., was nearly buried alive, by the caving in of the bank. Two young ladies, who were riding by, seeing the poor fellow's hopeless condition, alighted from their horses and shovelled him out.

FATAL ACCIDENT.—A man named George Boyce, about forty-five years of age, of dissolute habits, after spending several nights in the watch house, went on Thursday evening to sleep in an unoccupied attic of the "Old Sanderson House," on Highland street, Chelsea. He was at an early hour on Friday morning, found dead upon the sidewalk in front of the house, with his head horribly smashed. It is supposed that he crawled to the open window during the night, and being intoxicated, fell out. Deceased has a family in the State Alms House at Tewksbury.

☞ A Mr. Slade, a printer, and his wife, attempted to put an end to their lives at Memphis, Tenn., a few days ago, by swallowing laudanum. Pecuniary embarrassment and a diseased intellect, produced by intemperance, are supposed to have been the cause of this rash move. Medical aid was procured in time to save their lives.

☞ The Great and General Court of this State—the New Hampshire Legislature—adjourned, *sine die*, on Saturday. "Well done, good and faithful servants."

The New Hampshire Legislature has passed resolutions denunciatory of the Dred Scott decision, and the article in the new militia bill making a distinction on account of color, was expunged. It is not a bad idea to let the negroes "train." It would be the cheapest thing the State of Massachusetts could do, to buy a regiment of negroes and keep them "training" all the time, in the place of the present military organization.—*Newburyport Herald.*

Portsmouth Testimonials.

I have purchased a pair of Professor Franks' improved Spectacles, and do use them sooner and better for my sight, than any others I have ever had, both by day and candle light.

SAMUEL P. LONG, Portsmouth.

My sight, in consequence of sickness, has been for a long time much impaired. I could not procure a pair of spectacles to suit correctly, until I obtained a pair of Dr. Franks' improved ones, which I find suit me well. I can see through them with perfect ease and comfort, and have found my sight much improved.

DANIEL R. ROGERS, Portsmouth.

I have tried to obtain a pair of spectacles suitable for my eyes, both in the States, and in London, England, and never could get any through which I could see any better than without, therefore conceived it impossible to get any, until I called upon Professor Franks, when he at once suited me to perfection with a pair of his, and a pair of my sister, Salome, who is affected with the same kind of vision, and we are both delighted with our glasses

For the Chronicle.

"DOWN IN TOWN."

"Down in town" will receive our principal attention in the few remarks about to drip from the point of our pen; though these remarks are applicable to many other portions of our city. Without any preliminaries, we may as well state the subject that was not only suggested, but forced upon us, viz: the filthiness of our streets. We say filthiness, because it seems to us perfectly accordant with our views and reasons for using the term.—Should we enter a handsome dwelling house, where perfect order and neatness are expected, and find, instead, confusion and utter negligence in every particular, we should be very likely to call it a filthy place; but on the other hand, should we go into a cellar crowded with Irish, where cleanliness is an impossibility, even if the inmates desired it, and find, instead of the usual foulness, a like condition to that of the disorderly house, we should consider that cellar unusually decent. Now this will fairly illustrate our city in comparison with a great metropolis.

There is no excuse for us; no reason why we may not be cleanly. A few years ago it was common for strangers and citizens to remark on the comparitive neatness and purity, as well as the beauty of our place. Nature has certainly favored us greatly in this latter respect; and there is a charm in the very irregularity of the city—its windings-in-and-out, surprising the stranger into unthought-of avenues lined with noble trees, and a country-like quiet pervading the more retired districts, that adds much to their romantic aspect; but while our streets are in their present condition, the eyes of all are drawn from the contemplation of their beauty to their dirt. And it is the greater shame because, as we before said, there is no excuse for us. Something ought to be immediately done. It is well enough for us to rail at the ladies for wearing long dresses—call them "street scavengers," and the like; but let us remember we only attack a *fashion*; while they in turn can reproach us with a disgraceful neglect ten times worse than the greatest of fashionable absurdities.

We repeat, something ought to be done. If there is no other help for this state of things, we should think the clerks on our business streets, would have pride enough to make some exertions towards improving the appearance of the principal thoroughfares. They surely would not be withheld from such efforts by any great press of business. A thought has just occurred to us, which we may as well suggest to the City authorities, viz: that all those individuals whose chief occupation is lounging at street corners and round eating-houses, shall be compelled to sweep the streets, whenever they are found thus, until they procure some other employment. It would be, at once, doing away with a pair of public nuisances (the dirt and the loafers,) and confer a great favor on that pitiable class, whose highest aim, morally and intellectually, seems to be attained by loafing, with a cigar in their mouths, with an occasional variation of spitting and swearing. It would be conferring a blessing upon them, because there is no surer method a man can take for the destruction of all his faculties, and certainly of his happiness, than idleness.

But to return after this slight deviation, we will close, with the statement that we were surprised, in passing the residence of some of our wealthy citizens, that the pavements appeared not to have been swept for many a day; and that we earnestly hope the aspect of our beautiful city will soon be such as shall bring us both credit and comfort. ——.

☞ Dr. Franks, the celebrated optician is to leave this city, on Wednesday, P. M. See the advertisement on the inside for the *time*,—outside for other particulars.

FOUR DAYS LATER FROM EUROPE.

QUEBEC, June 27.—The steam propeller Indian, from Liverpool 17th inst., arrived here to-day, bringing four days later dates than those by the Persia.

The baptism of Queen Victoria's infant took place on the 15th, in the chapel of Buckingham Palace.

The Liverpool Courier of the 17th quotes as follows: Wheat, American and Canadian—white 9s 4d a 10s; red and mixed 8s9d a 9s 6d. Flour—Ohio 33s a 32s 6d; Canadian 33s a 34s. Consols 93 1-8.

FAMILY POISONED BY SLAVES.—*Richmond, June 26.*—The family of Edward Gill in Chesterfield county, consisting of himself, wife and six children, were poisoned recently by their slaves. One of the children is dead. Others are in a critical condition, and the whole family is prostrated. — Three slaves, including the cook, have been arrested.

NORFOLK, Va., June 27.—Wm. Pannell, Teller of the Farmers' Bank of this city, has turned out to be a defaulter. He absconded after, as is alleged, he had attempted to poison the officers of the bank.

AUGUSTA, GA., June 25.—The Georgia Democratic Convention met at Milledgeville, on Wednesday. Resolutions were passed in favor of the Cincinnati Platform and condemning Walker's policy in Kansas. They are now balloting for a candidate for Governor.

The resolution in relation to Gov. Walker reads as follows:—

Resolved, That the address of Gov. Walker, in prescribing the grounds on which Congress should admit Kansas into the Union, and in attempting to dictate to the people as to the submission of their Constitution, constitutes a presumptuous interference in matters for ratification, over which he has no legitimate control; and that the same address in expressing the official opinion that Kansas will become a free state, and the presenting arguments to support that side of that question, is a gross departure from the principles of non-intervention and of neutrality, which were established by the Kansas bill; and the Convention has full confidence that Mr. Buchanan will manifest fidelity to the principles which carried him into office, by recalling Gov. Walker.

After twenty unsuccessful ballotings for Governor, the name of Mr. Gardner was withdrawn. On the last ballot taken, Mr. Lumpkin had 179 votes, and Mr. Lamer 174. This result created great excitement, and a committee was appointed. Mr. Stephens was nominated for Congress.

SUPERIOR COURT.—*Boston, June 26.*—Bowdoin Square Baptist Society vs. City of Boston for damages on account of land taken, &c., for public use. Verdict for petitioners for $9532 50. The quantity of land taken was about eleven hundred feet, and included a very pretty green plat in front of the church, which was alike convenient and ornamental. The jury allowed six dollars per foot for the land, and the balance of the damages given was considered as compensation for the injury done to the good looks, &c., of the front of the church.

THE SECRET DISCOVERED AT LAST.—We have noticed in passing through Market street, lately, that the NEW STORE, No. 15, always seems crowded with customers. We have at last discovered the secret of it. On stepping in side, we find that the proprietors, MESSRS. ALLEN & PAINE, in fitting up their store in the beautiful manner they have, had an eye for the useful, as well as for the ornamental; we noticed that the store appeared very light and cheerful, and on looking for a solution of the mystery, we discover that the store contains a Sky Light, giving them facilities for showing their Goods possessed by no other Dry Goods store in town; as Customers by such a light, have no difficulty in seeing what they are purchasing, and can not be deceived in the color or quality of goods. We notice, also, that their stock is always composed of the best qualities and very latest styles, which is explained by the fact that one of the firm visits the market to replenish their goods every ten days,—and as they buy for Cash, altogether, they are able to offer their goods at as low prices as any other parties.

Those about to purchase Dry Goods will do well to visit them. Read their advertisement in another column.

☞ Tilton & Nowell, at their Union Store, No. 12 Market street, sell the following Medicines at reduced prices:—Dr. Larookah's Indian Vegetable Pulmonic Syrup, warranted to cure coughs, colds, whooping cough, asthma, bronchitis, croup, catarrh, consumption, and disease of the throat and lungs. Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, price 68 cents per bottle.

"IN PEACE PREPARE FOR WAR."—In the days of our youth, it behooves us to make some preparation for the approach of age. How many persons have become prematurely bald by neglecting to apply appropriate remedies to prevent the hair from falling out. The use of Professor Wood's "Hair Restorative" will prevent the hair from falling off, impart to it a healthy growth, and even restore the hair of the bald. Thousands have testified to its efficacy. To be had of Druggists everywhere.

DOES ANY OF OUR HIGH LIVERS ever eat too much dinner? If any of our readers have cooks who tempt their appetite a little too far, I will tell a secret that will lead them to the enjoyment of their dinners, without a visit from that gouty old gentleman, Dyspepsia. Take a dose of Dr. Sanford's Invigorator after eating, and you will never be troubled with indigestion; but on the contrary, before the next meal time approaches, the appetite will be sharpened to appreciate any kind of food. If the food rises or sours, the Invigorator will fix the matter right at once, for there is something in it that, to use the expression of a friend, will let a man eat gravel stones, and take the Invigorator and they will digest. We have tried it in double doses, on one or two occasions, for sick headache, and it acts like a charm.

What we want to say to our readers, young or old, is, if anything ails you, go without delay and get a bottle of Dr. Sanford's Invigorator, and if it don't cure, come and tell us, for we want to see one person that it will not benefit.

TO THE CITIZENS OF THE UNITED STATES
CAUTION TO THE PUBLIC.

After several years experimenting in the manufacturing of Gin, I fortunately succeeded, in the year 1840, in making a discovery in its manufacture by which it was deprived of all acrid and inflammatory properties, and rendered perfectly pure.

My manufactory is at Scheidam, Holland. After several months' reflection what title to give it, I introduced it to the American public under the name of "Wolfe's Scheidam Aromatic Schnapps." Scheidam is the name of the place in Holland where the Gin is manufactured. Aromatic derives its name from the Italian Juniper Berry with which it is flavored, and the word "Schnapps" is the German for drink—Cogne, Dram—Wolfe's Scheidam Aromatic Drink. No sooner had my Schnapps been introduced to the American public and received with approbation, than the Liquor Mixers of New York, Boston and Philadelphia, started in pursuit with their mixed and poisonous stuff under various names: Scheidam Gin, Scheidam Schnapps, London Club House Gin, London Cordial Gin, &c., and in several cases my labels have been so perfectly imitated, with only the addition of a few letters to plead a technical avoidance of the law, and so carefully prepared as to impose on careless purchasers. I understand a large quantity has been purchased by the merchants of the Eastern States on account of the cheapness of the articles. A merchant who participates indirectly in the fraud by selling the spurious articles, is as much an offender as the principal who planned the imposition.

I hope every respectable citizen who values the health of the community in which he lives will aid me in ferreting out and exposing the unscrupulous merchant, who, for the sake of a few cents, will put in jeopardy the lives of the community in which he lives. Such men should be nailed to the pillory of popular execration.

WOLFE'S SCHEIDAM AROMATIC SCHNAPPS is made from barley of the first quality, selected with great care from the products of the most celebrated grain-growing districts, is flavored with the essence of the aromatic Juniper Berry of Italy, and is rectified by a peculiar process, which expels from the spirit every acrid particle.

As a means of preventing and correcting the disagreeable and often dangerous effects produced upon the stomach and bowels by a change of water—a visitation to which travelers and settlers, and all unacclimated persons in the West, the South and South-West are peculiarly liable—the Scheidam Aromatic Schnapps will be found absolutely infallible; while, in cases of dropsy, gravel, obstructions of the kidneys, diseases of the bladder, dyspepsia, and general debility, it is recommended most emphatically by the most distinguished members of the medical profession.

It is put up in quart and pint bottles, in cases of one dozen, with the name of the undersigned on the bottle and cork, and a fac-similie of his signature and label.

For sale by all respectable druggists and country merchants.

CHARLES' LONDON CORDIAL GIN is shown by the Records of the Custom House to be the only London Cordial Gin IMPORTED and sold in bottles; all others are made here in imitation of it.

It is a delicious tonic beverage, and by its peculiar flavor (so different from other gins) is universally esteemed by all who use it. It is adopted with great success in cases of Dyspepsia, Gout, Rheumatism, Dropsy, Gravel, Colic, Cholera, Fever and Ague, Stricture, Diseases of the Urinary Organs, Epilepsy, Female Irregularities.

Dr. Valentine Mott of New York, in a letter to the proprietor, says:

Charles' London Cordial Gin, is the purest, best, and most valuable Extract of Juniper I have seen.

CHARLES' LONDON CORDIAL GIN is sold by all Druggists and Grocers in the United States, and so also are numerous poisons called "London Cordial Gin"—to avoid them buy only "CHARLES'." Reject any other offered to you as you value your health. Price one dollar for quarts, fifty cents for pints.

City Hotel, Portsmouth, N. H.

BY WM. S. HADLEY.

THE SUBSCRIBER has the pleasure of announcing to his old patrons, and the travelling public generally, that he has leased this well-known, commodious and pleasant House, and would invite travellers and others to make "themselves at home" on the premises—promising to spare no reasonable effort which may conduce to the comfort and satisfaction of visitors.

While acknowledging the liberal patronage with which we have been so long favored, in our old quarters, we would inform our numerous and now that our accommodations are so much increased and improved. WM. S. HADLEY.

Portsmouth, June 15, 1857.

Atlantic House,

RYE BEACH,

IS now open for visitors. The reputation of this House is too well established to need any lengthy description of its advantages. The Proprietor will, as heretofore, devote himself to the comfort of his guests.

Passengers by the Eastern Railroad will stop at the North Hampton station.

Rye Beach, June 20. 6w J. C. PHILBRICK.

Appledore House,
ISLES OF SHOALS,

IS now open for Public Accommodation.

The schooner SIBYL, (one of the beautiful yachts built by the late Geo. Steers,) will run daily to this Island from Pier Wharf in Portsmouth, immediately after the arrival of the morning train of cars from Boston, and return in the afternoon.

The Sibyl is commanded by Capt. RUFUS A. PRESTON, a thorough seaman, who will give every attention to the comfort and enjoyment of his passengers.

The Sibyl has a magnificent cabin, water closets, tanks, and every accommodation which a first class Packet requires.

The advantages this purely Ocean Retreat possesses over all others are well known. Resting on the broad bosom of the Atlantic—free from heat, dust and noise—it is peculiarly fitted to restore health to the invalid, and rest to the careworn and weary. j22 THOMAS B. LAIGHTON.

Portsmouth and Cape Neddick
DAILY STAGE.

—MANUFACTURERS OF—

Melodeons, Organ Melodeons,

—and—

PEDAL BASS MELODEONS.

No. 511 Washington Street, Boston.

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,

Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by means of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficient for any room to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON

Is designed for parlor and private use. The construction is similar to the Pedal Bass Instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of tone as the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. In short, we will promise our customers an instrument equal, if not superior, to any Manufacturer, and guarantee an entire satisfaction.

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine our best instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,

who have examined our Instruments, and will give their opinion when called upon:

Chickering & Sons, Hallett & Cumston,
T. Gilbert & Co., Wm. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woward & Brown,
Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to see to, and on as reasonable terms.

The Medicine
THAT NEVER FAILS!

IS DR. WILSON'S

DYSENTERY POWDER,

Which cures Dysentery, Diarrhœa, Cholera Morbus, and all the affections of the Bowels attended with Pain and frequent Discharges.

This Medicine is now being introduced into all parts of the United States and British Provinces, and great success attends its use wherever used. These Powders are now offered to the world as a PERFECTLY SAFE AND EFFECTUAL MEDICINE, for the purposes they are recommended and in no case do they fail to cure.

ONE POWDER WILL CURE THE WORST CASE,

when they are taken in the first stages, and almost invariably *two will effect a permanent Cure;* and unlike all other preparations, which, if they check the disease, leave the person in a condition that requires physic after it, which is not the case with the Dysentery Powders, for they *regulate the bowels, tone up the system,* and leave it in a healthy state.

These Powders are put up in boxes, with full directions on each box, and sold for 50 Cents.

Persons who may be in doubt as to the *perfect satisfaction,* return them and take your money.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRANCIS & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which is the strongest recommendation is, that all persons have the legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the week, two particular classes be named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sold after the drawing for the same is received with the order. The drawings are upon the principle of one number on each ticket, and the Grand Consolidated Tertiary combination. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

Address T. H. HUBBARD & CO.,
No 29 Fayette st., or box No. 40,
Baltimore, Maryland.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the Maryland State, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present at the drawing. Much importance is attached to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent without money or satisfactory order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. Persons can see a description of scheme to verify the buyer. Prizes vary from $40 to $50,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & CO., Atlanta, Georgia.

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. ml8 1y

BUNKER'S

Life-Preserving and Bathing Shirts!

CHARLES J. BUNKER, of No. 337 Broadway, New York City, has invented an Easy and Entirely Safe Dress for Bathers, Sea-faring men, and for all exposed to accidents by sea. No person should think of crossing river, lake, or sea, without one of these Life Preservers. The Shirts made for Bathers can be worn as an Under Garment, without the slightest inconvenience. Bunker's Life-Preserving Shirts are unsurpassed by any other article of the kind in the world—With one of these no person can sink in the roughest breakers. All bathers should have them to guard against danger by cramp, or other accident. By remitting the price to the proprietor, the BATHING SHIRT or PRESERVER, will be forwarded immediately by express, at the following prices:

IMPORTANT NEW INVENTION

PATENT DOUBLE VISION SPECTACLES.

EDWARD S. FRANKS, PROF. OF OPTICS,

No. 3 Park Row, opposite the Astor House, New York.

SPECTACLE MANUFACTURER,

Lecturer on the Anatomy and Physiology of the Human Eye, and Use and Abuse of Spectacles.

Optician by Diplomas from the N. Y. Eye Hospital, And Spectacle-Maker to the New York Eye and Ear Infirmary.

Has much pleasure in announcing that he has secured *letters patent,* granted by the United States Patent Office, for very valuable improvements in Spectacle Glasses.

He has a complete assortment of his improved patent spectacles, in gold, silver, steel, and all other mountings. It will be observed that Prof. Franks, being the patentee, his spectacles can be obtained only from himself; as he has no other person authorized to manufacture or sell the same, unless specially licensed to do so by him.

THE ADVANTAGES OF THESE SPECTACLES OVER ALL OTHERS, ARE

1st. The only true lens known, being perfectly centered so as the focus of each surface shall be opposite each other, which renders them nearly free from chromatic light, so injurious to vision, a lamentable deficiency in all the old kind of spectacle glasses, and which has made it easy to change spectacles to glasses of stronger powers, so often required.

2d. Can be worn with perfect ease for any length of time at the sitting, giving astonishing clearness of vision, perfectly free from colors or chromatic light—effects so to speak, never before known.

3d. Preventing the necessity of ever changing the visual point, which, more than any other property, causes the great sight fatigue, disease, or premature decay.—This property is the point of good sight during life.

4th. When the eyes pain or ache, from the action of bright light, such as is reflected from snow, sunny weather, white paper, and in reading, writing, or sewing on white colored ladies cloth, these lenses by softening the rays, effect the most agreeable sensations, and a perfect ease.

5th. In all nervous affections of the eye, causing dull or startling pains in the eyeballs or temples, appearances of luminous or dark spots in the mind's place, itching, or feelings like sand in the eye, the disturbed nerves are quieted, soothed, composed, and entirely restored.

6th. Ground by peculiar machinery got up at a great cost, mathematically calculated exactly for the manufacture of this lens, so as to produce a ball of true spherical accuracy, and its focus at the exact centre,—a point of vital importance, and which no other lens possesses.

7th. Proof of superiority over the old kind of spectacles: They are exclusively used at all the Hospitals for diseases of the eye in New York, and have received the following unqualified

PUBLIC SPIRIT WANTED.—Much is said of public opinion. We want (says the New York Christian Enquirer) to see more public spirit and public conscience. The truth is, our intelligent, leading Christian men are too backward and modest in going forward and taking the leadership in public affairs. They are fence men, as a friend once said, because it is so muddy on both sides of the fence, that they do not care to jump off. The real cause of the immoral politics, the city anarchies, the Lynch laws, stimulated by violated justice, prevalent in America, is, that good men and true do not vote, do not post themselves up in reference to public matters; suffer elections, suffer primary meetings and nominations to go by default. The need is urgent, imperative, many voiced, that the men of character in America take hold of the rudder with a strong hand.

Leadership of the right kind is one of the first wants of the day. It we would have a country worth living in, we must not neglect it. We must belong to the disinterested class. We must attend not only to the roof over our private head, but to the great "National House" in which we dwell, that it do not leak, or decay, or tumble down over us. Let one hundred of our first merchants, let twenty editors, and lawyers, and ministers, of New York say that the filth, brutality, unpunished crime, and official unfaithfulness of New York shall come to a speedy end, and say it as if they were in earnest, and act as well as they say, and the thing would be done.—We live in a world of causes and effects, means and ends, and one of the most effective of all agencies in God's universe is a soul really alive, in earnest, bent upon its purpose, and that purpose the good of society.

IGNORANCE IN FRANCE.—An analysis of a late report of the population of France shows a remarkable degree of ignorance on the part of the people of that country.—Out of 513,326 individuals joined together in the bands of wedlock, only 170,175 husbands were capable of signing their names upon the register; 36,491 could not even read! 140,540 women declared that they could neither write nor read. The writer of the Journal des Debats remarks upon this point, that "in the country that calls itself the most enlightened in the world, far more than one-third of the women married in 1855 knew neither how to read nor to write!"

KANSAS (says the Newburyport Herald,) still presents a very anomalous condition. It has two governors, one recognized by the general government, and the other by the people; the first making speeches full of promises, and arranging for a constitutional convention to form a State; and the other going through the form of sending a message to a nominal legislature, and taking measures to have the State admitted to the Union. They appear, personally, on the most friendly terms, and both of them are thus far without any real power to act. Robinson is governor under a squatter constitution, that the government will not look at; and Walker by appointment, but without the support of the people; for as yet, it is not evident that the pro slavery party want him, or will adhere to his instruction; it is even now reported that they have laughed in his face, at the idea of submitting the constitution they shall form, to the people, and it would be ridiculous if they did, for the late voting shows what most people know before, that at least seven eights of the people acknowledge the Topeka constitution, and would reject any other, if it was altered in one word or comma. Where this is to end, is not plain. There will not probably be more blood shed, unless it arises in the collection of taxes, which the free State men have determined not to pay. Upon that point, we take the following from the correspondent of the Missouri Democrat:

The business of collecting taxes in Kansas is prosecuted under difficulties. The Free State inhabitants, who do not recognize the authority of the Legislature, give the tax-gatherers a reception which is anything but friendly. One day last week, Deputy Marshal Fain went from Lecompton to Lawrence, to collect taxes.—One of the first men he met, was Col. Eldridge, whose splendid hotel, Fain had been instrumental in destroying last year. The following conversation took place:

'Well, Colonel, I have come to town, to asses property and collect taxes from you and the balance of the citizens. Are you ready to fork over?"

What! ask me for taxes, you d—d villian, after burning up and destroying my property? If I should give you an ounce of cold lead, it would be what you deserve. If you have assessed any taxes on my property, just take it out of that horse you stole from my barn last summer. Leave my presence, and the sooner you make yourself scarce, the better for your health."

Fain's reception by other citizens of Lawrence was scarcely more flattering.—It was with difficulty that the people were kept from seizing, tarring and feathering him, and riding him out of town on a rail.

☞ On the 25th June, from Boston, the German Turners went on their annual Pic Nic Excursion to Charles River Grove, Needham. The day opened beautifully, and the first train to the Grove, early in the morning, took about five hundred passengers, and succeeding trains at noon and at three o'clock, carried out nearly as many more, so that there could not have been less than 1200 persons on the grounds in the afternoon.

Men, women and children mixed together in one united mass, and danced, sung, played, and drank lager bier from morn till night with a good will and a good feeling, that we do not believe can be equalled by another nation in the world.

The Traveller says, "everything passed off in the most quiet manner, and what disturbance there was, was caused by liquor drank before leaving the city; and these were, we regret to say, Americans. Although lager bier was seemingly drank as free as water, one hundred and sixty quarter barrels having been sent out, yet it did not apparently affect any one in the least."

In the midst of a flurry of rain, wind, thunder and lightning, on Sunday, at Falls Church, Fairfax county, Va., hail fell from three to eight inches in diameter (?), killing poultry, breaking windows, beating down the corn, wheat, oats and grass. Many fields are wholly ruined. All the gardens in the neighborhood were smashed.

Let us see,—hail stones eight inches in diameter! about as big as a man's head? We should think they *would* break windows and kill poultry.

"A celebrated French woman has well said that the greatest blessing a woman can receive on earth is the continuance of the affection of her husband after marriage. The sentiment is worthy of reception in every country, and by every woman.

"One little preliminary, however, stands forward, with the necessity of being previously settled; it is, winning the husband."

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk Railroad Spikes
ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. Morning Chronicle.

TUESDAY, JUNE 30, 1857.

☞ The N. H. Legislature adjourned on Saturday, after a session of twenty-five days—being the shortest session for ten years or more. The General Court have passed 41 public and private acts; 15 public and 30 private resolutions, and 5 addresses for the removal of officers.

The Act in relation to Wards in the City of Portsmouth is one of those which passed.

The President of the Senate, in his valedictory, said:

The period of our sojourn here has been brief, and we shall leave but little behind us to mark on the pages of history that we have occupied these seats. We have wisely abstained from any uncalled for innovations, and left most of the doubtful acts of legislation to the wisdom of those who come after us. We have not squandered the public money—we have not increased the burden of public taxes. If we have accomplished but little good, we have certainly done but little harm. I trust all our doings will meet the approval of our constituents, when we shall render up our accounts to them.

☞ Hon. Stephen C. Phillips, of Salem, Mass., was lost in the burnt steamer Montreal. He was interested in the lumber operations in Canada, which had occupied most of his time for several years, and proved, pecuniarily, most disastrous, sweeping away his fortune. He was one of nature's noblemen; and as an able, honest christian man, added worth to the whole human race.

His body has been recovered, identified, and is to be buried at Salem.

Col. Fremont.—According to the New York Mirror, Col. Fremont is now engaged in putting the last finishing touches upon the new and complete edition of his works, shortly to be published. It is said that he is to receive $10,000 as an advance from the publishers upon the prospective sales of the volumes. The furniture of his house in Ninth street is advertised for sale, and the Colonel is about to follow his family to Europe.

☞ The Mirror notices one of the Manchester newsboys, that would rival even those of New York, in dilapidation of such garments as are not *non est* entirely; the other evening, trying to make change for a paper, and, putting his hand into the wrong pocket, he drew out a large handful of angle-worms, instead of Bungtown Coppers. He carried them to accommodate such of his paper patrons as wished to indulge in piscatorial amusements, and preferred baying bait to digging it.

Hay and Grass.—Never have we seen better feed in the pastures about the Piscataqua, than this year, so far; and never a much heavier grass in full flower on the highlands. A gentleman who has just travelled through parts of Maryland, Delaware, Pennsylvania, Western New York, and across New England to Maine, informs us that a large hay crop is now standing on the ground through his whole route.

☞ Mr. W. Davis, of Lee, N. H., has this season raised seventeen fine lambs from eleven sheep. This branch of grazing might prove profitable in many parts of our State, where seemingly nothing could be produced from the land, and we hope our farmers will conspire to render mutton and wool cheaper, by enriching themselves in this manner.

The Ohio Slave Case.—Gen. Lewis, the Sheriff who arrested the posse of deputy Marshals in the celebrated man hunt, was in turn, taken into custody by the Marshal, at his residence in Xenia. He gave bail for his appearance before the Court, to answer the charge of obstructing officers in performance of duty.

Maine.—The following is a copy of one Resolution passed *unanimously*, at the late republican convention in Maine.

Resolved, That the Liquor law, passed by the Legislature of 1856, is inadequate to the suppression of the evils of intemperance, and that the public welfare can best be secured by a 'suitable prohibitory law,' and believing that laws should not only be just and constitutional, but permanent in their character and effect, and for the purpose of removing this great moral question from the arena of party politics, we recommend that any enactment designed to prohibit the sale of intoxicating liquors, be submitted to the people on some day other than that of our annual State election.

New York, June 28.—The U. S. steam frigate Wabash, Commodore Paulding, 10 days from Aspinwall, arrived here last night, bringing 121 of Walker's officers and men, and 13 women and 5 children. Seventy of the men are sick and wounded, some very severely.

Col. Philip R. Thompson died June 24th, and was buried at sea.

EXETERIANA.

Exeter, June 27.

Dear Chronicle:—A nice young gentleman, who had snatched himself away from the walks of every-day life, and had nobly devoted his shining talents to the Muses, with palpitating heart once favored the Weekly Flash with one of his productions. The intelligent readers of said paper were extremely edified by the opening of the "pome:"

"The dog is good for the savage man,"—

a sentiment which few were disposed to deny, and which all acknowledged contained a vast deal more truth than poetry. The author himself, it is to be expected, was perfectly cool about it, inasmuch as he had endeavored to teach the aboriginal doctrine that—

"The *log* is good for the savage man,"

(for canoes, huts, &c.) And the other rendering, it will be seen, amounted to the same thing. That individual is not the only illegible writer in the universe! What is the wit in this? to wit:—A "worthy" deacon by some unfeeling wretch is made to stagger under the imputation of being "witty;" and that, too, in the very face and eyes of the fact that he had just got married! However, confident that this Protean characteristic of our chirography is a very valuable thing, (for, like the oracle at Delphi, everything can be interpreted to suit the fancy of the reader or hearer,) we glory in it.

The promen-ade, lemon-ade, and aid-the-Band Concert, at the Town Hall, on Tuesday evening last, was a very successful performance. The Hall was tastefully decorated with flags and wreaths of oak leaves; the table groaned beneath various temptations in the edible line; the music was excellent; and the company, which was very fair, both in numbers and appearance, seemed perfectly satisfied with the proceedings. After the old folks had retired, the young ones went through with several good dances. That quotation about fantastic toes is altogether too trite; do let Milton lie mute and inglorious on this point! The proceeds, after paying expences, were a little over a hundred dollars, a sum for which the receivers will be particularly thankful at this time.

The thirty-ninth anniversary of the Golden Branch Society, connected with Phillips Academy, was celebrated in a very appropriate manner on Saturday afternoon last. The capacious hall of the academy, under the hands of many of Exeter's fair daughters, was made to smile like Eden's garden; in truth one would believe that these young ladies do nothing *else* than make wreaths and trimmings, they do these so well. After the singing of an original hymn, the President, Mr. F. H. Elder, of Rochester, N. Y., made a short address;—Mr. Geo. S. York of Boston then delivered a fine oration. After singing an ode, written by one of the members, the audience dispersed. Music was furnised by the Exeter Cornet Band.

The fact is pretty well settled that we are to have no public celebration of Independence Day, in this good old town. (Did you ever hear of any community that was not at the same time possessed of the two qualities, goodness and age?) The Fountain Engine Company, with the Cornet Band, will visit Amesbury. At Newmarket they are going to do wonders in the way of procession, fireworks and the like.

It is refreshing to perceive that your city is not intending to waste any money this year for celebrations. We vote unanimously that you carry out the suggestion recently advanced by the Gazette, in regard to this subject, if you wish to have a good time next Saturday. By the way, we notice that "Kettle-Drum," a few days since, advocated in your columns the idea of having a Fair, or something of the kind, like the one held here last week, for the benefit of your Band. We second the motion, for we want to see if your musicians can, with all their efforts, come up to ours.

A hot day is a very strong argument in favor of a short sermon—and indeed, cold weather is no excuse for long ones. We will drop the curtain here, and proceed to try Sidney Smith's recipe for keeping cool in the summer season,—which is too shocking too mention here. Yours, P. C.

☞ What can be more pleasant than a ride out to Dinan's Highland Cottage this fine weather, there to luxuriate in strawberries and cream. The road is in good condition, and the landscape was never finer. As he thinks of closing when the strawberry season ends, no one should fail to visit him while it is yet time.

☞ About one hundred foxes were killed in Lee and its vicinity last winter, and there are still enough left to induce the farmers in that neighborhood to cry out against their depredations upon poultry.

LATER FROM CALIFORNIA.

New York, June 28.

The steamship Illinois, with the California mails of the 1st inst., and about two millions in specie on board, arrived Saturday evening. She brings San Francisco papers of the 5th inst.

Her passengers are 800 in number, and among them are J. B. Bowlin, U. S. Minister to New Granada, Judge Lott of California; and Lieut. Mowry, U. S. A. Lieut. M., late in command of Fort Yuma, bears a numerously signed petition for the creation of the new territorial government of Arizona, within the Gadsden purchase.

The Illinois connected with the John L. Stephens, which sailed from San Francisco at 9 A. M., on the 5th, with nearly 800 passengers, and two and a quarter millions in treasure, about four hundred thousand being on foreign account. The Stephens reached Panama on the morning of the 19th. On the 6th inst., a treasure train was robbed between Mauranilla and Collima, near Mexico, of $5000. The steamer Sonora, with passengers from Illinois for California, was spoken on the 18th.

The U. S. sloop-of-war Cyane, from San Juan Del Norte, arrived at Aspinwall, June 16, and the U. S. sloop-of-war Saratoga, June 15, bringing with them 142 of Walker's men. The men were transferred to the frigate Wabash, which left June 17th, and has just arrived here (New York.)

The barque J. R. Mora arrived at Panama, on the 19th inst., with 300 more of Walker's men. They were sent to Aspinwall and transferred to the U. S. frigate Roanoke, and were aboard of theR. when the Illinois sailed.

California News.—More reliable intelligence of the fate of the Sonora expeditionists has been received, and the main facts of the total annihilation of the party under H. A. Crabbe are fully confirmed.

The trial of Edward Mc Gowan, on the charge of being accessory to the murder of James King, was brought to a termination on the 1st inst., at which time, the jury, after an absence of five minutes, brought in a verdict of not guilty. There was not proof enough of his complicity in the murder, to warrant his conviction, and the verdict has been foreshadowed, during every step of the trial. The accused, immediately after the Court adjourned, left for Sacramento, and it is scarcely probable that he will make his appearance in San Francisco again for some time, as the popular feeling is still very much excited against him.

Great indignation is felt throughout the State against the Mormons of Salt Lake, since the developments by Judge Drummond, concerning them; and the prompt and energetic action of the Administration in the premises, is universally endorsed.

According to the State Register, California contains 507,067 inhabitants.

The shipments of gold Atlanticward, so far from falling off, are increasing.

The weather throughout the interior of California has been excruciatingly warm. In some localities, the mercury rose to 100 degrees in the shade.

A rumor prevailed that Col. Harazsthy, melter and refiner at the U. S. branch mint, was a defaulter to a large amount, variously stated at from $100,000 to $500,000. Col. H. had made over all his property, to be held in trust for the U. S. government, against any deficiency chargeable against him.

Provident Investments for Poor Persons.—Rich men of our day deem it wise to sent out agents all during the land, to bring back a duplication of their money, and no one doubts they are acting wisely enough. It is equally true that the poor man may do the same with his surplus earnings. He may send to Messrs. Anderson, & Son, Managers of the Jasper County Academy Lottery, at Savannah or Macon, Georgia, ten, five, or two dollars and a half, and receive in return a whole, half, or a quarter ticket for the drawing which takes place on the 15th day of July next. The scheme, which we have seen, is undoubtedly one of the greatest ever gotten up in this country, being on the Havana plan of single numbers. The drawing is to take place in public, under the sworn superintendence of W. R. Symons and J. M. Prentiss, Esqs., State Commissioners, and is a safe guarantee to the integrity of all concerned.—There are in all 3286 prizes, ranging from the Capital Prize of $60,000, $20,000, 10,000, $5,000, $4,000, $3,000, down to three thousand prizes of $30, each, BEING ONE PRIZE TO EVERY NINTH TICKET!!! Only 30,000 tickets have been issued; so that those who wish to secure tickets, had better at once send their orders to Anderson & Son, at Macon or Savannah, Georgia; a spirit may thus be gained, and those who win will be deemed as wise as any merchant or speculator of the mercantile world. Such investments are truly provident, as they may furnish needed capital for some promising enterprise. We may as well remark, that the drawings of their small schemes take place every Saturday, and those who wish to make slighter investments can send $1 for a quarter, or $4 for a whole ticket.

Manny's Celebrated Mower

—AND—

MOWER AND REAPER.

IMPROVED.

Built expressly for the New England States.

THE MANNY MOWER has been extensively used for the past two years in New England, and more than six years in the West.—Its success is beyond that of any other Mower or Reaper ever constructed. Over 150 1st *Premiums* have been awarded it, including the *Grand 1st Class Silver Medal* at the WORLD'S FAIR, PARIS, 1856.

With the two past years' *experience*, we have been enabled to make a number of very *important improvements*. We find New England farmer require a different Machine from other sections;—the fields generally being small. It must be *light*, at the same time possess *great strength*, *portable*, with facilities to *raise the cutters to pass obstructions*, and to remove from field to field. A peculiar cut bring upwards to cut the free grass without clogging, and so constructed as to *stand* in the grass *without backing*, easily adjusted to cut high or low, and have a Reel to cut equally well with or against the wind, and to be worked with ease by a light team, and so easily managed and simple that any one of common ability may operate it successfully, and to be built in the most thorough manner.

With this knowledge of the farmers' requirements, and with the determination to build a *better* Machine than ever before known constructed in this country, we offer the **Manny Mower** of 1857 with confidence, as combining the qualities enumerated above and as one particularly adapted to meet the wants of New England farmers.

☞ We invite the farmers to call and examine Machines. Orders will be attended to, circulars, with testimonials, forwarded free, on application.

Price of Mower, $110; with Reaper attachment, $15 Extra. Delivered on board the cars at Worcester, Mass. JOHN P. ADRIANCE & Co., *Manufacturers.*

One of the above Machines can be seen at the store of the Subscriber.

Portsmouth Testimonials.

I have purchased a pair of Professor Franks' improved Spectacles, and on use find them easier and better for my sight than any others I have ever had, both by day and candle light.

SAMUEL P. LONG, Portsmouth.

My sight, in consequence of sickness, has been for a long time much impaired. I could not procure a pair of spectacles to suit correctly, until I obtained a pair of Dr. Franks' improved ones, which I find suit me well. I can see through them with perfect ease and comfort, and have found my sight much improved.

DANIEL R. ROGERS, Portsmouth.

I have tried to obtain a pair of spectacles suitable for my eyes, both in the States, and in London, England, and never could get any through which I could see any better than without, therefore considered it impossible to get any, until I called upon Professor Franks, when he at once suited me to perfection with a pair of his, and also my sister, Salome, who is affected with the same kind of vision, and we are both delighted with our glasses.

LOCAL.

POLICE COURT.

MONDAY, June 29.

Before Justic Odell.—Ellen Goodrich, (case continued from June 15,) for breach of Sunday ordinance, was fined $2.00; costs 6.34.—Appealed to C. C. P., and gave $30 bonds.

Michael Donovan, for disorderly conduct in Market Street, on Sunday, plead guilty and was fined $3; costs 2.92.

John Casey and Timo. Sullivan, for drunkenness on Sunday in Hanover street, plead guilty,—fined $3 each; costs 4.80.

The two men, (not named,) who were arraigned on the 24th, for assaulting a woman in the night time—were sentenced each to 10 days' imprisonment in the common jail; to pay 9.20 costs; and to give good bonds with sureties, for $100, to keep the peace. They appealed, and were ordered to give $100 bonds to prosecute the appeal.

[We omit the names in this case, at the particular and earnest request of one of the parties, as we have sometimes before done in police cases, in consequence of like requests. This course (and not violence, or threats of violence, or threats of any sort,) is the way to get out of a bad mess, without getting a name into the papers. We generally answer one defiance by another, or by silent neglect; but very commonly answer a respectful request by a compliance in all things lawful and expedient.

The better way still, is to keep out of the dangerous places, and out of the bad company.

WHAT'S IN A NAME?—Well, see if there isn't something curious in a lot of names. A gentleman has handed us the following list, made up in this city several years ago. It was headed, "Names in Portsmouth—arranged according to their signification."—Some of these names are not found among us now.

Gardners, Barbers, Masons, Tylers, Wheelwrights, Turners, Millers, Taylors, Smiths, Chandlers, Fullers, Dyers, Carpenters, Plumers, Drapers, Carriers, Fishers, Fowlers, Pipers, Tabors, Sheppards, Potters, Salters, Storers, Carters, Wheelers, Coopers, Drivers, Kings, Lords, Butlers, Pages, Bishops, Priests, Abbots, Deans, Parsons, Clarks, Templemen, Palmers.

Freeman, Lyman, Knights, Marshals, Riders, Walkers, Sleepers, English, French, Welch, Scott, Irish, Wood, Underwood, Weeks, Days, Fellows, Ladds, Frost, Fogg, Hale, Raynes, Banks, Shores, Lanes, Brooks, Fields, Marshes, Hills, Lakes, Floods, Falls, Barnes, Doors, Cones, Hyde, Tripe, Hazlett, Head, Hart, Foot, Sides, Hawks, Cranes, Parrotts, Chicks, Martins, Rands, Hornes, Badgers, Adders, Leaches, Pikes, Bass, Roaches, Place, Locks, Ward, Hookes, Staples, Porter, Perry, Berrys, Chenys, Beans, Greens, Parsley, Mullen, Cotton, Rice, Cards, Dice, Pattens, Price, Bowles, Bazins, Thorns, Briercleys, Pearles, Jewells, Pinns, Cushings, Coffin, Graves, Reding, Whiting, Barrells, Rundlett, Black, White, Brown, Grey, More, Muchmore, Long, Little, Lowd, Lowe, Blunt, Sharp, Blackman, Chiney, Glass, Eaton, Treat, Balls, Bells, Grace, Mercy, Noble, Wise, Young, Hardy, Neal, Pray, Dupray, Read, Paul, Moses, Clear, Cole, Chase, Hunt, Dames, Hussays, Beck, Call, Rowe, Hall, Parkes, Littlefields, Colebath, Swett, Barker, Hooker, Wildes, Trickey, Mann, Childs, Mendum, Dockum, Whitehouse, Greenleaf, Briggs, Cutters.

Tuck, Tucker, Shute, Dodge, Pillow, Stone, Booker, Nutter, Ham, Bacon, Gammon, Dyer, Furness, Cambridge, Lynn, Emery, Gould, Hodgskin, Hartshorn, Cooke, Frye, Boardman, Tuckerman, Buckminster, Batchelders, Victor, Heralds, Havens, Ponds, Ropes, Webb.

☞ Merit always meets with its sure reward. The great number of carriages, conveying patients from all parts of the surrounding country to the City Hotel, in this city, to consult Dr. Franks respecting the eye and spectacles, and to procure a pair of his newly patented and justly celebrated glasses, sufficiently prove the truth of this assertion.

We understand that the Professor has sold, since his arrival, a great number of pairs. It is a pity he cannot stay longer amongst us than Wednesday, July 1st, at 4 o'clock, at which time he intends to leave this city. The patients who have been supplied with glasses say they are the best in the world. He has done much good here, and we would advise those who have not yet supplied themselves with spectacles, to apply to him at once, without waiting to regret their tardiness, after he has gone, as is often the case with always too late people. P.

☞ We learn that the Portsmouth & Concord Railroad is to be sold at Public Auction on Tuesday, the first day of September next, at the Court House, by the Trustees for the Bondholders. We shall publish the advertisement to-morrow.

LATER FROM EUROPE.

PORTUGAL.—The King of Portugal has communicated to the Cortes his intention shortly to contract a matrimonial alliance. It is believed the second daughter of Duke Maximilian of Bavaria is to be the bride.

GREAT BRITAIN.—The House of Commons is engaged on the Oath and Jews' disabilities bills.

The Roman Catholic amendment was defeated by 273 to 83, and on a test question the bill was sustained by 341 to 201.

The London Times advocates the abolition of slavery in Cuba, as the only effectual means of checking the slave trade.

The funeral of Douglas Jerrold took place on the 15th, and was attended by a large number of the most eminent men of literature and art.

The Grand Handel Festival took place at the Crystal Palace, Sydenham, on the 15th, the band and chorus numbering 2500 persons. There was a very large attendance.

The American ship Robena arrived at the Woolwich Arsenal, on the 13th, having on board, six breech-loading cannon, manufactured at New York, by order of the British Government.

Arrangements have been perfected for running the Candadian line of steamers between Liverpool ana Quebec weekly, instead of fortnightly. A contract is to be immediately entered into for a number of new and more powerful steamers.

The infant princess was christened on the 16th, and is named Beatrice Mary Victoria.

NEW YORK, June 29.—There were several serious riots in the city and vicinity yesterday. At Hudson Park, a party of Germans, who were enjoying a pic-nic, were attacked by rowdies, when a battle ensued, in which several of the former were seriously injured.

The Eleventh ward was the scene of a dangerous riot. A gang of rowdies attacked Capt. McKinney of the Thirteenth ward police, and nine of his men; succeeding after a bloody fight in rescuing a prisoner from the custody of the policemen.—Capt. McK. was fatally injured, and 7 of his men dangerously wounded.

At Williamsburg several skirmishes took place, but without any serious results.

At Brooklyn two rival fire companies engaged in conflict. Stones, clubs, and other missiles were freely used, and several were injured.

FLOUR FROM CANADA TO NEW YORK VIA PORTLAND.—The steamer Western Port, which sailed from Portland on Wednesday, took 1000 barrels of flour for that city which came from Canada on the Grand Trunk Railway to this city. It was predicted that flour would be transported from Canada to New York in this way, and here is a fulfilment of the prediction.—*Argus.*

SPECIAL NOTICES.

☞ Go to the Davis Brothers and get one of those splendid Ambrotypes.

THE SECRET DISCOVERED AT LAST.—We have noticed in passing through Market street, lately, that the New York Store, No. 15, always seems crowded with customers. We have at last discovered the secret of it. On stepping inside, we find that the proprietors, MESSRS. ALLEN & PAINE, in fitting up their store in the beautiful manner they have, had an eye for the useful, as well as for the ornamental; we noticed that the store appeared very light and cheerful, and on looking for a solution of the mystery, we discover that the store contains a Sky Light, giving them facilities for showing their Goods possessed by no other Dry Goods store in town; as Customers by such a light, have no difficulty in seeing just what they are purchasing, and can not be deceived in the color or quality of goods. We notice, also, that their stock is always composed of the best qualities and very latest styles, which is explained by the fact that one of the firm visits the market to replenish their goods every ten days,—and as they buy for Cash, at together, they are able to offer their goods at as low prices as any other parties.

Those about to purchase Dry Goods will do well to visit them. Read their advertisement in another column.

☞ Tilton & Nowell, at their Union Store, No. 12 Market street, sell the following Medicines at reduced prices:—Dr. Larookah's Indian Vegetable Pulmonic Syrup, warranted to cure coughs, colds, whooping cough, asthma, bronchitis, croup, catarrh, consumption, and disease of the throat and lungs. Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, price 68 cents per bottle.

"IN PEACE PREPARE FOR WAR."—In the days of our youth, it behooves us to make some preparation for the approach of age. How many persons have become prematurely bald by neglecting to apply appropriate remedies to prevent the hair from falling out. The use of Professor Wood's "Hair Restorative" will prevent the hair from falling off, impart to it a healthy growth, and even restore the hair of the bald. Thousands have testified to its efficacy. To be had of Druggists everywhere.

DOES ANY OF OUR HIGH LIVERS ever eat too much dinner? If any of our readers have cooks who tempt their appetite a little too far, I will tell a secret that will lead them to the enjoyment of their dinners, without a visit from that gouty old gentleman, Dyspepsia. Take a dose of Dr. Sanford's Invigorator after eating, and you will never be troubled with indigestion; but on the contrary, before the next meal time approaches, the appetite will be sharpened to appreciate any kind of food. If the food rises or sours, the Invigorator will fix the matter right at once, for there is something in it that, to use the expression of a friend, will let a man eat gravel stones, and take the Invigorator and they will digest. We have tried it in double doses, on one or two occasions, for sick headache, and it acts like a charm.

What we want to say to our readers, young or old, is, if anything ails you, go without delay and get a bottle of Dr. Sanford's Invigorator, and if it don't cure, come and tell us, for we want to see one person that it will not benefit.

TO THE CITIZENS OF THE UNITED STATES.
CAUTION TO THE FIRE EATERS.

After several years experimenting in the manufacturing of Gin, I fortunately succeeded in the year 1848, in making a discovery in its manufacture by which it was deprived of all acrid and inflammatory properties, and rendered perfectly pure.

My manufactory is at Scheidam, Holland. After several months' reflection what title to give it, I introduced it to the American public under the name of "Wolfe's Scheidam Aromatic Schnapps." Scheidam is the name of the place in Holland where the Gin is manufactured. Aromatic derives its name from the Italian Juniper Berry with which it is flavored, and the word "Schnapps" is dtan German for drink—Cogne, Dram—Wolfe's Scheidam Aromatic Drink. No sooner had my Schnapps been introduced to the American public and received with approbation, than the Liquor Mixers of New York, Boston and Philadelphia, started in pursuit with their mixed and poisonous stuff under various names: Scheidam Gin, Scheidam Schnapps, London Club House Gin, London Cordial Gin, &c., and in several cases my labels have been so perfectly imitated, with only the addition of a few letters to plead a technical avoidance of the law, and so carefully prepared as to impose on careless purchasers. I understand a large quantity has been purchased by the merchants of the Eastern States on account of the cheapness of the articles. A merchant who participates indirectly in the fraud by selling the spurious articles, is as much an offender as the principal who planned the imposition.

I hope every respectable citizen who values the health of the community in which he lives will aid me in ferreting out and exposing the unscrupulous merchant, who, for the sake of a few cents, will put in jeopardy the lives of the community in which he lives. Such men should be nailed to the pillory of popular excoriation.

Wolfe's Schiedam Aromatic Schnapps is made from barley of the first quality, selected with great care from the products of the most celebrated grain-growing districts, is flavored with the essence of the aromatic Juniper Berry of Italy, and is rectified by a peculiar process, which expels from the spirit every acrid particle.

As a means of preventing and correcting the disagreeable and often dangerous effects produced upon the stomach and bowels by a change of water—a visitation to which travelers and settlers, and all unacclimated persons in the West, the South and South-West are peculiarly liable—the Scheidam Aromatic Schnapps will be found absolutely infallible; while, in cases of dropsy, gravel, obstructions of the kidneys, diseases of the bladder, dyspepsia, and general debility, it is recommended most emphatically by the most distinguished members of the medical profession

It is put up in quart and pint bottles, in cases of one dozen, with the name of the undersigned on the bottle and cork, and a fac-similie of his signature and label.

City Hotel, Portsmouth, N. H.

BY WM. S. HADLEY.

THE SUBSCRIBER has the pleasure of announcing to his old patrons, and the travelling public generally, that he has leased this well-known, commodious and pleasant House, and would invite travellers and others to make "themselves at home" on the premises—promising to spare no reasonable effort which may conduce to the comfort and satisfaction of visitors.
While acknowledging the liberal patronage with which we have been so long favored, in our old quarters, we would solicit a continuance, now that our accommodations are so much increased and improved. WM. S. HADLEY.

Appledore House,

ISLES OF SHOALS,

IS now open for Public Accommodation.
The schooner SIBYL, (one of the beautiful yachts built by the late Geo. Steele,) will run daily to this Island from Pier Wharf, in Portsmouth, immediately after the arrival of the morning train of cars from Boston, and return in the afternoon.
The Sibyl is commanded by Capt. RUFUS A. PREBLE, a thorough seaman, who will give every attention to the comfort and enjoyment of his passengers.
The Sibyl has a magnificent cabin, water closets, tanks, and every accommodation which a first class Packet requires.

The advantages this purely Ocean Retreat possesses over all others are well known. Resting upon the broad bosom of the Atlantic—free from heat, dust and noise—it is peculiarly fitted to restore health to the invalid, and rest to the careworn and weary. j23 THOMAS B. LAIGHTON.

Portsmouth and Cape Neddick
DAILY STAGE.

WHISKEY-SELLING IN QUINDARO.

QUINDARO, K. T., June 17.

For a week or two past the people of Quindaro have been annoyed by the existence of a few low groggeries, whose whiskey has been sold in opposition to stipulations made in purchasing the lots, causing disturbance of the public peace, and in direct violation of the prevailing sentiment of the town. As all other means for abating the nuisance had failed, the citizens were just about resorting to first principles—"squatter sovereignty," you know—to put an end to the traffic, when they were stimulated to immediate action by receiving the following petition, signed by the most prominent and influential ladies in the place:—

JUNE 16, 1857.—*To the men of Quindaro, Greeting.*—Thoroughly convinced by the observations and experiences of the past, that intemperance is the deadliest foe to all that is good in man, or desirable in his social surroundings, and made painfully aware that its dens and agencies are already in our midst, degrading manhood, and destroying the hope of home-prosperity which has won wives and mothers to meet cheerfully the toils and deprivations of a new country, in the midst of strangers; we, the undersigned women of Quindaro, do hereby appeal to the men of Quindaro, and respectfully petition them to take speedy and efficient measures for the casting out of the vile demon that is entering our homes and brutalizing the guardians of our social and State interests.

(SIGNED.) C. I. H. Nichols, Bertha C. Carpenter, Sarah E. Carpenter, Sarah C. Harmon, Minerva Jones, Mary Clark, Sarah Bookhimer, M. A. McCown, Sarah Maxwell, Lizzie Wiley, Mary M. Johnson, Rebecca D. Zane, Mary Griffith, Mary Fitch, Harriet M. Allen, Sarah A. English, Sarah T. L. Robinson, Ann E. Shepherd, Margaret Shepherd, Mary Drugsis, Anna C. Sprong, Sarah McCullen, Isabella McCullen, Hannah Cook, Jane Gibbons, Mary Butler, Amanda Butler, Sallie Lane, Mrs. Eliza J. Welborn.

A meeting of citizens was called last night, to take action relative to the matter, and organized by electing J. T. Gibson chairman, and Wm. Shepherd secretary.—Messrs. S. C. Smith, J. M. Walden of the Chindowan, A. D. Richardson, O. A. Bassett, A. P. Gray, M. Henderson, and J. T. Gibson were called out, and made brief remarks. Messrs. Walden and Gray and Dr. Buddington were appointed a committee to select a vigilance committee of twenty citizens. The meeting, after giving the vigilance committee discretionary power to act, adjourned.

At daylight this morning, the vigilance committee, having previously organized, started out. At the first groggery, the keeper, who is a sturdy fellow, was armed with a pair of six shooters and a shot gun, and showed fight; but he was disarmed before he could shoot. His better half, also, made a vigorous defence, and wounded one modest member of the committee—not with fire arms, but with that weapon discovered by Don Alphonso and his friends, in the first canto of Don Juan, when—

——"There they found—
No matter what—it was not what they sought."

But all this did not save two casks of whiskey, and one of brandy, which had been secreted in a bed-room for safe keeping, but which were rolled out and "spilt" in short order. Casks of the "crayther" were also found in two other groggeries, and also unceremoniously destroyed. In one instance the parties had taken the precaution to bury a cask of whiskey, but it was dug out and served like the rest. No violence was offered to any person in the groggeries; no ale, beer, or other malt liquors were disturbed, and the whiskey and brandy were only destroyed in places where they were kept for sale. The keepers were all warned beforehand, that they could not be allowed to carry on the traffic in Quindaro.

THE MONUMENT OF BUCEPHALUS.—A letter from an English army officer, says: "The spot pointed out by the natives as the burial place of Bucephalus, and the tomb erected by Alexander the Great to his favorite horse, stands in the centre of a large plain between Plam and Cherab rivers, in the Panjaub. It is formed of earth, bracketed with marble. The base extends 100 paces, and diminishes at the top to 30. A flight of stone steps, 55 in number, leads to the top."

HEALTH OF CHARLES SUMNER.—The Transcript says that the reports of Mr. Sumner's health received by the Persia, are not so favorable as his friends could wish. His chief difficulty appears to be in his spine, as he is easily fatigued by walking, and after having been seated any considerable length of time, he moves about when rising, like a veteran of eighty years. He is now visiting the rural districts of France. His mind is very active, and his spirits quite cheerful.

☞ The estate of Joseph Bonaparte, ex-King of Spain, at Bordentown, N. J., was offered for sale on Thursday, but withdrawn without a bid. It cost $200,000, and the auctioneer offered to start at $60,000. It is a beautiful place.

☞ One of the largest and best temperance conventions ever held in Essex county, was in Salem, on Wednesday. The principal speaker was Peter Sinclair of Scotland. Nearly every clergyman of that city was upon the platform, giving countenance to the work.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, in which Messrs Cox & Co are managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with the drawing is strictly honorable in the manner, and that the interests of parties who reside at a distance are as well protected as if they were present at the drawing. Also, a Master of Accounts, who is sworn to see that every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. Orders for tickets should be addressed to S. Notickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket, after the Havana plan, and forty-seven combination. Prizes vary in amount from $20 to $100 "00. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have seven commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if present. The Manager would respectfully call attention to the fact that all persons have a legal right to place money in tickets in Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the first drawing to take place after the communication comes to hand. Orders for packages from $1 to $20. Tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket, and forty-nine combinations. Prizes vary in amount from $40 to $50,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Orders for tickets should be addressed to S. SWAN & Co., Atlanta, Georgia.

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18 1y

IMPORTANT NEW INVENTION

PATENT DOUBLE VISION SPECTACLES.

EDWARD S. FRANKS, PROF. OF OPTICS,
No. 2 Park Row, opposite the Astor House, New York.
SPECTACLE MANUFACTURER,
Lecturer on the Anatomy and Physiology of the Human Eye, and Use and Abuse of Spectacles.

Optician by Diploma to the N. Y. Eye Hospital, And Spectacle-Maker to the New York Eye and Ear Infirmary.

Has much pleasure in announcing that he has secured *letters patent,* granted by the United States Patent Office, for very valuable improvements in Spectacle Glasses.

He has a complete assortment of his improved patent spectacles in his possession, delivered, and all other mountings. It will be understood that Prof. Franks, being the patentee, his spectacles can be obtained only from himself; as he has no other person authorized to manufacture or sell the same, unless specially licensed to do so by him.

THE ADVANTAGES OF THESE SPECTACLES OVER ALL OTHERS, ARE

1st. The only true lens known, being perfectly centered so as the focus of each surface shall be opposite each other, which renders them nearly free from chromatic light, so injurious to vision, a lamentable defect in all the old and old fashed spectacle glasses, and makes the change of spectacles to glasses of stronger powers, so often required.

2d. Can be worn with perfect ease for any length of time, the sight, colour, and shape of objects remaining unchanged, which is not the case with other spectacles, particularly by persons of irritable temperaments, for the same reason that it is known to all who have used spectacles that they cannot be worn with ease for any length of time, without injuring the eyes, and necessitating a change of glasses to suit the different distances at which the object is seen, from time to time, which is not the case with these lenses, by softening the rays, effect the most agreeable sensation, and a perfect cure.

3d. In all nervous affections of the eye, causing dull or painful sensations, or other disorders, such as appearance of luminous or dark spots in the atmosphere, itching, or listless like sand in the eye, the disturbed nerves are quieted, soothed, composed, and entirely removed.

4th. Ground by peculiar machinery got up at a great cost, mathematically calculated exactly for the manufacture of these lenses, so as to produce the true spherical accuracy, and its focus at the exact centre, a point of vital importance, and which no other lens possesses.

5th. Proof of superiority over the old kind of spectacles: They are exclusively used at all the Hospitals for diseases of the eye in New York, and have received the following testimony:

This Agency is not only the largest in New
ngland, but through it inventors have advanta-
es for securing patents, or ascertaining the
atentability of inventions, unsurpassed by, if
ot immeasurably superior to, any which can be
offered elsewhere. The testimonials below
iven prove that none is MORE SUCCESSFUL.
THE PATENT OFFICE than the subscriber;
nd as SUCCESS IS THE BEST PROOF OF
DVANTAGES AND ABILITY, he would and
hat he has abundant reason to believe, and can
rove, that at no other office of the kind are the
harges for professional services so moderate—
he immense practice of the subscriber during
wenty years past, has enabled him to accumulate
vast collection of specifications and official de-
isions relative to patents. These, besides his ex-
tensive library of legal and mechanical works,
and full accounts of patents granted in the Uni-
ed States and Europe, render him able, beyond
question, to offer superior facilities for obtaining
atents.
All necessity of a journey to Washington to
secure a patent, and the usual great delay
here, are here saved inventors.

Testimonials.

"During the time I occupied the office of Com-
missioner of Patents, R. H. Eddy, Esq., of Boston,
in business at the Patent Office, as Solicitor of
Patents. There were few, if any, persons acting in
that capacity, who had so much business before the
Patent office; and there were none who conducted
it with more skill, fidelity, and success. I regard
Mr Eddy as one of the best informed and most
skillful Patent Solicitors in the United States, and
have no hesitation in assuring inventors that they
cannot employ a more competent and trust-
worthy, and more capable of putting their appli-
cation in a form to secure for them an early and
favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1856.—During the time I have held
the Office of Commissioner of Patents, R. H. Eddy,
Esq., of Boston, has been extensively engaged in
the transaction of business with the office, as a
Solicitor. He is thoroughly acquainted with the
practice and the rules of practice of the Office. I re-
gard him as one of the most capable and success-
ful practitioners with whom I have had official
intercourse. CHAS. MASON,
Commissioner of Patents.

Railroad Spikes
ARE well known in the United States, and are
conspicuous for their regularity and finish,

Morning Chronicle.

WEDNESDAY, JULY 1, 1857.

BUCKMINSTER, WALTON, AND BALLOU.

We come now to Letter second, viz: an answer from Mr. Ballou to Rev. Dr. Buckminster. It is dated Portsmouth, Jan. 1, 1810. Mr. Ballou acknowledged the receipt of Mr. Buckminster's "affectionate friendly address," and proceeded to notice several of the points in it. Mr. Buckminster had said that he wished to "treat all men with those fruits of benevolence and friendship which the law of our common nature, and the spirit and principles of the Christian religion demand." Mr. Ballou replied that, as his correspondent's friendship was founded on such principles, it would undoubtedly remain, so long as those principles remained in his heart. If there existed among mankind a reciprocal responsibility in regard to their eternal interest, then this responsibility must be eternal. There could come no time, unless eternal principles could change, when the responsibility would not exist. Mr. Ballou then turned from the friendship of Mr. Buckminster, to reason concerning the friendship of God:

On observing your admonitions, and believing you sincere in them, I am led to say, that had I such a friend as you are, who possessed means for making me eternally happy, I might entertain no doubt of obtaining the inestimable enjoyment;—nor do I view you, sir, less a friend because you do not possess a power which is equal to the putting of all your friendly desires into full execution, but will acknowledge you my worthy friend, and accept the warnings which you give me against the system of doctrine which, as you say, I have embraced, and come among this people to advocate, as a token of that friendship which would, if connected with suitable power, place me out of all final danger, or which would cause you to rejoice exceedingly, had you the evidence to believe that one who has such power possesses even stronger desires for my eternal welfare than you do.

You inform me that you do not know what system of universalism I have embraced. Permit me, sir, to inform you, though you do not request it, that I have embraced that system of universalism, which Abraham, Isaac and Jacob embraced, in believing God, who said, "In thee shall all the families of the earth be blessed; and in thy seed shall all the families of the earth be blessed." If this faith of Abraham were imputed to him for righteousness, it must be a true faith, and if true, worthy to be embraced by all nations and families of the earth, without the exception of an individual. Permit me further to observe that I disclaim all authors as divine guides, except the divine author of those scriptures which cannot be broken.

You rightly apprehend me in supposing that I believe and teach that all mankind will be saved, restored and associated with Christ Jesus in the realms of glory; but I do not believe, as you intimate, that human ingenuity, or plausible and sophistic reasoning are necessary to the support of this doctrine among men; nor will I attempt to say how sorry I am that you should declare the doctrine not true until you had produced a "*thus saith the Lord*" to prove it false; or that you should intimate that I am employing human ingenuity or plausible and sophistic reasoning to support the universal benevolence of God, until the disagreeable circumstance should transpire, in which I might justly be thus charged.

Although in order to please myself, I might explain your meanings as directed against some others of the advocates of the heavenly gospel of universal salvation, I could find but little satisfaction in thus endeavoring to avoid any reproach which is directed against the true disciples of my divine Master.

You inform me that as universal salvation is not true, "it can have no effect in quickening into life or of sanctifying the soul, for it is the spirit that quickeneth, and the truth which sanctifies." If, dear sir, you do not believe that the spirit of salvation quickeneth into life, would it not have been proper to inform me what spirit does? And I should have highly esteemed an illustration of the evidence which you have, that the truth *that mankind will remain eternally unsanctified*, will sanctify the soul! I fully believe that as far as any proposition is capable of being proved from the written word, or of being demonstrated by logical reasoning from acknowledged facts, the doctrine of the salvation of all men is capable of being proved and substantially maintained. Does it require human ingenuity or plausible and sophistic reasoning to make it appear from the scriptures that Jesus Christ, by the grace of God, tasted death for every man; that he gave himself a ransom for all to be testefied in due time; that he is the propitiation for the sins of the whole world; that it is the will of God that all men should be saved and come to the knowledge of the truth; that he worketh all things after the council of his own will?—Does it require this ingenuity, &c., to substantiate from the written word that the promise to Abraham will be fulfilled, and that all nations whom God hath made shall come and worship before him and glorify his name; that Jesus will in the fulness of time reconcile all things unto himself, whether they be things in heaven or things on earth; that he will gather together in one all things in Christ, both which are in heaven and which are on earth, even in him? If it be an acknowledged fact that God will bless all the families of the earth in Christ, that all nations which God hath made shall come and worship before him and glorify his name, that Jesus gave himself a ransom for all men to be testified in due time, that he did by the grace of God taste death for every man, that he will have all men to be saved and come to the knowledge of the truth, that he hath made known the mystery of his will according to his good pleasure which he hath purposed in himself, that in the dispensation of the fullness of time, he would gather together in one all things in Christ, both which are in heaven and which are on earth, and that he worketh all things after the council of his own will; then the doctrine of the salvation of all men is as fully acknowledged as language can possibly express, or my error lies in not understanding the force of words and sentences. * * * * * *

In your truly affecting entreaty you direct my mind to the day of judgment, when I am called to give an account of my stewardship, and ask what my situation must be, if the system I advocate should in final evidence prove false. I have seriously thought on this question; and this is my conclusion:—My judge will know that I am, in this instance, honest and sincere; he will know how hardly I wrestled against his written word in order to avoid believing that he would save all men, and he will know that my deception was in understanding his word as a simple, honest man would understand a plain testimony void of scholastic dress. In this case I am willing to throw myself on the mercy of the judge. On the other hand, dear sir, I have made a calculation. Suppose I adhere to your testimony, that the doctrine I believe is not true, and abandon it as a heresy, preach it down to the utmost of my ability, and the doctrine at last, when you and I stand before that judge who knows the hearts of all men should in final evidence of the law and Prophets, prove true, of which I have not the least shadow of doubt in my mind, with what a blush must I give up my account! My judge, who has suffered everything for me, might ask me, why did you deny me, forsake my cause, and use the abilities which I gave you to preach that dishonorable doctrine that I did not redeem all men, or that I would not finally reconcile all men to myself, and cause them all to love me heartily in bliss and glory? I, abashed beyond description, must answer, a man, who I conceived was my friend, and who preached that God my Savior never intended to save all men, told me the doctrine I preached was *not true!* O, how would my soul thrill with grief when a look, such as was cast on Peter after he denied his Lord, should accompany this question, And who told you in the first place it was true?

I appeal to the searcher of hearts for the sincerity of my soul when I say, my dear sir, I feel an uncommon desire to cultivate friendship with you, and were it possible for me to gratify you in anything that should be consistent with my duty to my God, I think I should not shrink from the service; but should the multitude, whose hearts have been made joyful in believing in the salvation of all men, become so blinded as to renounce the sentiments, I must remain unshaken until more than human testimony stands against the doctrine. * * * * * *

Your most obliged friend,
and humble servant,
HOSEA BALLOU.

☞ When shall we hear the last of the Comet? A gentlemen informs us that he received a letter from his brother in Andover, Vt., a few days since, stating that his house and two barns were destroyed by a whirlwind on the 13th ult., and also a barn belonging to a neighbor, in which latter a man was considerably injured.

☞ That long established journal,—the Keene Sentinel,—appears in entirly new dress, and makes a very good appearance. The present is the 59th year of its existence.

EXCITEMENT AT SOUTH WEYMOUTH.—Considerable excitement prevails in South Weymouth, says the Standard, in regard to the action of the High School Committee, in stopping the Bible being read by the scholars in a Grammar School, in consequence of the Catholics not liking to have their children hear it read.

PHILLIPS EXETER ACADEMY.—From the Catalogue of this excellent institution of learning, it appears that there are now 137 students within its walls, classified as follows:—Advanced Class, 15; Senior, 12; Middle, 60: Junior, 50. The instructors are, Gideon L. Soule, L. L. D., Principal: Joseph G. Hoyt, A. M., Professor of Mathematics; George C. Sawyer, A. B., Professor of Ancient Languages; Jacob A. Cram and Wm. F. B. Jackson, Tutors in Latin.

FISH.—The reports from the Marblehead fishing fleet are encouraging. One vessel has been heard from with 15,000 fish. The Bank fishing has been good for several years, and is increasing in Beverly, Marblehead, and the shore towns south of Boston.

☞ The burning of the steamer Montreal, appears to have been caused by culpable carelessness. In the Quebec Chronicle, we read what follows.

James M'Diarmid, a waiter on board the Montreal, is badly burnt, and is in the Hospital. The following is his statement: The fire caught above the boiler; he supposes from the intense heat from the boiler, and it spread very rapidly. I was in the lower cabin when the baggage man came down and said: You had better look out, for the boat is on fire. We all rushed up stairs, and found it had caught in exactly in the same place as it had done previously.—It had taken there twice this season, but we always got it out, and the boiler had been tinned over. I saw it spread so rapidly that I got the ladies' maid and the saloon maid into the long boat. We had only one boat to lower, the second being on fire. Immediately on this boat being launched, many jumped over, swam to it, and it was swamped, and many in it drowned. I jumped overboard, and held on by a rope, some eight or ten held on by my legs. Some held on till I was rescued, others being exhausted, dropped off. I saw an American lady and gentlemen jump overboard. They floated for some time, but at last sank. There was 18 of the hands lost.

NEW YORK, June 30.—Yesterday afternoon 250 U. S. troops took their departure by the New York and Erie railroad for Leavenworth City, Kansas, where they will join the command of 3000 men, that is to accompany the new Governor of Utah to Salt Lake City.

THE SPIRIT LAKE CAPTIVES BUTCHERED!—We chronicle with intense pain, this morning, the following intelligence brought to the St. Peter Courier by E. E. Paulding, from Redwood, up the Minnesota river. He says that the first report as to the murder of both the women in captivity is only partially true. One of them, Miss Gardner, has been found by some Yankton Indians, and brought into Yellow Medicine. She had been placed on a hill as a target by the red devils of the Spirit Lake Massacre, and shot at, the whole band alternating in the sport. Both her legs were broken, and she was left to die. She says that the tormentors had murdered Mrs. Noble a few days previously, before her eyes, and left her on the prairies. This story is doubtless reliable; and Mr. Paulding was informed that the friendly Yanktons were about to bring the poor girl, Miss Gardner, to St. Paul. She has barely escaped with her life, nothing more.—*St. Paul (Mt. T.) Times, June 23.*

THE NEW BEDFORD SUICIDE.—The man who committed suicide at New Bedford on Wednesday, was Captain Daniel Drayton, of Philadelphia, who is known as having attempted to carry away seventy slaves from Washington in the schooner Pearl, in 1848, and was sentenced to twenty years imprisonment, and pardoned by President Fillmore after three years incarceration. Since his release, he has traveled in the free States, selling his personal narrative, and working for the anti-slavery cause, being obliged to resort to this method of obtaining a livelihood in consequence of shattered health. He was a native of New Jersey, born in 1802, was a member of the Methodist Episcopal Church, and leaves a widow and several children. In consequence of low spirits, he had probably for some time meditated self-destruction. He told a gentleman in New Bedford, on Wednesday, that he came there to die, and wished to be decently interred.

POLICE COURT, BOSTON.—*Breach of the Peace.*—Commonwealth vs. Ralph H. Darly. On the trial of this complaint, it was in evidence that the defendant followed Irene P. Darly, his wife, who had sued for a divorce, and her sister, through the public streets, calling them indecent and obscene names in the hearing of the passers by, and in this way, pursued them into all public places, wherever they went.

The defendant had previously been convicted and fined $10 for an assault upon his wife, and given bonds in the sum of $600 to be of good behavior and keep the peace.

Judge Russell held this conduct to be a plain breach of the peace.

It was more injurious to Mrs. Darly than a bodily assault, instigated by a deeper malice, and it could not be doubted that pursuing one in the streets, calling out abusive epithets in a loud tone in the hearing of the passers by, did constitute a breach of the peace.

In this case, the offence was aggravated by the pending of the suit for divorce, and by a former conviction for assault and battery, and the defendant being under bail to keep the peace. The court imposed a fine of $10 and costs, and ordered the defendant to give bonds in the sum of $600 to keep the peace. From this, the defendant appealed, and was ordered to recognize in the sum of $800, to prosecute his appeal with effect, and meantime to keep the peace, and be of good behavior.

GREAT BRITAIN.—In the House of Lords the bill from the Commons in relation to ministers in Ireland, was brought up on Thursday. Lord Granville stated that the bill enacts that all existing interests shall be provided for out of the means at the disposal of the ecclesiastical commissioners, and would remove almost the only remaining cause of religious discord in Ireland.—Lord Derby opposed the measure, but after a debate the bill was ordered to a second reading by 101 to 96.

The House of Commons was mainly engaged with the supply bill. Upon a division on one of the appropriations, Government was left in a minority of 10.

BREADSTUFFS.—(Richardson Spence & Co.)—The weather has been favorable for the crops. Flour is steady and quiet.—Wheat quiet and dull, the advance of Tuesday being barely maintained. FUGITIVE SLAVE KILLED.—The Cincinnati Commercial says that on Sunday last three slaves escaped from Kentucky into Ohio, and on Monday they were discovered hidden in the woods, about four miles back of the river. The negroes being armed, made a desperate resistance, and one of them, while in the act of shooting a Mr. James Humphreys, one of his pursuers, was shot and instantly killed. The second escaped, while the third was arrested and taken back to Kentucky.

FUN AT THE TEMPLE.—By the advertisement in another column it will be seen that Sanford's Opera Troupe are to give an entertainment at the Temple this evening. They number sixteen performers. The Sanford Children, (Miss Poline and Master James, the celebrated dancers,) are great in their line, and are universally admired. Go and see them.

VIPERS OF THE GOLD MINDS.

A friend asked Uncle Toby what he thought of the Circus;—and the answer was, that he did not think much about it, but it looked outside, something like John Bunyan's picture of Vanity Fair.

The number of horses and ponies, as shown in the street, was large, and many of the animals were fine. If the elephants balanced on their heads at the top of a steeple, and the clowns looked as silly in the tent, as they did on the bills, the spectacle must have been remarkably interesting to students of Zoology.

Outside, on the side shows, which seem to be parasites to the circus, there were some curiosities for students in Orthography.

On the outside tents, were three signs, which read as follows:—

Den of California Vipers, caught in the Gold *Minds*.

General Littlefinger, 15 years old, weighing only 25 lbs. in his *positions*.

D. Major, *celebratet* skeleton giant,—stands 6 feet 5 inches in *high*; weighs 88 lbs., age 22 years.

The schoolmaster must have been *abroad* when these signs were painted. That about the Vipers in the Minds, is quite suggestive. Minds which labor a great deal, need recreation; and so the literary, scientific, and professional men, the bankers and merchants, might be expected to come in and look at the elephants, see the ponies play tricks, and listen to the *original* (Joe Miller) jokes of the Clowns. But they must take care that some viper is not lurking round there, in the form of a forbidden game, a dangerous beverage, a licentious speech, or a vile companion.

The order kept round the premises, by the police, was truly commendable.—The circus proprietor was not disposed to pay for police men, alleging that they were not necessary.—But the chief of police knew better—as the circus, while it draws many respectable people, attracts all the disorderly,—and it is therefore fit that the circus should pay a proper police force to *prevent* disorders.—So it was done; and so order was preserved.

NO BRICKS TO DRY.—The unconcern of some people in case of disaster, is all very heroic and beautiful, no doubt, but on examination it will generally be found that they have nothing to lose by the operation. Mentioning to a farmer, a few days since, our utter indifference as to whether it rained or shone, he rebuked us by relating the parable of the Frogs and the Brickmaker. It seems the latter had an enormous quantity of embryo bricks laid out to dry, when there came a heavy storm. While taking them in, he was saluted by the singing (?) of frogs in the water. "Ay, sing," said he, "you havn't any bricks to dry."

AID FOR MRS. PATTEN.—Previously subscribed $943. Saturday's contributions: From "Comic," $5; Mrs. J. F., $25; W. C. R. & Co., $20; and $5 from J. M. B. of Cold Springs, Putnam country, New York, who writes—"I deeply regret that my ability is so very inadequate to the fulfilment of my heart's desire of rendering justice to your noble conduct. God bless and prosper you, honorable Mrs. Mary Patten, commander of the ship Neptune's Car." Total, $75. Grand total $1018. *Boston Courier.*

CAN ANY ONE EXPLAIN.—It is very generally supposed that crime has multiplied very rapidly within the last few years, but yet in the face of this, we are told this morning, that the number of convicts in the State Prison is smaller at the present time than before for the *last seven years!* Can any one explain this conflict between general belief and facts?— *Charlestown (Mass.) Advertiser.*

We do not undertake to explain the conflict;—but we know it exists in regard to crime generally, no less than to those great crimes which send men to the state prison.

SUDDEN DEATHS.—On Sunday two young ladies died very suddenly in Newburyport. One was consumptive, and on waking early in the morning found herself suffering from hemorrhage, which terminated her life. The other was in usual health, in the morning, dressed herself, and without warning fell, from heart complaint or a fit, and died at once.—*Herald.*

On Sunday, a fight occurred about the burial of a child, in Chelsea, when the father, named Sharkey, who is an ugly customer that has served in the House of Correction, and was then in liquor, cut the head of a brother-in-law, named Harrigan, with an axe. The first was held to answer in $2000, and the other was conveyed to the hospital.

HARD TIMES IN UPPER CANADA.—A Toronto correspondent of a London, C. W., paper writes:

Our condition as a people is far worse and more embarrassed than is generally supposed. Our credit is going down in England. Our people are unable to meet their engagements either at home or abroad. Business people, who a little while ago were considered solvent and wealthy, are now bankrupt, loafing about the streets. This is no imaginary picture. I could fortify my assertion by names, if I felt so disposed. And yet I fear we are only in the commencement of the panic.—Here in Toronto one knows not whom to trust. The merchant that was in high standing and credit yesterday is an absconding debtor to-day. And thus we go. What can you think of our affairs when the promissory notes of some of the very ministers of state are hawked about the streets by agents or brokers, to be discounted at a shave of 4 per cent. per month?"

VERACITY OF THE PRESS.—Not more than twenty miles from this portion of the Granite State, dwells an old farmer whose implicit faith in the truth-telling propensities of printers, exceeds that of most people. During the last political campaign, when, as the readers of the prints know, some editors did not hesitate to tell most thundering lies—large stories to favor their side, he fell into a controversy with a fellow yeoman, and to crush out all opposition, triumphantly quoted a paragraph from "his paper." The opponent sneered at this, touching the old man's ire, who exclaimed, "Do you suppose a man would print a lie? One might as well be d—d as print a lie."

ERUDITION.—A young man in this state, had passed through a course of collegiate instruction, and while on a visit home, assisted his father one day, at working on the roads. His conversation then induced one of the neighbors to remark that he must know a great deal. "O, well, yes," said his parent, "between us both we know everything he knows, all except that he's a fool, and I know that."

Health comes of itself: but we are at great pains to get our diseases. Health comes from a simple life of nature; diseases from artificial life.

THE SECRET DISCOVERED AT LAST.—We have noticed in passing through Market street, lately, that the NEW STORE, No. 15, always seems crowded with customers. We have at last discovered the secret of it. On stepping inside, we find that the proprietors, MESSRS. ALLEN & PAINE, in fitting up their store in the beautiful manner they have, had an eye for the useful, as well as for the ornamental; we noticed that the store appeared very light and cheerful, and on looking for a solution to the mystery, we discovered that the store contains a Sky Light, giving them facilities for showing their Goods possessed by no other Dry Goods store in town; as Customers by such a light, have no difficulty in seeing just what they are purchasing, and can not be deceived in the color or quality of goods. We notice, also, that their stock is always composed of the best qualities and very latest styles, which is explained by the fact that one of the firm visits the market to replenish their goods every ten days.—and as they buy for Cash, all together, they are able to offer their goods at as low prices as any other parties.

Those about to purchase Dry Goods will do well to visit them. Read their advertisement in another column.

☞ Tilton & Nowell, at their Union Store, No. 12 Market street, sell the following Medicines at reduced prices:—Dr. Larookah's Indian Vegetable Pulmonic Syrup, warranted to cure, coughs, colds, whooping cough, asthma, bronchitis, croup, catarrh, consumption, and disease of the throat and lungs. Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, price 66 cents per bottle.

"IN PEACE PREPARE FOR WAR."—In the days of our youth, it behooves us to make some preparation for the approach of age. How many persons have become prematurely bald by neglecting to apply appropriate remedies to prevent the hair from falling out. The use of Professor Wood's "Hair Restorative" will prevent the hair from falling off, impart to it a healthy growth, and even restore the hair of the bald. Thousands have testified to its efficacy. To be had of Druggists everywhere.

Agent in Portsmouth, JOS. H. THACHER. Wholesale Agents in Boston, Weeks & Potter. Retail Agents, Redding & Co.

DOES ANY OF OUR HIGH LIVERS ever eat too much dinner? If any of our readers have cooks who tempt their appetite a little too far, I will tell a remedy that will lead them to the enjoyment of their dinners, without a visit from that gouty old gentleman, Dyspepsia. Take a dose of Dr. Sanford's Invigorator after eating, and you will never be troubled with indigestion; but on the contrary, before the next meal time approaches, the appetite will be sharpened to appreciate any kind of food. If the food rises or sours, the Invigorator will fix the matter right at once, for there is something in it that, to use the expression of a friend, will let a man eat gravel stones, and take the Invigorator and they will digest. We have tried it in double doses, on one or two occasions, for sick headache, and it acts like a charm.

What we want to say to our readers, young or old, is, if anything ails you, go without delay and get a bottle of Dr. Sanford's Invigorator, and if it don't cure, come and tell us, for we want to see one person that it will not benefit.

TO THE CITIZENS OF THE UNITED STATES

CAUTION TO THE PUBLIC.

After several years experimenting in the manufacturing of Gin, I fortunately succeeded in the year 1848, in making a discovery in its manufacture by which it was deprived of all acrid and inflammatory properties, and rendered perfectly pure.

My manufactory is at Scheidam, Holland. After several months' reflection what title to give it, I introduced it to the American public under the name of "Wolfe's Scheidam Aromatic Schnapps." Scheidam is the name of the place in Holland where the Gin is manufactured. Aromatic derives its name from the Italian Juniper Berry with which it is flavored, and the word "Schnapps" is the German for drink—Cogne, Dram—Wolfe's Scheidam Aromatic Drink. No sooner had my Schnapps been introduced to the American public and received with approbation, than the Liquor Mixers of New York, Boston and Phila delphia, started in pursuit with their mixed and poisonous stuff under various names: Scheidam Gin, Scheidam Schnapps, London Club House Gin, London Cordial Gin, &c., and in several cases my labels have been so perfectly imitated, with only the addition of a few letters to plead a technical avoidance of the law, and so carefully prepared as to impose on careless purchasers. I understand a large quantity has been purchased by the merchants of the Eastern States on account of the cheapness of the articles. A merchant who participates indirectly in the fraud by selling the spurious articles, is as much an offender as the principal who planned the imposition.

I hope every respectable citizen who values the health of the community in which he lives will aid me in ferreting out and exposing the unscrupulous merchant, who, for the sake of a few cents, will put in jeopardy the lives of the community in which he lives. Such men should be nailed to the pillory of popular execration.

WOLFE'S SCHEIDAM AROMATIC SCHNAPPS is made from barley of the first quality, selected with great care from the products of the most celebrated grain-growing districts, is flavored with the essence of the aromatic Juniper Berry of Italy, and is rectified by a peculiar process, which expels from the spirit every acrid particle.

As a means of preventing and correcting the disagreeable and often dangerous effects produced upon the stomach and bowels by a change of water—a visitation to which travelers and settlers, and all unacclimated persons in the West, the South and South-West are peculiarly liable—the Scheidam Aromatic Schnapps will be found absolutely infallible; while, in cases of dropsy, gravel, obstructions of the kidneys, diseases of the bladder, dyspepsia, and general debility, it is recommended most emphatically by the most distinguished members of the medical profession.

It is put up in quart and pint bottles, in cases of one dozen, with the name of the undersigned on the bottle and cork, and a fac-similie of his signature and label.

For sale by all respectable druggists and country merchants. ADOLPHO WOLFE,

S. D. & H. W. Smith,

—MANUFACTURERS OF—

Melodeons, Organ Melodeons,

—and—

PEDAL BASS MELODEONS,

No. 511 Washington Street, Boston.

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,

Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON

Is designed for parlor and private use. The combination of the Melodeon with Church instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have *every* facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. In short, we will promise our customers an instrument equal, if not superior, to any Manufacturer, and guarantee an *entire and perfect satisfaction.*

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine or test the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following,

Piano Fortes Manufacturers of Boston,

who have examined our Instruments, and will give their opinion when called upon:

Chickering & Sons, Hallett & Cumston,
T. Gilbert & Co., Wm. D. Rand,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woodward & Brown,
Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory references, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

City Hotel, Portsmouth, N. H.

BY WM. S. HADLEY.

THE SUBSCRIBER has the pleasure of announcing to his old friends, and the travelling public generally, that he has leased well-known, commodious and pleasant House, and would invite travellers and others to make "themselves at home" on the premises—promising no spare no reasonable effort which may conduce to the comfort and satisfaction of visitors.

While acknowledging the liberal patronage with which we have been so long favored, in our old quarters; we would solicit a continuance, now that our accommodations are so much increased and improved. WM. S. HADLEY.

Portsmouth, June 15, 1857.

Atlantic House,

RYE BEACH,

IS now open for visitors. The reputation of this House is too well established to need any lengthy description of its advantages. The Proprietor will, as heretofore, devote himself to the comfort of his guests.

Passengers by the Eastern Railroad will stop at the North Hampton station.

Rye Beach, June 20, 6w J. C. PHILBRICK.

Appledore House,

ISLES OF SHOALS,

IS now open for Public Accommodation.

The schooner SIBYL, (one of the beautiful yachts built by the late Geo. Steers,) will run daily to this island from Pier Wharf, in Portsmouth, immediately after the arrival of the morning train of cars from Boston, and return in the afternoon.

The Sibyl is commanded by Capt. RUFUS A. PEBBLE, a thorough seaman, who will give every attention to the comfort and enjoyment of his passengers.

The Sibyl has a magnificent cabin, water closets, tanks, and every accommodation which a first-class Packet requires.

The advantages this purely Ocean Retreat possesses over all others are well known. Resting on the broad bosom of the Atlantic—free from heat, dust and noise—it is perfectly fitted to restore health to the invalid, and rest to the careworn and weary. jl2 THOMAS B. LAIGHTON.

On hand for Rye Beach.

THE Subscriber respectfully informs the public, that he will run a Coach in connection with the Cars on the Portsmouth & Concord Rail Road, to RYE BEACH, daily.

Passengers by taking Cars on the Boston & Maine, and Portsmouth & Concord Railroads, stopping at Greenland, will find this a pleasant and convenient route.

WM. BERRY, 2d., Proprietor

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which E Fearce & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn and superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special act in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the orders have come to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are on the plan of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $150 70. All orders for tickets or packets will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for forwarding their interests at a parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send their tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Whole tickets $20; half $10; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that those who fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York *Weekly Day Book*. Write your orders plainly, and direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

The Medicine THAT NEVER FAILS!

IS DR. WILSON'S

DYSENTERY POWDER,

Which cures Dysentery, Diarrhœa, Cholera Morbus, and all the affections of the Bowels attended with Pain and frequent Discharge.

This Medicine is now being introduced into all parts of the United States and British Provinces, and great success attends its use everywhere. These Powders are now offered to the world as a PERFECTLY SAFE AND EFFECTUAL MEDICINE, for the purposes they are recommended and in nine cases out of ten

ONE POWDER WILL CURE THE WORST CASE,

when they are taken in the first stages, and almost invariably *two will effect a permanent Cure;* and unlike all other preparations, which, if they check the disease, leave the person in a condition that requires physic after it, which is not the case with the Dysentery Powders, for they *regulate the Bowels*, tone up the system, and leave it in a healthy state.

These Powders are put up in boxes, with full directions on each box, and sold for 50 Cents.

Please try them, if they do not give perfect satisfaction, return them and take your money.

THE ADVANTAGES OF THESE SPECTACLES OVER ALL OTHERS, ARE THESE:

1st. The only true lens known, being perfectly centered so as the focus of each surface shall be opposite each other, which nearly all others nearly free from chromatic light, so injurious to vision, a lamentable deficiency in all the old kind of spectacle glasses, and makes the change of spectacles to glasses of stronger powers, so often required.

2d. Can be worn with perfect ease for any length of time without sitting, giving astonishing clearness of vision, particularly by persons upwards of forty, so often to the great inconvenience of their business.

3d. Change of spectacles to glasses of strong or magnifying power, in most cases never required, should the eyes after from age, change, the focus of vision, thus securing to the patient good sight during life.

4th. When the eyes pain or ache, from the action of bright light, snow or sand, or from snow blind, sunny weather, white paper, and in reading, writing or sewing on vivid colored bodies; these lenses by softening the rays, effect the most agreeable sensation, and a perfect cure.

5th. In all nervous affections of the eye, causing dull or startling pains in the eyeballs or temples, appearances of luminous or dark spots in the atmosphere, itching, or localized pains in the eyes, when the disordered nerves are quieted, soothed, composed, and entirely restored.

6th. Ground by peculiar machinery got up at a great cost, mathematically calculated expressly for the manufacture of this lens, so as to produce it with true spherical accuracy, and its focus at the exact centre—a point of vital importance, and which no other lens possesses.

7th. Proof of superiority over the old kind of spectacles: They are exclusively used in all the hospitals for diseases of the eye in New York, and have received the following unqualified

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
No. 76 State st, oppo. Kilby st, Boston,
AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, not surpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The long time he has been in the practice of the profession, during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond competition, to offer superior facilities for obtaining patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
Testimonials.
"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and conscientiousness. I place Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration of their claims.
EDMUND BURKE,
Late Commissioner of Patents."
From the present Commissioner.
AUGUST 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. I am thoroughly acquainted with the ability, the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.
CHARLES MAGWIRE,
Commissioner of Patents.

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk Railroad Spikes
ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to the hand-made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

THURSDAY, JULY 2, 1857.

EASTERN RAILROAD COMPANY.

The annual report of the Directors of this corporation has just been printed for distribution among the shareholders, and presents with great distinctness the state of the company's affairs. The report represents the condition of the road to be satisfactory as far as regards the road bed, bridges, depot buildings and equipments. The construction account may now be considered closed, with the exception of claims for an amount not amount not exceeding $12,000 for land damages. In regard to the business of the road it is stated:

The first six months of the year the business encouraged the hope of a large net gain over last year, but another winter of great severity, added to the sudden decline in the shoe manufacturing, shipping and lumber interests, and a sharp competition from outside steamers, have caused some disappointment in our expectations. Taken together, however, this year, under the circumstances, gives a fair return, and shows the net earnings to be $21,710 48 in excess of last year, irrespective of interest.

The requirements of the road have still involved large expenditures, though less by $13,307 81 than were made the previous year. With the present state of business no unusual outlay will be needed.

The receipts from passengers the past year were $522,768 43, an increase of $13,070 over the year previous. The receipts for freight and express cars were $137,992, which amount is less by $2848 than the receipts in 1856. The total receipts were $674,126, against $665,578 the year before. The expenditures were $356,608, against $366,490 the previous year. The number of miles run was increased 20,000. The increase in the number of passengers carried is 225,957, and the whole number of the year is 1,377,157.

A policy is recommended that may best be understood by the votes the Directors propose to submit to the shareholders at the annual meeting.

Voted, That the unissued shares of the capital stock of the Company, being 12,966 shares, be specially appropriated, and held, to provide for the payment of the bonds due in 1862, amounting to $710,000, and in 1874 amounting to $445,500.

Voted, That the proceeds of the sales of property, together with the net income and all other available revenue of the company, be applied to the payment of the floating debt until it is extinguished.

Voted, That the sum of $75,000 shall be annually provided from the income and other revenue of the company, to pay the amount of funded debt due each year, and after the floating debt is extinguished that a dividend may be paid to the stockholders out of the remaining balance of net income.

The loss by W. S. Tuckerman is stated to be $222,202 64. The stock book has been made correct by the purchase and cancelling of 661 shares, the amount of Mr. Tuckerman's over-issues. The road is nearly exempt from law suits. The number of stockholders on the 31st of May last was 2296.

☞ The General Association of Congregational Ministers of Massachusetts, held their annual meeting at Belchertown, last week. Of 476 churches connected with the General Association, 468 made reports—the whole number of church members being 68,373, and of sabbath school scholars 69,567. Seventy-two churches are without pastors or stated supplies. There are 557 ministers—of these 351 are pastors, and 61 stated supplies. Within the past year, 44 pastors have been dismissed, two died, and 41 were settled.

The Association voted unanimously to discontinue correspondence with the Old School Presbyterian General Assembly, and in favor of continuing it with the New School, with but one vote in the negative.

A committee was appointed to report on the general subject of the Temperance cause at the next annual meeting.

A resolution was passed, approving the recent decision of the American Tract Society, in resolving to publish tracts upon the evils of slavery.

Gen. Cass is strict in his personal habits, will not dine out if he can help it, and goes to bed at 10 o'clock P. M. When at Paris, at balls at his own house, he would quietly slip off to bed at the above hour, leaving his wife and three daughters to entertain the company present. This regime accounts for his unwonted vigor at the advanced age of 75 years.

Gen. Cass is said to be a tee-totaller,—and to have pursued the course of total abstinence for many years, nearly or quite his whole lifetime.

☞ Sylvester Monger, an old gentleman of seventy years, went fishing on Saturday night with a Holyhoke party, and died in in the boat. It is supposed that he was affected with a disease of the heart.

TREES AND THEIR USES.

Under this title the North American Review for July, 1857, gives us a very pleasant article on Trees, showing the planting and cultivation of trees to be very desirable in our land, for beauty, shade, protection, health and profit; giving also not a few useful hints as to the manner of planting, the kinds of trees desirable, those most wholesome, &c.

The Review says:

This Review, we think, was one of the first to utter a warning against the wanton waste of our beautiful forests. Already, in a single generation, the good fruits of the reactionary movement are visible, and some of the cleared tracts are covered anew with woods which the hand of man has planted. The desolation which threatened whole sections of our country has been partially arrested; the Ohio farmer has restored what his father destroyed; and in the new lands of the West there are estates which resemble the parks and groves of England. In this Eastern region, where the waste was less notable, the decrease has, unfortunately, gone on more rapidly.

To the consumption of timber in house-building and ship-building have been added the insatiable demands of railroads,—the voracity of the iron horse, whose throat is for the forests an open sepulchre. Thirty years ago, the State of Maine was described as "a dense wilderness." Now, it is possible to ride for miles in its interior without the protection of any grateful shade. The coast line of Massachusetts is not now marked as the Pilgrims beheld it, by the sombre edging of uniform woods;—but the rim of the horizon is divided by numerous clefts and vistas through which the voyager sees the setting sun. The hills around Salem are almost as bare as those around Jerusalem; and there is more than one interval, blank as the Roman Campagna, where the names of the early settlers were once perpetuated in the forests which they owned. "Brown's Woods" is most likely nothing but a pasture, diversified by a few straggling apple-trees; and half a dozen oaks perpetuate the memory of "Clark's Grove."

Thousands of acres of woodland have been burned over within the last dozen years, kindled by sparks from the locomotive; and the spectacle which was present in 1830 on the banks of the Miami, is repeated in 1850 along the Merrimac. Accident and avarice are doing for the old lands of the East what settlers' necessities seemed to compel in the new lands of the West.

☞ The Democratic party of Maine, held a State Convention at Portland, on Tuesday, when they nominated Manasseh H. Smith of Warren for Governor, by a vote of 296 out of 585 cast. Subsequently this nomination was made unanimous.

Speeches were made by Mr. Smith, Shepard Cary and others.

After adopting resolutions endorsing President Buchanan and his administration—condemning the non-voting policy of the Free State men in Kansas—and deprecating any further agitation of the question, the Convention adjourned.

Drowned.—The body of Clarence Mooers, son of Col. R. D. Mooers of Manchester, N. H., who has been missing for a week, was found in the Merrimack, near Martin's Ferry, on Tuesday.

The boy was last seen at the Falls with Norcross' men, Wednesday, and painful apprehensions as to his fate had been excited before his body was found.

Mr. Samuel Grant of West Fairlee, Vt., was drowned in a pond at that place on the 25th ult.

On Saturday last, in Dorchester, Mr. Nelson Sentelier was fishing in a boat upon a pond, and the boat being capsized, he was drowned. He was a native of Canada.

Temperance on the Fourth of July.—Among the many attractions offered on the Fourth of July, is a grand temperance jubilee at the beautiful Island Grove at Abington, Mass. All the schools in that town, will assemble at the Grove, and other towns in the county of Plymouth will send large delegations of youth. Arrangements are making on a large scale for this jubilee, and if the weather should prove fair, it will probably be one of the largest temperance gatherings ever held in Massachusetts.

Poetry.—If the undevout astronomer be mad, an undevout poet must be an anomaly in nature. "Creation has too much of the divinity insinuated into her beauties," says the Rev. Charles Wolfe, "to allow poetry to hesitate in her creed. She demands no proof. She waits for no demonstration. She looks, and she believes. She admires, and she adores."

☞ On the 19th ult., at St. Louis, Mo., three men were hung upon one gallows for three murders, and the Morning Herald says: "all three were brought to their horrible doom by liquor. They were all three drunk when they committed the dreadful acts for which they have suffered. What a terrible warning is this for young men to beware of the fatal cup!"

☞ The funeral ceremonies of the Hon. Stephen C. Phillipps, were attended at the Barton square church in Salem, on Tuesday, by an immense crowd outside the church, as well as in it.—The people mourned.

Soon after four o'clock, the choir sang the hymn, "Rest, spirit, rest," which was followed by readings from the Scriptures. Another hymn was sung, and then the pastor, the Rev. Mr. Thompson, offered an impressive and touching prayer, towards the close of which, probably overcome by his own feelings, he sank back fainting, and was borne from the pulpit. The interruption was brief, a hymn was sung, and a benediction closed the services in the church.

An opportunity was now given to all who desired, to view the body of the deceased, as it laid in its coffin, in front of the pulpit. Almost all of those present, availed themselves of the privilege, and passed by the coffin, taking a final look at the features of their friend, which had undergone little or no change. Three wreaths of fresh flowers, handsomely entwined, rested upon the lid of the coffin.

After the assembly had moved from the church, a procession was formed, consisting of the family and relations of the deceased, in carriages, members of the City Government, children of both sexes and their teachers from the public schools, and citizens generally, on foot. The procession moved to Harmony Grove, where the burial took place.

Business was generally suspended, the places of business and schools were closed, and quite a number of the stores displayed emblems of mourning. The flags of the shipping in port, and also upon the flagstaffs at various points about the city, were displayed at half mast.

Chincha Guano Islands.—A correspondent of the Panama Star, just returned from the Chincha Islands, says full half of the guano is exhausted, and the supply is not likely to hold out much over seven or eight years longer. There were about 200 vessels at anchor round the Islands, loading or waiting their turn in the month of May.

The writer, and extensive traveler, describes the Islands as the strangest of all the strange places he ever visited—"'four dried up heaps of the original mass, of which mother earth consisted before the grass and the herbs, and the living things made their appearance.' The ascent is by a rickety ladder, suspended 140 feet down a perpendicular rock to the vessel lying beneath, where all is life and bustle. Above also the scene is equally lively and picturesque, bigs, babies, mules, women, goats, horses, Africans, Chinese, buzzards, railroad trucks, cane huts, cooking utensils, all mixed up in a most heterogeneous mass and all apparently belonging to one family. As to the atmosphere, it is so impregnated with the offensive depoist that custom can only give endurance.

Trees in Cemeteries.—One of the most picturesque spots, and to us one of the most beautiful, in this vicinity, is Kittery Point. It abounds in tall, graceful, majestic elms, towering high above its modest buildings; and is well supplied with other trees, in considerable variety. A new feature in that landscape, or rather an old one rejuvenated, and beautified, is the old church where the Peppercils worshipped, and Stevens ministered, almost hidden from the harbor, by the trees and the shrubbery in the ancient burial ground.—There had been a few locust and wild cherry trees there for years;—but the annual mowing of the grass kept them from spreading. For some years past, the grass has not been cut, nor fed off,—and now the cemetery is veiled and shaded by a beautiful and fragrant grove.

☞ The proprietors of the Wesleyan Academy at Wilbraham, are erecting a new and commodious building, to take the place of the boarding house, which was burned. It will cost $50,000, and will be ready for use by the commencement of the fall term. Two other brick buildings have been recently erected for the use of the school,—called respectively Fiske and Binney Hall,—at a cost of $30,000. The property of the institution is estimated at $100,000.

☞ Daniel King of Suffield, father of the forger, died on Friday night, of mortification at his son's disgrace. Thus is the unfortunate sinner doubly punished. He was allowed to attend the funeral on Saturday, under the care of the jailor.

A Veteran Pioneer of the West.—A late number of the Chicago Tribune, contains a report of the speech of a veteran of *one hundred and seventeen years*, made at a Pioneer's Festival, at Madison, Wis.

Dr. Freeman of New York says that almost one-eighth of the children under ten years of age, die of hereditary inebriety. He advocates the erection of an asylum for inebriates, and says that eighty per cent. of cases can be cured by such an institution. This is asserted on the strength of experiments and investigations made by Dr. F., and the testimony of other distinguished physicians.

LOOK AT THIS!!!

Mr. Joseph Smith of Haverhill, Mass., wishes to inform the people of Portsmouth, that he is in this city for a few weeks, to make a practical demonstration of his Smith's Curative Cleansing Compound, free of charge, for the cure or special relief of the following ills, viz: Rheumatism, Neuralgia, Ague, Toothache, Headache, Bowel Complaints, &c., which are usually counteracted in a few minutes.

The Proprietor, Mr. Smith, would esteem it a favor, if the people would give him the opportunity of testing the value of his Remedy for the above complaints, before pronouncing him a deceiver, as "many deceivers have gone out into the world." Mr. Smith is able to refer to persons in this city, who have been benefitted by his Compound and Plaster. Enquire of James Raitt; S. Hubbard, High St; J. W. Grant at the Brick Market, whose boy's toothache was cured in half a minute; James W. Nutter, near the Post Office, and many others. Price 25 cents per bottle. jy2 tf

CHAS. G. HARVEY.

Portsmouth, July 1, 1857.

☞ While John Baker was harrowing in a field near Bloomington, Illinois, his two horses took fright and ran off. The harrow was thrown upon its back, with the teeth up, and the horses became entangled in the harness in such a manner as to cause them both to fall on the top of the harrow, the teeth of which penetrated to their vitals and killed them.

☞ Iron Churches, 70 feet long, 40 feet wide, and 20 feet high, capable of accommodating 700 persons, and costing about $5000 each, have been erected, recently, in the neighborhood of London. They are lined with wood, which is covered with canvass, and papered. They can be taken down, and moved to other locations, if desired.

Another Liquor Seizure at East Cambridge.—On Saturday evening, police officer Willey of East Cambridge arrested a man named Matthew Crane for having a quantity of liquor in his possession. Two barrels of ale and sundry jugs of gin and brandy (so called) were seized.

"Boy," said an ill-tempered old fellow to a noisy lad, "what are you *hollerin'* for when I am going by?" "Humph," returned the boy, "what are you going by for when I am *hollerin'*?"

Oxygenated Bitters.—This efficacious medicine has no equal, and a trial will satisfy the most skeptical sufferer that in regard to the power of this remedy too much cannot be said in its praise. It will *cure* Dyspepsia.

Trevorton Coal.

Mined by the Trevorton Coal & Railroad Company, Northumberland County, Pennsylvania.

Office, 13 Trinity Building, New York.

THIS Coal is a free-burning, semi-anthracite, adapted peculiarly for FAMILY PURPOSES—having such properties as will at once upon trial satisfy the most exacting. Invalids who have used it say that it is the *least offensive* of any coal now in use, particularly those affected with LUNG DISEASE. As a SUMMER COAL IT CANNOT BE EXCELLED.

Grass for Sale.

THE SUBSCRIBER offers for sale THE GRASS now standing in six fields, in Newcastle, which will cut from 2 to 7 tons to a field. The Grass will be sold in separate lots, at Public Auction, on or near the lots where it stands, on TUESDAY next, July 7th, commencing at 2 o'clock, P. M. WOODBURY LOUKE.

Newcastle, July 1, 1857.

Wanted,

A MAN to cut by contract from 50 to 60 tons of hay, about 2½ miles from the city.

Also, will be sold at a bargain, about SIX TONS of PRESSED HAY, to make room for new. Apply immediately at the Chronicle office.

Manny's Celebrated Mower

—AND—

MOWER AND REAPER.

IMPROVED.

Built expressly for the New England States.

THE MANNY MOWER has been extensively used for the past two years in New England, and more than six years at the West.—Its success is beyond that of any other Mower or Reaper ever constructed. Over 150 1st *Premiums* have been awarded it, including the *Grand 1st Class Silver Medal* at the WORLD'S FAIR, PARIS, 1856.

With the two past years' *experience*, we have been enabled to make a number of very *important improvements*. We find New England farmers require a different Machine from other sections;—the fields generally being small. It must be *light*, at the same time possess *great strength*; *portable*, with facilities to *raise the cutter to pass obstructions*, and to remove from field to field. A perfect cutting apparatus, to cut the fine grasses without clogging, and so constructed as to *stand* in the grass *without backing*, easily adjusted to cut high or low, and have a Reel to cut equally well with or against the wind, and to be worked with ease by a light team, and so easily managed and simple that any one of common ability may operate it successfully, and to be built in the most thorough manner.

With this knowledge of the farmers' requirements, and with the determination to build a *better* Machine than has ever before been constructed in this country, we offer the Manny Mower of 1857 with confidence, as combining the qualities enumerated above, and as one particularly adapted to meet the wants of New England farmers.

☞ We invite the farmers to call and examine Machines. Orders should be sent early. Circulars, with testimonials, forwarded free, on application.

Price of Mower, $110; with Reaper attachment, $15 Extra. Delivered on board the cars at Worcester, Mass. JOHN P. ADRIANCE & Co., *Manufacturers.*

One of the above Machines can be seen at the store of the Subscriber.

POLICE COURT.

Before Justice Odell—July 1.—Joseph Gordon and John Noyes were accused of an assault on Herman Livingston, with intent to rob him of his goods, [he being a pedlar.] Noyes was not found. Gordon plead not guilty. After hearing the case, the court considered him guilty of the assault, but not of the intent to rob. Sentence, 30 days in jail; pay $10 cost; and give $100 bonds, with good sureties, to keep the peace.

The same Joseph Gordon was accused of profane swearing, in Bridge street, June 30. Plead guilty. Case continued to last Monday in July.

DIAMOND CUT DIAMOND.—A few years since a man from a country town, in this vicinity, purchased and paid for, as he supposed, twenty bushels of corn; but on measuring it at home, discovered that it over-ran five bushels. On his next visit to Portsmouth he called on the dealer, within a mile of Church street, to settle the affair. "I found you made a little mistake in your measure, when I was here before." "We never correct errors," tartly replied the merchant. The farmer turned on his heel to leave, — when the dealer's curiosity prompted him to inquire the nature of the error. "O, nothing, only you gave me five bushels *too much!*" Then was the merchant willing to settle, but the farmer was inexorable.

SAGAMORE HOUSE.—It will be seen by an advertisement in another column, that this pleasant house, situate at Frost's Point in Rye, so well known to our citizens, is now opened for the season. Capt. Towle has been making great improvements about the premises, re-fitting and furnishing the house, clearing up the grounds, and also building a floating landing to obviate the difficulties hitherto experienced by water-parties who have wished to stop there.—Being so near the city, with regular communication both by land and water, it cannot fail to receive the patronage which the natural beauties of the place demand and the courtesy of the landlord merits.

THE BURNT STEAMER.—The Montreal Herald of Monday morning says:

The Montreal on which this sad accident occurred, is not the celebrated steamer so long under the command of Capt. Armstrong, and during that gentleman's time so great a favorite with the traveling public. The unlucky vessel just destroyed was a vessel about two years old, owned and built by Mr. Wilson of Quebec. Her engines were the old ones belonging to the Sydenham. Now that the disaster has occurred, there are plenty of persons to say that they had long foreseen it. It is said that she has been repeatedly on fire during this season. It was generally supposed that she belonged to the Messrs. Torrance of this city; but that is a mistake arising from a confounding her with the old Montreal.

It seems, from rumors which were afloat on board the Napoleon, that the Montreal had been on fire previously while getting up steam, and that precautions had been taken with a view to any such causality as that which finally occurred; but this at present is uncertain. After the fire had been burning for a certain length of time there was a kind of explosion, which destroyed nearly all of the upper part of the vessel that remained after the catastrophe.

It appears that there was no boat on board the Montreal which could be put to the slightest use in saving the passengers. Capt. Rudolph and Mr. Wilson, Jr., son of the owner of the Montreal are said to have saved themselves by swimming to shore.

The Quebec Chronicle of Saturday evening reckons the number of persons on board the Montreal at 400, including 50 raftsmen and 30 cabin passengers.

The steamer Alliance picked up forty-five dead bodies, and took them to Quebec.—The lost are estimated at between 150 and 225.

A passenger informs the Montreal Pilot that when the alarm of fire was given, the passengers became frantic, and jumped overboard in scores, and on the top of each other. Some sank, and never rose; others struggled for some time, and then sank.

A GOOD SPECULATION.—A gentleman residing in Danvers, three years ago this spring, purchased, in Sanbornton, N. H., a mare, paying $175 for her. She was then five years old. He has since owned her, considering her an animal of very fair speed, but as nothing extra in that respect. A few days since a friend persuaded him to try her on the Lynn course. She made a mile in 2.40, and since then has made one-half a mile in 1.14, 1.15 and 1.16. Her owner, last week, refused $1500 for her. —*Traveller.*

GENEROUS DONATION.—A gentleman who does not wish his name known, has given to Princeton (N. J.) Theological Seminary, $10,000, the interest of which is to be appropriated to sustaining poor young men during their course of study in that institution.

☞ The St. Paul Times of the 19th, says the Minnesota Constitutional Convention will stand 60 republicans to 40 democrats.

WASHINGTON, June 29.—Despatches were received to-day at the State Department from Bogota. The imbroglio between the two governments is in a fair way of being speedily and satisfactorily arranged, our government receiving all the satisfaction.

To-day official orders and instructions were sent to Gen. Harney, who is to have command of the Utah expedition. It is to be composed of the 2d Dragoons, the 5th and 10th Infantry, which will shortly be at Fort Leavenworth, together with the battery of the 4th Artillery, now at that post: all of which will be prepared to march to and establish a post at or near Salt Lake City: and at the earliest practicable day, he (Gen. Harney) will put the troops *en route*, but will, until that time, retain his present command of troops in Kansas.

On the 6th of January next, after the territory of Utah shall have been entered by troops, it will constitute a new and separate military deparment, to be styled the "Department of Utah," to be commanded by Gen. Harney or the senior officer present, who will, from the time of leaving Fort Leavenworth, be the commander of a separate army in the field, within the sense of the 56th article of war.

The armament and equipment deemed most suitable for the service of the battery of artillery, will be selected, and if necessary, extended in guns and horses by the commander of the expedition. The post at Salt Lake City, when established, and any other posts, not exceeding two in addition, that may be established in Utah, will be included among the "Chaplain posts," and "double ration posts," of the army. Capt. Duncan leaves here to-morrow, to take charge of the troops now at Carlisle Barracks, intended for the Utah service.

FUNERAL OF CAPT. DRAYTON.—*New Bedford, June* 30.—The funeral solemnities of Capt. Daniel Drayton, were held this afternoon at 3 o'clock, in the City Hall. The Mayor, Board of Aldermen, and Common Council were present. The hall was about two-thirds full. The opening prayer was made by Rev. William Jackson (colored) of this city, after which an address was made by Rev. Mr. Weiss, of the Unitarian church, which was an eloquent tribute to the life and character of the deceased. The concluding prayer was by Rev. Mr. Pennington (colored) of New York. At the conclusion of the services, the Mayor and committee repaired to the Rural Cemetery, and the body was interred. A large concourse of people, mostly colored, went to the burial.

Bus—to kiss, Re bus—to kiss again;—Blunder-bus—two girls kissing each other. Omni bus—to kiss all the girls in the room. Bust-er—a general kisser. *E pluri* bus *unum*—a thousand kisses in one.

THE SECRET DISCOVERED AT LAST.—We have noticed in passing through Market street, lately, that the NEW STORE, No. 15, always seems crowded with customers. We have at last discovered the secret of it. On stepping inside, we find that the proprietors, Messrs. ALLEN & PAINE, in fitting up their store in the beautiful manner they have, had an eye for the useful, as well as for the ornamental; we noticed that the store appeared very light and cheerful, and on looking for a solution of the mystery, we discover that the store contains a Sky Light, giving them facilities for showing their Goods possessed by no other Dry Goods store in town; as Customers by such a light, have no difficulty in seeing just what they are purchasing, and can not be deceived in the color or quality of goods. We notice, also, that their stock is always composed of the best qualities and very latest styles, which is explained by the fact that one of the firm visits the market to replenish their goods every ten days,—and as they buy for Cash, altogether, they are able to offer their goods at as low prices as any other parties.

Those about to purchase Dry Goods will do well to visit them. Read their advertisement in another column.

☞ Tilton & Nowell, at their Union Store, No. 12 Market street, sell the following Medicines at reduced prices:—Dr. Larookah's Indian Vegetable Pulmonic Syrup, warranted to cure coughs, colds, whooping cough, asthma, bronchitis, croup, catarrh, consumption, and disease of the throat and lungs. Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, price 68 cents per bottle.

"IN PEACE PREPARE FOR WAR."—In the days of our youth, it behooves us to make some preparation for the approach of age. How many persons have become prematurely bald by neglecting to apply appropriate remedies to prevent the hair from falling out. The use of Professor Wood's "Hair Restorative" will prevent the hair from falling off, impart to it a healthy growth, and even restore the hair of the bald. Thousands have testified to its efficacy. To be had of Druggists everywhere.

IF ALL OUR READERS

Who are troubled with liver complaint, Jaundice, or Dyspepsia, will read the advertisement in another column of Dr. Sanford's Invigorator, and then do as we have done—get a bottle, we should not see so many sickly, half-dead, despairing people as now meet our gaze at almost every corner, for certainly there never was a remedy invented of which so much is said, and that performs so nearly what its proprietors say it will do. It came to us so highly recommended that we could not fail to try it, and a trial has convinced us, without a doubt, that it is the best family medicine in use. We take it for Headache, Sour Stomach, Biliousness, and any of the little bodily ills that are common, and it does produce a pleasant state of feeling to the sick, and what is better, after using it a few times, these little ills grow less and less, and there is a prospect of being entirely free from them by a continuance in the use of the Invigorator. TO THE CITIZENS OF THE UNITED STATES.
CAUTION TO THE PUBLIC.

After several years experimenting in the manufacturing of Gin, I fortunately succeeded, in the year 1848, in making a discovery in its manufacture by which it was deprived of all acrid and inflammatory properties, and rendered perfectly pure.

My manufactory is at Scheidam, Holland. After several months' negotiation I obtained that title to give it, I introduced it to the American public under the name of "Wolfe's Scheidam Aromatic Schnapps." Scheidam is the name of the place in Holland where the Gin is manufactured. Aromatic derives its name from the Italian Juniper Berry with which it is flavored, and the word "Schnapps" is the German for drink—Cogne, Dram—Wolfe's Scheidam Aromatic Drink. No sooner had my Schnapps been introduced to the American public and received with approbation, than the Liquor Mixers of New York, Boston and Philadelphia, started in pursuit with their mixed and poisonous stuff under various names: Scheidam Gin, Scheidam Schnapps, London Club House Gin, London Cordial Gin, &c., and in several cases my labels have been so perfectly imitated, with only the addition of a few letters to plead a technical avoidance of the law, and so carefully prepared as to impose on careless purchasers. I understand a large quantity has been purchased by the merchants of the Eastern States on account of the cheapness of the articles. A merchant who participates indirectly in the fraud by selling the spurious articles, is as much an offender as the principal who planned the imposition.

I hope every respectable citizen who values the health of the community in which he lives will aid me in ferreting out and exposing the unscrupulous merchant, who, for the sake of a few cents, will put in jeopardy the lives of the community in which he lives. Such men should be nailed to the pillory of popular execration.

WOLFE'S SCHEIDAM AROMATIC SCHNAPPS is made from barley of the first quality, selected with great care from the products of the most celebrated grain-growing districts, is flavored with the essence of the aromatic Juniper Berry of Italy, and is rectified by a peculiar process, which expels from the spirit every acrid particle. As a means of preventing and correcting the disagreeable and often dangerous effects produced upon the stomach and bowels by a change of water—a visitation to which travelers and settlers, and all unacclimated persons in the West, the South and South-West are peculiarly liable—the Scheidam Aromatic Schnapps will be found absolutely infallible; while, in cases of dropsy, gravel, obstructions of the kidneys, diseases of the bladder, dyspepsia, and general debility, it is recommended most emphatically by the most distinguished members of the medical profession.

It is put up in quart and pint bottles, in cases of one dozen, with the name of the undersigned on the bottle and cork, and a fac-similie of his signature and label.

For sale by all respectable druggists and country merchants.

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES,

Prepared by an old Physician of 40 years experience.

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restore nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from a cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. They are all purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes. Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, prepaid, to Dr. C. L. CHEESEMAN, Box No. 4,531, Post Office, New York City, will have them sent to their respective addresses by return of mail.

AYER'S Cathartic Pills,

(SUGAR COATED,)

ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians Philanthropists, and every other Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will do to others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR, WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their rapid influence on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them.

Fraternally yours, ALONZO ALLEN, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

FORT GIBSON, HARTLAND, LIV. CO., MICH., NOV. 16, 1855

DR. AYER: Your Pills are the perfection of medicine they do more my wife more good than I can tell you she had been sick and pining away for months. Was off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife carried him with her a box of your Pills, while others around us paid from five to twenty dollars doctor bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. Experience has proved them to be just what the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MRACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. Her own child was cured by them. We tried your Pills, and they have cured her. ASA MORGRIDGE

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes, of the Methodist Epis. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of medical advice, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, BATON ROUGE, LA., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT SIBLEY.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a **Dinner Pill**, they are agreeable and efficacious.

Fits, Suppression, Paralysis, Inflammation, and even Deafness, and Partial Blindness, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, yet diffused as it is among the people in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American Union, the wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful remedy that the skill of man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the hoarseness and croup that steals upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the timely use of it, than any other medicine. It cures. Keep it by you, and cure your colds while they are curable, and protect them until no human skill can master the incurable ranker that, fastened on the vitals, sends your life away. All know the dreadful fatality of lung disease, and all they know too the virtues of this remedy, we need not depore than to assure them it is still made the best it can be. We spare no cost, care, nor toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. Fenwick & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to perform the duties of his office faithfully. The business connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are well protected as if they lived near enough to present at the drawing. The fact that the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by a special act of that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing next to the place that the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are on the principle of one number on each ticket, after the Havana plan, and Ternary combination. Prizes vary in amount from $20 to $100 '00. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published in the Baltimore commercial in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

Address Y. H. HUBBARD & CO.,
No. 39 Fayette st., or box No. 40,
Baltimore, Maryland.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, who are faithful hands, that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send for tickets in these lotteries, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Whole tickets $5, half $2 50, quarters, $2 50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your orders plainly, and direct to S. SWAN & Co., Atlanta, Georgia.

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18 ly

DYSENTERY POWDER,

Which cures Dysentery, Diarrhœa, Cholera Morbus, and all the affections of the Bowels attended with Pain and frequent Discharges.

This Medicine is now being introduced into all parts of the United States and British Provinces, and great success attends its use everywhere.—These Powders are now offered to the world as a PERFECTLY SAFE AND EFFECTUAL MEDICINE, for the purposes they are recommended and in nine cases out of ten

ONE POWDER WILL CURE THE WORST CASE,

when they are taken in the first stages, and almost invariably *two will effect a permanent Cure;* and unlike all other preparations, which, if they check the disease, leave the person in a condition that requires physic after it, which is not the case with the Dysentery Powders, for they *regulate the Bowels*, tone up the system, and leave it in a healthy state.

These Powders are put up in boxes, with full directions on each box, and sold for 50 cents.

Please try them, if they do not give perfect satisfaction, return them and take your money.

TEMPERANCE IN MANCHESTER.

Thomas Edwards was arrested for keeping and selling spirituous liquors. Some 25 persons, chiefly adopted citizens, were present as spectators.

I. W. Farmer testified that he searched the premises, and found 2 barrels of gin, one nearly full, and a barrel partly full of rum. In the back room was a bar, 3 decanters partly full of liquors, 7 tumblers, spoons, &c. Found a sugar bowl with saleratus in it.

Henry Bennet testified to the same facts as Farmer. He is about 27 years old. The gin and other liquors were of good quality.

J. H. Dinsmore is a watchman. Edwards has occupied the basement under the old saloon for a year past; married a woman who lived there previously. He had supposed that liquor was sold there previous to the search, but did not know it till the search was made.

Edwards was put under $300 bonds to appear before the Supreme Court in September.—*American.*

THE SALISBURY MILLS.—The corporation in this village, heretofore known as the Salisbury Manufacturing Company, has taken the name of the Salisbury Mills. Samuel May is the President, John Gardner, Treasurer; Directors, Edward S. Rand, John Gardner, B. Silsbee, George H. Rogers.

The capital stock of the Company is five hundred thousand dollars, of which no part has been actually paid in, and the par value of the shares is one hundred dollars.

At a meeting of the subscribers to the stock of the Company, held in Boston, on Thursday last, it was voted that all stockholders in the old Company, be allowed to subscribe for three shares of stock in the new Company for each share of stock they owned in the old. It is expected that the shares of the Salisbury Manufacturing Company will produce $300 each.—*Villager.*

OLDER THAN THE OLDEST.—Salem must distance all competitors in the contest for ancient umbrellas. In addition to the specimen mentioned in our last paper, which had been in service for forty-seven years, a gentleman brought to our office, on Monday, an umbrella which he imported from India, in 1817, and its original covering is still in good order, and affords ample shelter for two persons. There is yet a third specimen which beats the crowd. A lady in this city, has an umbrella which has been used for *sixty years*, and which looks down with contempt upon the flimsy pretensions of the modern article, made more for show than for service.—*Salem Register.*

☞ In New York, Saturday night, at No. 196 West 27th street, Casper Albers, a German night scavenger, while engaged in cleaning a cesspool, descended to the bottom of the sink, but on account of the poisonous gas, was hauled up. He soon after went down again, when, before he could be hauled up, he was suffocated.

Tom.—Halloo, Fred, what, you writing poetry? Fred.—Yes, I'm writing an owed (ode) to my tailor. Tom.—what's the time and tune? Fred.—Time sixty days. It's set to notes of mine in his possession.

FRIDAY, JULY 3, 1857.

LAW IN ESSEX.

The Newburyport Herald, speaking of the late Session of the Court for Essex County, says:

Liquor selling has become a dangerous business to the trafficers, and the Liquor Law, a living reality—a dread reality to some, the promise of hope and salvation to others. At the session of the Court of Common Pleas, that closed its labors in this city, last Friday, *twenty-seven* convictions were obtained; and in proportion to the whole number arraigned, the convictions were as large as in any class of crime. Neither age, sex, position in society, or wealth, gave any security. Among the convicts, were several females; some persons in the morning of life, and others, to whom gray hairs had not brought prudence; some who were otherwise without reproach in the community, and some who were under no necessity for pursuing an illegal and injurious business, having wealth sufficient for their day—one of them at least being worth from twenty-five to thirty thousand dollars. And this was done under circumstances as favorable to the liquor dealers as are likely to occur; and the carting of twenty-seven persons at one time, to the county house, to be locked up with felons and prostitutes, ought to be convincing that the law is hereafter to be applied for the suppression of intemperance.

The success of the District Attorney in obtaining convictions, we think, is due in a great measure, to his cautious and judicious actions. Among the convicts, we do not hear of any, where public opinion would not justily and demand the verdict, and where it would not be approved by even liquor sellers, who have any idea of respecting law, preserving peace and order in society, or protecting the sanctity and virtue of homes. They have been cases where the rum business was the principal business of the parties, or where they were forgetful of the rights and interest of others. And who will say that the traffic in such hands should not be suppressed—a traffic that wastes the hopes of thousands, robbing helpless infancy in its cradle, the virgin bride at the altar, and the mother oppressed with gloom, covered with bitterness, and bowed in tears? Who will say that such business sending its surging waves of misery over the land, overwhelming families in unutterable desolation, and casting down the household gods, loved more than life, should not be stayed? Who will say that the tide of unliconsed plagues, unnumbered crimes and nameless woes, that bears the bodies of strong men rapidly to the grave, and blasts and mildews every fair feature of the soul, should not be resisted? We hope the lesson of the last court will be heeded on all hands, for it cannot fail to show others, than the class which has now been dealt with, how open they are to assault, and how, by accident or abuse, they may find themselves less happily situated than in their pleasant homes and happy families. The city government has certainly provided all the agencies for the sale of spirituous liquors that the public good demands, and the unauthorized are without excuse.

One conviction was obtained in a case of interest to real estate owners—under the law of 1855, which places buildings used for the illegal sale or keeping of intoxicating liquors, in the same category with houses for gaming and prostitution—to be deemed common nuisance. By that act, not only is the person keeping such a place liable to fine and imprisonment, but also the proprietor of the building may be fined not more than $1000, and imprisoned not more than six months. If we do not mistake, that law will have a more general application—especially in the case of saloons—at future sessions of the court.

☞ It is reported that Mrs. P. T. Barnum and family sailed for Europe on Wednesday, in the steamship Canada, there to rejoin her husband, who intends to make Hungary his future home, having saved enough from the wreck of his fortune to enable him to live in comfort, if not affluence, the remainder of his days.

☞ The Lowell Courier learns that Mr. Isaac W. Norcross was not on board the steamer Montreal, last Friday. There was some mistake in the name, as he has been heard from at Three Rivers since the disaster.

☞ A Young Men's Christian Association has been formed at Saco and Biddeford, Me., and Seth Scammon chosen President, and Leonard Andrews, Charles Hill, Daniel Stimson, Charles C. Sawyer, and Thomas H. Cole, Vice Presidents.

COMMENCEMENT AT TUFTS COLLEGE.—The First Commencement of Tufts College will take place on Wednesday, July 8th. An oration by E. P. Whipple, Esq., and a poem by Rev. R. A. Ballou, will be delivered before the united literary societies of the College.

☞ It is a penitentiary offence in Ohio to use "strychnine" in the manufacture of whiskey. A large manufacturing house in that State sent 200 barrels to Cincinnati, and sufficient poison was found in one barrel to kill thirty men. The liquor was returned, and the manufacturer suffered to run at large.

VERMONT.—The General Convention of Congregational ministers of Vermont met at Bennington June 16th.

On the subject of correspondence with the General Assembly, O. S. of the Presbyterian church, a series of resolutions were passed, the 3d of which is as follows:

That, whereas the said General Assembly by its late action has signified its discontinuance of the fraternal correspondence heretofore existing with all the Congregational bodies of New England, therefore *resolved* that this convention acquiesce in such action, and especially in view of that Assembly's continued complicity with slavery.

A resolution was passed, expressing satisfaction with the recent action taken by the New School Assembly on the subject of slavery.

The late anti-slavery rule of the American Home Missionary Society was approved of in a resolution as follows:

Resolved, That the rule adopted by the American Home Missionary Society, relative to aiding churches containing slaveholding members, meets our cordial approbation.

With respect to the late rule of the American Tract Society, the Convention adopted the following resolution:

Resolved, That the rule recently adopted by the American Tract Society, relative to publishing tracts on the evils associated with slaveholding, is in accordance with principles long held by this body, and meets with our cordial approbation.

The following resolution was passed respecting the recent decision of the U. S. Supreme Court:

Resolved, That this Convention view with deep concern the recent decision of the Supreme Court of the U. S., in the Dred Scott case, so called, deeply affecting the civil and religious rights of more than three millions of the people of the United States.

The statistics are summed up thus: We have 193 churches, 139 ministers, of which 69 are pastors, the remainder stated supplies. There have been 289 additions to our churches, and 189 deaths. The whole present number is 16,962, being 531 less than the number reported last year, while at the same time the returns of additions and removals would show an increase of 84 members. This discrepancy doubtless arises from the fact that churches are constantly dropping the names of absent members, without any record of the act.

☞ The thirtieth annual meeting of the Cheshire Conference of Congregational Churches was held at Rindge, June 10th and 11th, and was well attended both by the people of the place and delegates from the churches. All the acting pastors—14 in number—and 5 of the 6 stated supplies were present.

They adopted the following resolutions on the subject of Temperance:

Resolved, That we, as a conference of churches in Cheshire Co., have entire confidence in the intrinsic value of our prohibitory temperance law: and that, if enforced, it would accomplish the object it contemplates.

Resolved, That although the law itself is good, yet it is necessary *now* as ever to keep up temperance organizations in every town; to use moral suasion to induce *all*, especially the *young*, to sign the pledge; and to enforce the law.

COST OF CHURCH MUSIC.—The Watchman says that the expense of the singing in a church, not more than a thousand miles from Boston, has been computed to be an average of one dollar for every stanza sung.—*New England Farmer.*

The Watchman might have stated with truth, that there were a score of churches in Boston, where the expenses of music were more than the sum above named, without adding in, the interest of the cost of the organ. Some of the churches would make quite a saving by contracting to have their music performed at a dollar per stanza sung.—*Boston Trav.*

Well, that's cheap enough—and is less pay for the service rendered, than any other officials of the same churches receive, doubtless.

☞ The number of Congregational Churches in Michigan, as reported to the General Associations of that State, is 109, of ministers 94, and of members 5396.

There are 226 Congregational Churches in Maine, containing 16,780 members.

There are reported 400 Congregational Churches in the State of New York.

☞ Rev. J. E. Rankin was installed pastor of the Congregational Church in St. Albans, Vt., on the 24th ult. He is a son of the Rev. Andrew Rankin, formerly pastor in Thornton and Salisbury, in this State, and now residing in Chester, Vt.

☞ Rev. Joseph B. Hill has removed from Colebrook to West Stewartson, N. H.

ADVANCE WAGES TO SEAMEN.—We understand that the agreement not to pay advance wages to seamen hereafter, has received the signatures of a large number of our merchants and ship-owners, and there is a good prospect of its ultimate success. *Boston Trav.*

We like this anecdote of old John Leland. He wore, according to the custom of his day, a tri-cocked hat. A good brother took him to task for following such a fashion. The old man took off his tri-cock, and extended it to the reprover, simply remarked, "Brother, if there is any more religion in your hat than in mine, I'll swap with you."

Mr. Joseph Smith of Haverhill, Mass., wishes to inform the people of Portsmouth, that he is in this city for a few weeks, to make a practical demonstration of his Smith's Curative Cleansing Compound, free of charge, for the cure or special relief of the following ills, viz: Rheumatism, Neuralgia, Ague, Toothache, Headache, Bowel Complaints, &c., which are usually counteracted in a few minutes.

The Proprietor, Mr. Smith, would esteem it a favor, if the people would give him the opportunity of testing the value of his Remedy for the above complaints, before pronouncing him a deceiver, as "many deceivers have gone out into the world." Mr. Smith is able to refer to persons in this city, who have been benefitted by his Compound and Plaster. Enquire of James Raitt; S. Hubbard, High St.; J. W. Grant at the Brick Market, whose boy's toothache was cured in half a minute; James W. Nutter, near the Post Office, and many others. Price 25 cents per bottle. jy2 tf

We call attention to a medicine advertised in our paper, for sale by J. H. Thacher and W. R. Preston,—for the cure of Dysentery, Diarrhea, and other affections of the Bowels. If what is said of it is true, by those that have given it a trial, it should be used in every family. No medicine is more worthy of universal commendation than Dr. Wilson's Dysentery Powders.—Please try them. july2 2w

The Great English Remedy.
SIR JAMES CLARKE'S
Celebrated Female Pills.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

It is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females that are pregnant, during the FIRST THREE MONTHS, as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics, and Whites, these Pills will effect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel, antimony, or any thing hurtful to the constitution.

Full directions accompany each package.

Sole Agent for the United States and Canada, JOB MOSES, (late I. C. BALWDIN & CO.,) Rochester, N. Y.

SPIRITUALISM.—The following report of the Committee upon the question in controversy between the Boston Courier and Dr. H. F. Gardner, a prominent spiritualist, will be read with interest. We give their award in full:

The Committee award that Dr. Gardner, having failed to produce before them an agent or medium who "communicated a word imparted to the spirits in an adjoining room," "who read a word in English, written in a book, or folded sheet of paper," who answered any question "which the superior intelligences must be able to answer," "who tilted a piano, without touching it, or caused a chair to move a foot;" and having failed to exhibit to the Committee any phenomenon which, under the widest latitude of interpretation could be regarded as equivalent to either of these proposed tests, or any phenomenon which required for its production, or in any manner indicated a force which could technically be denominated Spiritual, or which was hitherto unknown to science, or a phenomenon of which the cause was not palpable to the Committee, is, therefore, not entitled to claim from the Boston Courier, the proposed premium of five hundred dollars.

It is the opinion of the Committee, derived from observation, that any connection with Spiritualistic Circles, so called, corrupts the morals, and degrades the intellect. They, therefore, deem it their solemn duty to warn the community against this contaminating influence, which surely tends to lessen the truth of man and the purity of woman.

The committee will publish a report of their proceedings, together with the results of additional investigations and other evidence independent of the special case submitted to them, but bearing on the subject of this stupendous delusion.

IMPRESSING A POLICE OFFICER.—In Jones' Wood, on New York Island, some two hundred rowdies collected on Sunday afternoon, and were enjoying themselves hugely in witnessing a prize fight between "Lynch" and "Sweeney," when officer Cannol found his way to the spot, and moved an adjournment. This was not only voted down, but the officer was inducted into the ring, the managers insisting on his remaining, to keep order and see the fun. After a long time, he managed to escape from his unexpected duty, and after raising a strong police force, returned to the wood, dispersed the mob, and captured seven.—*Trav.*

Stocking Weavers' Strike.

PORTSMOUTH, JULY 2, 1857.

To the inhabitants of Portsmouth and its vicinity:

WE, the undersigned, wish to call your attention to the present Strike of stocking Weavers in this city. We think to awake your sympathy when we place before you the reasonable excuse for such strike. The trade is spread, more or less, through the States; and for the kind and quality of work as made in Portsmouth, nowhere can we find that the workmen are making it at so low a rate as here. In Massachusetts, where the same kind of work is made, and with one and the same market, the workmen receive at the rate of 20 per cent. and upwards over us.

We appeal to every reasonable man, and ask whether it is right that we should make goods equal to those made in other places, for so much less? If we have submitted to a reduction of prices in time past, can we not with confidence ask for a renewal of the former rates, or at least for an equal fight with others? We have borne the grievance too long—but now necessity has forced it upon us to remonstrate. House rent, fuel, food, clothing,—all these have steadily increased in price; in fact, it has become a problem with us how are we to live by our labor?

Signed, by order,

WILLIAM ALTON, JOSEPH WAIN,
JOHN JENKINS, JAMES MURBY,
1w jy3 JOHN ARNOLD.

Executive Nominations.

JUNE SESSION, 1857.

For School Commissioners—Hiram Smart of Plaistow, for Rockingham Co.; Charles F. Elliott of Somersworth, for Strafford Co.; King S. Hall, Laconia, for Belknap Co.; Edwin R. Perkins, Tamworth, for Carrol Co.; Stephen S. Bean, Bradford, for Merrimack Co.; John H. Goodale, Manchester, for Hillsborough Co.; Sullivan H. McCollister, Swanzey, for Cheshire Co.; Williams Barton, Croydon, for Sullivan Co.; James W. Patterson, Hanover, for Grafton Co.; George H. Pinkham, Shelburne, for Coos Co.

Bank Commissioners—John L. Rix, Haverhill, Charles J. Ammidon, Hinsdale, Geo. C. Peavey, Strafford.

Insurance Commissioners—Albert S. Scott, Peterboro, Jacob H. Ela, Rochester, Lorenzo Day, Enfield.

William W. Stickney, Exeter, Judge of Probate for Rockingham Co.

Daniel G. Rollins, Somersworth, Judge of Probate for Strafford Co.

Asa Freeman, Dover, Register of Probate for Strafford Co.

David Pillsbury, Concord, Special Justice of Police Court.

John R. Varney, Dover, Justice of the Police Court.

INSANE ASYLUM.—From the Report just issued, it is shown that since its opening in 1843 there have been 1476 patients admitted to this institution. The present number is 170. Rockingham furnishes the largest number 18, Grafton 16, and Hillsboro' 15. Dr. Bancroft, the new superintendent, is giving satisfaction as an industrious and prudent manager.

NORTH AMERICAN REVIEW.—The July number of this sterling quarterly contains nine articles, as follows: 1. Life and Works of John Adams; 2. Mechanism of Vital Actions; 3. Present Geography of Palestine; 4. Sacred Latin Poetry; 5. Greek Proverbs; 6. Trees and their Uses; 7. Haven's Archæology of the United States; 8. The Imagination in Mathematics; 9. Turnbull's Life Pictures. The critical notices are, as usual, an interesting feature of the Review. The paper on the "Mechanism of Vital Actions," from the pen of Oliver Wendell Holmes, M. D., will attract especial attention.

BREADMAKING IN ENGLAND.—The women of England must be more fond of breadmaking than our fair countrywomen, from the statement in Miss Eliza Acton's new work entitled "The English bread book," that every woman in the country of Suffolk, England, knows how to make bread, and in the town of Bury, with 60,000 inhabitants, there are only two public bakers."

LOCAL.

☞ A dangerous Incendiary has been discovered in our midst. It would do no good to fine him: for imprisonment he cares nothing:—but he should be taken care of, and put into the shades, for his own safety, and that of the public.

He may now be seen, and his work examined, at the work-shop and furniture store of Mr. Samuel M. Dockum, on Daniel street in this city, where furniture is not only manufactured, but repaired and made as good as new.

Last Saturday, a customer had brought to the shop, a very large hair mattress, which was emptied of the hair, and then the ticking or cover of the mattress was thrown over an old mahogany book-case, which stood leaning against a work bench on the east side of the shop, opposite a window.

On Monday morning, it was perceived the mattress covering was entirely consumed, excepting a few very small rags; that a large hole had been burned through the top of the book-case, and a quantity of ashes had fallen inside; and strangest of all, that the fire had gone out of itself.

But who was the incendiary? There he stood on the bench, unhurt, "calm as a summer's morning," in the shape of a large burning-glass, or magnifying mirror, of about 5 inches in diameter. This was in a mahogany frame or stand, and was so located, as accidentally to concentrate the rays of the Sun, early on Sunday morning, upon the ticking, and set it on fire. The shop was closely shut, and probably the fire did not blaze at all,—but in due time, died out. The reason why, we cannot tell, but the escape is remarkable, and the danger worth guarding against.

☞ It will be seen by an advertisement, that some Stocking Weavers of this city refuse to work at the present prices paid for their labor. We know nothing of the merits of the matter—as it is new to us, and probably to most of our readers, that there is such a strike—the which, we are told, has existed for a couple of weeks or more. There are said to be upwards of thirty weavers who have refused to fly the shuttle longer, at the old prices. They state that while Portsmouth Hosiery ranks higher than any other brand, and sells for rather better prices, yet the workmen receive less pay than elsewhere. This should not be so; and should not be thus stated, if it is not correct.

REAL ESTATE SOLD.—Henry F. Wendell, auctioneer, sold on Thursday the double house on Daniel street, formerly the mansion of Hon. Elijah Hall, deceased, for $1500. Also, the house nearly in the rear of the one just named, and fronting on Lincoln street, for $1100. Both houses belonged to heirs of the late Thomas Fernald.

SEMI-ANNUAL DIVIDEND.—The Hartford Fire Insurance Co. have declared a semi-annual dividend of 10 per cent. John Sise, No. 5 Market Square, is agent for the above reliable company for Portsmouth and vicinity, and issues policies at the usual rates.

☞ Rev. Seth W. Perkins will preach at the Hanover st. Chapel next Sabbath.

MRS. PARTINGTON ON BUNKER HILL.—"Who is the committee of derangements?" asked Mrs. Partington, as she attempted to storm the redoubt on the 17th, and was stopped by a man with "Police" on his hat. "They are all a committee of derangements, I should think," said a voice at her side, and old Roger's face was seen beaming from beneath a summer hat.—"Can you tell me," said he to Mrs. Partington, "why we are all like the quakers?" She told him that she could not tell. "It is," continued he, "because we are a stayed people." "Well, that is true," replied she, "but they shouldn't stay revolutionary heroes." "Are you a revolutionary hero?" said the official, slightly smiling.—"No, I'm one of the sheroes," retorted she, "and I want to go up to the redoubtable works on the hill." "You cannot without paying a dollar, ma'am," said the officer. "That," put in old Roger, "is the difference between '75 and now—then the doings were dolorous and now they are dollarous." The official looked firm, Mrs. Partington indignant, old Roger jocular, while like crawled in between the legs of the people, and was seen a moment afterwards, streaking it up over the hill, chased by three policemen.—*Sat. Eve. Gaz.*

WASHINGTON, July 2.—A tremendous hailstorm passed over Fredericksburg yesterday, accompanied by terrible thunder, and hailstones as large as hen's eggs. All the windows on the windward side of houses were demolished, and all the magnets in the telegraph offices burnt except one.

The railroad from Aquia Creek to Fredericksburg is badly washed, and both trains suspended.

The damage to crops must be immense.

IMPORTANT DECISION.—*Albany, July 2.* The Police Bill is declared constitutional by the Court of Appeals by a majority of 6 to 2, Judges Brown and Comstock dissenting.

FEARFUL EXPLOSION.—In Chicago, on Monday, a man named James Pryor was engaged in making fireworks in his room in a large, solidly constructed stone building at 308 Main street, when an explosion took place, blowing the floor above and the floor below into ruins, so as to make one room of the three stories. A brick partition was destroyed, eight or ten adjacent rooms wrecked, and the rear wall partly blown out. The building was used for attornies' offices and tenements for the poor, and several of the latter were dug out of the ruins in the cellar; Pryor was the only person who was much injured, and is in a dying state. This is the second time he has met with a similar accident, the previous explosion having taken place in New York when his wife was blown up.

The interior of the building presents a curious appearance, the floor of the upper story, where most of the tenements were, remaining untouched in its elevated position. The damage to the building amounts to $5000, which falls upon the owner, Wm. Hepworth. P. Volkans frame maker, lost $1000; while a number of poor Italian and German pedlars, lost more than they could afford. Had the accident occurred a few hours later in the evening, when the dormitories would have been occupied, the loss of life must have been fearful. The report was deafening, and was heard at a distance of one or two miles.—*Traveller.*

BURLINGTON, Vt., July 1.—The Vermont Republican State Convention was held in this city to-day, and was fully attended. The following nominations for state officers were made: for Governor—Byland Fletcher, of Cavendish; Lieut. Governor—James S. Slade, of Middlebury; Treasurer—Henry M. Bates of Northfield. A series of resolutions were adopted, of the most Republican stamp.

NEWBURYPORT POLICE COURT.—Stephen Ordway, convicted of making two sales of intoxicating liquors, was sentenced to pay a fine of $20 and costs, and to be confined at hard labor in the House of Correction, Ipswich, for the space of 60 days. Stephen stated to the Court that he thought it rather hard, inasmuch as he had been open but two days, and the gross receipts were but $7 1-2 cents. The sales were made at the "Fish Market Saloon." The former proprietor was convicted at the last term of the Court, and is now on a visit at the "County's Home" in Ipswich.

Mr. William Jameson, for christening a child of Mrs. Ingalls, by sprinkling upon its face a little cold water, he not being legally authorized to perform this ceremony, was fined two dollars and costs. Appealed. It seems the child had annoyed the defendent by calling him "nigger," and to rid himself of the annoyance he resorted to the water bucket.—*Herald.*

THE SECRET DISCOVERED AT LAST.—We have noticed in passing through Market street, lately, that the NEW STORE, No. 15, always seems crowded with customers. We have at last discovered the secret of it. On stepping inside, we find that the proprietors, MESSRS. ALLEN & PAINE, in fitting up their store in the beautiful manner they have, had an eye for the useful, as well as for the ornamental; we noticed that the store appeared very light and cheerful, and on looking for a solution to the mystery, we discover that the store contains a Sky Light, giving them facilities for showing their Goods possessed by no other Dry Goods store in town; as Customers by such a light, have no difficulty in seeing the stock that they are purchasing, and can not be deceived in the color or quality of goods. We notice, also, that their stock is always composed of the best qualities and very latest styles, which is explained by the fact that one of the firm visits the market to replenish their goods every ten days—and as they buy for Cash, altogether, they are able to offer their goods at low prices as any other parties.

Those about to purchase Dry Goods will do well to visit them. Read their advertisement in another column.

☞ Tilton & Nowell, at their Union Store, No. 12 Market street, sell the following Medicines at reduced prices:—Dr. Larookah's Indian Vegetable Pulmonic Syrup, warranted to cure coughs, colds, whooping-cough, asthma, bronchitis, croup, catarrh, consumption, and disease of the throat and lungs. Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, price 68 cents per bottle.

"IN PEACE PREPARE FOR WAR."—In the days of our youth, it behooves us to make some preparation for the approach of age. How many persons have become prematurely bald by neglecting to apply appropriate remedies to prevent the hair from falling out. The use of Professor Wood's "Hair Restorative" will prevent the hair from falling off, impart to it a healthy growth, and even restore the hair of the bald. Thousands have testified to its efficacy. To be had of Druggists everywhere.

IF ALL OUR READERS

Who are troubled with liver complaint, Jaundice, or Dyspepsia, will read the advertisement in another column of Dr. Sanford's Invigorator, and then do as we have done—get a bottle, we should not see so many sickly, half-dead, despairing people as now meet our gaze at almost every corner, for certainly there never was a remedy invented of which so much is said, and that performs so nearly what its proprietors say it will do. It came to us so highly recommended that we could not fail to try it, and a trial has convinced us, without a doubt, that it is the best family medicine in use. We take it for Headache, Sour Stomach, Billiousness, and any of the little bodily ills that are common, and it does produce a pleasant state of feeling to the sick, and what is better, after using it a few times, those little ills grow less and less, and there is a prospect of being entirely free from them by a continuance in the use of the Invigorator. Manny's Celebrated Mower

—AND—

MOWER AND REAPER.

IMPROVED.

Built expressly for the New England States.

THE MANNY MOWER has been extensively used for the past two years in New England, and more than six years in the West.—Its success is beyond that of any other Mower or Reaper ever constructed. Over 150 1st *Premiums* have been awarded it, including the *Grand* 1st *Class Silver Medal* at the WORLD'S FAIR, PARIS, 1856.

With the two past years' *experience*, we have been enabled to make a number of very *important improvements*. We find New England farmers require a different Machine from other sections;—the fields generally being small. It must be *light*, at the same time possess *great strength*; *portable*, with facilities to *raise the cutters to pass obstructions*, and to remove from field to field. A perfect cutting apparatus, to cut the fine grasses without clogging, and so constructed as to *stand* in the grass *without backing*; easily adjusted to cut high or low, and have a lever to cut equally well with or against the wind, and to be worked with ease by a light team, and so easily managed and simple that any one of common ability may operate it successfully; and to be built in the most thorough manner.

With this knowledge of the farmers' requirements, and with the determination to build a *better* Machine than has ever before been manufactured in this country, we offer the **Manny Mower** of 1857 with confidence, as combining the qualities enumerated above, and as more particularly adapted to meet the wants of New England farmers.

☞ We invite the farmers to call and examine Machines. Orders should be sent early. Circulars, with testimonials, forwarded FREE, on application.

Price of Mower, $110; with Reaper attachment, $15 Extra. Delivered on board the cars at Worcester, Mass. JOHN P. ADRIANCE & Co., *Manufacturers.*

One of the above Machines can be seen at the store of the Subscriber.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Examinations, Reports, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research made into American or Foreign works, to determine the validity or utility of Patents or inventions,—and legal or other advice rendered, in all matters touching the same. Copies of the claims of any Patent issued, by remmitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which are offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL, AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and the records of patents granted by the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the ablest, honest and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy. He is also capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,

Commissioner of Patents.

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain in restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring on the menses in a regular channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health so long as she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the various ills which a remedy has been the cause of so many confsumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always wait on them the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to the life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, prepaid, to Dr. C. J. Cheeseman, Box No. 4,581, Post Office, New York City, can have them sent to their respective addresses by return of mail.

AYER'S Cathartic Pills,

(SUGAR COATED,)

ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach

Philadelphia, Pa., Dec. 1, 1856.

DR. J. C. AYER, Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will do for others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PEARLE, *Clerk of Steamer, City of Scotland.*

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR, WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we have. Their prompt regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of the organs. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them.

Fraternally yours, ALONZO BALL, M. D., *Physician of the Marine Hospital.*

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., NOV. 16, 1855

DR. AYER: Your Pills are the best cathartic medicine they have done my wife more good than I can tell you She had been sick and pining away for months. Went off to be cheered at great expense, but returned no better. She then commenced taking your Pills, which soon cured her by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors bills, and for much time lost, without benefit, very many even then. Such a medicine as yours, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. T. P. Hines, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best medicine I have ever known, and I can confidently recommend them to be just what they are claimed to be.

Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Prominent Physician of St. Louis, Mo., 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her, too. A. S. MERCHANT.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church,

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my joints, and I was crippled with rheumatic neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SIMON CHANNEL, EDISTO BEACH, S. C., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT RUTHELL.

For Dropsy, Plethora, or Kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a **Dinner Pill,** they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness,** and **Partial Blindness,** have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, INCIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in our civilized country, but can testify from some personal experience of its effects; and fewer yet the communities say where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while you can. Neglected, nor respect them until no human skill can master the internal cankers that, fastened on the vitals, eats your life away. All know the dreadful fatality of neglected lung diseases, and as they know too the virtues of this remedy, we need not dwelling more than to assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and it is warranted to do all that it is the best agent which our skill can furnish for their cure.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRANCIS & Co are the managers, are authorized by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another feature they have contrived, is a guarantee that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices are from $1 to $100 each. No tickets sent, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket; other lotteries have 12 and 20 Ternary combination. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: The Sun paper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

Address J. H. HUBBARD & CO.,

LOTTERIES.

THE Lotteries of Samuel Sims & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with them is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the Lottery is authorized by a special law, enacted by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received before filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. Prizes vary in combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—*New Orleans Delta, Mobile Register, Charleston Standard, Nashville Gazette, Atlanta Intelligencer;* and *New York Weekly Day Book.* Write your address plainly, and direct to SAMUEL SIMS, Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

COUNTERFEIT LIQUORS. — INTERESTING STATEMENT.—The London Times notices in a list of joint stock companies in Paris, formally sanctioned by the prefect of police,—the name, "General company of fictitious or counterfeit wines." The company boldly state that no grape juice or alcohol is used, but do not specify the ingredients. The article is sold at from four to eight sous per quart, and the company has a capital of six million francs.—These liquors are of course, sold as genuine. Our markets are flooded with spurious liquors, and no one can tell when he buys a genuine article.

The Springfield Republican says, that an informant of that paper was on a visit to a friend, a liquor dealer in a western city, and in the space of an hour he saw him transform a barrel of high wines into "pure French brandy." The barrel was stamped with the Custom House brand, and had all the appearance of a sea voyage. The manufacturer poured in the basis of the ingredients (the high wines) and then, having scented it with about two ounces of the oil of Cognac, added a pailfull of a compound which he had mixed from one bucket to another, and which was to give to it its taste and color. The component parts of this last mixture were absolutely *poisons*, directly destined to sap the energy and finally destroy the life of the poor victims to a habit that leads them to the use of such stimulants. Upon this barrel, the manufacturer would make over two hundred dollars, and the retailer probably as much more. When such facts are taken into consideration, there is no wonder that a prohibitive law is demanded for the suppression of the traffic—*Traveller.*

HE DRINKS!—How ominous that sentence falls! How we pause in conversation, and ejaculate—"It's a pity!" How his mother hopes he will not when he grows older; and his sisters persuade themselves that it is only a few wild oats that he is sowing. And yet the old men shake their heads and feel gloomy when they think of it. Young men, just commencing in life, buoyant in hope, don't drink! You are freighted with a precious cargo. The hopes of your old parents, of your sisters, of your wives, of your children—all are upon you. In you the aged live over again their young days; through you only can the weary one obtain a position in society, and from the level on which you place them, must your children go into the great struggle of life.

SATURDAY, JULY 4, 1857.

BUCKMINSTER, WALTON, AND BALLOU.

To-day we publish the third letter of the series, viz: a second letter from Rev. Dr. Buckminster to Mr. Ballou. This letter, in its earnest, anxious and distressed tone, reminds us of a letter, similar in these respects, from Dr. Buckminster to his son, Rev. J. S. Buckminster of Boston, whose Unitarianism the father deplored as deeply as he did the Universalism of his neighbor Ballou. The piety, active conscience and passionate affection of Buckminster, as exhibited in this letter, were precisely what gave pathos and unction to his preaching. His sharp rebuke of what he deemed dangerous and destructive error, in his first letter, and his shrinking from controversy in this his second, are in perfect accordance with the character of his writings and preaching, in which the rhetoric was often beautiful and sometimes splendid;—but the logic was scanty and superficial.

FROM MR. BUCKMINSTER TO MR. BALLOU.

PORTSMOUTH, Jan. 10, 1810.

Dear Sir,—It was not my intention, in the letter which I some time since addressed to you, to enter into a discussion on the subject of Universalism, much less, for reasons that were suggested, provoke a dispute upon it. I therefore endeavored so to express myself that no reply should be necessary.

My object was to discharge what I thought a duty of friendship and affection, rendered more necessary by my personal declarations to you at my house, by stating to you with frankness and decision what I was persuaded would be the final result of that sentiment which you have embraced, and are advocating among us; and to fulfil a duty which I owe to myself, and to Him who has set me here to be a watchman, that I might use every proper precaution to appear before my Judge at last with unstained garments, preclude an occasion for a crimination and reproach, and give up my account with joy and not with grief.

I might have a secret hope that the apprehensions so candidly and seriously suggested, might excite you to review your sentiments, and renewedly compare them with the only standard, and that this serious, calm and retired exercise might be accompanied with an influence from above, that might alter your views and conclusions upon the subject; but my principal design was to discharge what I thought my duty, as above stated.

You have thought it your duty to remark upon the address, and intimate an expectation that I should rejoin; your professions and candor have induced me for a time to hesitate whether I ought not, in this instance, to depart from my general resolutions, and this hesitation has had influence on my delay to notice your letter. But the result of my hesitations, reflections and prayer, is a more full persuasion, "that if the writings of Dr. Edwards, Dr. Strong and others who have discussed the subject, and which doubtless you have seen, have produced no hesitation or conviction in your mind, it would be vain and idle to expect it from any efforts of mine; and that it would be a misuse of time which might be employed in more hopeful prospect of usefulness. This is a reason which I at present feel satisfied to give to God and my conscience for declining to enter upon a discussion of this subject, and I trust it will be accepted at the tribunal of God. To that tribunal I humbly and cheerfully refer the decision of the question that would be matter of dispute between us, from which decision there will be no appeal, and to which there will be no liberty to reply. I reciprocate the tender of every office of friendship consistent with what I think my duty to God and my conscience, and shall not cease to pray that those who have erred from the truth may be recovered from their errors, and being sanctified by the truth, may be saved in the day of the Lord Jesus.

Your friend and well wisher,

J. BUCKMINSTER.

☞ There were several cases of small-pox on board the steamer Clara, when she visited the upper Mississippi, last year. It was afterwards ascertained that the dreadful malady found its way about the same time into the lodges of a certain tribe of Indians, and made fearful havoc, sweeping away a large part of their number, and almost depopulating one or two of their villages. The surviving Indians of that tribe are, to this day, greatly incensed against the Clara, and speak of her in terms of hatred and vindictiveness.

FOOT RACE.—We learn that a 15-mile foot race is to come off at the Granite State Trotting Park in Dover, N. H., on Saturday afternoon, July 4th. John Stetson of Boston, the well known pedestrian, is to run 15 miles in one hour and 40 minutes, for a purse of $300. If the weather should prove unfavorable, the race will be postponed till Monday next.

☞ George Bixby, one of the Rochester clothing thieves, broke jail at Dover on Tuesday night, and left for parts unknown. $50 reward has been offered for his arrest.

A MAN SHOT BY A SUNDAY SCHOOL TEACHER IN SELF DEFENCE.—The Washington Star gives an account of an affray which occurred on Sunday in Fairfax Co., Va.—Manual A. Austin, a student at the Virginia Theological (Episcopal) Seminary, near Alexandria, is teacher or superintendent of the Sunday school at Mount Carmel meeting house, a missionary station connected with the Seminary, and situated near what is termed "Ball's ⋊ Roads," in Alexandria county. At this church on Sundays, gangs of young men have repeatedly congregated to insult the children and teachers as they passed by.—Young Austin had even been threatened with death if he persisted in going to church; and being fearful of his life, he armed himself, and, being attacked on Sunday he shot one or his assailants, James H. Birch, killing him. The testimony taken on the inquest shows that, on the appearance of Austin at the church, he was attacked by three young men, who struck him with stones and clubs in the face; that James Birch, on intercepting Austin at the school room door, seized him by the hair of the head by one hand and by the leg by the other hand; that Austin asked Birch to let him alone, as he did not want to shoot him; that Austin retreated as far as he could with several of the parties kicking and beating him; that Austin fired three shots, retreating after each shot; and that the third took effect in the region of Birch's heart, killing him almost instantly.

A NOVELTY AT BUENOS AYRES.—A correspondent, Mr. Brackett, who has just arrived from Buenos Ayres, writes to us as follows:

"It is a matter of no little surprise that under a government professedly republican for half a century, no Governor has hitherto served the full term of his administration, save the one who has just retired—all but him having either been assassinated or forced to fly to save their lives. On May 6th, occurred the inauguration of the new Governor, D. Valentine Alsina. The elections passed off quietly, being unattended by any of those outbreaks and bloodshed which have ever characterized the elections of former years. Pastor Obligado, his predecessor, on retiring from office, returned unmolested to his family, where his numerous friends, the retiring Representatives, and even his successor, Alsina, gathered to take a formal leave of him, by whom they were cordially received and hospitably entertained. It is recorded as a circumstance wholly unprecedented in the history of Buenos Ayres."

☞ A large number of whales, sharks and horse-mackerel, have been seen in Boston harbor, and all about Massachusetts Bay. A shark estimated to be about twelve feet in length, pursued a skiff in Gloucester harbor; and so savage were the movements of the shark, that the party in the boat thought it prudent to retire, which they did in the most summary manner. This variety of the shark is known among fishermen as the *swindle tail*. The back is of a bluish cast, and the belly a light gray.

☞ A few days since, a schooner lying at a wharf in Gloucester; as the tide went down, grounded, swung over off her keel, and fell off from the wharf with considerable force, it being near low water. At the time, four of her crew were at work on the masts, and two of them were thrown into the water and mud; the other two clung to the rigging, and escaped a ducking, but were rather frightened. They were all fortunate in escaping any serious injury.

☞ Our English cousins, over the water, after having tested Brother Jonathan's artillery several times, to their sorrow, have concluded to try it for their own benefit. The Alliance Weekly News of June 20th, says: "The Robena, an American freight-ship, arrived at Woolwich Arsenal on Saturday, having on board six breech loading guns, manufactured in New York by order of the British government. In consequence of the enormous weight of these guns, viz., 17 tons each, the vessel was ordered to discharge in the East India Docks. The guns are thence to be conveyed to Woolwich in lighter barges."

☞ A barrel labelled "coffee," consigned to a Michigan merchant, was injured on being unloaded from a car at Buffalo, last week, and the cooper who was called upon to repair it, found the bulk of the contents to be gunpowder. The offence is punishable by a fine of $2000, and the parties to the fraud will doubtless be made to sweat for their attempt to save twenty dollars on the freight.

☞ The Carroll county (Ohio) Press gives the particulars of a trial for seduction, in which a young girl of seventeen is the plaintiff, and a Rev. Mr. Barclay, of the seceder church, defendant. The jury gave all the damages required—$5000—and would have given more if asked.

A HEART AND HAND WORTH HAVING.—No person who has any reverence for the good, the true and the beautiful in human nature, can help admiring the noble woman of whom the following record is made by a letter-writer at the West:

While in Gratiot county, Mich., during the recent fearful famine, he saw a woman who, with affectionate devotion, sustained her sick husband and two children on maple sugar and leeks several days before she could get other relief; and when at last, relief came, she had to carry the provisions several miles on her back. This woman had taken care of her sick husband since last August, and her family of two children; besides which she made 100 pounds of maple sugar, cleared the ground and hoed in two acres of spring wheat, and planted some corn and potatoes. She was habited in tattered garments.

WOMAN'S SOVEREIGTY.

We're swayed a thousand ways by woman's

And every day admit her sovereign power;
We bend delighted to her potent smiles,
We bend when tears outpour in plenteous
shower;
Her witchery of grace bow low our hearts,
Her winning voice has conquest in its tone,
We yield us captive to the myriad arts
That round our pathway hem us like a zone;
By her sweet lips we swear our lives away,
We vow eternal homage to her eyes;
The raven curl round her white neck astray,
The magic of her power intensifies!
But most we bow beneath sweet woman's sway,
When walking 'neath a clothes line on a washing day.

WIDESWARTH.

☞ Two intoxicated Germans named Bertruse, had a fight at East Albany, Monday evening. Fedale, the youngest of the two, bit off a portion of his brother Augustus' nose, and then kicked him so violently as to break his backbone, of which he died next day. Fedale was arrested for the purpose of ascertaining where he got his liquor, and then released; and upon learning of the death of his brother, ran away. Augustus' age was about 55.

HON. CHARLES SUMNER.—A London letter announces the arrival of Mr. Sumner in that city, from Paris. He is slowly though surely gaining strength, still spending a portion of every day upon the sofa, and not in a condition to do any brain work, but each day adding a little to his stock of health, both of mind and body.

☞ Mayor Wood, of New York, has made a large number of new appointments on the police, but refuses a list of the same to the reporters for publication.—There are too many "Plug Uglies" among them, probably, who would thereby be exposed.

Buy a bott'e of Lawrence's Carminative,—it is just the article for restless children. No Opium or nauseous drugs.

Mr. Joseph Smith of Haverhill, Mass., wishes to inform the people of Portsmouth, that he is in this city for a few weeks, to make a practical demonstration of his Smith's Curative Cleansing Compound, free of charge, for the cure or special relief of the following ills, viz: Rheumatism, Neuralgia, Ague, Toothache, Headache, Bowel Complaints, &c., which are usually counteracted in a few minutes.

The Proprietor, Mr. Smith, would esteem it a favor, if the people would give him the opportunity of testing the value of his Remedy for the above complaints, before pronouncing him a deceiver, as "many deceivers have gone out into the world." Mr. Smith is able to refer to persons in this city, who have been benefitted by his Compound and Plaster. Enquire of James Raitt; S. Hubbard, High St.; J. W. Grant at the Brick Market, whose boy's toothache was cured in half a minute; James W. Nutter, near the Post Office, and many others. Price 25 cents per bottle. jy2 tf

THE RETURNED FILLIBUSTERS.—The sick and distressed fillibusters who returned to New York in the Wabash, are said to be very indignant at Walker, on account of his wholly neglecting them. In order to escape their importunities, he has hid himself. A deligation of his sick and wounded soldiers found him out on Monday, and solicited his aid to enable them to reach their friends, but he informed them that he was as poorly off as themselves, and could give them no assistance. They are now scattered about the city in such places as will afford them temporary shelter and food, until, through the assistance of the humane they can obtain the necessary means to reach their homes. The crippled and diseased have found refuge in the hospitals.

Some of the fillibusters have issued a card complaining that the rich men of New York take no notice of their necessities.—Considering the piratical nature of the expedition from which they have just returned, we are at a loss to conceive how they can expect much sympathy from the public. The rich men who induced them to join the fortunes of the pirate Walker, are the ones they should appeal to for assistance, although we presume they would only get the "cold shoulder." The alternative of exposure, however, might induce them to make some reparation to their dupes. Where are Morgan and other wealthy men of New York who took the contract for the Nicaragua transit from Walker, and have sustained him in his usurpations?

The Newark Advertiser narrates the experience of Mr. Henry Burton, of that city, a returned fillibuster, from which we make the following extract:

"Mr. Burton represents Gen. Walker as a rapacious, selfish man. He himself only enlisted for six months, and on the expiration of that time, he represented that he had a family in Newark, and though Walker had just received some $12,000 from Gen. Salazar, he refused to give either a discharge or pay for his services, but told him that he must remain with the army until the expiration of a year, when he certainly should be discharged, Gen. Walker pledging his word of honor. At the time set, he again applied for a discharge, and though he reminded Walker of his word, but was peremptorily refused, and ordered back to his company.

Mr. B. relates an incident of Walker's cruelty in shooting a man on a charge of influencing men to desert. The man was brought before the General and charged with the attempt, whereupon, without holding any court martial, Walker said, 'Take that man out and shoot him.' The man was immediately led out on the Plaza and shot. Three days afterwards it appeared that the man was innocent.

Mr. B. has received no pay from Walker, and but one suit of clothes—in all, valued at less than $5. All the other clothing was obtained from the bodies of those who were shot. H represents the army as badly clothed, and worse fed. For some 40 days they lived altogether on mule steaks, plantains, &c., and frequently suffered from hunger, particularly when they were in the hospital."

WASHINGTON, July 2.—Major Deas, Assistant Adjutant General U. S. Army, arrived this morning from Kansas, and reports Gov. Walker's complete success in quieting affairs in that Territory. All the citizens are now in favor of yielding obedience to the laws. No further difficulty is apprehended.

VERMONT.—Solomon Stebbins of Bakersfield, the man who fired into a party who were assailing his house, killing one of them, has been dismissed by the Grand Jury, it being proved a justifiable homicide.

Stocking Weavers' Strike.

PORTSMOUTH, JULY 2, 1857.

To the inhabitants of Portsmouth and its vicinity:

WE, the undersigned, wish to call your attention to the present Strike of stocking Weavers in this city. We think to awake your sympathy when we place before you the reasonable excuse for such strike. The trade is spread, more or less, through the States; and for the kind and quality of work as made in Portsmouth, nowhere can we find that the workmen are making it at so low a rate as here. In Massachusetts, where the same kind of work is made, and with one and the same market, the workmen receive at the rate of 20 per cent. and upwards over us.

We appeal to every reasonable man, and ask whether it is right that we should make goods equal to those made in other places, for so much less! If we have submitted to a reduction of prices in time past, can we not with confidence ask for a renewal of the former rates, or at least an equal right with others? We have borne the grievance too long—but now necessity has forced it upon us to remonstrate. House rent, fuel, food, clothing,—all these have steadily increased in price; in fact, it has become a problem with us how are we to live by our labor?

Signed, by order,

WILLIAM ALTON, JOSEPH WAIN,

LOCAL.

THE FOURTH OF JULY, the anniversary of American independence, occurs this day—and that memorable Declaration, which is now stigmatized as a bundle of "glittering and sounding generalities," "rhetorical flourishes," &c., comes up fresh in our recollection. It was a declaration of principles, to which our people would do well to adhere, and to which we should hold our public men.

The day is to be kept in this city, only in a social manner by private parties. We shall keep it so far as not to work, and therefore shall issue no paper on Monday.

In Kittery there is to be a social festival; a celebration is to take place at Newmarket; and a great temperance assembly of children is to be gathered in Manchester.

For the Chronicle.

OUR STREETS AGAIN.—I was very glad, Messrs. Editors, that public attention was recently called to the sad condition of our streets. I have long been a resident of Portsmouth, and an admirer of her quiet beauties. All that enhances her loveliness, increases my interest in the home of my adoption—so, on the other hand, all that deforms or defaces, pains me mostsensibly. Now, all will agree with me, I think, that nothing adds more to the attractiveness of a town than clean streets. Those persons who keep their premises neat and tasteful, are indeed public benefactors, inasmuch as they add to the common stock of comfort, and by their example encourage, and even create, a love for the beautiful.

In passing through our principal streets, I have noticed that our clerks and shop boys wield the broom as neatly and handily as any housemaid; but, *unreproved*, they leave all the dirt and rubbish from their shops and warehouses just off the sidewalk, to be wafted* by the *lazy*, not "idle," winds, back again to their own premises, or to those of an unfortunate neighbor. This ought to be considered a public offence, and as such to be fined by the city authorities. Why should our merchants and business men allow near their stores what they would deem unsightly accumulations around their dwelling houses, and bring down severe, and in many cases merited, rebukes on an untidy wife and ignorant housemaid. K.

FIRE IN ELIOT.—The house occupied by Joseph Kenniston, at Eliot Neck, was destroyed by fire on Friday noon. The house was old and of little value. Although the fire was in plain view from the bridge, no alarm was given here, as the circuitous road to the spot precluded the possibility of assistance arriving in season to be of service, and no danger was apprehended for the adjacent buildings.

Though none of our tubs were present, our reporter, while on his way to the spot, beheld one, of the most approved model about to be warped through the draw.—The sides were built upon the supposition that a straight line is the shortest distance between any two given points, perfectly straight and perpendicular. There was a slight deviation from this plan, however, when the bow and stern were added, for though they described right angles to the sides, still there was an oblique curve from deck to water-line. This splendid specimen of naval architecture was a schooner hailing from So. Thomaston, under the euphonious appellation of Cherokee, and it was very providential that no one of that clan ever caught the namor, for most assuredly he would have put him to death, for the insult to his tribe in thus christening a craft whose model was evidently stolen from a chopping-tray.

STATE OF NEW HAMPSHIRE.

ADJUTANT GENERAL'S OFFICE, CONCORD, *July* 1, 1857.

GENERAL ORDER, No. 2.

Whereas, By an act of the Legislature passed at the recent session, and approved by the Governor on the 27th day of June last, the militia laws of the State were remodelled, and provision made for the re-organization of the militia. Said act to take affect on the fifteenth day of September next, at which date all commissions of Division, Brigade, Regimental and Company Officers will expire.

It is hereby ordered that all colors, drums, and other musical instruments belonging to the State, now held by officers, be returned to the Adjutant General's office at Concord, and that all books, rolls and inlistments now held by officers be delivered to the clerk of towns and cities in which said officers reside, within fifteen days after said 15th day of Sepember.

By command of His Excellency, WILLIAM HAILE, Governor and Commander-in-chief. JOSEPH C. ABBOTT, *Adjutant General.*

Miles Darden died recently at his residence in Henderson county., Tenn. He was seven feet six inches in length, and weighed a fraction over *one thousand pounds*. The West Tennessee Whig says it required seventeen men to put him in his coffin. He measured around the waist, six feet and four inches.

WASHINGTON, July 2.—A letter has been received from the Surveyor General of California, stating that the "Rio de los Americanos" has been confirmed to Jos. L. Folsom. It contains over 35,000 acres, and is said to be worth $5,000,000.

The Fernandez ranche is confirmed to D. L. Fernandez and others. It contains nearly 18,000 acres.

Two San Francisco town lots of little more than three acres in extent, have been confirmed to Jacob P. Leese and others.

The Navy Department has received despatches from Commodore Paulding, in reference to the condition of the Nicaraguan adventurers whom he brought to New York.—He mentions facts already known, and says:—"It became necessary not only to give protection to our misguided countrymen, but to reconcile the interests of contending parties, belonging to the United States and Costa Rica, not always to be comprehended nor disposed of, by an ordinary standard."

NEW YORK, July 2.—It is reported that the ship Samuel Willets, ashore at Squan Inlet, will prove a total loss, both vessel and cargo. She is valued at $80,000, and is insured in Wall street for $65,000. Her cargo is valued at $300,000; insured partly in Wall street, and partly in England.

The news of the decision of the Court of Appeals on the Metropolitan Police Bill, created considerable excitement in this city and Brooklyn. The Metropolitan Police Commissioners are overwhelmed with applications for Police situations. All the Metropolitan station-houses will be illuminated to-night.

TERRIBLE RAILROAD ACCIDENT.—*Cincinnati, July* 2.—While the Cincinnati train, on the Cincinnati and Marietta Railroad, was crossing the trestle work, west of Marietta, yesterday, one car was thrown from the track, a distance of nearly sixty feet. There were thirty persons in the car, of whom four were killed and twenty wounded. Among the dead is Wm. G. Richardson, of Boston.

OPPOSITION TO THE SEAMEN'S WAGES MOVEMENT.—In New York city, on Tuesday evening, the sailor boarding house keepers, mostly of the class who grow fat on the plunder of the poor sailor, held a secret meeting to devise measures to oppose the new plan of our Atlantic merchants. It is probable they will use every effort to compel the payment of advance wages, by supporting several hundred seamen on a strike, and they may succeed in the cases of a few chartered vessels, which must sail on certain fixed days; but the game, in the long run, will prove rather too costly for the "landsharks" to play. On the other hand, a large meeting of ship agents and owners, who had not before acted in the matter to any great extent, was held the same day, and the new plan warmly approved.—*Trav.*

THE SECRET DISCOVERED AT LAST.—We have noticed in passing through Market street, lately, that the NEW STORE, No. 15, always seems crowded with customers. We have at last discovered the secret of it. On stepping inside, we find that the proprietors, MESSRS. ALLEN & PAINE, in fitting up their store in the beautiful manner they have, had an eye for the useful, as well as for the ornamental; we noticed that the arrangements for light and cheerful, and on looking for a solution of the mystery, we discover that the store contains a Sky Light, giving them facilities for showing their Goods possessed by no other Dry Goods store in town; as Customers by such a light, have no difficulty in seeing just what they are purchasing, and can not be deceived in the color or quality of goods. We notice, also, that their stock is always composed of the best qualities and very latest styles, which is explained by the fact that one of the firm visits the market to replenish their goods every ten days,—and as they buy for Cash, altogether, they are able to offer their goods at as low prices as any other parties.

Those about to purchase Dry Goods will do well to visit them. Read their advertisement in another column.

"IN PEACE PREPARE FOR WAR."—In the days of our youth, it behooves us to make some preparation for the approach of age. How many persons have become prematurely bald by neglecting to apply appropriate remedies to prevent the hair from falling out. The use of Professor Wood's "Hair Restorative" will prevent the hair from falling off, impart to it a healthy growth, and even restore the hair of the bald. Thousands have testified to its efficacy. Manny's Celebrated Mower

—AND—

MOWER AND REAPER.

IMPROVED.

Built expressly for the New England States.

THE MANNY MOWER has been extensively used for the past two years in New England, and more than six years at the West. Its success has been beyond that of any other Mower or Reaper ever constructed. Over 150 1st *Premiums* have been awarded it, including the *Grand 1st Class Silver Medal* at the WORLD'S FAIR, PARIS, 1856.

With the two past years' *experience*, we have been enabled to make a number of very *important improvements*. We find New England farmers require a different Machine from other sections;—the fields generally being small. It must be *light*, at the same time possess *great strength*; *portable*, with facilities to *raise the cutters* to pass *obstructions*, and to remove from field to field. A perfect cutting apparatus, to cut the fine grasses without clogging, and so constructed as to *start* in the grass *without backing*, easily adjusted to cut high or low, and have a feed to cut equally well with or against the wind, and to be worked with ease by a light team, and so easily managed and simple that any one of common ability may operate it successfully, and to be built in the most thorough manner.

With this knowledge of the farmers' requirements, and with the determination to build a *better* Machine than has ever before been constructed in this country, we offer the **Manny** for sale for 1857 with confidence, as combining the qualities enumerated above, and as one particularly adapted to meet the wants of New England farmers.

☞ We invite the farmers to call and examine Machines. Orders should be sent early. Circulars, with testimonials, forwarded free, on application.

Price of Mower, $110; with Reaper attachment, $15 Extra. Delivered on board the cars at Worcester, Mass. JOHN P. ADRIANCE & Co., *Manufacturers.*

One of the above Machines can be seen at the store of the Subscriber.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(*Late Agent of U. S. Patent Office, Washington, under the Act of* 1837.)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign state, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have had advantage for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials here given prove that none is MORE SUCCESSFUL, AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, on any question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office, and there were none who brought to it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilled Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office as Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES,

Prepared by an old Physician of 40 years experience.

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper order. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Not are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. They are prepared purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be carefully accompanied each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, prepaid, to Dr. J. C. CHEESEMAN, Box No. 4,681, Post Office, New York City, can have them sent to their respective addresses by return of mail.

AYER'S Cathartic Pills,

(SUGAR COATED,)

SEE NAME ON

CLEANSE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been constantly afflicted for the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will do others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., Feb. 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of the organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them.

Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., Nov. 16, 1855

DR. AYER: Your Pills are the perfection of medicine they have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody flux, and many of our neighbors had tried, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among my parishioners, when in distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WAKEAM, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her neck and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Reeder, of the Methodist Episc. Church.

FULTON HOUSE, ROME, OSWEGO CO., JAN. 5, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold contracted in my limbs and brought on excruciating neuralgic pains, which ended in rheumatic gout. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, I tried your Pills in my stead. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, ELMON HOUSE, LA., 5 Dec., 1855.

DR. AYER: I have been conjoining your Cathartic Pills of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT SLIDELL.

For Dropsy, Plethora, or Kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a **Dinner Pill,** they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even Deafness, and Partial Blindness, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous to a public pill, from the dreadful consequences that frequently follow its improper exhibition. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every part of this country, and in all parts of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in this civilized country on this continent without some personal experience of its extraordinary power over the communities any where which have not among them some living trophy of its victory over the subtile and dangerous disease of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We therefore have abundant grounds to believe the CHERRY PECTORAL will cure, when all other consumptives it prevents than those it cures. Keep it by you, and cure your colds while they are curable, nor neglect those neglected by others. Let the incurable hanker that, fastened on the vitals, eats your life away. All know the dreadful fatality of lung disorders, and as they know too the virtues of this remedy, we need not dwelling upon them. Suffice it that it still made the best of its kind. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can bring to their aid.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRANCIS & CO are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is that all tickets purchased in Boston, intended to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. No particular class is named, and every ticket in the first drawing is take place after the communication comes to hand. The prices of tickets vary from $1 to $20. So tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combinations. Prizes vary in amount from $20 to $100 000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have seven commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. They would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that state. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the order comes to hand. According to law, a scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the ignorant. Prizes vary from $20 to $30,000; every prize being drawn, and result drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Mercury*, Nashville *Banner*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia.

Prices paid in Atlanta—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18 1y

The Medicine THAT NEVER FAILS!

IS DR. WILSON'S

DYSENTERY POWDER,

Which cures Dysentery, Diarrhœa, Cholera Morbus, and all the affections of the Bowels attended with Pain and frequent Discharges.

This Medicine is now being introduced into all parts of the United States and British Provinces, and great success attends its use everywhere.—These Powders are now offered to the world as a PERFECTLY SAFE AND EFFECTUAL MEDICINE, for the purposes they are recommended and in nine cases out of ten

ONE POWDER WILL CURE THE WORST CASE,

when they are taken in the first stages, and almost invariably *two will effect a permanent Cure;* and unlike all other preparations, which, if they check the disease, leave the person in a condition that requires physic after it, which is not the case with the Dysentery Powders, for they *regulate the Bowels,* tone up the system, and leave it in a healthy state.

These Powders are put up in boxes, with full directions on each box, and sold for **50 Cents.**

Please try them; if they do not give *perfect satisfaction,* return them and take your money.

All Advertisements outside the regular legitimate business of the advertiser,—such as real estate notices, advertisements of wants, notices of articles lost, &c.,—to be charged extra.

And all excess of space occupied above the amount contracted for, to be charged, at one-half the above rates of transient advertising.

For Notices in editorial columns, 10 cts. per line. "Special notices," 6 cts. per line.

As advertisements appear in both Daily and Weekly Chronicle,—they thus receive as thorough circulation in the city and vicinity, and throughout the State, as can be secured in any other way—and at low rates.

Daily Chronicle, $4 per year, in advance. 8 cts. per week (of carriers); 2 cts per copy.

Weekly Chronicle, $1 per year in advance;—$1.50 at the end of the year; 3 cents per copy.

JOB AND CARD PRINTING promptly executed.

DECISION ON THE N. Y. POLICE BILL.—Mayor Wood is floored. For although there are some points of the late conflict in which he was so actively engaged, that are not involved in the decision of the Court of Appeals, yet the unconstitutionality of the Metropolitan Police Bill was the grand pretence for his factious course. On that ground his newspaper admirers upheld him But a tribunal composed of six of his political friends to two opponents, has pronounced the act constitutional, and his conduct in resistance thereto as illegal as it was rash and impolitic.

The effect of the decision will be good.—Officials will not be quite so ready hereafter to set up their views against those of the law-making department, and to monopolize in themselves the functions of the judiciary. The Mayor will subside to his proper duties, shorn of the false prestige by which he has wielded a partial despotism in a democratic city. The community must also gain, for the new police are now put on their good behavior for their success as an institution, and all law-abiding citizens will give them their support.

THE SPIRITUAL TEST IN BOSTON.—The committee appointed to conduct the spiritual test in Boston have published a statement that none of the conditions named were fulfilled by the mediums, and that the reward therefore, has not been earned. The spiritualists will make a statement in reply. They allege that the trial was not a fair one, and that the conditions have been violated. We had a better test of spiritualism than any Boston experiments could afford. When the son of Henry Clay took the stump for James Buchanan, and the spirit of his great father did not rise from the grave, we made up our mind that there was no passing back from the next world to this.—*Providence Journal, July 2d.*

ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. TUESDAY, JULY 7, 1857.

MAYOR WOOD AND THE POLICE LAW.—Mayor Wood has redeemed his pledge. He submits to the decision of the Court of Appeals. He obeys the new Police Law, as of binding force. He has done what he could, legally, to defend the city's rights. He has subjected himself to great personal inconvenience and loss for that end. He has opposed law with law, as long and as far as it would answer his purpose. He surrenders the castle when it can no longer be defended. He has dismissed the Municipal Police, organized under a recent ordinance of the Common Council. In him 600,000 people are disfranchised, and subjected to officers not of their own choosing.—*N. Y. Journal of Commerce.*

Either the City of New York is a part of the State of New York, or else is a State by itself. We suppose it is a part of the State;—but State laws and almost all others have been disregarded and nullified there;—and abuses unnumbered had crept into the city government, until it seemed one great abuse, insomuch that it has been called the worst governed *city* in the world. Now, the State, by a new police law, endeavors to cure this cancer.

Mayor Wood rebels, nullifies, fights, is beaten: tries the law, and is pronounced illegal in his movements. He submits, disbands his army of rebels—and the new police, organized by the State Law, must try their hands at keeping order, and enforcing the laws. We hope they may do better than their predecessors. They can hardly do worse.

DEATH OF SECRETARY MARCY. — Hon. Wm. L. Marcy, formerly of New York, and recently Secretary of the State Department under President Pierce, departed this life, July 4th, at Ballston, N. Y.

He appeared in his usual good health in the morning, but was found dead in his room about noon. No cause is assigned for his death.

Gov. Marcy's funeral will, it is expected, take place at Albany on Wednesday, on which occasion there will be a grand military display.

His age was 71. He was a graduate of Brown College, class of 1808, and was in public offices nearly all the time from 1816 till the day of his death.

BUYING HORSES BY THE POUND.—At Cincinnati, the other day, Gen. Johnson, of Mt. Sterling, Ky., wished to buy a pair of horses for which the owner asked $370, but which the General thought too much, as they were not heavy enough. The owner declared they were heavier than they appeared, when the general offered 16 cents a pound for them, which was accepted. The horses were taken to an adjacent hay-scale, and weighed 2350 pounds, making their value $376. A close calculation.

VIOLATION OF THE SUNDAY LAW.—Leonard B. Hawthorne, proprietor of a drinking saloon on Main street, Charlestown, was brought before Justice Robinson, on Friday, and convicted of violating the Sunday law. A fine of $10 and costs was imposed, which the defendant paid.

ACCIDENT.—We learn from the Exeter News-Letter that on the morning of the 4th, as the Rev. Mr. Smith of Stratham was about leaving his yard to take a ride in his carriage, the horse sprang, and Mr. S. fell under the carriage, the wheels passing over him, breaking his elbow and otherwise injuring him.

LOWELL.—Mayor Mansur of Lowell has shut up over one hundred liquor shops, since he took the executive chair on the first of January. He says he shall proceed against every violator of the law in the city, without exception. It was understood when he was nominated for office, that he would enforce the law.

DROWNED.—In the schooner Roanoke, that sailed from Newburyport on Tuesday, for Bay of St. Lawrence, were Mr. Wm. S. Harris, Jr., and a lad named Jewett, about 14 years old. Harris was so suffering from delirium tremens as to be under watch, and Jewett was suffering some from sea-sickness. Harris asked the lad to walk the deck with him that he might feel better. They had walked but a minute before Harris caught the boy, threw him into the sea—(the vessel was then between Wood End and Race Point, going about 4 knots,) and jumped upon, and attempted to drown him by holding his head under the water. Jewett struggled bravely with the drunken maniac, till, in about 15 minutes, a boat reached them and they were taken up, but it was found that Harris was dead. The schooner returned to Gloucester, and on Friday the remains of Harris were brought to Newburyport and buried.—*N. P. Herald.*

EXECUTION.—*Rock Island, Ill., July 3.*—Andrew Ingram was executed here to-day, for the murder of his wife last winter.

BUCKMINSTER, WALTON, AND BALLOU.

To-day we present Letter 4th, being Mr. Ballou's reply to Dr. Buckminster's second letter.

FROM MR. BALLOU TO MR. BUCKMINSTER.

PORTSMOUTH, JAN. 11, 1810.

Rev. Sir:—Your favor of yesterday is acknowledged with that respectful submission which your age and experience, together with the spirit and import of your note, justly impose: and with gratitude also, for an obligation which I wished to be under in being satisfied of your having received my epistle of the 1st inst. This I learn by the friendly rebuke in your first section, in which you speak of my reply as unnecessary, and also by your condescending to refer to it again in your fourth section. Had I, sir, viewed your address altogether in the light which you inform you did, or had you informed me that a reply would not be expected, I should by no means have troubled you contrary to your wishes. However, as you are an experienced judge of all such matters, so you will condescend to pardon me if in your judgment my epistle is destitute of important subjects. You are so kind as to repeat the design of your address again, certifying me that your object was to discharge the office of friendship, by stating to me with frankness and decision what you are persuaded will be the final result of that sentiment which I have embraced and am advocating. No man, sir, will ever be more ready to acknowledge a friendly office with sentiments of gratitude than your humble servant; but I am sure it cannot be expected by you that I should receive the testimony of a man, however friendly to me, as a decision against that gospel which I did not receive of man, nor by man, but by the revelation of Jesus Christ.

Your precautions in warning me as they regard your final justification before God, I hope will be superceded by the acceptable atonement of the Lamb of God which taketh away the sins of the world; though that shall not render your faithfulness void of approbation in a subordinate sense. The secret hope which you entertained of exciting me by your serious apprehensions to review my sentiments and renewedly to compare them with the only standard, would perhaps appear not altogether so necessary, did you know that my daily business is to study the law and the testimony, which increase their light as they are more examined, and furnish every hour I study them new proofs of the unbounded goodness of God to the sinful race of Adam. O, my dear friend! Could you but know the inexpressible consolation and peace which I enjoy in believing that He, who gave himself a ransom for all men, will finally see of the travail of his soul, and be satisfied, you could not feel concerned about the final issue of the doctrine which I believe and advocate!

My blessed Lord and kind Redeemer deserve every exertion of mine to persuade men to the knowledge of that truth which would make them free; nor can I easily forbear to express my desire that your greater experience and better abilities might be employed in showing to poor benighted sinners the divine amplitude of Gospel grace for the salvation of all mankind. I believe, dear sir, if it should please God to discover this soul-rejoicing truth to you, that the angels would rejoice in heaven, and saints on earth would be made exceeding glad; yes, your church and parish would follow you with rapturous joy to the fountain which is open for Judah and Jerusalem to wash in from sin and uncleanness, and to which the fulness of the Gentiles shall be gathered.

I am not at all disposed to complain of your decision not to enter into an investigation of the doctrine against the truth of which you have opposed your testimony; though I should have hardly believed that in your judgment, such a testimony could have been thought proper unless preceded or succeeded by some color of evidence.—No man, my dear sir, is less calculated to enjoy a dry, unfruitful controversy on religious sentiments than I am—though I wish to hold myself in perpetual readiness to give an answer to every man who may ask me a reason for the hope that is within me, with meekness and fear.

The argument of Dr. Edwards and Dr. Strong being disposed to represent the divine economy of grace less extensive than the plain and positive promises of God, the testimony of the Prophets, the word of life through Christ and the witnessing Apostles, have declared it to be, stand forever refuted by that cloud of witnesses, as they are also by the spirit of Christ in every humble believing heart. It is far more easy for the rational lover of Christ to believe those learned doctors are deceived by the vain traditions of the schools, than to believe that the grace of God in Christ Jesus is less extensive than his word and spirit declare it to be.

If there never was a true christian whose desires did not extend to the whole human race that all might be brought to a saving repentance, and to holy and happy life in Christ, then Jesus has never left himself without a witness in his disciples, that all the creeds of men which limit the divine favor are false. With whatsoever panics worms of the dust may have struck their fellow worms by challenging them to a decision of their weak, insignificant notions at a tribunal of an omnipotent judge, such solemn appeals can have but little effect on the humble mind that leans not to his own wisdom, and who views everything already decided in the eternal system of that God whose tender mercies are over all the works of his hands.

The mode in which you express the circumstance of final judgment is rather indicative of what I hope you do not mean, as it intimates that too much freedom has been assumed by me in presuming to reply to your address. There is much to excite my gratitude in the assurance you give me of reciprocating offices of friendship, consistent with duty to God; and while you, sir, give me to understand that I have an interest in your prayers, permit me to beg your supplications, that I may be faithful unto death: and to assure you of my humble desire that you may continue to be useful to your fellow pilgrims while you live, and find acceptance with God through Christ at last.

Your most obliged friend
and humble servant in Christ,
HOSEA BALLOU.

On the afternoon of the 26th ult., two boys hired a boat of Mr. Rolfe, at Newburyport, for a sail upon the river. The boat was seen on the same day off the bar by one of the pilots, since which nothing has been heard from the boys or the boat. The wind was rather variable that day.—Two boats were upset upon the river, and it is supposed that this boat may have met with the same fate. The boys were unknown to Mr. Rolfe.—*Herald*

Mr. Joseph Smith of Haverhill, Mass., wishes to inform the people of Portsmouth, that he is in this city for a few weeks, to make a practical demonstration of his Smith's Curative Cleansing Compound, free of charge, for the cure or special relief of the following ills, viz: Rheumatism, Neuralgia, Ague, Toothache, Headache, Bowel Complaints, &c., which are usually counteracted in a few minutes.

The Proprietor, Mr. Smith, would esteem it a favor, if the people would give him the opportunity of testing the value of his Remedy for the above complaints, before pronouncing him a deceiver, as "many deceivers have gone out into the world." Mr. Smith is able to refer to persons in this city, who have been benefitted by his Compound and Plaster. Enquire of James Raitt; S. Hubbard, High St.; J. W. Grant at the Brick Market, whose boy's toothache was cured in half a minute; James W. Nutter, near the Post Office, and many others. Price 25 cents per bottle. jy2 tf

We call attention to a medicine advertised in our paper, for sale by J. H. Thacher and W. R. Preston,—for the cure of Dysentery, Diarrhea, and other affections of the Bowels. If what is said of it is true, by those that have given it a trial, it should be used in every family. No medicine is more worthy of universal commendation than Dr. Wilson's Dysentery Powders.—Please try them. july2 2w

"IN PEACE PREPARE FOR WAR."—In the days of our youth, it behooves us to make some preparation for the approach of age. How many persons have become prematurely bald by neglecting to apply appropriate remedies to prevent the hair from falling out. The use of Professor Wood's "Hair Restorative" will prevent the hair from falling off, impart to it a healthy growth, and even restore the hair of the bald. Thousands have testified to its efficacy. To be had of Druggists everywhere.

IF ALL OUR READERS

Who are troubled with liver complaint, Jaundice, or Dyspepsia, will read the advertisement in another column of Dr. Sanford's Invigorator, and then do as we have done—get a bottle, we should not see so many sickly, half-dead, despairing people as now meet our gaze at almost every corner, for certainly there never was a remedy invented of which so much is said, and that performs so nearly what its proprietors say it will do. It came to us so highly recommended that we could not fail to try it, and a trial has convinced us, without a doubt, that it is the best family medicine in use. We take it for Headache, Sour Stomach, Billiousness, and any of the little bodily ills that are common, and it does produce a pleasant state of feeling to the sick, and what is better, after using it a few times, these little ills grow less and less, and there is a prospect of being entirely free from them by a continuance in the use of the Invigorator. THREE DAYS LATER FROM EUROPE.

NEW YORK, July 5.—The screw steamship Lebanon arrived here this afternoon, and brings Havre papers of the 23d ult., but nothing later from London.

By this arrival we have news from the Continent to the 23d of June, three days later than that by the Niagara. We have also the full report of the debate in the British Parliament on the 20th, on the bombardment of Greytown, a brief telegraphic notice of which was contained in the Niagara's summary from Halifax. The discussion is spread out over several columns of the Paris papers, and is quite spirited.

FOUR DAYS LATER.

NEW YORK, July 6.—Steamship Colombia arrived early this morning, bringing Liverpool dates of the 24th.

The shipping of the telegraphic cable was to commence forthwith.

LIVERPOOL, June 24.—Cotton market was quiet, but the quotations advised per Niagara were firmly maintained.

Breadstuffs.—Magnificent weather for the crops imparted general dullness to the Breadstuffs market. Flour very dull.—Wheat dull and tendency downward.—Corn 6d lower.

In the London produce market, sugar is dull and again is lower.

The French elections were all quiet in Paris. The government have elected seven, and the opposition three, viz: Goudchaux, Carnot, and Cavaignac, although a dispatch to the *Times* throws some doubts on the election of the latter.

The returns from Paris are conflicting. The total vote of Paris was about 110,000 for the government, and 95,000 for the opposition.

NEW YORK, July 5.—The weather yesterday was all that could be desired, the rain having ceased on Friday night.

There were several riots in this city yesterday. The most severe riot originated in the Bowery, between a mob from the Five Points and the Bowery Boys. The fight was continued with great ferocity for an hour. Clubs, stones, bottles and firearms were freely used, and the Five Pointers were gradually driven back. Eight persons were killed in this riot, and about 30 wounded, including several policemen. At one period of this riot, the rioters had the streets barricaded, defying the police, of whom upwards of 100 were present.

Three Regiments of State troops were ordered out and kept in reserve, but their services were not required, as the riot was finally suppressed by the exertion of the police.

In the minor riot two persons were killed and twenty or thirty badly wounded.—In all these disturbances, ex-policemen were conspicuous actors.

With the exception of these riots among the rowdies, the day passed of finely.

The military and civic displays were brilliant and imposing, and the fireworks in Brooklyn, Williamsburg and the other suburbs, of the most gorgeous description.

After the close of the military review, Gen. Sanford gave a grand colation at his house, at which Governor King and Mayor Wood were present, both of whom made speeches in response to complimentary toasts.

New York, July 5—9¾ P. M.—The city remains quiet, and as the military are held in redness for instant and effective operation, it is unlikely that the rioters will venture upon any further demonstrations.

HOMICIDE AT NEW BEDFORD.—*New Bedford, July 5.*—A man named David Morton was found on the door steps of a house on County street, at 10 o'clock last night, having been stabbed in several places. He had been to the house of Mr. Cunningham during the evening, where the had an affray. He refuses to tell who stabbed him. Cunningham had been drinking, and was arrested to-day. Morton was taken to the Almshouse, where every assistance was rendered, but the physicians state that he cannot recover, as two of his wounds are mortal.

FROM HAVANA.—*New York, July 5.*—Steamship Cahawba, from New Orleans via Havana 30th, arrived here this evening. The Cahawba brings upwards of 100 passengers, and reports the Spanish-Mexican fleet still quiet at Havana, and without any immediate prospect of any movement towards Vera Cruz or elsewhere.

DEMOCRACY IN 1857.—"All men are created equal."—*Jefferson.*

DEMOCRACY IN 1857.—"All men are *not* created equal."—*Stephen A. Douglas.*

Only a trifling difference easily explained by such demagogues as Douglas, who is making speeches to prove the Declaration of Independence a lie.—*Manchester American.*

THE FOURTH IN BALTIMORE.—*Baltimore, July 5.*—Yesterday was unusually quiet. We had no serious disturbances. A man named Robert Fraser killed a German in a tavern row, and two children were accidentally and fatally shot by the careless use of firearms.

TROY WOOLEN MILLS BURNT. — *Troy, July 5.*—The woolen mill of the Troy Woolen Company, at Albia, was burnt yesterday. Insured for $30,000.

GALLANT TO THE LAST.—A correspondent of the Evening Post, writing on the "Woman Question," says: "I confess, in all sincerity, that I have never yet seen an ugly woman. This may appear paradoxical, and still it is the pure truth. I never find any woman entirely ugly. I enlarged upon this idea once before an audience of women. One who was extremely flat nosed said to me, 'Sir, I defy you *not* to find me ugly.' 'You, Madam,' I replied, 'are an angel fallen from heaven, only you have fallen on your nose.' Probably she did not believe me, and has maintined against the whole world that she is ugly."

MARRIED.

LOCAL.

THE FOURTH OF JULY.—The Portsmouth boys generally begin to *celebrate* the day on the *eve*; and the Mayor of the city, this year, begun his celebration a little before that, by getting an extra dozen of policemen ready for service, with the proper instructions. This precaution, no doubt, prevented much disorder;—nevertheless some rum-patriots did considerable wanton mischief to sundry gate-posts, fences, rails, blinds, &c.—as such gentry have often done here, in former years.

The day itself, Saturday, was a fine one, here, and except a few crackers, pistols and guns, and except a number of drunkards, who were picked up, the day passed off as quietly as Sunday. The bells made music, morning, noon and night.

Numbers of our citizens visited Great Falls and New Market, at both of which there were public displays.

To the latter place went the Laconia Engine No. 2, with her company, from this city,—returning in the evening, with a military band, they made quite a show in our own streets.

The Portsmouth Band, being furnished with a stand on Market Square, played many airs, national and miscellaneous, during the evening, from 8 to 10. They attracted a large and orderly collection of people on and near the Square. The appropriation for the band, was money well spent by the city. Before midnight, bonfires were out, fireworks gone, patriots tired, and all was still.

No accidents happened here.

At Great Falls, we understand a powder box blew up on the morning of the 4th, killing two boys.

The names of the boys killed, were James Woodman, and George Giles; the former was 11 years old, and the latter 12; the former lived some hours, the latter was killed instantly.

It is said that after a salute had been fired; two of the gunners put their coats into the box, and locked them up there,—and that these men had scarcely reached the bottom of the hill, when the exolosion took place. It is supposed a spark might be lurking in one of the garments, and so set it on fire.

At Boston, a distressing accident occurred during the exhibition of fireworks on the Common, on Saturday evening, and resulted in the death of four individuals and injury to several others. After a few of the pieces had been successfully fired, Patrick Cooke, who had been some three years in the employ of Hovey & Co., applied the fuse to a shell or tourbillon to be fired from a mortar. Either from carelessness, or a lack of understanding, the thing was bunglingly done, and the shell ignited before leaving the muzzle of the mortar, thus bursting the mortar, and scattering the heavy fragments in various directions.

Patrick Cooke, who fired the piece, was instantly killed by a piece of the mortar striking him. Cooke was twenty years of age, and sustained a good reputation.

Another heavy fragment of the mortar was thrown nearly across the enclosure, and struck the late harbor master, George P. Tewksbury, on the side of the head. He was taken to the Massachusetts General Hospital, where he remained insensible till twenty minutes past twelve o'clock, the same night, at which hour he died. Mr. Tewksbury was forty-nine years old, and leaves a widow and seven children.

Mr. Asa Libbey, a cabinet maker, was standing in Charles street, and was struck in the breast with great force, by a fragment of the mortar, and fatally injured internally. He was immediately placed in a carriage, and started for his home, but died before reaching his door. He was about forty-four years of age, and leaves a family who are absent in the vicinity of Eliot, Me. Mr. Libbey learned his trade in Portsmouth of Mr. S. M. Dockum.

A youth named John McMahan, about 15 years of age, was sitting on the fence, at the westerly end of the enclosure, and was struck on the head by a piece of the mortar, and killed almost instantly.

Wyzeman Marshall, Esq., was struck on the shoulder and neck by a piece of the mortar, and knocked senseless, but it is hoped that he will soon entirely recover.

Mr. John W. Robinson had his head injured and his skull slightly fractured by a blow from a piece of the mortar.

In Boston, on Sunday morning, at an early hour, the officers found a man named Thompson, lying on Tileston's wharf, with his leg broken above the knee, and conveyed him to the Hospital. He is 32 years of age, and belongs in East Abington. He states that he came to the city to spend the fourth, indulged in drink to excess, and thinks that he fell from a pile of lumber on the wharf.

Saturday afternoon, as Patrick Manning, who was somewhat intoxicated, was attempting to get upon a car, just in from Salem, which was backing out of the Eastern depot, he fell beneath the cars and was jammed in so bad a manner that he died soon after.

A middle-aged man, named William Minnehan, who was committed to the Tombs for intoxication, Saturday evening, died about a quarter before twelve o'clock, Sunday night, of *delirium tremens*.

Up to a late hour, Sunday night, the Tombs contained nearly one hundred individuals awaiting examination in the Police Court, for various offences and misdemeanors committed since the adjournment of the Court on Friday last.

At Attleboro, Mass., while Mr. Henry L. Dean was engaged in firing a salute on the evening of the 3d inst., a second discharge exploded the cannon, and the pieces striking him upon the head, stripped one side nearly off. He died almost instantly. Mr. Dean was son of Hon. Lyman W. Dean, Postmaster in that place. He was 22 years of age, and a widower with an infant child.

☞ We learn that an Englishman by the name of Lewis, who was enjoying a sail on our river on Saturday last, had his aquatic pleasures interrupted somewhat by the capsizing and sinking of the boat, occasioned by the ballast shifting to one side. Being a good swimmer, he succeeded in keeping afloat until a boat from the shore went to his relief.

OUR BAND.—"The people" of Portsmouth have now had ample opportunity to hear their new Cornet Band, and it is generally conceded that thus far, excellent progress has been made. Their performances on Market Square, Saturday evening, were creditable and well received—though at times the bass instruments rather preponderated over the tenor, which last would bear a little stouter filling. The citizens generally desire the success of this promising Band, and will not be found backward if called upon to contribute toward it. After the Band concluded their performances on the Square, they accepted an invitation to sup with His Honor Mayor Morrison, at his residence; where they were most hospitably received, and played some of their best pieces. They were unable to accept several other like invitations, but favored the inmates of the Rockingham House and other localities, with serenades.

☞ It will be seen that Mr. Laws has associated with himself in the Express business, Mr. Henry Lengel, who is well known as having been for sometime in the store of Mr. Hahn, where he has shown himself a most prompt and gentlemanly assistant. By the new arrangement, the business can of course be done with greater accuracy and dispatch.

☞ Mr. T. Simes Dennett, of Taunton, Mass., formerly of this city, was appointed Inspector of Customs in the Boston Custom House, July 2d., and has entered upon the duties of his office.

THE LEARNED MONKEYS, DOGS, &c.—Signor Donetti has arrived with his learned Monkeys, Dogs and Goats, and will give two exhibitions, commencing this Tuesday evening at the Temple.

The papers, elsewhere, speak of the amusing and interesting character of the performances of those educated animals. They perform a number of surprising and funny feats, and excite the wonder and amusement of the spectator.

The following wo clip from the Boston Journal of June 3d:

The performance of this troupe of Monkeys, Dogs and Goats, forms an entertainment of a novel and extremely attractive nature—to the philosopher, as affording a lively theme for speculation; the humorist, who enjoys rare and funny things without moralizing; and especially to youth, whose eyes and risibles are kept in constant action by their tricks. Some of their exhibitions are wonderful to behold. The monkeys drive teams of coach dogs, act as footmen, ladies riding out, as servants, clowns, rope dancers, soldiers, and a variety of other characters, in a manner quite surprising. The Goat makes a bow to the audience, walks on her knees, fires a pistol, etc. One beautiful, spotted black dog runs around a circle, and feigns lameness in eight different ways, the last by using two legs, and those upon one side. Other dogs perform, as well as other monkeys, all of which we would advise a visit to witness, recommending that parents do not forget to take their children, as they will enjoy it hugely.

Stocking Weavers' Strike.

PORTSMOUTH, JULY 2, 1857.

To the inhabitants of Portsmouth and its vicinity:

WE, the undersigned, wish to call your attention to the present Strike of Stocking Weavers in this city. We think to awake your sympathy when we place before you the reasonable excuse for such strike. The trade is spread, more of late, throughout the States, and for the kind and quality of work as made in Portsmouth, nowhere can we find that the workmen are making it at as low a rate as here. In Massachusetts, where the same kind of work is made, and within one and the same market, the workmen receive at the rate of 20 per cent. and upwards over us.

We appeal to every reasonable man and ask whether it is right that we should make goods equal to those made in other places, for so much less? If we have submitted to a reduction of prices in time past, can we not with confidence ask for a renewal of the former rates, or at least an equal right with others? We have borne the grievance too long—but now necessity has forced it upon us to remonstrate. House rent, fuel, food, clothing,—all these have steadily increased in price; in fact, it has become a problem with us how are we to live by our labor.

Signed, by order,

WILLIAM ALTON, JOSEPH WAIN,
JOHN JENKINS, JAMES MURBY,

Manny's Celebrated Mower
—AND—
MOWER AND REAPER.
IMPROVED.
Built expressly for the New England States.

THE MANNY MOWER has been extensively used for the past two years in New England, and more than six years at the West—Its success is beyond that of any other Mower or Reaper ever constructed. Over 150 1st *Premiums* have been awarded it, including the *Grand* 1st *Class Silver Medal* at the WORLD'S FAIR, PARIS, 1855.

With the two past years' *experience*, we have been enabled to make a number of very *important improvements*. We find New England farmers require a different Machine from other sections;—the fields generally being small. It must be *light*, at the same time possess *great strength*; *portable*, with facilities to *raise the cutters to pass obstructions*, and to remove from field to field. A perfect cutting apparatus, to cut the fine grasses without clogging, and so constructed as to *start* in the grass *without backing*, easily adjusted to cut high or low, and have a Reel to cut equally well, with or against the wind, and to be worked with ease by a light team, and so easily managed and simple that any one of common ability may operate it successfully, and to be built in the most thorough manner.

With this knowledge of the farmers' requirements, and with the determination to build a *better* Machine than has ever before been constructed in this country, we offer the Manny Mower of 1857 with confidence, as combining the qualities enumerated above, and as one particularly adapted to meet the wants of New England farmers.

☞ We invite the farmers to call and examine Machines. Orders should be sent early. Circulars, with testimonials, forwarded FREE, on application.

Price of Mower, $110; with Reaper attachment, $15 Extra. Delivered on board the cars at Worcester, Mass. JOHN P. ADRIANCE & Co.,

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES,

Prepared by an old Physician of 40 years experience.

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the painful and deadly consequences averted by a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

CLEANSE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to strike at the root of disease, which they cleanse at once. If they will do others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR, WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cheerfully say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an eliminable remedy for derangements of the organ. Indeed, I have seldom failed in a case of bilious disease so obstinate that it did not yield to them.

Fraternally yours, ALONZO BALL, M. D.,
Physician of Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., Nov. 16, 1855

DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around had been doctoring for many dollars doctor bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. They regulate the organs of digestion and purify the blood they are the very pill wanted. They are well known, and I can confidently recommend them to my friends. J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MCEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon both hands and feet that pronounced incurable for years. Her mother has been long grievously afflicted with blotches and pimples on the skin and in her hair. Your Pills alone have cured her. Made trial of your Pills, and they have cured her. ASA MORGRIDGE.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church.

PULASKI HOTEL, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Nor could I find relief from the best of physicians, the disease grew worse and worse, until, by the advice of a medical friend in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely cured.

SENATOR CRAWFORD, RATON HOUSE, LA., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that has afflicted me for years. VINCENT MORGAN.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even Deafness, and Partial Blindness, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already household property. In families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities anywhere which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous ills against which it wages war, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in their house against the insidious enemy that stealts upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the consumptions it prevents from ever having their victims, than it cures. Keep it by you, and cover your colds while you are thinking of them. Let the best them until no human skill can master the inexorable canker that, fastened on the vitals, eats your life away. All know the deceitful character of lung disorders, and do they know too the virtues of this remedy, we need not do more than to assure them it is still made the best it can be. We spare no cost, no care, nor pains, to produce it the most perfect remedy, and thus afford those who rely upon it the best agent which our skill can furnish for their relief.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRENCH & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all purchasers of tickets are entitled to send for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. The particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent out unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combinations. Prizes range from $5 to $100 '20. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Baltimore Clipper, Wing, the National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the drawings of lotteries at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can be at a loss to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $30,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York *Weekly Day Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as other lotteries do.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on the shortest notice, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages in obtaining patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given are evidence of MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The long practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal works, patent laws, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. He was generally considered as acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a more competent and true worthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHARLES MAGON,
Commissioner of Patents.

MARRIAGE GUIDE,

BY DR. YOUNG.

YOUNG'S GREAT PHYSIOLOGICAL WORK, THE POCKET ESCULAPIUS, *or Every One his own Doctor*, by WM. YOUNG, M. D. It is written in plain language for the general reader, and is illustrated with upwards of one hundred Engravings. All young married people, or those contemplating marriage, and having the least impediment to married life, should read this book. It discloses secrets that every one should be acquainted with. Still it is a book that must be kept locked up, and not lie about the house. It will be sent to any one on the receipt of twenty-five cents. Address Dr. WM. YOUNG, No. 152 Green street, above Fourth, Philadelphia.

JAMES W. EMERY,
for Trustees for Bondholders

City Hotel, Portsmouth, N. H.

BY WM. S. HADLEY.

THE SUBSCRIBER has the pleasure of announcing to his old patrons, and the traveling public generally, that he has leased this well-known, commodious and pleasant House, and would invite travellers and others to make "themselves at home" on the premises—promising to spare no reasonable effort which may conduce to the comfort and satisfaction of visitors.

While acknowledging the liberal patronage with which we have been so long favored, in our old quarters, we would solicit a continuance, now that our accommodations are so much increased and improved. WM. S. HADLEY.

Portsmouth, June 15, 1857.

SAGAMORE HOUSE,

FROST'S POINT, RYE, N.H.,

IS NOW OPEN FOR PUBLIC ACCOMMODATION.

TRANSIENT and permanent boarders accommodated with reasonable terms. Persons desirous of visiting this splendid retreat, and coming by Railroad, will stop at the Depot in Portsmouth, where MR. WILLIAM D. PERKINS COACH will be in readiness to convey them to the House.

The SCHOONER SIBYL, commanded by CAPT. RUFUS A. PREBLE, will touch at the Point daily, to convey passengers to and from the Isle of Shoals.

Pleasure Boats in readiness for sailing or fishing parties. GEORGE W. TOWLE.

Rye, July 1, 1857.

Atlantic House,

RYE BEACH,

IS now open for visitors. The reputation of this House is too well established to need any lengthy description of its advantages. The Proprietor will, as heretofore, devote himself to the comfort of his guests.

Passengers by the Eastern Railroad will stop at the North Hampton station.

Rye Beach, June 20. 6w J. C. PHILBRICK.

Appledore House,

ISLES OF SHOALS,

IS now open for Public Accommodation.

The schooner SIBYL, (one of the beautiful yachts built by the late Geo. Steers,) will run daily to this island from Pier Wharf, in Portsmouth, immediately after the arrival of the morning train of cars from Boston, and return in the afternoon.

The Sibyl is commanded by Capt. RUFUS A. PREBLE, a thorough seaman, who will give every attention to the comfort and enjoyment of his passengers.

The Sibyl has a magnificent cabin, water closets, tanks, and every accommodation which a first class Packet requires.

The advantages this purely Ocean Retreat possesses over all others are well known. Resting on the broad bosom of the Atlantic—free from heat, dust and noise—it is peculiarly fitted to restore health to the invalid, and rest to the careworn and weary. j22 THOMAS B. LAIGHTON.

S. D. & H. W. Smith,

—MANUFACTURERS OF—

Melodeons, Organ Melodeons,

—and—

PEDAL BASS MELODEONS,

No. 511 Washington Street, Boston.

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS, Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON

Is designed for parlor and private use. The construction is similar to the Church instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church Instrument, when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen, in short, we will promise no purchaser an instrument equal, if not superior, to any Manufacturer, and guarantee an *entire and perfect satisfaction.*

Music Teachers, Leaders of Choirs, and others interested in musical matters, are cordially invited to visit our Rooms at any time and examine or test the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,

who have examined our Instruments, and will give their opinion when called upon:

Chickering & Sons, Hallett & Cumston,
T. Gilbert & Co., Wm. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woodward & Brown,
Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are positive and speedy in effect, in restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No medicine will cause a miscarriage unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the work of consuming food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of hysterical manoeuvrings, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhoea, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid,* to Dr. C. L. CHEESEMAN, Box No. 4,531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

BURDEN'S

Pressed Boat, Ship, Brad & Countersunk Railroad Spikes

ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. WEDNESDAY, JULY 8, 1857.

RENDERING A REASON.—The Boston Traveller says:—

It is the great quantity of cheap "rot-gut" liquor in the market, which is peddled out to the poorer classes, and the increased quantity of better articles used by wealthier people, that cause liquors to be so much more destructive to mind and body, than in former years, when our ancestors used a pure article freely, but in moderation, and were, there is reason to believe, more healthful and robust than the men of the present day.

Let us see if we or our readers can possibly understand what is meant by this single sentence.

Statement 1st:—There is much cheap bad liquor in the market.

2:—This bad liquor is sold to poor people.

3:—There is an *increased* quantity of good liquor,

4:—This *good* liquor, and *more* of it, is used by the wealthy.

Therefore—

5:—In consequence of these 4 things, liquors are much more destructive to mind and body than in former years!

Now let us stop a moment and look back to see what a discovery is made.

What *is* it that increases the *destruction*? Answer, simply, that (according to the above extract) a *great quantity* of bad liquor, and an *increased quantity* of good, are drank. The more drinking, the more drunkenness, and the more drunkenness the more destruction. If this were all true, it would need no flourish of trumpets to announce it.

But 6thly, the Traveller compares the present *destruction* with the former years of *safety*, when—

7:—Our ancestors used a pure article (of intoxicating drink) freely but in *moderation*. And tells us,—

8:—That it *believes* those ancestors were more healthy and robust than the men of to-day. We suppose it means that they were thus more healthy in consequence of this *free moderation* in drinking pure liquors.

But if we carry No. 8 back and compare it with No. 5, where the *destruction* among the wealthy is caused by the *increased use* of better articles, there this free moderation makes men healthy—*freer* moderation destroys them.

Thus analyzed, the paragraph does not amount to much, beyond the assertion that more liquors are drank now by the same number of men than at a period long ago, say 40 or 50 years, and more bodies and minds destroyed thus, now than then. And both these assertions, we are prepared to show are quite erroneous.

In our own city, and in its vicinity, we have the means of knowing, and do know, that the drinking of liquors and drunkenness of 1857, with their destructive effects, great and dreadful as they are, do not amount to one half of what they were in 1807 to 1817,—though our population now is considerably larger than it was then.

THE ACCIDENT ON THE MARIETTA RAILROAD.—The Cincinnati Commercial gives the following account of the accident near Vincent's Station, on the 1st inst., by which Wm. G. Richardson of Boston lost his life:

"At this point there is a trestle some 300 feet long and 53 feet high. The regular track at the west end of it is not finished and the trestle is reached by a reverse curve on a temporary track. The train had just entered upon the trestle, when the passenger car from some unknown cause ran off upon the northern side, became uncoupled from the baggage car, plunged forward and fell to the ground bottom upwards, and was broken into fragments. There were in the car between twenty and thirty persons. The wonder is that every one of them was not instantly killed.—Three were taken out of the car dead, and all the others more or less wounded. One has since died, and several others are so badly injured that their recovery is doubtful."

The other persons killed besides Mr. Richardson were Mrs. Brigham, wife of William Brigham of Marietta, and an unknown man. Two sons of Dr. Bullard, of Indianapolis were badly wounded, and one has since died. The wounded persons belong chiefly at the West.

☞The Nashua Telegraph, speaking of an old subscriber who has taken that paper for twenty-four years, and has just sent the publisher $5, towards continuing his subscription as much longer,—says, "We suspect that he may have forgotten his last payment, two years ago. We have quite a number of subscribers who seem to be quite as oblivious of the fact that they did *not* pay us two years ago, nor since."

☞ Answer to the last Charade in the Chronicle—Navy Yard.

NEW YORK RIOTS.

The New York riots, in the aggregate, have been the means of killing and wounding not less than a hundred and fifty persons. So many serious affrays, resulting so fatally, have not occurred in the city for many years. There is no doubt, says the Traveller, that much of the trouble was owing to the disorganized state of the police department—the municipal police having been disbanded by Mayor Wood on Friday, and the new police not having been able to obtain full possession of their field of labor. The station houses were still in the hands of Wood's men; the new police were many of them inexperienced in their duties; and a bitterness of feeling prevailed against them which displayed itself in a desire to incommode and oppose them.—The telegraph lines which connect the stations, and the control of the alarm bells, had not been surrendered to them; so that, in the midst of the riots, they found it impracticable to sound the twelve strokes on the fire bells—the signal arranged to call out the twelve regiments of the city in case of emergency. The lower orders of the people understood all this,—for the rioting was entirely among the lower orders,—and feeling contempt for an imperfectly equipped police department, the rabble did not fear to take advantage of what almost might be called a police interregnum, to settle their quarrels in the way which naturally presents itself to debased and brutalized minds.

In the long struggle for power between the rival police departments, feelings of malice have of course been engendered among the partizans of each, which may have added strength to the arm of misrule. In fact it is intimated that many of the old police were active in fomenting disturbances, in which they might wreak an anonymous vengeance on those who had supplanted them. The triumph of the latter had occurred but the day before, the fiery blood of passion had not yet cooled, and chagrin and bitterness were yet rankling in the hearts of the defeated partizans of Mayor Wood. Mr. Draper, President of the Metropolitan Police, in his written requisition calling on General Sanford for aid, said:—"Our force, though strong, is driven by combinations of men, seeming to be under orders of experienced policemen, and others of desperate character, from point to point."

A report made on Saturday night to the Commissioner, was as follows:—"Mr. A. M. Hamilton, of Monroe street, states that he is informed, and believes, from what he has seen and heard, that the Irish contemplate making an attack on the Fifteenth Ward Station-house this evening, and that he saw and heard the late Captain of the Seventh Ward (Letts) and his late Lieutenant encouraging the mob to resist the police in their endeavors to quell them."

Other accounts tend to strengthen the belief that the recent police difficulties had their effect in producing and stimulating the terrible scenes of Saturday and Sunday.

Strange revelations are coming to light in regard to Mayor Wood's police. In the 15th Ward, among the men recently appointed, was a Sargent, just discharged from prison for cruelly beating his mother,—Judkins, who had just graduated after an imprisonment for passing counterfeit money,—and Conway, sentenced in July last for stabbing with intent to kill.

CAMP MEETING AT KENNEBUNK.—The Methodist camp meeting will be held at Kennebunk, commencing on Monday, August 24th. The land on which this meeting is to be held has been secured for that purpose for ten years, and arrangements have been made with the railroad company, for the same period, to carry passengers to and from the ground at half fare.

THE BURDELL MURDER CASE.—The Burdell Cunningham case has reached the argument.—The Surrogate has concluded to send a commission to California to take testimony. The Surrogate thinks there will be plenty of time for a commission to go to California, be executed, and come back to New York, before he shall be ready to decide the case.

☞ Nathan Palmer, of Steubenville, Ohio, twenty years of age, who was 15 months with Walker, died in New York, at 9 o'clock on the evening of the 3d, from the effects of a wound received at the defence of Granada, from a cannon ball that took effect in the front of both legs, a few inches above the knee joint.

☞The Legislature of New York has passed a law abolishing the three days of grace, on bills of exchange and drafts payable on any specified day or in any number of days after date and sight thereof. This is all that the bill provides, and does not affect notes, &c., as many papers have stated.

APPLEDORE HOUSE, Isles of Shoals, July 6th, 1857.

Dear Uncle Toby:—A day or two since, imagining that the fresh air (now isn't it strange that the breezes from off *salt* water should most always be *fresh?*) and luxurious fare to be found at this island retreat would be beneficial to my health, I took passage in that fine boat, the Sibyl, Capt. R. A. Preble, and quickly crossed the expanse of brine which intervened. This boat, built, as of course you know, by the late lamented George Steers, is without exception the nearest to my idea of perfection in which it was ever my fortune to sail, and her skipper not unworthy of the craft.

I noticed as we left the wharf that the Norwegian barque Bien, (said to be synonymous with Bee) decked in her national colors, with the American flag flying at her mizen-topmast-head, in honor of Independence Day. This is the first vessel of that nation which has ever visited our port, and the voluntary tribute of respect thus offered to our nation must be gratifying to all.

On our passage we observed numerous schools of mackerel, this fish being plentiful hereabouts just at present. Some large draughts have been made by the seiners. At one haul, on Friday, 125 barrels, valued at over $1000, were taken. Another party secured 100 bbls. and the weight of the fish breaking the seine, as many more were lost. Pollock have dwindled away to next to none, and cod are said to be scarcer than ever before; while herring, which a few years since did not come at all, now swarm around the islands at the proper season.

Owing to unfavorable weather, many visitors have not as yet appeared, but of July "mine host" expects better things.

Uncle T., if you have anything of the sailor in your composition, I advise you to exercise it by coming out here. If not, it is worth being sea-sick a while to hear the hearty landlord converse half an hour, to watch the mighty waves as they dash impetuously against the shores, so wildly grand in their irregular granite fronts, and then receding make innumerable cascades of silver spray, to hear the roar of the distant surf; and, in fact, there are many ways of enjoyment, either of which is worthy the risk.

Then there is Gosport, where one may inspect the whole process of fish-catching and curing, and take a peep into Betty Moody's Hole, replete with the horror of its bloody legend. Here the visitor will be made comfortable at the Atlantic House by Mr. Caswell.

I understand that a petition for a fog-bell on Whale's Back is to be started, and presented at the next session of Congress, a measure of great importance on account of the large number of coasters and fishermen that are obliged to resort to our harbor in bad weather.

Length and goodness are nearly incompatible. As brevity is the only palliation for this scrawl, I beg leave to affix my

SEAL.

DISMISSAL OF MORMON MAIL AGENTS.—The Postmaster at Independence, Mo., has received an official notice from the Postmaster-General that the contract for carrying the mails from thence to the Salt Lake has been set aside; and he is therefore ordered to withhold the mails until further orders. This is done by virtue of a right always reserved by the department, to rescind mail contracts on giving due notice and one month's pay to contractors. In this case, the contract was taken by a company of Mormons at Salt Lake City, who have already made several trips under it. So general were the complaints of the mails having been violated and letters opened, especially the correspondence of the government officials, that it became quite evident that Mormon contractors were mere tools of Brigham Young. The Administration has also taken another step toward insuring the faithful performance of the mail service in Utah. A Postmaster had, it seems, been appointed for Salt Lake City, who was not a Mormon. A commission was sent to him, but never reached its destination, and duplicate copies failed likewise. In fact, he was not recognized by Brigham Young. He has now received his commission in person at Washington, together with full instructions as to his course, and will go out to Utah with the U. S. troops.

☞At Randolph, Mass., last Saturday, an attempt was made to murder the family of John Jones, by a paper of sugar in which arsenic was mixed, that was left in the yard, the use of which made several of them sick. Lucinda Ann Hunt, recently a domestic in the family, is arrested and put into jail, to answer for the crime, and the principal witness against her is her own sister.

CHARADE.

[Written in a sort of mixed metre, consisting of long, short, common and uncommon. The author, after having essayed for three hours to make the ends of the lines jingle, has done as well as he could to produce that desirable effect.]

My *first* is what the kettle is,
When singing o'er the fire—
(Perhaps, to say the water is,
Would be a little higher.)

Lots of my *next* are just the things
To have in a fellow's pocket,
(Be hanged if there's another word
To rhyme with that confounded, unmusical, unpoetical "pocket!")

The poems of my *whole* have graced
The columns of this sheet—
(Charades of such exquisite taste
Are too particularly good to admit of the probability that any one could them beat!)

All answers, accompanied by a $1 bill, thankfully received by BOILING ROCK, JR.

☞ A comic poet who wrote before the recent revival of hoopod petticoats, seems to have had the spirit of prophecy, which was anciently ascribed to poets, as well as the regular *vates*. Hear him talk:

"Behold some damsel, slender as a reed,
And fair as slender—beautiful indeed—
Suddenly grown to such enormous size
That you can scarcely half believe your eyes!
Spreading to seem with each succeeding minute,
St. Peter's dome! with a small child stuck in it!"

☞ H. G. Hotchkiss, of Lyons, N. Y., is said to be the greatest producer of peppermint in the world. He has between 200 and 300 acres under cultivation, and employs more than one hundred laborers upon his plantation. Mr. Hotchkiss sells the oil of peppermint in London and other places, and his annual trade amounts to from $75,000 to $125,000.

PATRIOTIC.—The citizens of Rye, or part of them, celebrated the Fourth by ringing the bell, (not bells) from nine o'clock on Friday evening, until noon on Saturday; and from that time (at intervals) until nine in the evening.

People differ in tastes, but it was *rather* too monotonous to suit ours.

NEWBURYPORT.—Four young men, Theodore Perkins, Caleb L. Howard, George Woodman, and John Wells, have been arrested in Newburyport, and held to answer to the charge of shooting bullets into houses the night before the Fourth.

NEW YORK, July 7.—An arrival from Port au Prince confirms the report of the disastrous fire at that place. It broke out at midnight, June 12, and destroyed 100 houses and stores. Loss estimated at $1,000,000 Spanish currency. Salt is abundant at Inagua and Fortune Island, and selling for 10c per bushel.

FATAL RIOT IN DETROIT.—*Detroit, July 6.*—A row occurred in this city last night, and in endeavoring to quiet it Deputy Sheriffs Small and Austin received such severe injuries that Small died this morning, and Austin lies in a very precarious condition. Twelve arrests have been made.

LOOK AT THIS!!!

Mr. Joseph Smith of Haverhill, Mass., wishes to inform the people of Portsmouth, that he is in this city for a few weeks, to make a practical demonstration of his Smith's Curative Cleansing Compound, free of charge, for the cure or special relief of the following ills, viz: Rheumatism, Neuralgia, Ague, Toothache, Headache, Bowel Complaints, &c., which are usually counteracted in a few minutes.

The Proprietor, Mr. Smith, would esteem it a favor, if the people would give him the opportunity of testing the value of his Remedy for the above complaints, before pronouncing him a deceiver, as "many deceivers have gone out into the world." Mr. Smith is able to refer to persons in this city, who have been benefitted by his Compound and Plaster. Enquire of James Raitt; S. Hubbard, High St; J. W. Grant at the Brick Market, whose boy's toothache was cured in half a minute; James W. Nutter, near the Post Office, and many others. Price 25 cents per bottle. jy2 tf

We call attention to a medicine advertised in our paper, for sale by J. H. Thacher and W. R. Preston,—for the cure of Dysentery, Diarrhea, and other affections of the Bowels. If what is said of it is true, by those that have given it a trial, it should be used in every family. No medicine is more worthy of universal commendation than Dr. Wilson's Dysentery Powders.—Please try them. july2 2w

DECLINE OF DRUNKENNESS IN LONDON.—The London Economist of the 23d ult., publishes an official statement of the number of persons arrested for drunkenness within the jurisdiction of the metropolitan police from the year 1831 to 1855 inclusive, which shows that the number of drunken persons taken into custody in the first year was 31,351, and that in the latter year was only 19,257, while the population of the city had increased about 50 per cent. within the period included in the return.

LOCAL.

☞ Signor Donetti's Dogs and Monkeys acted their parts well on Tuesday evening at the Temple; and the audience acted theirs, in laughing at the comical grimaces, ludicrous gravity, and amazing dignity of these quadruped mimics of humanity.

Besides the ludicrous, at which no one could well refrain from laughing, there was also the exhibition of instinct, animal genius, and good training in the performances of these players. Moreover, their occupation does not draw them away from anything higher; nor can their performance suggest anything which would excite unpleasant or unprofitable thought or feeling.

They are really a curiosity, well worth seeing by all who wish to understand the nature and power of animal instinct.

A CARD.

The Portsmouth Cornet Band would return thanks to the Officers and Members of Engine Companies Nos. 1 & 2, for the compliment paid them on the evening of the Fourth; and would apologize for not returning the gentlemanly salute.—The Leader of the Band did not at first understand the matter, and before an appropriate piece could be selected, the Companies had passed on. Per Order.

E. D. COFFIN,
Sec. Portsmouth Cornet Band.

Portsmouth, July 8, 1857.

MAP OF ROCKINGHAM COUNTY.—This long-promised work has at length made its appearance, and a very respectable appearance, too. Everything advertised by its publishers has been fully carried out, thus giving the inhabitants of old Rockingham, a complete and accurate plan of the whole County, a thing very much needed. The scale is one and a quarter inches to the mile, making each town large enough to define distinctly the location of every road, house, &c., therein.

Besides the general map, every town is represented separately on a larger scale, giving the residences of all subscribers with their names affixed. The map of Portsmouth is simply a smaller size of the one published by Mr. Brewster a few years since. Several pictures of buildings, etc., in the County, form a border, among which are the Town Hall and Academy of Exeter. Col. Peirce's residence in Greenland, Hampton and Kingston Academies, and several others. We observe that Portsmouth is entirely ignored in this respect, not even our boastful Jefferson Market being recognized. The maps will probably be delivered to subscribers in this city in a day or two. H.

☞ The Boston papers are very exuberant in their reports of Fourth of July celebrations all over New England. It is a very singular circumstance that they omitted to mention Portsmouth among other cities. Our reporters were so intent on having a good time, that they absolutely refused giving any account of the doings here at home. We understand that a party of 40 young ladies (not ladies of 40!) and gentlemen, had "about as good a time as anybody," at a picnic on the banks of our beautiful Piscataqua, about two miles from the city. There were also several other such gatherings, in the suburbs. A good way to spend the Fourth. Now the noisy day is over, and folks have rested themselves, won't some one agitate the question whether we are to have a celebration here the next Fourth of July, or not. Q.

ICE CREAM.—If you want the best machine in the world to make ice cream in, call at Mr. Carleton's Kitchen Furnishing Rooms, and get "Austen's Patent Cream Freezer."

☞ It will be seen that Mr. N. K. Haynes has been appointed agent in Portsmouth for the sale of the celebrated Kreosene Oils.

ST. LOUIS, July 6.—The Deseret News of May 27 announces the return of Brigham Young and family, after an absence of sixteen days. The harvest prospects were flattering.

A Democratic convention met at Lecompton, Kansas, July 2d, and nominated ex-Gov. Ransan of Mich., by a two-thirds vote, over Hon. Eli Moore. A resolution endorsing Walker's policy was adopted.—A resolution to the effect that the Democracy will adopt the constitution to be framed by the constitutional convention, whether it be submitted to the people or not, was lost—40 to 1.

SHIPWRECK AND LOSS OF LIFE.—*St. Johns, N. F., July 6.*—The ship W. M. Rogers, of Bath, Capt. Thompson, foundered at sea on the 21st of June. The captain, with first and second officers, and nine seamen, went down with the vessel. The 3d mate and twelve seamen arrived here this morning in a British vessel, which took them from a life boat. [The William M. Thompson sailed from Liverpool June 10 for New York.]

NEW YORK, July 6.—The city remained quiet through the day, up to sundown. The military, however, will be on duty tonight.

Major General Sanford, who has been absent since Saturday afternoon, returned to-day, and will resume command.

The captains of the old police held a meeting to-day, and arranged to hand over to the city, all the property in the station houses, and close them.

A caucus of Democratic Councilmen was held to-day, to consider the question of surrendering the station houses to the Metropolitans. It is understood a majority were in favor of the measure. The matter will be discussed in the Board to-night.

One of the Metropolitan police, beaten on Saturday, is lying in a very critical condition.

A lad named Buckley, aged 13, died in the hospital last night, from wounds received in the riot on Saturday.

Several of the rioters were examined to-day, before Justice Osborne, and seven of them, who were taken with weapons in their hands, in the act of resisting officers, were committed for trial, and bail refused. Their names are Patrick Moore, Owen Kevlin, Patrick McBride, Barny Gallagher, Bernard McGovern, Patrick Mooney, and Bernard Dye.

The cannon captured in the Bowery by a squad of the 71st Regiment, has been sent to the armory of the regiment, as a trophy.

THE ADMINISTRATION AND KANSAS.—*Washington, June 6.*—The affairs of Kansas have formed the subject of Cabinet deliberation since the receipt of the resolutions of the Georgia and Mississippi Democratic State Conventions, condemnatory of the course of Gov. Walker. Although his conduct is not entirely approved by the administration, it will firmly sustain him, believing that he acted with wisdom and justice in advising a submission of the Constitution to a vote of the people, and that he thus followed a safe line of policy. The Southern attacks are considered ungracious in view of the fact that Gov. Walker was sent to Kansas by an administration pledged to the defense of Southern rights, and opposed to the Topeka Constitution, and in conformity with which policy Gov. Walker is now claimed to be acting. The views of the administration, carefully elaborated, will, there is reason to believe, soon be officially promulgated.

ST. LOUIS, July 7.—The St. Joseph's Journal of the 2d publishes a report of a French trader, that 100 troops and 50 teamsters, under Col. Sumner, were attacked by a large body of Cheyenne and Apache Indians, 200 miles west of Fort Kearney, and all slain. The report is confirmed by a trader who arrived at Pacific City, Iowa, on the 2d, and by the emigrant train from Salt Lake.

The Salt Lake mail has arrived with Independence dates to the 30th ult. The emigrant trains were doing well. Snow had disappeared, and grass and water on the Plains were abundant. The Mormons treat Surveyor Burr's report with contempt and accuse him of making false statements in regard to the country.

SPECIAL NOTICES.

"IN PEACE PREPARE FOR WAR."—In the days of our youth, it behooves us to make some preparation for the approach of age. How many persons have become prematurely bald by neglecting to apply appropriate remedies to prevent the hair from falling out. The use of Professor Wood's "Restorative" will prevent the hair from falling off, impart to it a healthy growth, and even restore the hair of the bald. Thousands have testified to its efficacy. To be had of Druggists everywhere.

IF ALL OUR READERS

Who are troubled with liver complaint, Jaundice, or Dyspepsia, will read the advertisement in another column of Dr. Sanford's Invigorator, and then do as we have done—get a bottle, we should not see so many sickly, half-dead, despairing people as now meet our gaze at almost every corner, for certainly there never was a remedy invented of which so much is said, and that performs so nearly what its proprietors say it will do. It came to us so highly recommended that we could not fail to try it, and a trial has convinced us, without a doubt, that it is the best family medicine in use. We take it for Headache, Sick Stomach, Billiousness, and any of the little bodily ills that are common, and it does produce a pleasant state of feeling to the sick, and what is better, after using it a few times, these little ills grow less and less, and there is a prospect of being entirely free from them by a continuance in the use of the Invigorator. The Great English Remedy.
SIR JAMES CLARKE'S
Celebrated Female Pills.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females that are pregnant, during the FIRST THREE MONTHS, *as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.*

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics, and Whites, these Pills will effect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel, antimony, or any thing hurtful to the constitution.

Full directions accompany each package.

Sole Agent for the United States and Canada, JOB MOSES,
(late I. C. BALWDIN & Co.) Rochester, N. Y.

N. B.—$1 and 6 postage stamps enclosed to any authorised Agent, will insure a bottle of the Pills by return mail.

Stocking Weavers' Strike.

PORTSMOUTH, JULY 2, 1857.

To the inhabitants of Portsmouth and its vicinity:

WE, the undersigned, wish to call your attention to the present Strike of Stocking Weavers in this city. We think to awake your sympathy when we place before you the reasonable excuse for such strike. The trade is spread, more of less, through the States; and for the kind and quality of work as made in Portsmouth, nowhere else can we find that the workmen are paid it at so low a rate as here. In Massachusetts, where the same kind of work is made, and with one and the same market, the workmen receive at the rate of 30 per cent. and upwards over us.

We appeal to every reasonable man, and ask whether it is right that we should make goods equal to those made in other places, for so much less? If we have submitted to a reduction of prices in time past, can we not with confidence ask for a renewal of the former rates, or at least an equal right with others? We have borne the grievance too long—but now necessity has forced it upon us to remonstrate. House rent, fuel, food, clothing,—all these have steadily increased in price; in fact, it has become a problem with us how are we to live by our labor?

Signed, by order,
WILLIAM ALTON, JOSEPH WAIN,
JOHN JENKINS, JAMES MURBY,

Manny's Celebrated Mower
—AND—
MOWER AND REAPER.
IMPROVED.
Built expressly for the New England States.

THE MANNY MOWER has been extensively used for the past two years in New England, and more than six years at the West.—Its success is beyond that of any other Mower or Reaper ever constructed. Over 150 1st *Premiums* have been awarded it, including the *first and 1st Class Silver Medal* at the WORLD'S FAIR, PARIS, 1856.

With the two past years' *experience*, we have been enabled to make a number of very *important improvements*. We find New England farmers require a different Machine from other sections—and it varies from field to field. A perfect cutting apparatus, to cut the fine grasses without clogging, and so constructed as to *start* in the grass without backing, easily adjusted to cut high or low, and have a Reel to cut equally well with or against the wind, and to be worked with ease by a light team, and so easily managed and simple that any ordinary common ability may operate it successfully, and to be built in the most thorough manner.

With this knowledge of the farmers' requirements, and with the determination to build a *better* Machine than has ever before been constructed in this country, we offer the **Manny Mower** of 1857 with confidence, as combining the qualities enumerated above, and as one particularly adapted to meet the wants of New England farmers.

☞ We invite the farmers to call and examine Machines. Orders should be sent early. Circulars, with testimonials, forwarded FREE, on application.

Price of Mower, $110; with Reaper attachment, $15 Extra. Delivered on board the cars at Worcester, Mass. JOHN P. ADRIANCE & Co., *Manufacturers.*

PEARLS IN EPPING.—A correspondent of the Boston Journal states that since April in the muscle in several of the Trout ponds in Epping valuable Pearls have been found, one of which was sold for $880. In all, is said, that between $12,000 and $15,000 worth have been found and sold. It may be true, but as it is new here, there is some chance that it is a fish story. Epping produces some hard-shells, and why not some pearls?

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRAZER & CO are the managers, are chartered by the state of Maryland, and commissioner elected by the people, who are sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that persons have a legal right to send money for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, tickets are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combinations. Prizes in any amount from $20 to $100 000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the Baltimore Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend them drawings and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send money for tickets in Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every day in the month, the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $1; halves, $0.50; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize being drawn as a result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount of prizes, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia.

Prizes paid in full—no percentage deducted from prizes in our lotteries.

All communications strictly confidential. m18 1y

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 7 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and Patents for inventions, for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions, and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by transmitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES, the subscriber WOULD SAY that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From Hon. Edmund Burke, Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the prosecution of business with the office, as Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

The Medicine THAT NEVER FAILS!

IS DR. WILSON'S

DYSENTERY POWDER,

Which cures Dysentery, Diarrhea, Cholera Morbus, and all the affections of the Bowels attended with Pain and frequent Discharges.

This Medicine is now being introduced into all parts of the United States and British Provinces, and great success attends its use everywhere.—These Powders are now offered to the world as a PERFECTLY SAFE AND EFFECTUAL MEDICINE, for the purposes they are recommended and in nine cases out of ten

ONE POWDER WILL CURE THE WORST CASE,

when they are taken in the first stages, and almost invariably *two will effect a permanent Cure;* and unlike all other preparations, which, if they check the disease, leave the person in a condition that requires physic after it, which is not the case with the Dysentery Powders, for they *regulate the Bowels,* tone up the system, and leave it in a healthy state.

These Powders are put up in boxes, with full directions on each box, and sold for 50 Cents.

Please try them; if they do not *give perfect satisfaction,* return them and take your money.

S. D. & H. W. Smith,
—MANUFACTURERS OF—
Melodeons, Organ Melodeons,
—and—
PEDAL BASS MELODEONS,
No. 511 Washington Street, Boston.
The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufactures.
By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.
THE PEDAL BASS MELODEONS,
Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.
THE ORGAN MELODEON
Is designed for parlor and private use. The construction is similar to the Church Instrument, being arranged with two banks of Keys, and when used together by means of the coupler, is capable of as great volume of power as the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.
Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings
511 Washington Street,
We have every facility for manufacturing purposes and employ none but the most experienced and skilful workmen. In short, we will promise our customers an instrument equal, if not superior, to any Manufacturer, and guarantee an *entire and perfect* instrument.
Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our establishment at any time and examine or test the instruments on exhibition for sale at their pleasure.
As a still further guarantee to the public as to the superior character of our MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following
Piano Forte Manufacturers of Boston,
who have examined our instruments, and will give their opinion when called upon:
Chickering & Sons, Hallett & Cumston,
T. Gilbert & Co., Wm. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woodward & Brown,
Newhall & Co.
MELODEONS RENTED.
Persons wishing to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.
Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

IMPORTANT DISCOVERY,
DR. CHEESEMAN'S PILLS FOR FEMALES.
Prepared by an old Physician of 40 years experience
THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, restoring health, vigorous, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and no regularity can continue if she takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of many serious complaints among young females headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that must always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spasmodic affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.
These Pills are put up in square flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

THURSDAY, JULY 9, 1857.

BUCKMINSTER, WALTON, AND BALLOU.

The following notes close the correspondence between Messrs. Buckminster and Ballou, which every careful reader must have perceived to be the efforts of two honest, earnest men, of widely differing views, to do each other good.

Dr. Buckminster reproves, admonishes and condemns Mr. Ballou and his sentiments—while the latter defends himself and his views.

MR. BUCKMINSTER'S NOTE TO MR. BALLOU.

It is a duty which Mr. Buckminster owes to himself to declare that the thought of intimating that it was any assumption or presumption in Mr. Ballou to reply to his address, never once entered his mind; and he is sorry if anything in Mr. Buckminster's communications should give ground to suspect such foolish vanity; but it confirms the correctness of the opinion that *disputes, however temperately conducted, are rarely productive of any good.* All that he meant was, that the decision at the tribunal of God would be final.

Friday, P. M.

MR. BALLOU'S NOTE IN REPLY.

Mr. Ballou is happy to acknowledge the honor done him by the Doctor's note of Friday, P. M., by which he realizes the hope expressed in his epistle of the 11th inst., that what appeared to be intimated by the Doctor's letter of the 10th instant, in relation to final judgment, was not meant. In the meantime Mr. Ballou thinks it a duty which he owes to himself to point out to the Doctor the items in his letter which were misunderstood. The Doctor's expression, "I therefore endeavored so to express myself that no reply should be necessary," was understood to intimate that liberty had been assumed unnecessarily.—In confirming the opinion that "*disputes, however temperately conducted, are rarely productive of any good,*" Mr. Ballou thinks his mistake has produced but little consequence, as that opinion was so confirmed before, that even a reason for an assertion could not with propriety be given.

Saturday, P. M.

The following is a brief extract from Mr. Ballou's reply to Mr. Buckminster's first letter.

You think that no good would result from the argument, however temperately conducted it might be, assigning the pride of peculiarity and the influence of party views as sufficient barriers to prevent success. In this observation may I say without offending, sir, you are inexplicit, or wanting in propriety, and premature in application. Temperate men are not governed in their religious researches by the pride of peculiarity nor the influence of party views, and a faithful trial ought to have been made in order to convince me of error before the charge of *pride of peculiarity*, or the influence of party views, could with propriety have been made. I am disposed to believe when persons are candid and temperate in an investigation, they generally obtain light and edification. I will say for myself, notwithstanding I highly prize your solemn warnings, and believe them as proceeding from the most commendable sentiments of friendship, I should have been much pleased if you had accompanied them with the best and most forcible arguments of which you are master, against the doctrine which you are disposed to say, in so many words, "*is not true.*" The small still voice to which you recommended my attention has never told me that Christ was not the Saviour of all men.

May we not suppose that this voice is uniform in its testimony? Do tell me, sir, if that voice ever told you that it was not the will of God that all men should be saved? Is it not by the influence of the spirit of this voice that you pray for the salvation of all men? And would this small still voice tell you that it is not God's will to save all men, and then induce you to pray for all men? If I be not a stranger to this heavenly voice which teaches me to wrap myself in my mantle, the Lord my righteousness, it influences me to pray in faith, nothing doubting, for the salvation of all men.

☞ At the Coroner's inquest in Boston, on the death of Mr. Asa Libbey, Miss Almira F. Town testified that she was walking with Mr. Libbey on Charles street mall at the time of the explosion, immediately after which she felt something touch her right shoulder, and momentarily stunned her, and on recovering herself she saw Libbey lying on the ground. He was raised up by a gentleman, and died in her arms in five minutes. His clothing was somewhat torn, and there were corresponding wounds upon his person. A large piece of iron was picked up near by. The corpse was taken to her house, 22 West Centre street, and has been sent to his home in East Eliot, Me., where he leaves a wife and nine children.

☞ Two children were shot on Saturday, in Baltimore, through the recklessness of men bearing fire-arms. One, named Charles Fisher, three years old, died within an hour after the occurrence; the other, named Hinternesch, two years old, was severely wounded. The two men were committed to jail.

BOLD BANK ROBBERY.—The Portland State of Maine gives the following account of the robbery of the Central Bank of New Brunswick:

"On Saturday, June 28, the Central Bank of New Brunswick was robbed of a large amount of Gold, and Five Pound Notes. The amount is not stated, but we presume from $15,000 to 20,000 in Gold, and a still larger sum in Bank Bills. It was one of the boldest and best planned robberies we have heard of for many a day. The village of Fredricton has about 5000 people, and is as quiet as Augusta or Brunswick in this State.

The Robbers got into the basement of the building, dug through the masonry and got access to the lock, an old fashioned one, bolted to the door by screws.—They cut off the heads of the screw bolts, left the lock hanging in its place, and forced the door. They selected their gold and bills, and left the silver on the floor of the Banking room, apparently intending to return for it. No one connected with the Bank visited it from Saturday afternoon to Monday morning so that they had ample time for arrangements."

The persons of the robbers, supposed to be four in number, are pretty well ascertained, and it is believed they will not escape arrest. They took the precaution to cut the telegraph lines on both sides of Fredericton about twenty miles distant each way, so that they had a good start. The bank is abundantly able to bear the loss.

☞ At a late meeting of the Massachusetts Temperance Committee, reports from different parts of the State were presented, of a more encouraging character than usual. Notwithstanding the warm weather, very large meetings have been held, and the temperance men of the State have been unusually active. The committee thought the prohibitory law was better enforced than ever before. It was stated that the decision of the Courts have thus far, all been in its favor, and that there is a very general desire in most parts of the Commonwealth, to close up the liquor shops. The Committee animadverted quite severely upon the course of the city government of Boston, in allowing over two thousand liquor shops to remain open without hardly making an effort to close them. They seemed to be of opinion that, with the exception of the city, no difficulty would be found in executing the law.

SOUTHERN COMMERCIAL CONVENTION.—The stale and ridiculous farce known as a Southern Commercial Convention, is about to be repeated this year at Knoxville, Tenn., opening on the 10th of next month. The Baltimore American thus comes down on it:

"Really, we think it time that the Southern railroad companies should kill off this most miserable of unmitigated humbugs, by refusing to transport the delegates free of charge. Only make them pay for their tickets, and their gas about Southern commerce will find some other safety valve than these Southern commercial conventions. Perhaps it is our devotion to our own native South, mingled with our contempt for humbugs, that makes us feel a sense of humiliation not unmingled with loathing, when we hear of these Southern commercial conventions. They have now been in operation six or eight years or more, and if any man can point to a single benefit that has resulted therefrom, at all commensurate with the thousandth part of the liquor the delegates have guzzled down their capacious throats, we should be pleased to hear of it. Indeed, they seem to have become the mere occasions for drinking and gormandizing."

SERIOUS AFFRAY.—In New Bedford, on Saturday night, Daniel Morton was stabbed in a dangerous manner by William Cunningham, with whom he had quarrelled and beaten. The affray grew out of a dispute in regard to one of Morton's children, who had been boarding with Cunningham; but rum was the exciting cause. The recovery of the wounded man is very doubtful. Cunningham is under arrest.

REV. JOHN L. BLAKE, D. D.—New York papers report the death of this well known preacher and author, at his residence in Orange, N. Y. The deceased resided in Boston many years. He was the first rector of St. Matthews Church, (Episcopal,) South Boston, and served in that capacity from 1824 to 1832. He has edited several school and text books, which enjoy much celebrity. His age was sixty-nine years.

☞ An affray occurred on the 4th, in a drinking shop in Baltimore, which resulted in the death of a man named Robert Frazier. Frederick Biddaker is charged with the crime, and the evidence was such that he was fully committed to jail. One Dandepardt was also committed as an accessory.

☞ The Presbyterian church and society of Londonderry have extended a call to the Rev. William House, from Princeton, New Jersey. Salary $800 and the use of the parsonage.

THE NEW YORK RIOTS.—Mayor Wood affects to believe that the riots of the 4th and 5th in New York, might have been avoided; and says that if the police and military had kept their hands off, there would have been no riot. He "has been three years Mayor, and never had a riot before." This, of course, is mere fustian. The Commercial of last evening says:

The city has continued quiet since the appearance, last evening, of the military in the streets. Many of the rioters have probably settled down to some kind of business to-day, yet the city is liable at any moment to a renewal of the scenes of the 4th and 5th inst.

There are several lawless bands of ruffians ready to make an assault upon the new police, should they catch them in certain sections of the city. There is a large reserve of special policemen at the White street head quarters and the station houses, and a military reserve remains under arms at the arsenal. There is a message in preparation from the Mayor to the Common Council to-night. It is intimated that the Common Council have agreed in caucus to give the new police the station houses. If such action is taken, it is thought that the rowdy gangs will resist. As the Metropolitan police are at present without proper station houses and telegraphic apparatus, they can do but little.

The men who most strongly oppose municipal reform in New York, are the very men who need the most reforming. A poor girl went on board a Boston steamer a few evenings since, and found to her horror that she had paid nearly all her earnings for a bogus ticket. "Is there no redress?" asked the indignant passengers near by.—"No," said the agent, "while an alderman keeps a bogus office on the docks and has his runners all over the city, and the police are parties to his villainy." This was evidently said sincerely, the agent adding that in all probability the ticket had come from this alderman's office, and was likely enough sold by the alderman himself!

☞ In New York City, some of the rioters who were taken in the act with arms in their hands, have been committed for trial—all of them are Irishmen, seven in number.

NEW YORK, July 7.—The rioters of the Fourth were tried and convicted to-day, at the Special Sessions. Andrew Plugner, for an attempt to rescue a prisoner, was sentenced to the Penitentiary for 6 months. Two others were remanded for sentence.

MARIO'S ADMIRER.—A paragraph has recently gone the rounds, announcing the tragical end of "Miss Coutts, the platonic admirer of the unfortunate Mario." But an error exists as to the name of the unfortunate lady. It was Giles. Her unhappy passion, which may not have been purely platonic, commenced with a dream, wherein she saw before her a phantom of possible indigestion—a man of noble mien and musical voice—who was, as she imagined upon awaking, to be found among men, and to be united with her in the destiny for life. Impressed with this idea, which became a monomania, she devoted her time to the pursuit of the reality of the shadow. Upon entering an opera house, one night, her joy knew no bounds, when the shape in her dream became a thing of life in the person of Mario! After this, she was unceasing in her efforts to attract his attention and to obtain a reciprocation of the feelings she entertained towards him. But however much flattered the great singer might have been with her proffered passion, he did not requite it, as Grisi had already possession of his heart. Disappointment did not damp the ardor of Miss Giles. She followed him everywhere, even across the Atlantic, and when he appeared in New York, her bid was the most prominent box in the theatre. For this she gave a check on the banker Coutts for $500. Thence originated her pseudonym, which she retained in after life, and as it appears even in death.

FATAL CASUALTIES.—Mr. Charles Shaw, baggage master of the morning freight train on the Cape Cod Railroad, was killed on Saturday, at the crossing near Middleboro'. The accident was caused by his head coming in contact with the timbers of the bridge at that place.

On Friday evening last, the wife of Charles Spaulding of Lowell was so severely burned by the explosion of a fluid lamp, which she dropped, that she died on Sunday.

POPULAR EDUCATION IN ENGLAND.—His Royal Highness Prince Albert, who is presiding over an educational convention in England, defines its exclusive object to be "an enquiry into the most efficacious method of overcoming the lethargic indifference of parents to the education of their children, and of counteracting the inducement to neglect early schooling which is afforded by the demand for labor."

☞ Ex-Gov. Marcy's death was occasioned, probably, by disease of the heart.—He had complained a little of palpitation, and of a "stich" in his back.

☞ A correspondent of the St. Louis Democrat gives a flattering account of the wife of Senator Douglas. The gossip goes that "she exercises considerable influence over the Little Giant; that she has induced him to quit drinking; that under her management he now dresses well, goes to church, actually wears kid gloves, and has set up a coach! His personal appearance rather corroborates the story; his oldest friends declare they never saw him looking so well. In politics, Mrs. Douglas professes to be a whig; but her lord is too old a sinner ever to be brought by her to political repentance."

ST. JOHNS, N. F., July 7.—The catch of fish off this island has been better than usual, and the business is going on prosperously.

H. B. M. Surveyor's steamer Cyclops has completed the coast soundings for the Atlantic telegraph cable, which show a very bold shore and great depth of water, which are desirable to protect the cable at the point of landing. The Cyclops sailed for London yesterday, and will doubtless arrive there about the 20th inst., at or about which time, the whole cable will have been placed on board the Agamemnon and Niagara.

STEAMBOAT ACCIDENT.—*Chicago, June 8.* Steamer Boiling City exploded her boilers on Friday, on the Oskosh River. Four persons were killed, and several others seriously wounded.

☞ Mr. Asa S. Tilton at his Union Store, No. 12 Market street, sells the following Medicines at reduced prices:—Dr. Larookoh's Indian Vegetable Pulmonic Syrup, warranted to cure coughs, colds, whooping-cough, asthma, bronchitis, croup, catarrh, consumption, and disease of the throat and lungs. Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, Kennedy's Salve, and Holman's Nature's Restorative.

LOOK AT THIS!!!

Mr. Joseph Smith of Haverhill, Mass., wishes to inform the people of Portsmouth, that he is in this city for a few weeks, to make a practical demonstration of his Smith's Curative Cleansing Compound, free of charge, for the cure or special relief of the following ills, viz: Rheumatism, Neuralgia, Ague, Toothache, Headache, Bowel Complaints, &c., which are usually counteracted in a few minutes.

The Proprietor, Mr. Smith, would esteem it a favor, if the people would give him the opportunity of testing the value of his Remedy for the above complaints, before pronouncing him a deceiver, as many deceivers have gone out in to the world." Mr. Smith is able to refer to persons in this city, who have been benefitted by his Compound and Plaster. Enquire of James Raitt; S. Hubbard, High St; J. W. Grant at the Brick Market, whose boy's toothache was cured in half a minute; James W. Nutter, near the Post Office, and many others. Price 25 cents per bottle. jy2 tf

We call attention to a medicine advertised in our paper, for sale by J. H. Thacher and W. R. Preston,—for the cure of Dyscentery, Diarrhea, and other affections of the Bowels. If what is said of it is true, by those that have given it a trial, it should be used in every family. No medicine is more worthy of universal commendation than Dr. Wilson's Dysentery Powders.—Please try them. july2 2w

☞ Rev. Dr. Dana, now in the 86th year of his age, has of late been visiting the schools of Newburyport, fearful perhaps that he may not long have an opportunity to do so, and wishing to the last, to use his influence in rightly moulding the minds of the youth. The deep attention paid to his words, and the respect that all, to the smallest child in the primary department, show him, says the Newburyport Herald, attest the veneration and love they bear him. He shows fewer marks of decline than most persons of his age, yet he is not without signs of failing.

A CARD.

THE officers and members of LACONIA ENGINE No. 2 take this method to express their sincere thanks to the TIGER ENGINE CO. No. 1 of New Market for the kind manner in which they received and escorted us at the celebration in their town on the 4th. Also for their generous entertainment throughout the day.—Rest assured, gentlemen, that 2's boys will long remember your kindness, and hope at no distant day to be able to return it.

To Col. HENRY H. SMITH, Chief Marshal of the day, for his kindness in furnishing us horses to draw our tub, and also for that dinner that can't be beat. We would advise all lovers of good entertainment to call at the Washington House and judge for themselves how we fared. Our thanks are tendered to Mr. WILLEY, for the refreshments furnished us at his house.

To Messrs. SANBORN and BAILEY, of the Concord R. R., for their assistance in getting our tub up and back;

To our CHIEF ENGINEER, for the interest he manifested on our return home;

And also to those LADIES who furnished us our bouquets.

To the officers and members of GRANITE STATE ENGINE CO. No. 1 we would wish to be remembered, and for their escort they will please accept our thanks.—May the links that bind our companies never be severed. Our thanks are also given to Mr. BENJAMIN H. GRANT of the Granite House, for his generous supply of tiptop lemonade.

Our volunteers will please take their share of thanks with the rest, for they are always on hand.

To all others that took part on this occasion and who contributed in any way to the enjoyment of the trip, the Company wish to return their warmest thanks.

Per order of the Company.

WILLIAM B. GROGAN, Foreman,
JOSEPH H. GARDINER, Clerk.

A CARD.

THE OFFICERS and members of Granite State Engine Company No. 1, would hereby gratefully acknowledge their obligations to Messrs. Grant & Lewis, proprietors of the Granite House, for the generous offer and furnishing of Refreshments, on the evening of the Fourth.

Per Order. H. T. CURTIS, Clerk.

POLICE COURT.

WEDNESDAY, July 8.

Before Justice Odell.—Dennis Kane was accused of beating, kicking, and abusing Mary, his wife, on the evening of the 7th. Plea not guilty. Proved guilty, and fined $5; costs $5.74; $30 bonds to keep the peace. Kane had been drinking when the beating took place, and of course was ready for any such brutality as drunken husbands commonly inflict on their wives. He beat her with a piece of a chair, kicked her, &c.

☞ A good drink for this hot weather, in the shape of Spruce Beer, can be found at Capt. Clark's, No. 67 State street, next store below H. F. Wendell's. We had the pleasure of testing the article yesterday afternoon. Besides beer, the Capt. has a good assortment of fruit and confectionery, such as strawberries, pine-apples, cocoa-nuts, cakes, pies, candies, and many other things in the edible line. Give him a call.

PEARLS IN EPPING.—A letter from Epping, N. H., to a Boston paper, says:—

No little excitement has occurred of late in a private way in this quiet town, in regard to the discovery of pearls in the Pawtuckaway river, and in several trout brooks in the vicinity. The secret has been kept so still that not a half-dozen persons in the town knew anything about it, and they being personally interested in the pearl fishing. Some time in April last, a person, while fishing for trout, saw a large muscle in a gravelly brook, and having seen an account of the late discovery of pearls in New Jersey, opened it, and to his great surprise found a very valuable one. Fishing was given up for the successful pursuit, and there is no doubt but that thousands of dollars' worth of pearls have been taken and sold from this town. As a necessary consequence, secresy was important, and every trout brook, river and stream, has been raked, and that too even in the night, for the much desired 'clam.' Some curious facts in regard to the locality where they are found would, require even an Agassiz to explain. In one part of the river a plenty of muscles are to be found, but no gems: while in another part 27 out of 36 contained large sized pearls.

Below the dam and mill, not a pearl has been found. Out of some ten trout brooks in the vicinity, but three contain any.—Two valuable ones were found in the bottom of the river, which are supposed to have grown so large as to have killed the muscle and fell out. The parties say nothing, but divide the spoils. Two lots have been sold in New York, and on the last, the most valuable, a handsome advance had been made by Messrs. Ball, Black & Co., and they have been left to be sold on commission. The largest one found was sold for ($800) eight hundred dollars, but supposed to have been worth twice that sum. Between $10,000 and $15,000 have been found and sold. To what extent the fishery can be carried no one can tell.

NEW YORK, July 7.—Three persons were drowned yesterday in Rocokon Lake, Long Island, by the upsetting of a pleasure boat. Their names were G. W. Leslie, of the firm of G. P. Putnam & Co., booksellers; his niece, Miss Palmer; and Mr. Porter, of the firm of Lane & Porter, dry goods dealers in Canal street.

WASHINGTON, June 7.—The article in the Union this morning, on Kansas affairs, is the authorized exposition of the views of the administration on that subject; and fully sustains Gov. Walker in advising the submission of the Constitution to the vote of the people, and defends him from Southern attacks.

PROBABLE MURDER IN SANDWICH, N. H. We learn from the Manchester Mirror, that in Sandwich, on Saturday last, a boy about 14 or fifteen years of age, oldest son of Dr. Thomas J. Sweatt, practising physician of that town, was shot through the body by a young man by the name of Eaton. Young Sweatt lived in the greatest distress till 9 o'clock Sabbath morning, when death relieved him of his sufferings. It is thought to be a case of deliberate and malicious homicide. Eaton has been arrested.

PROPOSAL TO DIVIDE NEW YORK.—The New York Journal of Commerce says that a meeting has been called to be held in Hamilton square, on Thursday night, to move for a repeal of the odious and tyrannical laws passed by the Legislature at its last session. Among them are the Metropolitan Police Law, the Excise Law, and the Squatter Law. It is also proposed to consider the practicability of effecting a division of the State, by organizing a new State from the five Southern Counties.—Addresses are promised from Mayor Wood, John Kelley, Conrad Swackhamer, Dr. Merkle, Wm. J. Rose, and several other eminent speakers.

FROM EUROPE—FOUR DAYS LATER.

NEW YORK, July 7.

Steamship Arabia, from Liverpool afternoon of June 27, arrived at this port this evening, bringing nearly 100 passengers.

In the British House of Commons, the Jews' oaths bill had been passed by a large majority.

Queen Victoria, attended by a brilliant staff, had personally distributed the Victoria Cross of Order of Valor, in Hyde Park. The attendance was immense.

The French elections have all been one way, the opposition securing only about a half-dozen members.

Latest accounts from India, show that the mutiny of the native troops had assumed a very serious shape. They had taken possession of Delhi, and were massacreing the Europeans.

The English Cabinet have conferred the title of Prince Consort upon Prince Albert, thereby making him legally a member of the British Royal Family, but without giving him any additional authority.

The London Times calls on the government to pave the way for the Lancashire manufacturers to carry out their cotton project in India.

The reception of the name of Mr. Dallas, at Oxford University, for a degree, is said to have been rather equivocal, as if that body doubted the friendly disposition of President Buchanan, and disliked what they construed into approval of a pro-slavery administration.

Accounts of the grain and potato crops continue to be highly encouraging.

Great distress prevailed in China, on account of the scarcity of food. The neighborhood of Foo-chow-foo continued disturbed by rebels, and it was feared serious injury to trade would be caused thereby.

SPECIAL NOTICES.

"IN PEACE PREPARE FOR WAR."—In the days of our youth, it behooves us to make some preparation for the approach of age. How many persons have become prematurely bald by neglecting to apply appropriate remedies to prevent the hair from falling out. The use of Professor Wood's "Hair Restorative" will prevent the hair from falling off, impart to it a healthy growth, and even restore the hair of the bald. Thousands have testified to its efficacy. To be had of Druggists everywhere.

IF ALL OUR READERS

Who are troubled with fiver complaint, Jaundice, or Dyspepsia, will read the advertisement in another column of Dr. Sanford's Invigorator, and then do as we have done—get a bottle, we should not see so many sickly, half-dead, despairing people as now meet our gaze at almost every corner, for certainly there never was a remedy invented of which so much is said, and what performs so exactly what its proprietors say it will do. It came to us so highly recommended that we could not fail to try it, and a trial has convinced us, without a doubt, that it is the best family medicine in use. We take it for Headache, Sour Stomach, Billiousness, and same it will benefit the bodily ills that are common, and it does produce a pleasant state of feeling to the sick, and what is better, after using it a few times, these little ills grow less and less, and there is a prospect of being entirely free from them by a continuance in the use of the Invigorator. Stocking Weavers' Strike.

PORTSMOUTH, JULY 2, 1857.

To the inhabitants of Portsmouth and its vicinity:

WE, the undersigned, wish to call your attention to the present Strike of Stocking Weavers in this city. We think to awake your sympathy when we place before you the reasonable excuse for such strike. The trade is spread, more of less, through the States; and for the kind and quality of work as made in Portsmouth, nowhere can we find that the workmen are making as low a rate as here. In other places, where the same kind of work is made, and with one and the same market, the workmen receive at the rate of 20 per cent. and upwards more.

We appeal to every reasonable man, and ask whether it is right that we should make goods equal to those made in other places, for so much less? We have submitted to a reduction of prices in time past, can we not with confidence ask for a renewal of the former rates, or at least an equal right with others? We have borne the grievance too long—but now necessity has forced it upon us to remonstrate. House rent, fuel, food, clothing,—all these lately increased in price; in fact, it has become a problem with us how we are to live by our labor?

Signed, by order,

WILLIAM ALTON, JOSEPH WAIN,
JOHN JENKINS, JAMES MURRY,
1w jy8 JOHN ARNOLD.

THIS Coal is a FREE-BURNING, semi-anthracite, adapted peculiarly for FAMILY PURPOSES—having such properties as will at once upon trial satisfy the most exacting. INVALIDS who have used it say that it is the best *opiate* of any coal now in use, particularly those affected with LUNG DISEASE. As a SUMMER COAL IT CANNOT BE EXCELLED.

Manny's Celebrated Mower

—AND—

MOWER AND REAPER.

IMPROVED.

Built expressly for the New England States.

THE MANNY MOWER has been extensively used for the past two years in New England, and in some cases on six years trial—its success is beyond that of any other Mower or Reaper ever constructed. Over 150 *1st Premiums* have been awarded it, including the *Grand 1st Class Silver Medal* at the WORLD'S FAIR, PARIS, 1855.

With the two past years' *experience*, we have been able to make it a number of *important improvements*. We find New England farmers require a different Machine from other sections;—the fields generally being small. It must be light, at the same time possess *great strength*, combined with facilities to *raise the cutters to pass obstructions*, and to remove from field to field. A perfect cutting apparatus, to cut the fine grasses without clogging, and so constructed as to *press* the grass *without backing*, easily adjusted to cut high or low, and have a Reel to act equally well with or against the wind, and to be operated with ease by a light team, and so easily managed and simple that any one of common ability may operate it successfully, and to be built in the most thorough manner.

With this knowledge of the farmers' requirements, and with the determination to build a *better* Machine than has ever before been constructed in this country, we offer the **Manny Mower** of 1857 with confidence, as combining the qualities enumerated above, and is one particularly adapted to meet the wants of New England farmers.

☞ We invite the farmers to call and examine Machines. Orders should be sent early to prevent delays, with testimonials, forwarded free, on application.

Price of Mower, $110; with Reaper attachment, $15 Extra. Delivered on board cars in Worcester, Mass. JOHN P. ADRIANCE & Co.,

AYER'S Cathartic Pills,

(SUGAR COATED,)

SEE BELOW TO

CLEANSE THE BLOOD AND CURE THE SICK
Invalids, Fathers, Mothers, Physicians Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach Premium, Bad Taste, Costiveness,

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will do others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PRESLE,
Clerk of Steamers &c. &c.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we have. Their virtue in regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of the organs. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them.

Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HAVERHILL, JAY CO., MICH., Nov. 16, 1855

DR. AYER: Your Pills are the perfection of medicine They have done my wife more good than I can tell you She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery, one of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and got no relief. Our children had been sick nearly even then. Such a medicine as yours, which is actually good and honest, will be prized here.

D. F. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the most perfect cathartic I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of a humor on her face and neck, which had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawks, of the Methodist Episc. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has afforded me if I did not experimentally use it. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, BATON ROUGE, LA., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a **Dinner Pill,** they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness,** and **Partial Blindness,** have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN OPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Not a few are the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the sudden attacks to which that state upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the compulsion it prevents them from taking from others, than by you, and cures your colds while they are curable, nor neglect them until no human skill can master the inexorable enemy that fastens on their vitals, eats your life away. All know the dreadful fatality of long disorders, and as they know too the virtues of this remedy, we need not do more than to assure them it is still made the best it can be, that we spare no cost, no pains, no care, to make it the most perfect possible, and thus afford those who rely on it the best aguet which our skill can furnish for their cure.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRENCH & Co are the managers, are chartered by the state of Maryland, and is conducted and closely watched by the people, who are sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, numbers are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combinations, these vary in amount from $50 to $100 000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also the National Intelligencer and Union, of Washington, D.C.

Address T. H. HUBBARD & CO.,

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything is conducted in a fair and honorable manner. They offer to the public a fair opportunity for investment, and have the advantage at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets in Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Prices are $1 for whole, $5 quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; cost being drawn back, and remitted drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel is published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Mobile *Tribune*, and New York *Herald* and *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, opp. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments and Models for Patents, for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered from elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and his SUCCESS IS THE BEST PROOF OF ADVANTAGES AND SHREWDNESS, and that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to Patents, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, rendering him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office, and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in recommending inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R.H.Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

The Medicine
THAT NEVER FAILS!

IS DR. WILSON'S

DYSENTERY POWDER,

Which cures Dysentery, Diarrhœa, Cholera Morbus, and all the affections of the Bowels attended with Pain and frequent Discharges.

This Medicine is now being introduced into all parts of the United States and British Provinces, and great success attends its use everywhere.—These Powders are now offered to the world as a PERFECTLY SAFE AND EFFECTUAL MEDICINE, for the purposes they are recommended and in nine cases out of ten

ONE POWDER WILL CURE THE WORST CASE,

when they are taken in the first stages, and almost invariably *two will effect a permanent Cure;* and unlike all other preparations, which, if they check the disease, leave the person in a condition that requires physic after it, which is not the case with the Dysentery Powders, for they *regulate the Bowels*, tone up the system, and leave it in a healthy state.

These Powders are put up in boxes, with full directions on each box, and sold for **50 Cents.**

Please try them: if they do not give *perfect satisfaction*, return them and take your money.

S. D. & H. W. Smith,
—MANUFACTURERS OF—
Melodeons, Organ Melodeons,
—and—
PEDAL BASS MELODEONS,
No. 511 Washington Street, Boston,

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS, Are designed particularly for Churches, Lodges, Halls, &c. He is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON

Is designed for parlor and private use. The construction is similar to the Church Instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. In short, we will promise our customers an instrument equal, if not superior, to any Manufacturer, and guarantee an *entire and perfect* article in all cases.

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to call and examine our instruments, and will give their opinion when called upon.

MELODEONS RENTED.

Persons who wish to try the Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel, in every instance have the Pills proved successful. They are certain to open those obstructions to which female is liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one; the female can enjoy good health unless she is regular; and when any from exposure, take place, whether from exposure, cold, or any other cause, the general health immediately begins to decline; the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, are almost always a sure sign of the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,581, Post Office, New York City, can have them sent to their respective addresses by return of mail.

THE LATE RIOTS IN NEW YORK.

The New York Express gives the following accounts of the two *political* clubs, whose animosity caused the late riots in that city:

In New York, it is well known, there are a number of political and rowdy associations, the members of which are of the lowest ranks in life and of the most unscrupulous characters. These associations are ready to undertake any species of rascality. Robbery and murder are mere child's play to them. Their members are bullies and fighters by profession, and they are accustomed to undertake the management of ward politics by the job. In the Sixth Ward there are two clubs of this description, both made up of professional bullies belonging to the fighting ranks of the Democratic party. These clubs are the tools of the two Democratic factions. One, called the "Bowery Boys," under the leadership of Pat Matthews, a well known Custom House officer, having for their headquarters a drinking house No. 40 Bowery. The other rejoices in the elegant name of "Dead Rabbits," and, we understand, obeys the orders of one "Tom Walsh, said to be the foreman of Engine Co. No. 21, whose house is corner of Chambers and Centre streets. The "Dead Rabbits" are inhabitants of Mulberry, Mott, Baxter, Bayard, and some parts of Elizabeth street, and are very bad fellows.

These two clubs, the Bowery Boys representing the administration, or Custom House section of the party, and the Dead Rabbits their opponents, have for years been at swords' points. A deadly feud prevails between them, and they have taken every opportunity to show the spite they bear each other. Broken heads at every primary and regular election; at every recurrence of a public holiday; frequent disturbances of the public peace on Sunday, are the results of those animosities.

A curious cause is stated by a police captain for one of the Sunday riots. The two gangs who were connected together in the assault on the police on the Fourth, got up a quarrel about who were the "*best gang of rowdies* on that occasion." This quarrel resulted in a resort to stones and firearms, and the shooting of a number of persons, who were taken to the hospital.

The New York Post of Monday afternoon says:

The Police Commissioners stated to our reporter that they were "morally certain" and had most positive proof, that the riots were created by certain officials of the Sixth Ward, who control the rowdies, setting them on each other and pulling them apart as a man would a pair of bulldogs.

They will get them to fighting, then offer their services to keep the peace, and when the military approaches, go and pull them apart, and be ready to go through the ceremony again. The Commissioners intimated that there was a rod in pickle for somebody.

Mayor Wood states that if the police and the military had kept their hands off there would have been no riot, and adds that he has been Mayor three years, and never had a riot before.

The New York Express has the following statement in regard to the moving power in the late troubles:

Bad rum, unquestionably, had much to do in reviving the spirit of disorder so fearfully rampant in this city and neighborhood on the Fourth. The caturnalia, in fact, commenced at sundown on Friday evening. It happened, unfortunately, that Friday was "pay-day," and that many of the disorderlies, in return for their week's work, were thus provided with a liberal supply of cash to provide the means of vicious indulgence. With many, the rum hole was the first resort; and the poison imbibed there the night before, accounts for much of the mischief of the following day. The *rum-hole power*, in producing the elements of riot in a city like this, is one of appalling magnitude, when it comes to be statistically looked into and understood,—as, for instance, in an enumeration of its relative strength in the metropolis and suburbs,—that is to say, within an area which the eye may take in from the upper loophole of Trinity Church steeple.

In New York - - - -	7,000
In Brooklyn - - - -	2,000
In Williamsburgh - -	1,500
In Jersey City - - - -	400
In Hoboken - - - -	100
Grand Total - - - -	11,000

These eleven thousand dram shops, we fear, deal out more *devil* on such a night as that of Friday last,—or on such days as the Fourth of July,—than our five hundred churches and four hundred ministers can exorcise in a month.

In the testimony which has been taken before the coroner's juries at the inquests held on the bodies of the victims of the riots, such evidence as the following is frequent:

I went down to Division street, where two young men came up to me and said I had better go down to the Bowery. I had my badge on—so had officer Mead, who was with me. They said a party of loafers were going into the Tenth Ward, and that they would kill all the Metropolitan Police they could. When I got into Chatham square they were cheering for Mayor Wood, and were armed with clubs and revolvers.

The Boston Traveller says:—In both branches of the New York city government debates took place on Monday evening, on the question of surrendering the old station houses to the new police, and resolutions in favor of such action were finally referred to committees, to be reported on at adjourned meetings. Mayor Wood sent a very singular message to the Board of Aldermen, of which ten thousand copies were ordered to be printed. He denounces the Legislature in no very delicate terms, and makes the most of the late riots, in which his own partizans took so large a part, by charging the troubles upon the inefficiency of the new police. He closes with an appeal to the people of the inner counties of the State to reverse the existing order of things.

MR. MARCY'S FUNERAL.

This solemnity took place at Albany, July 8.

During the morning, a great number of people visited the Capitol, to take a last farewell look at the remains of Mr. Marcy; and much disappointment was expressed when they learned that, at the request of the relatives of the deceased, the coffin would not be opened.

At 8 o'clock, every building on State street and Broadway, for three miles, was draped in mourning.

Owing to the large arrival of visitors from other cities, the funeral ceremonies were not commenced until nearly 3 o'clock.

At 2 P. M. all the bells in the city commenced tolling, and did not cease until the close of the ceremonies.

At 3 o'clock, the ceremonies at the Capitol commenced, amid the tolling of bells and firing of minute guns.

The venerable Dr. Mott opened the funeral service with an eloquent prayer. He was followed by Rev. Dr. Sprague, who read portions of Scripture. A beautiful discourse was then delivered by Rev. Dr. Hague. The exercises closed with a prayer and benediction from. Rev. Dr. Welch.

The line was formed at 3 1-2 P. M., and preceded by two platoons of uniformed police. The procession was a most imposing one, and proceeded in the following order:

Grand Marshal—Major General John E. Wool.

Major General J. T. Cooper, of the 3d Division. The 11th Brigade, under command of Brig. Gen. E. Frisby, consisting of the 25th regiment, Col. Harcourt, and the 70th Regiment, Col. Bently.

Next came the Syracuse companies, followed by five companies from Troy, the Utica Citizens' Corps and the Johnstown Guards; 13 military companies in all.

The hearse, drawn by four white horses flanked by the Burgesses Corps, in full uniform, without arms.

The coffin was of fine rosewood, and on its silver plate was the following inscription:—

WILLIAM L. MARCY,
Died July 4th, 1857. Aged 75 years, 5 months, 22 days.

Next followed the mourners and pallbearers, in carriages.

Carriages containing the following distinguished personages: Ex-Presidents Van Buren and Pierce, Governor King, Ex-Governors Hunt, Fish, Seward, Bouck, Hon. Preston King, Hon. N. P. Banks, Senator Beekman and others.

The Fire Department followed, under the command of the Chief Engineer, with visiting fire companies; altogether twenty-nine fire associations.

After these were the Marion Rifles, the Young American Light Guard, the Order of Free Masons, and Order of Odd Fellows, and the civic societies, with a large number of citizens on foot.

The procession was an hour in passing a given point, and was, altogether, the largest ever witnessed in the city. There were twenty-five bands of music in it.

The day was fine, and everything passed off well.

GREAT FIRE IN NEW ORLEANS.—*New Orleans, July* 8.—A terrific fire is now raging on the Levee, between Gravier and Common streets. It broke out in the commission house of Lusk & Co.; and the whole block, occupied by Wheeler and Forstall as a foundry, by Lusk & Co., the Cairo Mail office, Waldo & Hughes as a hardware store, R. W. Adams' grocery, Shapp & Co., steamboat agents, and by several other parties, will be consumed.—The rear block on Fulton street is also on fire. There was great difficulty in getting water for some time after the fire broke out, and no progress has yet been made in putting down the fire. The loss is immense. Lusk & Co. are insured for $50,000; but the insurance upon the other places has not been ascertained yet.

Two o'clock.—The rear block between Fulton and New Levee streets is now in flames.

NEW YORK, July 9.—Another riot occurred last night in the 11th ward at Mackerville, the scene of the robbery on Sunday of the Second Avenue cars. The police were attacked and used their pistols in defence. Two rioters were shot, and the disturbance was finally quelled.

The New York Board of Councilmen on Wednesday evening voted by a large majority to surrender the police stations to the Metropolitan Commissioners.

THE BAD WOMEN OF NEW YORK.—The Tribune from certain alarming facts set forth in a report from a late official report of Dr. Wm. B. Sanger, the Resident Physician of Blackwell's Island, which has been prepared with extreme care, and which embraces the annual history of all the institutions under the charge of the Governors of the Alms House, states:—

That a very large proportion of the best-looking, most extravagantly dressed, and in outward appearance, the most genteel and lady-like of the women who grace Broadway on a fair afternoon, are courtezans, is a fact well known to our citizens and not long concealed from strangers. That hundreds of sumptuous palaces in the best and most fashionable quarters of the town are the brothels in which these fair but deceitfull women hold revelry, is equally well known, and to their cost too, both by citizens and strangers.

During the past year, 2083 cases of disease have been under the treatment of the Penitentiary Hospital, or a decrease of 20 per cent. on the number treated in 1855, of which 73 1-10 per cent. were cases of venereal disease, or an increas on the last year of 14 1-10 per cent. and on 1854, of over 35 per cent.—showing, without doubt, great increase of the disease in the City of New York. Nearly 1500 of the patients treated in the hospital were cursed by this disease of vice, and a large proportion of the remainder were suffering from the indirect effects of it.

Though nominally members of a Penitentiary Hospital, only 1 8-10 out of every 100 are really Court prisoners, the remaining 98 2-10 per cent. being simply sick persons, obliged to report themselve vagrants in order to be treated in this Hospital.

Of the number admitted last year, it appears that 70 1-10 per cent were foreigners, and 29 9-10 per cent were natives; of these last, New York has 73 3-10 per cent., and New Jersey follows next. Of the foreigners, Ireland has 75 6-10 per cent., and Germany only 7 5-10 per cent. When we regard the years of the patients, we find that over eighty per cent. are under 30 years of age, and that about 400 are almost children, being 16 years and under. About 32 per cent, are more or less uneducated, and nearly 700 utterly unable to read and write.

Only 14 9-10 per cent. claim to be temperate; 13 9-10 are moderate drinkers; 54 8-10 per cent. confess themselves addicted to the use of intoxicating liquor, and 70 9-10 per cent. are intemperate or habitual drunkards.

It is worth noticing that only 35 per cent. are Protestants and 57 4-10 per cent. Roman Catholics. That most of them are idlers, it is to be expected.

THE PEARL EXCITEMENT.—The Pearl Fishing Fever has lately spread to New Hampshire. A New Ipswich correspondent of the Boston Herald says that some young men of that village found in a large number of clams taken from the trout brooks, four pearls, one of which was estimated to be worth $1000. Excitement ran high, and a messenger was dispatched to Boston, who returned with authentic information that the supposed $1000 pearl was really worth one dollar. Thus ended the pearl excitement in that vicinity.

☞ The Republican members of the N. H. Legislature, before adjourning, passed the following resolution by an unanimous vote:

Resolved, That we nominate John C. Fremont as candidate for the Presidency of the United States in 1860, upon the platform of principles adopted by the Republican Convention at Philadelphia, in 1856, and upon the resolutions of the present Legislature in relation to the decision of the U. S. Supreme Court in the case of Dred Scott; subject to the decision of a Republican National Convention.

ATTEMPTED MURDER AT NEWBURYPORT.—On Tuesday evening last, as we learn from the Herald, Harry Somerby, an inmate of the Almshouse at that place, attempted the life of the keeper, Mr. Thomas Adams, by stabbing him with a house knife, sharpened at the point. He had been out of the house in the afternoon, obtained spiritous liquor, though not intoxicated at the time of the attack. The wound is in the breast, and is about two inches deep, but will not prove fatal. Somerby was committed some fifteen years ago, for insanity, and some time since attempted to kill Mr. Caldwell, a former keeper, with a hatchet.

Shirley's Universal Renovator.
OR, FURNITURE POLISH.

J. F. SHORES, JR., No. 1 Congress Block,

HAS just received a supply of the above article for cleansing and restoring to their original lustre all articles of varnished or polished furniture, patent leather, hair cloth, oil paintings, oil cloths, &c. This article is used and highly recommended by many of the large furniture and piano forte manufacturers in New York and Boston.

TO HOUSE KEEPERS the value of this compound is inestimable; as with it you may restore the *original lustre* of every article of varnished or polished furniture It will restore the lustre to *marble*.

TO CABINET MAKERS AND FURNITURE DEALERS it is an article of inculculable value, as a simple application brings out your polish, *unrivalled* in its lustre, and far more durable than the polish produced by any other means, and at a much less expense of time, labor, and material.

TO CARRIAGE MAKERS and PIANO FORTE MAKERS this compound will be found to be invaluable. Your carriages, when soiled by use or exposure, if cleansed with this Renovator, will exhibit all the brilliancy of the original polish, provided the varnish is not worn off; for it not only removes the dirt, but it adds to the varnish a body, unsurpassed in elegance and durability.

All who wear Patent Leather Boots or Shoes should procure a bottle of this compound. You need but to use it occasionally, and your *Boots* and *Shoes* will retain their beautiful polish, till they are worn out. In bottles of 1 pint—50 cts. each.

I have used this compound, and it answered my expectations, and came up fully to the recommendations. (j 10) J. F. SHORES, JR.

LOCAL.

CORRECTION.—The Trumpet of the present week promises to publish the Ballou, Buckminster and Walton letters, and says:

They have been brought to our notice at this time by a misrepresentation of Rev. Dr. Peabody, of Portsmouth, N. H., who has recently represented that Mr. Ballou, like a gladiator, thrust himself before the public and attacked these venerable divines, when the fact is, he was not the original assailant in either case.

The editor of the Trumpet will see, on looking again at Dr. Peabody's sermon, that he does not mention Dr. Buckminster's correspondence at all, and it is somewhat doubtful whether he has ever seen it. He noticed only the controversy between Messrs. Walton and Ballou, of which he had the original letters, and which alone was pertinent to his historical sermon.

This error, we are sure the Trumpet will correct; for Mr. Whittemore would no more wilfully misrepresent Dr. Peabody, than the latter would Mr. Ballou. We take great pleasure in setting history right, especially when we or any of our friends make errors to the detriment of the innocent, the absent, or the deceased.

For the Chronicle.

NUISANCES.—*Uncle Toby.*—As you do not appear to be very fond of walking round the streets at night, it is to be presumed that you lose some of the richest scenes which you like so well to Chronicle. However, you seem to be a terror to some evil doers. A friend, a few evenings since, chanced to be passing a house tenanted by natives of Ireland, when his attention was arrested by the melodious voice of one of its occupants, which seemed a cross between a bull-frog and filing a saw. He was singing. The burden of his song was "Uncle Toby." These were his words, as nearly as possible:

"Who cares for Uncle Toby?
Uncle Toby go it,
Because he couldn't do it.
Uncle Toby put a 14-pound rock against the door,
Because he hadn't got no fastener."

[He probably referred to time when Uncle T. kindly closed the door of that very house, one cold night, and secured it with what he supposed to be a rock; but if it was of the weight ascribed to it by the singer, it must have been *a stone.*]

Here the improvisator noticed the spectator, and desired to know "what in —— he was lookin' at"; no answer was made. "I got a piece of cheese here. Want it?" Still no reply. Irate at this neglect of his colloquial powers, he threatened to put the young man over the railroad track, but was stilled by his friends within.

Since then he has held several "chamber concerts," the finale of which is invariably a battle, of words at least, with his wife.

On Wednesday afternoon all persons near Market Square who possess any nerves were driven nearly into ecstacy by the spirit-stirring rub-a-dub-dub of a parcel of small boys with smaller drums, assisted in their Orphean work by the toot-toot of a mimic fife. I protest against allowing boys with impunity to render day hideous, when all are awake to hear it, and then depriving a person of his liberty for making a tithe of the noise in the night, when nine-tenths of the folks are asleep.

On that evening our Hibernian friends held high carnival in the house before mentioned. The fiddle squeaked forth its lively strains, a stentorian voice roared a solo in the chorus of which all joined, and their heels rattled merrily in the jig and break-down. But just at its height they were startled by the thundering rap of a watchman's billy on the street door and an order to "make less noise, for it's midnight." The answer was a polite request for the guardians of the night to proceed to that locality which is generally supposed to be the concentration of heat, and an inquiry as to whether "a few persons couldn't be allowed to enjoy themselves;" with an order to the revellers to "go on."

After considerable palaver, one who appeared to the "lady of the house" expressed a desire to see "the d——d policeman in Portsmouth who could take a man out of that house." Finally the watch left, the orgy broke up, the outsiders left the house and straggled down street singing snatches of songs, and quiet reigned once more as I sank into the arms of

MORPHEUS.

☞ Uncle Toby has a liking for drums and fifes and fiddles and hand-organs:—does not dislike vocal music, and can take a joke; he was more inclined to laugh at the juveniles with the drum, than to scold;—and he believes that the children's singing on one side, and the little boys' drum and fife on the other, lulled him to sleep on Wednesday afternoon.

SPECIAL NOTICES.

LADIES AND GENTLEMEN:—We would call your attention to Prof. O. S. Wood's Hair Restorative. From our long acquaintance with the proprietor, and with numerous individuals who have used his preparation with perfect success for the last two years, we feel no hesitation in recommending the article as superior to any of the preparations now in use for the same purpose, viz: for restoring gray hair to its original color, a sure and perfect cure for baldness, and a never failing preventive for the falling of the hair.

It is decidedly the best and most popular in use for beautifying, preserving, restoring and strengthening the hair, relieving diseases of the skin, and removing scurf, dandruff, and all eruptions and feverish heat from the scalp.

IF ALL OUR READERS

Who are troubled with liver complaint, Jaundice, or Dyspepsia, will read the advertisement in another column of Dr. Sanford's Invigorator, and then do as we have done—get a bottle, we should not see so many sickly, half-dead, despairing people as now meet our gaze at almost every corner, for certainly there never was a remedy invented of which so much is said, and that performs so nearly what its proprietors say it will do. It came to us so highly recommended that we could not fail to try it, and a trial has convinced us, without a doubt, that it is the best family medicine in use. We take it for Headache, Sour Stomach, Billiousness, and any of the little bodily ills that are common, and it does produce a pleasant state of feeling to the sick, and what is better, after using it a few times, these little ills grow less and less, and there is a prospect of being entirely free from them by a continuance in the use of the Invigorator. Portsmouth, July 1, 1857.

Stocking Weavers' Strike.

PORTSMOUTH, JULY 2, 1857.

To the inhabitants of Portsmouth and its vicinity:

WE, the undersigned, wish to call your attention to the present Strike of stocking Weavers in this city. We think to awake your sympathy when we place before you the reasonable excuse for such strike. The trade is spread, more of less, through the States; and for the kind and quality of work as made in Portsmouth, nowhere else can we find that the workmen are making it at so low a rate as here. In Massachusetts, where the same kind of work is made, and with one and the same market, the workmen receive at the rate of 50 per cent. and upwards over us.

We appeal to every reasonable man, and ask whether it is right that we should make goods equal to those made in other places, for so much less? If we have submitted to a reduction of prices in time past, can we not with confidence ask for a renewal of the former rates, or at least an equal right with others? We have borne the grievance too long—but now necessity has forced it upon us to remonstrate. House rent, fuel, food, clothing,—all these have steadily increased in price; in fact, it has become a problem with us how are we to live by our labor?

Signed, by order.

WILLIAM ALTON, JOSEPH WAIN,
JOHN JENKINS, JAMES MURBY,

Trevorton Coal.

Mined by the Trevorton Coal & Railroad Company, Northumberland County, Pennsylvania.

Office, 13 Trinity Building, New York.

THIS Coal is a red-ashed, semi-anthracite, adapted peculiarly for FAMILY PURPOSES—having such properties as will at once upon trial satisfy the most exacting. INVALIDS who have used it say that it is the *least offensive* of any coal now in use, particularly those affected with LUNG DISEASE. As a SUMMER COAL IT CANNOT BE EXCELLED.

Manny's Celebrated Mower
—AND—
MOWER AND REAPER.
IMPROVED.
Built expressly for the New England States.

THE MANNY MOWER has been extensively used for the past two years in New England, and more than six years at the West.—Its success is beyond that of any other Mower or Reaper ever constructed. Over 150 1st *Premiums* have been awarded it, including the *Grand 1st Class Silver Medal* at the WORLD'S FAIR, PARIS, 1856.

With the two past years' *experience*, we have been enabled to make a number of very *important improvements.* We find New England farmers require a different Machine from other sections;—the fields generally being small. It must be *lighter*, at the same time possess *great strength; portable*, with facilities to *raise* the *cutters* to *pass obstructions*, and to remove from field to field. A perfect cutting apparatus, to cut the grass without bunching or clogging, and so constructed as to *stand* in the grass *without backing*, easily adjusted to cut high or low, and have a lever to cut equally well with or against the wind, and to be worked with ease by a light team, and so easily managed and simple that any one of common ability may operate it successfully, and to be built in the most thorough manner.

With this knowledge of the farmers' requirements, and with the determination to build a *better* Machine than has ever before been constructed in this country, we offer the **Manny Mower** of 1857 with confidence, as combining the qualities enumerated above, and as one particularly adapted to meet the wants of New England farmers.

☞ We invite the farmers to call and examine Machines. Orders should be sent early. Circulars, with testimonials, forwarded FREE, on application.

Price of Mower, $110; with Reaper attachment, $15 Extra. Delivered on board the cars at Worcester, Mass. JOHN P. ADRIANCE & Co., *Manufacturers.*

One of the above Machines can be seen at the store of the Subscriber.

AYER'S Cathartic Pills,

(SUGAR COATED,)

ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK wealthy, Fathers, Mothers, Physicians Philanthropists, and those of Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach

PITTSBURG, PA., May 1, 1856.

DR. J. C. AYER. SIR: I have been repeatedly cured of the worst headache any body may have by taking one or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will do others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their rapid yet mild action on the liver is a most decided consequence of their being an admirable remedy for derangements of the organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them.

Fraternally yours, ALONZO ALDEN, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., NOV. 16, 1855

DR. AYER: Your Pills are the perfection of medicine they have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her by expelling large quantities of worms from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with a few doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Your Pills are a medicine as pure, which is actually good and honest, will be sought for.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among my parishioners, to whom I visit in distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the best purgative of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawks, of the Methodist Episc. Church.

PULASKI HOTEL, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, I took your Pills, and tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SERGT. CHARNER, BAYOU ROUGE, LA., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a **Dinner Pill**, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even Deafness, and Partial Blindness, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtile and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and best remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that stealeth upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL cures more by far in consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, or neglect them until no human skill can master the inexorable banker that fastened on the vitals, sets your life away. All know the dreadful fatality of lung disorders, and so they know too the virtues of this remedy, we need no more than to assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and that the public may be sure of it the best agent which our skill can furnish for their use.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. Tansey & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done strictly honorable and honest, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. The drawing is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Tertary combination. Prizes vary in amount from $20 to $100 to $1,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published in the State Commissioner's, the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Managers respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the Lotteries of Samuel Swan & Co. are authorized by the Legislature of that State, and the lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the orders come to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—N. Y. Herald, Boston Bee, Mobile Register, Charleston Standard, Nashville Union, Atlanta Intelligencer, and New York Weekly Day Book. Write your address plainly, and direct to S. SWAN & CO., Atlanta, Georgia.

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m13 1y

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 78 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research made in American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had more business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the most competent and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1856.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHARLES MASON,
Commissioner of Patents.

MARRIAGE GUIDE,

BY DR. JOHN YOUNG.

YOUNG'S GREAT PHYSIOLOGICAL WORK. The POCKET ESCULAPIUS, *or Every One His Own Doctor,* by WM. YOUNG, M. D. It is written in plain language for the general reader, and is illustrated with upwards of one hundred Engravings. All young married people, or those contemplating marriage, and having the least impediment to it, should be informed by this book. It discloses secrets that every one should be acquainted with. Still it is a book that must be kept locked up, and not lie about the house. It will be sent to any one on the receipt of twenty five cents. Address Dr. WM. YOUNG, No. 152 SPRUCE street, above Fourth, Philadelphia.

City Hotel, Portsmouth, N. H.

BY WM. S. HADLEY.

THE SUBSCRIBER has the pleasure of announcing to his old patrons, and the travelling public generally, that he has leased this well-known and much-frequented hotel, for a term of years, and would invite travellers and others to make "themselves at home" on the premises—promising to spare no reasonable effort which may conduce to the comfort and satisfaction of visitors.

While acknowledging the liberal patronage with which we have been so long favored, in our old quarters; we would solicit a continuance, now that our accommodations are so much increased and improved. WM. S. HADLEY.

Appledore House,

ISLES OF SHOALS,

IS now open for Public Accommodation.

The schooner SIBYL, (one of the beautiful yachts built by the late George Greenleaf,) sails daily to this Island from Pier Wharf, in Portsmouth, immediately after the arrival of the morning train of cars from Boston, and return in the afternoon.

The Sibyl is commanded by Capt. RUFUS A. PREBLE, a thorough seaman, who will give every attention to the comfort and enjoyment of his passengers.

The Sibyl has a magnificent cabin, water closets, tanks, and every accommodation which a first class Packet requires.

The advantages this purely Ocean Retreat possesses cannot be well overdrawn. Resting on the broad bosom of the Atlantic—free from heat, dust and noise—it is peculiarly fitted to restore health to the invalid, and rest to the careworn and weary. j22 THOMAS B. LAIGHTON.

The Surf House,

A CHURCH STRUCK BY LIGHTNING AND A CONGREGATION PROSTRATED.—On Sunday, the 28th of June, according to a letter in the Cleveland Herald, from the Rector of St. Phillips' Church, Strongville, Ohio, the church building in that place was struck by lightning. The Southwest pinnacle of the tower was broken into pieces, and one part, about eight feet long, driven through the roof. The fluid then passed down to the body of the church by a stove pipe, which, with the stove, were broken into pieces, and thrown among the congregation. The boards of the floor were also torn up, and the church filled with smoke. No one of the persons present was hurt, but they must have been for a moment in a state of unconsciousness, for none heard the noise of the falling pipe or the shattering of the windows. One woman had a hole burnt in her dress, and another found that her head was bleeding. After recovering from the alarm, the congregation retired to an adjoining house, and returned thanks for their wonderful preservation.

A COSTLY JOKE.—The Cumberland Coal Company of Pennsylvania have recently purchased a hundred canal boats from the Erie Canal. Forty seven of these boats were towed by steam down the Hudson and around into Chesapeake and Ohio Canal. There it was ascertained that they were all too wide by three inches to get in at the lock gates, and as their shape precluded the possibility of their being cut down, they must be sold at a loss.

LYNCH LAW.—In Carthage, Illinois, recently, a school teacher, named Munroe Childs, attacked a school girl on her way home, evidently with purposes of the vilest character; but her screams induced him to release her. The fact becoming known, a number of men took the fellow to the woods, gave him seventy lashes on his bare back, and then suffered him to escape from the county, which he did very speedily. The citizens of Carthage, believing the scamp's conduct to be a result of the existence of liquor establishments in their town, held a meeting and resolved to suppress them, "peaceably if they can, forcibly if they must."

VIOLATING THE SUNDAY LAW IN CHARLESTOWN. — Before Justice Robinson, Ellen Regan, who keeps a low groggery in Chelsea street, Charlestown, was fined $10 and costs for keeping her shop open and doing business on the Sabbath. John Power, who keeps a shop on Medford street, of a similar description, was fined $8 and costs.

A MRS. BUCHANAN.—A New York letter writer for the Boston Journal says:

I saw yesterday quite a curiosity. It is no less than a lady in New York, who claims to be the wife of our bachelor President, Mr. Buchanan. She is quite open and persistent in her claims. She has in a bed what she says are two children, whom she claims are the President's children, and nothing but the constant care of her friends prevents her from going to Washington and demanding to be placed in the White House as the lawful occupant of the domestic department of that celebrated establishment. The lady is in the Insane Asylum of Blackwell,s Island, and her children are two white cats, which she has trained so that she keeps them in bed nearly all day sleeping between sheets, on nice clean pillow cases, all tucked in like children, with caps on their heads. All the visitors call on Mrs. Buchanan, see her cats, and they allow the clothes to be turned down and a view taken, without an effort to rise from their couch. The name of one cat is J. C. Fremont, the other is Alexander Hamilton.

SENATOR SUMNER'S ACCOUNT OF HIMSELF. We are furnished, says the Traveller, the fotlowing extract from a letter from Senator Sumner, dated at Paris:

I should have acknowledged your letter at an earlier date, but I have not been well and have no heart to write. Out of my short stay here, I have lost four weeks, during which I have been most of the time confined to the house. But I am better now, and I believe, am in the way to complete recovery, though I feel that many months must elapse before I regain my old strength.

A Cow Case was lately tried in Mount Vernon, Ohio, lasting five days, and employing four lawyers and about a hundred witnesses. The queerest thing about it was that the plaintiff not only swore to the identity of the cow (and calf), but brought eighteen other witnesses who also identified them, among them the man who raised the cow, the woman who had milked her, and several who had owned her. The defendant swore with equal positiveness that the cow was his, and proved it by twenty witnesses of equal opportunities for information. The defendant got the case, and the cow and calf.—*Trav.*

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES.
Prepared by an old Physician of 40 years experience
THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain in restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and when any obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly considered incurable. These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted strictly Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.
These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

Representatives to Grand Lodge—C. S. Toppan, Benj. M. Parker, L. W. Brewster, N. K. Raynes,

Visiting Committee—S. Seymour, Sunday; Isaac Dow, Monday; F. W. Ham, Tuesday; Samuel W. Moses, Wednesday; Wm. P. Walker, Thursday; Wm. B. Lowd, Friday; Benj. M. Parker Saturday.

NEW-HAMPSHIRE LODGE, No. 17.—Charles W. Bailey, N. G.; Samuel Seawards, V. G.; Wm. H. Emery, R. S.; S. D. Scriggins, P. S.; Andrew J. Hough, T.; Thos. Kennedy, Ch.; Samuel W. French, W.; Jos. B. Adams, C.; John H. Tuckerman, O. G.; Benj. Woodsum, I. G.

Rep. to Grand Lodge.—Wm. B. Grogan.

Visiting Committee.—C. W. Bailey, Sunday, Samuel Seawards, Monday; Andrew J. Hough' Tuesday; Wm. B. Grogan, Wednesday; Jesse N. Wilson, Thursday; Wm. C. Hatch, Friday; S. W. French, Saturday.—*Journal.*

A SON OF PORTSMOUTH.—A correspondent of the Boston Transcript writes thus of a gentleman who was once an editor in Portsmouth—[the founder of 'The Times' in this city, now the 'Dover Enquirer']—born in the spacious mansion now owned by W. Williams, Esq.

"North Hartland, Vt. is a quiet country town on the west bank of the Connecticut river, with large and well cultivated farms. One of them is owned by Hon. Hampden Cutts, and contains eight hundred and thirty acres of land. The hill part he devotes entirely to grazing. This he thinks the most profitable part of farming so far away from a market. His stock of Merino sheep is the finest in the country. Their fleece is by far the most valuable, because it is so free from oil and dirt. He has a way of ploughing wide lands, so as to throw the land into ridges, and on their tops he plants his corn."

SNOW IN JUNE.—The Oswego Times states that snow fell in that city Monday night, June 22d, in sufficient quantity to be observed on the sidewalk by early risers Tuesday morning.

It snowed at Fountain City, Wisconsin, on the 16th of June, sufficient to whiten the tops of the steamboats.

July 1st, snow fell in Pennsylvania. So thus far snow has fallen every month this year.

The man who first discovered gold in California has become a poor man and homeless. The papers announce the sale of Hock Farm, the home of Gen. Sutter, on Feather river, under the Sheriff's hammer. This was the last of the magnificent domain which, at one time, was the property of Gen. Sutter, in California. His generous unsuspecting nature was not sufficient to cope with the shrewdness of lawyers and speculators, when his lands became of value; and so they have all been wrested from him, much of them by what, in the parlance of trade, would be called "legitimate transactions;" much by bare faced fraud, says the Alta newspaper.

HORSE THIEVES HUNG AND SHOT.—A correspondent of the Chicago Tribune, writing from Lyons, Iowa, 27th ult. states that the Vigilance Committee, composed of citizens of Clinton, Scott, Cedar and Jackson counties, met on Thursday, and numbering nearly 200 men, proceeded to the house of Benjamin Warren, an old resident of Clinton county, and in good circumstances, surrounded it, arrested Warren, and made a search among his papers.

They found a schedule containing the names of a gang of horse-thieves, stopping places, and an estimate of the cost of running off horses. Warren was at once put on trial, convicted, and hung upon a tree near his own house. It is said that he was an old offender, and had been tried by the courts, but always acquitted.

He was warned of the approach of the "regulators," but refused to flee. His body was taken to his wife, who is said to have uttered that justice was done. A man named Page, said to harbor members of the gang, fired upon the "regulators" as they approached his house, and he was shot dead.

BURNING OF THE MONTREAL.—Additional information from the melancholy burning on the St. Lawrence of the steamer Montreal, which we reported last week, proves the fatality of that disaster to be as great as at first reported. Four little children and a dog were found together on a part of the wreck, just out of water, all alive, by a party who went off from the shore in a boat. We find the names of Colin Sinclair, 80 years of age, and his wife, age 60, who lost their only son; Mrs. Marmel lost three daughters and saved one son Mrs. McAlister lost her husband, a son and a daughter, and saved three sons; four children under 20, who lost their mother and a young sister; Mrs. Bloomfield, who lost two children and saved two; Mrs. Christian, who lost her husband and four children, and saved one, the youngest; David Milne, who lost his wife and five children, and saved one; John Campbell, who lost his mother and two sisters, and saved one sister; Mrs. Wylie, who lost her husband and three children; Mrs. Clarke, who lost her husband and four children, and saved a daughter; a young girl of 17, who lost her father; three young children under 8, who lost both parents, a brother and a sister; John McQuinn, who lost his wife, three sons and three daughters, and saved one daughter; Peter McColl, a boy of 7 years, who lost his father and mother, three sisters and a brother, and is all alone.

One man who never before attempted to swim, reached the shore with a boy on his back; and a woman, as she floated on the water, found a child nestling to her bosom, though she knew not how it came there, and though expecting to perish herself, let it cling to her, and exerted herself to save it, and both were taken up alive.

DEATHS.

In Corinth, Vt. July 7th, JOSEPH KNIGHT, Esq. aged 88. He was a native of Atkinson, in the County of Rockingham, whence he emigrated to Vermont in the year 1790, and became one of the early settlers of the town of Corinth. In a dense forest, with wild beasts for neighbors, a farm was cleared; and, after encountering all the hardships incident to pioneer life, he outlived most of his own large family, and was the last of the early band who settled the town. He was a consistent member of the Congregational Church for twenty-six years. He had 9 sons and 4 daughters. One son died in infancy, the others, seven children, lived to years of maturity. One of his sons now is and three others have been citizens of Portsmouth.

In Exeter, on Tuesday morning, July 7th, Mr. S. E. CLARKE, Printer, aged 41 years. Mr. C. is well known to the community as an extensive dealer in lumber. He leaves a wife and four interesting children, to mourn his early exit—but he died in the full hope of a better land, where the weary will cease to be at rest.—Con.

WALTON AND BALLOU.

The controversy between these two eminent men, then ministers in Portsmouth, was begun by the following letter.

FROM THE REV. MR. JOSEPH WALTON TO THE REV. MR. BALLOU.

PORTSMOUTH, Nov. 16, 1810.

Dear Friend:—I take this method to write to you, with a desire you would receive it as a friendly admonition. You recollect, no doubt, that I have heard you make two speeches at funerals, as they are commonly called, one at the grave and the other at the house of sorrow and mourning, upon a very solemn and singular occasion. At the grave you were short, and said, if I mistake not, viewing the grave, "this is the house appointed for all living," two or three times, and then said, "what reflection shall we make from it? is this done by an enemy? has the Almighty suffered the government to be taken out of his hands?"—and spake as if death was originally designed by the Almighty for the good of mankind, and made it a very desirable thing. My dear sir, doth not the Bible, which is the word of God, or the scriptures of truth say, "Wherefore as by one man sin entered into the world, and death by sin, and so death passed upon all men, for that all have sinned," R. 5, 12; and Rom. 6, 23, "for the wages of sin is death." God, who is a gracious and holy sovereign, "made man upright, but he sought out many inventions." By listening unto that apostate spirit, Satan, he transgressed and disobeyed his maker and sovereign, by eating the forbidden fruit.—"God made man in his own image, in the image of God created he him, male and female created he them. And the Lord God took the man and put him into the garden of Eden, to dress it and to keep it; and the Lord God commanded the man, saying, Of every tree of the garden thou mayest eat, but of the tree of knowledge of good and evil, thou shalt not eat of it, for in the day that thou eatest thereof, thou shalt surely die." See Genesis 2—13, 17.—Sin is that enemy that introduced or was the cause of death, as we may further see by considering that portion of scripture—1st John, 3d chap., 8th verse: "He that committeth sin is of the devil, for the devil sinneth from the beginning." For this purpose the son of God was manifested, that he might destroy the works of the devil; "the soul that sins should die." If you will read the whole chapter and seriously consider it, and pray to God through Jesus Christ to open your understanding, that you understand scriptures, you would not misapply and pervert them as I fear you do. In your speaking at the house of mourning, you began and spake very eloquently at first upon death; then you brought forward the same ideas, with respect to death, as you did before at the grave. I do not remember that you, at either place, spake one word of the necessity or nature of repentance. Christ began his personal and public ministry by preaching repentance, saying, "Repent, for the kingdom of heaven is at hand"—again "but except ye repent ye shall all likewise perish," Luke 13 ch., 5th verse. And after his resurrection from the dead he appeared to his disciples and confirmed them to the certainty of it, and chose them witnesses of the truth of it, and said thus it is written, and thus it behoved Christ to suffer and to rise from the dead the third day. And that repentance and remission of sins should be preached in his name among all nations, beginning at Jerusalem, Luke 24—46, 47. "And ye are witnesses of these things." * * * *

For a minister of the New Testament to advance such doctrines as will give hopes to his hearers that all will be happy in a future state, whether they have repented or no, is not preaching as Christ and his Apostles preached. * * *

You, my friend, once professed the true faith of the gospel—have you kept it? I think not. I fear you have apostatized from it. You are now preaching a doctrine which pleases the world, but it makes against you according to scripture. * *

I could not but observe with what an *emphasis* you at the grave mentioned those selected texts of scripture which you supposed would confirm your hearers in the doctrine of universal salvation. Would Christ or the Apostles preach universal salvation in one place of scripture, and in another contradict it? I believe they would not. **

As you did not say anything about the resurrection of the dead in either of your speeches, I began to query in my mind whether you believed it or no. I think, yea, I know, it was preached by Christ, and explained so as to confute the Sadducees. Our Lord says, "Marvel not at this, for the hour is coming in the which all that are in their graves shall hear his voice, and shall come forth; they that have done good unto the resurrection of life, and they that have done evil unto the resurrection of damnation." St. Paul, in his defence before the Roman governor, when accused by an orator, whom the Jews employed, as he was allowed to speak for himself, said, "they cannot prove the thing whereof they now accuse me; but this I confess, after the manner which they call heresy; so worship I the God of my fathers, believing all things which are written in the law and the prophets, and have hope toward God, which they themselves also allow; that there shall be a resurrection of the dead, both of the just and the unjust; and herein do I exercise myself to have always a conscience void of offence toward God and toward man." We may observe what an influence the belief of a future state of rewards and punishments had on the blessed Apostle to excite him to live a godly and self-denying life. In the 5th chap. 2d Cor., 10th and 11th verses, speaking of a day of judgment, "when every one must give an account for himself as the deeds have been done in the body, that every one may receive the things done in his body according to that he hath done, whether it be good or bad;" and says, "knowing the terror of the Lord, we persuade men." My friend, is there the least room for us to believe from this scripture and many others, that the wicked who have died impenitent and in a disbelief of the gospel, or without the true knowledge of God and Jesus Christ, whom God hath sent, have eternal life, in the fruition and enjoyment of God? Heaven consists in being like God and enjoying him: hence it is, that the pious thirst for God, the living God, saying, When shall I come and appear before him? Again—"Whom have I in heaven but thee? and there is none upon earth I desire besides thee. My flesh and heart fail me, but God is the strength of my heart and portion forever." These pious breathings are the exercises of the children of God. O, may they be ours.

JOSEPH WALTON.

PORTSMOUTH, Nov. 19, 1810.

P. S.—The within, enclosed, my friend, I can assure you, was not written in this manner, as God is my judge, from an envious and bitter spirit, for I love and esteem your person, as a friend, who has, from my first acquaintance with you, treated me with great respect. I see, on the Lord's days, great numbers of precious souls going and returning from your meeting; and, as far as I know my own heart, I do not envy you for that; but have often prayed that the gifts and natural abilities you have might be sanctified and turned into right improvements, which is the glory of God and the saving benefit of your hearers. May it please God to make you an able and faithful minister of the New Testament; not of the letter, but of the spirit, for the letter killeth, but the spirit giveth life. From your friend

and humble servant,

JOSEPH WALTON,

Pastor of the independent Congregational Church, in Portsmouth.

To Mr. Hosea Ballou, Pastor of the Universalist Church and Society in Portsmouth.

SIR,—You may observe by the date the letter has been written some time; but by several avocations I have not had time to correct and copy it until the present date, Dec. 7, 1810. J. W.

A SURE CURE FOR A COUGH.—Wistar's Balsam of Wild Cherry is pleasant to the taste, and seldom fails to effect a speedy cure of every species of the throat and lung diseases. It is a scientific preparation, skillfully compounded.

LOOK AT THIS!!!

Mr. Joseph Smith of Haverhill, Mass., wishes to inform the people of Portsmouth, that he is in this city for a few weeks, to make a practical demonstration of his Smith's Curative Cleansing Compound, free of charge, for the cure or special relief of the following ills, viz: Rheumatism, Neuralgia, Ague, Toothache, Headache, Bowel Complaints, &c., which are usually counteracted in a few minutes.

The Proprietor, Mr. Smith, would esteem it a favor, if the people would give him the opportunity of testing the value of his Remedy for the above complaints, before pronouncing him a deceiver, as "many deceivers have gone out into the world." Mr. Smith is able to refer to persons in this city, who have been benefited by his Compound and Plaster. Enquire of James Raitt; S. Hubbard, High St.; J. W. Grant at the Brick Market, whose boy's toothache was cured in half a minute; James W. Nutter, near the Post Office, and many others. Price 25 cents per bottle. jy2 tf

☞ Mr. Asa S. Tilton at his Union Store, No. 12 Market street, sells the following Medicines at reduced prices:—Dr. Larookah's Indian Vegetable Pulmonic Syrup, warranted to cure coughs, colds, whooping-cough, asthma, bronchitis, croup, catarrh, consumption, and disease of the throat and lungs. Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, Kennedy's Salve, and Holman's Nature's Restorative.

LADIES AND GENTLEMEN:—We would call your attention to Prof. O. S. Wood's Hair Restorative. From our long acquaintance with the proprietor, and with numerous individuals who have used his preparation with perfect success for the last two years, we feel no hesitation in recommending the article as superior to any of the preparations now in use for the same purpose, viz: for restoring gray hair to its original color, a sure and perfect cure for baldness, and a never failing preventive for the falling of the hair.

It is decidedly the best and most popular in use for beautifying, preserving, restoring and strengthening the hair, relieving diseases of the skin, and removing scurf, dandruff, and all eruptions and feverish heat from the scalp.

We speak in relation to the above from what we know, having been personally acquainted with numerous persons who have used the Restorative for the above purposes, with the most gratifying results.

It is not often we notice a patent medicine.—Indeed, we think we have never puffed one before; but Professor Wood's "Hair Restorative" is something so superior to most of the preparations of the day, that we cannot forbear asking the attention of our readers to it.—[Catholic Vindicator.

MORE RIOTING IN NEW YORK.—About 11 o'clock, on Wednesday night, in New York, a riot took place in Thirteenth street, between a party of rowdies belonging to the 11th Ward, known as "The Blues," and a party from the 17th Ward, known as the "Forty Thieves." An officer went to the spot with eight men, and was immediately set upon by the two parties, with stones and brickbats. They succeeded in arresting two of the rioters, known as Michael Riley and James Hopkins, of the "Blues." The "Forty Thieves" again mustered, crossed Tompkins square and made another onslaught on the police, who used their revolvers, firing some dozen shots among them, which had the immediate effect of dispersing the rowdy parties and restoring quietness in the neighborhood.

So says the Boston Herald, which also contains this paragraph.

In the riot at New York city on Sunday, the larger number of those engaged, were boys not over sixteen years of age. It is so in most of the street fights there. The same class constitute a large proportion of the thieves in that city. Something should be done to reclaim these lads before it is too late. If they cannot be stopped in their criminal career, New York, now by no means a favorite place of residence for people of unquiet nerves, will in a few years be left at the mercy of cut-throats and villains, who are now only entering into the contest for supremacy. They have now gained a partial victory over the police—a victory which they must not be allowed to follow up. Woe be to the day when the military shall ceased to be a rod of terror to them.

The same evil to some extent, exists in all cities. And it is a great evil, aggravated by every degree of encouragement which any political party, venal press, or crafty demagogue, gives to rioters, bullies, or to places where they do mostly congregate.

The 11,000 groggeries of New York and vicinity are the nurseries which send out a proportionate supply of the same sort.

Shirley's Universal Renovator.
OR, FURNITURE POLISH.

J. F. SHORES, JR., No. 1 Congress Block,

HAS just received a supply of the above article for cleaning and restoring to their original lustre all articles of varnished or polished furniture, patent leather, hair cloth, oil paintings, oil cloths, &c. This article is used and highly recommended by many of the large furniture and piano forte manufacturers in New York and Boston

TO HOUSE KEEPERS the value of this compound is inestimable; as with it you may restore the *original lustre* of every article of varnished or polished furniture It will restore the lustre to *marble*.

TO CABINET MAKERS AND FURNITURE DEALERS it is an article of incalculable value, as a simple application brings out your polish, *unrivalled* in its lustre, and the Knives produce a finer polish produced by any other means, and at a much less expense of time, labor, and material.

TO CARRIAGE MAKERS AND SQUARE KEEPERS this compound will be found to be invaluable. Your carriages, when soiled by use or exposure, if cleaned with this Renovator, will exhibit all the brilliancy of the original polish—provided the varnish is not worn off; for it not only removes the dirt, but it adds to the varnish a body, unsurpassed for elegance and durability.

All who wear Patent Leather Boots or Shoes should procure a bottle of this compound. You need but to use it occasionally, and your *Boots* and *Shoes* will retain their lustre till they are worn out. In bottles of 1 pint—50 cts. each.

I have used this compound, and it answered my expectations, and came up fully to the recommendations. (J jl0 J. F. SHORES, JR.

POLISH YOUR OWN FURNITURE.

Shirley's Furniture Polish

IS WARRANTED the best article in use, and it will make old Furniture look as well as new. It will cleanse and restore to their original lustre all articles of varnished or polished furniture. It is used and highly valued by all our Cabinet Manufacturers, and in general use in Boston by all Piano Manufacturers, and in Portsmouth by WM. R. PRESTON, Apothecary.

Price only 50 cents for a large Bottle. 4t jl0

Costiveness Cured by Injections.

The Best Family Self-Injecting Syringe in the World.

DR. MATISON'S Patent Elastic Syringe—for the relief and permanent cure of Costiveness and its attendant evils.

These superior instruments (and no family should be without one of them) are for sale at the Apothecary Store of WM. R. PRESTON. They are neatly put up in boxes, and can almost be carried in the vest pocket. Accompanying them is a manual of directions, for the employment of injections in various diseases; with remarks upon the nature and treatment of habitual constipation. They are highly recommended by the medical faculty of Boston and Portsmouth, as they are sure to remove Costiveness, and render the taking of medicines entirely unnecessary. 4t

TO NEW SUBSCRIBERS.

The sixth year of the Daily Chronicle commences with the coming month of August. For $4, paid in advance, we will furnish the paper from this time and through the coming year, to August 1st., 1858.

We shall furnish no papers by the week, after August 1st.; and would invite those who have heretofore been on the weekly-paying list, to avail themselves of the offer above. Subscriptions will be received for three months—$1, in advance.

With the commencement of the new volume, we intend to make some improvements in the appearance of the Chronicle—and possibly may enlarge the Daily somewhat, and procure new type, heading, &c. But we are not sure—for we have had so much fussing, planning and fixing since "our fire" last winter, that we may deem it best to wait till new year, for the proposed alterations.

DRAWING ROOM ENTERTAINMENTS.—Fiske & Sanford's Vaudaville & Concert Company are expected to give a series of their chaste and attractive entertainments at the Temple, commencing on Monday eve'g.

For the Chronicle.

NUISANCES.—*Editor of the Chronicle*:—I was pleased with the remarks of your correspondent, relative to the dirty state of our streets; and regret that he omitted to allude to a greater nuisance, viz; the filthy state of the South Mill Pond, which has been increasing for several years, and is very offensive when the tide is out. In addition to several common sewers, emptying into it, from ten to fifteen families have their privies situated over it. If they alone had to endure the stench, I should not complain; but not believing it right that the public should be made to suffer to save a few individuals a few dollars, I, for one, am unwilling to continue to be annoyed any longer.

I would enquire whether the Committee that has been appointed by the City authorities, for several years past, to abate this nuisance, ever intend to act. Should that not be the case, I thing we ought to go before the Aldermen before it can be carried into effect.

☞ The New York Councilmen voted on Wednesday night, to surrender the police station houses and telegraph lines to the Metropolitan police. The subject has to go before the Aldermen before it can be carried into effect.

☞ Mr. Hiram Morris, a wealthy and respected citizen of Warsaw, Wyoming county, was conveyed to the asylum at Utica, a raving maniac, in consequence of excitement produced by attending a camp meeting, and died shortly after his admission.

SPECIAL NOTICES.

We call attention to a medicine advertised in our paper, for sale by J. H. Thacher and W. R. Preston,—for the cure of Dysentery, Diarrhea, and other affections of the Bowels. If what is said of it is true, by those that have given it a trial, it should be used in every family. No medicine is more worthy of universal commendation than Dr. Wilson's Dysentery Powders.—Please try them. july2 2w

IF ALL OUR READERS

Who are troubled with liver complaint, Jaundice, or Dyspepsia, will read the advertisement in another column of Dr. Sanford's Invigorator, and then do as we have done—get a bottle, we should not see so many sickly, half-dead, despairing people as now meet our gaze at almost every corner, for certainly there never was a remedy invented of which so much is said, and that performs so nearly what its proprietors say it will do. It came to us so highly recommended that we could not fail to try it, and a trial has convinced us, without a doubt, that it is the best family medicine in use. We take it for Headache, Sour Stomach, Billiousness, and any of the little bodily ills that are common, and it does produce a pleasant state of feeling to the sick, and what is better, after using it a few times, these little ills grow less and less, and there is a prospect of being entirely free from them by a continuance in the use of the Invigorator. The Great English Remedy.
SIR JAMES CLARKE'S
Celebrated Female Pills.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

It is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females that are pregnant, during the FIRST THREE MONTHS, *as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.*

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics, and Whites, these Pills will effect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel, antimony, or any thing hurtful to the constitution.

Full directions accompany each package.

Sole Agent for the United States and Canada, JOB MOSES,
(late I. C. BALWDIN & CO.,) Rochester, N.Y.

N. B.—$1 and 6 postage stamps enclosed to any authorized Agent, will insure a bottle of the Pills by return mail.

NEW YORK, July 9.—The Coroner's inquest on the death of two persons who were shot in the riot of the 4th, has resulted in a verdict against some twenty Irishmen, the greater part of whom are in custody.

The owners of the bark Panchita have entered a civil suit against the British officers who brought her home, and their counsel have also written to Gen. Cass, requesting government to demand reparation of Great Britain.

Dates from Devenworth, via Boonville, to June 6th, state that the examination of Haller, charged with the murder of Lyle, resulted in his committal for trial at the District Court. The prisoner was conveyed to the fort for safe keeping and protection until the excitement about the murder subsides.

A collision occurred last evening at Hoboken, between Oscn Granville, a teacher at the Bloomfield Academy, and a young Cuban student named Cueva, when the latter shot the former, the ball passing throgh the head and injuring him fatally.

LOSS OF PROPERTY AT PLAINFIELD, VT. On Monday last, a mill pond at Plainfield, Vt., owned by Messrs. Martin & Flagg, broke through its embankment, taking a saw mill and a large shop, with much valuable machinery, and a lot of carriages and lumber along with it, down the stream. The Montpelier Freeman says eleven bridges were carried away, and much damage done to private property. A considerable portion of the wool carding factory at Gate's Pond was torn away. The principal individual sufferers are J. Flagg & Martin. The roar of the water, as it rushed along, was heard an hour and a half before it reached the village. The entire damage is estimated at from $5000 to $10,000.

NEW YORK, July 10.—At a meeting last night, of a portion of the Democracy of the 19th Ward, a resolution was passed in favor of a division of the State. Mayor Wood was present and addressed the meeting.

FATAL ACCIDENT.—At Lee, Mass., on Sunday, July 5th, Miss Polly Beach was thrown from a wagon and died on the 6th from injuries received.

☞ The New York Councilmen voted on Wednesday night, to surrender the police station houses and telegraph lines to the Metropolitan police. The subject has to go before the Aldermen before it can be carried into effect.

SAGAMORE HOUSE, LYNN, MASS.—We notice that this fine Hotel is now conducted by Thomas Rand & Son, (T. B. Rand.)—The building is a commodious and elegant new brick structure,—situated near the Lynn Central Eastern Railroad Station, but a few minutes' walk from the celebrated Nahant Beach; and there are no more competent and agreeable landlords, (and, what is full as important, we must add, landlady,) than will be found at the Sagamore.

☞ We are glad to notice the prosperity of our old friend Everett O. Foss, Esq., formerly of Dover. He has become editor and proprietor of the Saint Peter Courier, published in the City of Saint Peter, Minnesota Territory. It is a good-sized, neat Weekly; and we wish it success,—in all but its hunkerism.

☞ The Coroner's Jury, in the case of the propeller Inkermann, (by the explosion of which, at Toronto, in May, ten persons were killed,) have rendered the following verdict:—

"That said explosion was created by the introduction of spirits of wine, oatmeal, and sal ammoniac into the boiler of the said propeller Inkermann, by Doheny, the Engineer in charge. The introduction of the aforesaid substances causing the water to foam, and consequently indicating the presence of more water than it really contained."

☞ At Natchez, the probate court gave Mrs. Moore the guardianship of the children of her sister, Mrs. H. H. Hamilton. She determined to send them to a Catholic school in St. Louis. Mrs. Hamilton objected, and went on board the boat at the wharf to take her children from it. Mr. Peter Grant interfered, to prevent her, when she drew a knife and stabbed him in the side. In the excitement produced, she got the children, who were unwilling to leave her, and placed them in a friend's house. All the parties are of high social position.

☞ Recently a large family of colored persons has been liberated by the will of their late master, a gentleman of Montgomery, Ala., and provided with a home and means of support in New Haven, Conn.—Their masters left about twelve thousand dollars to them with their freedom, on condition that they should remove to a free state; and one of executors of the will, has recently purchased one or two houses and several lots for them in the upper part of the city, and the children are now attending one of the public schools.

Stocking Weavers' Strike.

PORTSMOUTH, JULY 2, 1857.

To the inhabitants of Portsmouth and its vicinity:

WE, the undersigned, wish to call your attention to the present Strike of Stocking Weavers in this city. We think to awake your sympathy when we place before you the reasonable excuse for such strike. The trade is spread, more of less, through the States; and for the kind and quality of work as made in Portsmouth, nowhere can we find that the workmen are making it at as low a rate as here. In Massachusetts, where the same kind of work is made, and with one and the same market, the workmen receive at the rate of 20 per cent. and upwards over us.

We appeal to every reasonable man, and ask whether it is right that we should make goods equal to those made in other places, for so much less? If we have submitted to a reduction of prices in time past, can we but with confidence ask for a renewal of the former rates, or at least an equal right with others? We have borne the grievance too long—but now necessity has forced it upon us to remonstrate. House rent, fuel, food, clothing,—all these have steadily increased in price; in fact, it has become a problem with us how are we to live by our labor!

Signed, by order,
WILLIAM ALTON, JOSEPH WAIN,

Manny's Celebrated Mower
—AND—
MOWER AND REAPER.
IMPROVED.
Built expressly for the New England States.

THE MANNY MOWER has been extensively used for the past two years in New England, and more than six years at the West.—Its success is beyond that of any other Mower or Reaper ever constructed. Over 150 *1st Premiums* have been awarded it, including the *Grand 1st Class Silver Medal* at the WORLD'S FAIR, PARIS, 1856.

With the two past years' *experience*, we have been enabled to make a number of very *important improvements*. We find New England farmers require a different Machine from other sections;—the fields generally being small. It must be *light*, and at the same time possess *great strength*; *portable*, with facilities to *raise* the *cutters* to *pass stonewalls*, and to remove from field to field. A perfect cutting apparatus, to cut the fine grasses without clogging, and so constructed as to *stand* in the grass *without backing*, easily adjusted to cut high or low, and have a Reel to cut equally well with or against the wind, and to be worked with ease by a light team, and so easily managed in all simple that any one of common ability may operate it successfully, and to be built in the most thorough manner.

With this knowledge of the farmers' requirements, and with the determination to build a *better* Machine than has ever before been constructed in this country, we offer the Manny Mower of 1857 with confidence, as combining the qualities enumerated above, and as one particularly adapted to meet the wants of New England farmers.

☞ We invite the farmers to call and examine Machines. Circulars should be sent early. Circulars, with testimonials, forwarded FREE, on application.

Price of Mower, $110; with Reaper attachment, $15 Extra. Delivered on board the cars at Worcester, Mass. JOHN P. ADRIANCE & Co.,

☞In Boston Jail, on Tuesday evening, Ann Butler died of delirium tremens. She was committed for drunkenness last Friday.

James Delap, who kept a restorator in the building at the corner of Richmond and Fulton streets, which was burned last week, has been charged with setting fire to the same, and is now in jail to answer to the charge. Delap was insured for $950 at the Quincy Mutual Insurance Company.

☞The Kennebec F. W. Baptist Yearly Meeting, held June 25, at Lower Wilton, Me., passed the following resolutions.—Anti-Slavery.

1. *Resolved*, That the alarming and increasing encroachments of the slave power in this country, demand the united and continued efforts of the freemen of the north, irrespective of party considerations, to maintain the rights of free speech, free soil and free men.

2. *Resolved*, That in the decision of the Supreme Court, in the Dred Scott case, we find only another echo of the slave power, and we can but consider it a flagrant violation of the principles of civil government, as taught in the word of God; and as such, ministers are bound to rebuke it.

Temperance.—1. *Resolved*, That in view of the alarming increase of intemperance, since the repeal of the Maine Law, we will never cease to pray and preach and vote in favor of the prohibition of the liquor traffic, until we see a law upon our statute book, that shall bring this wickedness to an end, or we have finished our work on earth.

The Pulpit.—1. *Resolved*, That the pulpit is, and of right ought to be, free to rebuke all sin, individual, social or political; and no pecuniary considerations, or human considerations, and no human legislation, though sustained by judicial decisions, should deter the Christian minister from declaring, freely and faithfully, the teachings of the Bible against public wickedness.

A learned clergyman (says the North British Mail) not ten miles from Glasgow, at a prayer meeting of his flock during the week, took an affecting farewell of them, remarking in a very pathetic manner, that, in all probability, as the comet was at hand, that was the last occasion upon which they would meet in this world.

The Gateshead Observer states that a maid servant at Shields got a holiday, a few days ago, for the 13th of June, "that she might be drowned by the comet beside her mother!" A thoughtful inhabitant of Cleadon made a large chest of oak, in which to shut himself up in order to be safe from the comet. A Liverpool tradesman, whose stores are "under the office where everybody goes to get his weights stamped," inserted an essay in the advertising column of the local papers, demonstrating the danger of the comet, and advising the public to lay in a stock of his butter "before the source was dried up."—*Weekly News, Manchester, Eng.*

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRANCK & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and see that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they were present at the drawings in lottories. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lottories are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $10'00. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞The drawing numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance are as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $30,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York *Weekly Dog Book*. Address all orders, (inclosing the cash,) direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18 1y

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(*Late Agent of U. S. Patent Office, Washington, under the Act of 1837.*)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States, Canada, Nova Scotia, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed in the shortest time, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given show that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he does not claim to believe, and can not prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of mechanical and other works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents."

From the present Commissioner.

AUGUST 7, 1855.—By the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,

Commissioner of Patents.

EXTRAORDINARY BEE HIVES.—The inmates of one of our largest up-town mansion houses, (says the Portland Argus,) a few days since were surprised to find a large number of bees flying about in two of the upper rooms. As the little fellows continued to occupy the places, a bee Naturalist was sent for to investigate the matter. On entering one of the rooms he exclaimed, "you have honey somewhere here," and proceeded to search for it. On removing the fire-board he discovered that one flue of the chimney was full of honey comb, which was hanging down into the fire-place and the honey dropping from it; proceeding to the top of the house to sound the chimney, he found the flue full of the comb to the top, and the bees still at work. In the other room he found it the same; one flue of the chimney was full, and the bees were industriously at work there also.

These flues of the chimney had never been used; they were plastered smooth inside, and perfectly dark, a stone having been placed upon the top of each flue.—The bees had descended the adjoining flues and found small holes about ten inches from the top of the chimney, leading into the closed flues, and through these holes they had made their way in and out.—They have, as is supposed, occupied these places for three years, having been kept warm in the winter by the heat from the adjoining flues.

On removing the fire board, the bees, seeking the great light which had broken in upon them, descended to the room and gathered on the windows until they were covered to the thickness of three inches.—It is estimated that there are in the two flues from 40,000 to 50,000 bees and from two to three thousand pounds of honey.

FIREWORKS.—The Boston Herald, in noticing the disaster on the common last Saturday evening, alludes to the sad accident in Salem many years ago. That melancholy catastrophy took place on the evening of July 4, 1823. When the exhibition was about half completed, over 300 rockets, which were in a chest under the statge, were accidently fired by an erratic specimen which turned, glanced from the ground, and penetrated one end of the chest, setting the contents on fire. Being in a horizontal position, many of the rockets took a direction immediately towards the immense assemblage of spectators, spreading terror, alarm and confusion among them, and wounding and maiming about thirty persons, several of them dangerously, three of whom speedily died.

The scene was truly awful. A large area around the stage appeared to be enveloped in flames—a part of the rockets taking a more elevated direction, passing near the crowd, and the fiery fragments falling profusely among them—and, besides the persons seriously injured, a great number had their clothes burned, or lost their hats, shoes, etc., and several were thrown down and trampled upon. Fortunately, about a hundred of the largest and most dangerous rockets exploded without doing any material injury. Rockets were then commonly made with tin cases, so that the wounds of many of the sufferers who survived were frightful. Since that time, we believe, metallic cases have been set aside.— *Salem Register.*

THE PASSAGE OF ANIMALS TO AND FROM THE ARK.—The following is from Hugh Miller's "Testimony of the Rocks":

A continuous tract of land would have stretched—when all the oceans were continents, and all the continents oceans—between the South American and Asiatic coasts. And it just possible that during the hundred and twenty years in which the ark was in building, a pair of sloths might have crept by inches across the continuous tract, from where the skeletons of the great megatheria are buried, to where the great vessel stood. But after the flood had subsided, and the change in sea and land had taken place, there would remain for them no longer a roadway; and so, though their journey outwards might, in all save the impulse which led to it, have been altogether a natural one, their voyage homeward could not be otherwise than miraculous. Nor would the exertion as miracle have had to be restricted to the transport of the remoter travellers. How, we may well ask, had the flood been universal, could even such islands of Great Britain and Ireland have ever been replenished with many of their original inhabitants. Even supposing it possible that animals such as red deer and the native ox, might have swam across the Strates of Dover, or the Irish Channel, to graze anew over the deposits in which the bones and horns of their remote ancestors had been entombed long ages before, the feat would have been surely far beyond the power of such feeble natives of the soil as the mole, the hedge-hog, the shrew, the dormouse, and the field-mole.

The total exportations of spring crops in Bermuda, for the present year, amount to 1,013,304 lbs., of onions, 23,026 barrels of potatoes, and 13,754 boxes of tomatoes, most of which went to the United States.

☞ Richard, T. Jones has been sentenced to four years in the district of Columbia penitentiary for cutting the throat of Rose Bell, who refused to marry him.

Tobacco was sold last week in Richmond, Va.; at $100 per hundred pounds. This is the highest price ever paid in Virginia for tobacco in the leaf.

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES.
Prepared by an old Physician of 40 years experience.
THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance where the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deadly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.
These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,581, Post Office, New York City, can have them sent to their respective addresses by return of mail.

ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. Morning Chronicle.

MONDAY, JULY 13, 1857.

The laws of nature are just but terrible. There is no weak mercy in them. Cause and consequence are inseparable and inevitable. The fire burns, the water drowns, the air consumes, the earth buries. And perhaps it would be well for our race if the punishment of crimes against the laws of man were as inevitable as the punishment of crimes against the laws of nature—were man as unerring in his judgements as Nature.—*Longfellow.*

The laws of Nature, or as we would rather say, of God, are truly inflexible, as Longfellow asserts, in physical matters.—Even so, must they be, in relation to moral and spiritual subjects and objects. And in the laws of God, mercy is no weakness, and justice is not harsh. Both are good, and both beautiful. But human laws are as weak, as fallible, as imperfect and as crooked, as human judgment and human characters.

THE NEW YORK RIOTERS—ANOTHER ATTACK ON THE POLICE.—Two of the rioters concerned in robbing the conductors of the horse cars on one of the New York Avenues, on the 5th of July, have been committed for trial without bail. The inquests on the victims of the late riots are still continuing. There was another riot on Wednesday night, in the 11th ward, between two factions known as "The Blues" and "The Forty Thieves," who attacked the police when the latter endeavored to separate them. The New York Herald states that the fight between these two factions was all a sham, and that it was planned out of pure enmity to the new police organization, with the avowed intention of drawing out the police and then whipping them. But from the following account it seems they made an arrangement to which the parties principally concerned did not give their consent:

It appears that the rowdies concocted a plan whereby the police would be drawn into the meshes of the enemy. The conspirators gave the alarm rap at the corner of Twelfth street and avenue A, which naturally drew the attention of the police to that spot. A small force of men advanced to the place where the rioters were in waiting, but had hardly reached the corner of avenue A and Twelfth street, before they were met with a volley of bricks and stones. The policemen were completely taken by surprise, but nevertheless they rallied promptly, and drawing their revolvers warned the rioters of their danger.—The rioters paid no attention to the wholesome advice, but continued to attack the officers with stones, when the latter fired three or four shots into the crowd, rushed forward, and charging the enemy with great valor, they succeeded in making two prisoners. The police then retreated in good order with their prisoners, strongly guarded, when an attempt was made to rescue the captured rioters. The mob followed the officers closely, and when the latter reached the corner of avenue B, a rush was made, for the purpose of carrying off the prisoners, but the policemen again fired their revolvers at their assailants, and again the rowdies were defeated. The crowd then dispersed, when the officers proceeded to the Eleventh Ward station house, and there locked up the prisoners, who were committed the next morning. A number of the rioters were wounded, and carried off by their comrades during the fight.

A "DEAD RABBIT'S" FUNERAL.—A member of the rowdy organization of "Dead Rabbits," who were prominent in the late terrible New York riot, was buried at Greenpoint on Tuesday last, and the Brooklyn Eagle, in describing the scene, says:

They were a motley set. Some had on fire caps, and no shoes—some hats, and no coats—some breeches, and an apology for a shirt—some had clean shirts and torn trowsers — some were in tolerably decent trim, but these were few and far between. A portion of them called at the Eastern District Hotel in National avenue, on their way to the cemetery. They got what they called for, ate all they could get, and then marched off without paying the proprietor.

A couple of would-be literary chaps were conversing one day on authorship, when one of them observed that *Finis* was a great author; he had seen that writer's name attached to a great number of books.

"You must be a stupid blockhead," replied the other; "the man named *Finis* is the printer."

This is about equal to the old woman who declared that "Job Printer must be a very old man, for she had seen his name ever since she was a little gal."

A SAD AFFAIR.—A correspondent of the Boston Journal from Hanover, N. H., July 9th, states that H. E. B. Stowe, a son of Mrs. Harriet Beecher Stowe, a member of the freshman class in Dartmouth College, was drowned in the Connecticut river, that afternoon. Mrs. Stowe has been absent in Europe for a year or more, but is now on her return.

TAKING OUT AN EYE TO MEND IT.—The Leipsic Journal of Literature, Science and Art publishes an account of the wonderful discoveries of Dr. Graeff, in diseases of the eye, and the wonderful cures he performs. He has found the ball of the eye to be transparent, and by a curious instrument examines minutely the interior, takes it out and performs any necessary surgical operation, and replaces it without injury to its appearance or vision. A young girl had long been afflicted with the most excruciating pain in her left eye, the cause of which the most learned could not understand. Dr. Graeff found in the centre of the ball a little worm, which he removed, and restored the poor creature immediately to health and perfect sight.

THE PULPIT ADLOAT.—Some 30 or more of the Boston clergy went down the harbor, Tuesday, of last week, in the yacht Surprise. A novel feature with this year's excursion was the presentation of an elegant silver fish-knife to the party who caught the first cod, and a rusty old table knife to the individual who caught the first sculpin, both being purchased by a fund to which they all contributed.—*Charlestown (Mass.) Adv.*

Well, now, we should call this the minister's lottery—the lot was cast into the *sea*, (instead of the lap,) "the disposal thereof" certainly being "with the Lord." And if ministers, clergymen, churches, fairs and printers may have lotteries—why not anybody?

Nay, brother Advertiser, don't call it "the pulpit adloat"—better say, the pulpit *ashore*, on the snag of games of chance.

F.

Some half a dozen failures among speculators in breadstuffs have lately occurred in Chicago. Others are badly crippled from the same cause, vis "selling short," which is thus explained by the Chicago Tribune:—

A. has not a peck of corn in his possession, but he sells B. 50,000 bushels at fifty-three cents per bushel, to be delivered thirty days hence. When the contract time arrives, corn may have advanced to seventy-eight cents, and Mr. A. is called upon for the corn or the "difference," which amounts to $12,500. If he is "short" of the requisite funds he goes under, and perhaps drags down also the party to whom he sold the corn, who, on the strength of the purchase may have sold also his 50,000 to a third party at fifty-eight cents, deliverable on a future day, and, instead of making $2,500 by the transaction, as he was fondly anticipating, finds himself out of pocket to the serious amount of $10,000.

DEATH FROM A ROCKET.—The Chicago Press gives the particulars of a melancholy accident in that city, on the night of July 4. It appears that a rocket entered a third a third story window on Clark street, and struck Mrs. Sarah A. Smith, in the centre of the forehead, entering about six inches, and from appearances exploding within the cavity of the skull, scattering her brains in all directions, and, of course, killing her instantly, the room presenting a horrible and ghastly spectacle. The unfortunate woman had just entered the room to meet her husband who was to go to walk with her. Seeing him looking out of the window with two other persons, she stepped softly up to the group, just then the explosion took place and the rocket came hissing on its errand of death. The first knowledge that Mr. Smith had that his wife was in the room, was seeing her when he turned, a ghastly and bleeding corpse upon the floor. The deceased was twenty-six years of age, and formerly from Rochester, N. Y., and leaves two little boys.

ANOTHER FRUITLESS ATTEMPT TO ARREST BY U. S. MARSHALS, IN OHIO.—A correspondent of the New York Tribune, writing from Mechanicsburg, Champaign Co., Ohio, July 1, gives the following account of an attempt to arrest certain inhabitants of that town, for violation of the provisions of the fugitive slave law.

Early on Monday morning last, the inhabitants were aroused from their slumbers by a squad of United States Deputy Marshals. Their object was to arrest two of the citizens, U. H. Hyde and Charles Taylor, suspected of having violated some of the articles of the Fugitive Slave Law, in the case of the escape of the slave Addison in May last.

They first went to the house where Hyde had been residing. On that night, for the first time for the past week or two, Hyde had lodged at the house of one of his neighbors, and escaped.

They next went to the house of Taylor, but he made his escape at a back door.—This is the fourth visit from Cincinnati made to Mechanicsburg by U. S. Deputy Marshals within a month or two past, all ending in smoke.

☞ It is said that the Alabama Conference of the Methodist Episcopal Church has unanimously voted in favor of expunging from the discipline the general rule forbidding "buying and selling of men, women and children, with an intention to enslave them.'

ATLANTIC HOUSE, Rye Beach, July 11, 1857.

Mr. Editor.—My roving propensities being still in full vigor, I left your time-honored city, (and, by the way, I believe that's the only way it is honored, excepting of course in containing two such personages as ourselves,—not by any means slighting the fair damsels who throng its quiet streets,) last night, and took up my abode, for one night at least, under the friendly roof of Mr. Philbrick.

After tea, which was prepared in the usual good style of the house, I strolled out with a friend to take a bath, and as I dislike to be encumbered with bathing-clothes, we left the bath-houses far behind. But a new difficulty arose in the shape of two suspicious looking fellows, whose movements aroused in our minds an idea that they intended "hooking" our clothes while we were in the surf. They did not trouble us however, though an adventure in which we were actors a few days before, made us rather chary of trusting our apparel out of reach.

We were at Wallis's Sands, and put our clothes in the carriage to keep them from the sand. We were enjoying ourselves hugely, when looking up no carriage was to be seen. You may rest assured that no grass grew under the feet of your humble servant as he "made tracks" in the direction taken by the horse. I succeeded in catching him just before he reached the first house, but some of the men who were at work near by must have told the story, for all the ladies in the house rushed to get a sight of us as we passed the door.

This morning my whole system quickened with a start at the sight of an immense volume of thick, black smoke, rolling majestically up over the woods at the west of the house, awakening hopes of an "item," only to have them dashed to the ground by being told that it was probably nothing but bushes.

All along the road the farmers are busy improving this fine hay weather. The crop, as all are aware, is unusually good, and the barns begin to recover from that barren appearance which they have so long presented.

Although we have had so much rain, still if even a slight drought should visit us now it would affect the corn badly, as it is so small, and I see that most of the brooks and ponds by the wayside are very low, so low indeed as hardly to be water enough to cover a

Mr. W. F Lawrence:—Dear Sir,—One of my children was attacked with a severe bowel complaint; the case was a critical one, attended with Prolapsus, and was cured by the bottles of your Carminative. DANIEL T. NORRIS, Proprietor of the Elm Street House, Manchester, N. H.

Mr. Joseph Smith of Haverhill, Mass., wishes to inform the people of Portsmouth, that he is in this city for a few weeks, to make a practical demonstration of his Smith's Curative Cleansing Compound, free of charge, for the cure or special relief of the following ills, viz: Rheumatism, Neuralgia, Ague, Toothache, Headache, Bowel Complaints, &c., which are usually counteracted in a few minutes.

The Proprietor, Mr. Smith, would esteem it a favor, if the people would give him the opportunity of testing the value of his Remedy for the above complaints, before pronouncing him a deceiver, as "many deceivers have gone out into the world." Mr. Smith is able to refer to persons in this city, who have been benefitted by his Compound and Plaster. Enquire of James Raitt; S. Hubbard, High St.; J. W. Grant at the Brick Market, whose boy's toothache was cured in half a minute; James W. Nutter, near the Post Office, and many others. Price 25 cents per bottle. jy2 tf

☞ Mr. Asa S. Tilton at his Union Store, No. 12 Market street, sells the following Medicines at reduced prices:—Dr. Larookah's Indian Vegetable Pulmonic Syrup, warranted to cure coughs, colds, whooping cough, asthma, bronchitis, croup, catarrh, consumption, and disease of the throat and lungs. Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, Kennedy's Salve, and Holman's Nature's Restorative.

LADIES AND GENTLEMEN:—We would call your attention to Prof. O. S. Wood's Hair Restorative. From our long acquaintance with the proprietor, and with numerous individuals who have used his preparation with perfect success for the last two years, we feel no hesitation in recommending the article as superior to any of the preparations now in use for the same purpose, viz: for restoring gray hair to its original color, a sure and perfect cure for baldness, and a never-failing preventive for the falling of the hair.

It is decidedly the best and most popular in use for beautifying, preserving, restoring and strengthening the hair, relieving diseases of the skin, and removing scurf, dandruff, and all eruptions and feverish heat from the scalp.

We speak in relation to the above from what we know, having been personally acquainted with numerous persons who have used the Restorative for the above purposes, with the most gratifying results.

It is not often we notice a patent medicine.—Indeed, we think we have never puffed one before; but Professor Wood's "Hair Restorative" is something so superior to most of the preparations of the day, that we cannot forbear asking the attention of our readers to it.—[Catholic Vindicator.

Two very curious parchments were lately sold at auction in Paris; one being a receipt to the treasurer of Louis XI., from the king's tailor, for the sum of 30 sols, for putting a new pair of sleeves to an old leather pourpoint of his majesty's, and the other a receipt from the royal shoe-maker for 15 deniers for furnising grease for the king's boots.

☞ In Wesley, Arkansas, a fourteen year old boy, who had gone to drive the cows from pasture, taking with him a gun loaded for partridges, discovered three wolves among the herd, and secreting himself behind a stump, killed the largest one, and scared off the other two. The wolf killed measured over six feet in length.

Coggswell's Medical Salt, A PERFECT SUBSTITUTE FOR THE LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: removes INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a quill dipped into a solution of it, to affect the entire system.

☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*

Shirley's Universal Renovator, OR, FURNITURE POLISH.

J. E. SHORES, JR., No. 1 Congress Block,

HAS just received a supply of the above article for cleansing and restoring to their original lustre all articles of varnished or polished furniture, patent leather, hair cloth, oil paintings, oil cloths, &c. This article is used and highly recommended by many of the large furnitnre and piano forte manufacturers in New York and Boston.

To HOUSE KEEPERS the value of this compound is inestimable; as with it you may restore the *original lustre* of every article of varnished or polished furniture It will restore the lustre to *marble*.

To CABINET MAKERS AND FURNITURE DEALERS it is an article of incalculable value, as a simple application brings out your polish, *unrivalled* in its lustre, and far more durable than the polish produced by any other means, and at a much less expense of time, labor, and material.

To CARRIAGE MAKERS and STABLE KEEPERS this compound will be found to be invaluable. Your carriages, when soiled by use or exposure, if cleansed with this Renovator, will exhibit all the brilliancy of the original polish—provided the varnish is not worn off; for it not only removes the dirt, but it adds to the varnish a body, unsurpassed in elegance and durability.

All who wear Patent Leather Boots or Shoes should procure a bottle of this compound. You need but to use it occasionally, and your *Boots* and *Shoes* will retain their beautiful polish, till they are worn out. In bottles of 1 pint—50 cts. each.

I have used this compound, and it answered my expectations, and came up fully to the recommendations. (7 j10) J. E. SHORES, JR.

POLISH YOUR OWN FURNITURE.

Costiveness Cured by Injections.

The Best Family Self-Injecting Syringe in the World.

DR. MATTSON'S Patent Elastic Syringe—for the relief and permanent cure of Costiveness and its attendant evils.

These superior instruments (and no family should be without one of them) are for sale at the Apothecary Store of WM. R. PRESTON. They are neatly put up in boxes, and can almost be carried in the vest pocket. Accompanying them is a manual of directions, for the employment of injections in various diseases; with remarks upon the nature and treatment of habitual constipation. They are highly recommended by the medical faculty of Boston and Portsmouth, as they are sure to remove COSTIVENESS, and render the taking of medicines entirely unnecessary. 4t

TO NEW SUBSCRIBERS.

The sixth year of the Daily Chronicle commences with the coming month of August. For $4, paid in advance, we will furnish the paper from this time and through the coming year, to August 1st., 1858.

We shall furnish no papers by the week, after August 1st.; and would invite those who have heretofore been on the weekly-paying list, to avail themselves of the offer above. Subscriptions will be received for three months—$1, in advance.

☞ A Cow, belonging to Mr. Asa Ham of this city, has given, this year, from June 25 to July 8, 675 lbs. and a half of Milk, or an average of 48 lbs. and 35-100 per day. In that time, her lowest day was 47 pounds, the highest 50.—Her food, good pasturage only; her yard only a few rods from the pasture. We saw her evening mess on the 10th inst. which filled a common wooden pail, and also a six quart tin pail. This mess weighed 29 lbs.

Dramatic Soirees at the Temple.—Messrs. Sanford & Fiske will commence a series of entertainments at the Temple, for six evenings, beginning this, Monday evening, July 14th. They come to us well recommended,—and our citizens will enjoy a rich treat. We notice among the ladies Mrs. M. W. Fiske the beautiful and talented comedienne; Lizzie McGregor, etc. The opening pieces will be *Madelaine, or La Fille du Regiment*, interspersed with songs a *Pas de Matelot*,—to conclude with the pleasing comedietta of *Paddy Miles' Boy*. s.

Coroner's Jury.—In Boston, on Friday, the jury summoned by Coroner Cornell, to investigate the circumstances concerning the death of Patrick Cook and Thomas Mahar, concluded their investigations, and returned the following verdict:

"That Patrick Cook and Thomas Mahar came to their deaths on the night of July the 4th, 1857, at about 9 o'clock, in consequence of being struck with the fragments of a mortar or rocket gun; said gun having burst in consequence of the simultaneous ignition of both shell and and charge, which bursting would not have occurred, had the said gun been a sound and perfect casting; and the jury are of opinion, after a patient and thorough investigation of the whole matter, that the So. Boston Iron Co., knowing as they did, before the casting left their establishment, that it was imperfect, are culpable in allowing it to go out of their possession. And the jury further say, that Messrs. Hovey & Co. were very imprudent in the use of said gun, knowing, as they did, that it had never been subjected to the powder test."

A Liberal Offer.—The Methodist Biblical Institute, now located at Concord, N. H., of which Bishop Baker is President, has for several years had under consideration the subject of removing the institution to the vicinity of Boston. Our correspondent, in giving an account of the annual Commencement of this institution, states that a committee was appointed from each Patronizing Conference to take the subject of removal into consideration. Lee Claflin, of Newton, he says, has made an offer to the trustees to present to the institution the Nonantum House, at Newton Corner, valued at $15,000, on condition that it shall be removed to that place, or such place in the vicinity of Boston as the trustees shall agree upon, and that $50,000 be added to the endowment.—*Trav.*

A Romantic Marriage.—Herr Sterling, the son of wretchedly poor Jewish parents, residing at Warsaw, showed in early youth some talent for drawing, and being assisted by some benevolent individuals, repaired to Paris, where he taught in several distinguished families, amongst others, also that of Count Walewski. Here the daughter of the Princess Mathilde and Count Walewski saw him, and despite the opposition of the family, she determined upon marrying him. The lady is in possession of twenty million francs in her own right. The marriage is soon to take place. Herr Sterling is to take the title of Count de Walewski without, however, renouncing the Jewish religion which he professes.—*London Jewish Chronicle.*

Manchester Police Court.—Before Judge Upton. Wednesday, July 8.—Charles W. Hurd was complained of for keeping liquor for sale, contrary to law. He waived in examination, and was bound over in the sum of $300, for his appearance for trial at the next term of the Supreme Court, at Amherst, in Sept. next.

His saloon at the corner of Pleasant and Elm Streets was searched on Tuesday afternoon, by the city marshal, and the complaint made out in accordance with the evidence furnished by this search.

John L. Kelley and Tristram Hurd appeared as his sureties. Mr. Kelley went bondsman for him with the express condition that he should sell no liquor in future.—*Mirror.*

In the Court of Generrl Sessions, in New York, on Thursday, a man named James Flynn, convicted of highway robbery, at the corner of Carlisle and West streets, one night last month, though his victim had only fifty cents to be disposed of, was sentenced, by Judge Russell, to *twenty-nine* years imprisonment.

FOUR DAYS LATER FROM EUROPE.

Quebec, July 11.—The Anglo-Saxon left Liverpool on Wednesday, July 1, and arrived here this forenoon.

Cotton at Liverpool closed firm on the 30th, at about previous prices.

There had been two serious accidents on English railroads, in which 12 deaths occurred and over 100 were wounded.

The shipment of the cable for the submarine telegraph cable between Europe and America had commenced on the Niagara, and would proceed with the utmost dispatch.

Capt. Hudson, of the Niagara, together with his officers, attended, by special invitation, the Manchester exhibition, on the occasion of the Queen's state visit there.—They were received with demonstrations of good feeling.

France, at the request of England, is to send out 14 transports with troops to China. This will be done to prevent the withdrawing of British troops from the Indian for the China war, as was at first contemplated; the mutiny among the native troops of India having made their presence there more than ever necessary.

Later accounts state that a reinforcement of 14,000 troops is to be immediately sent to India.

The Spanish-American difficulty is as far as ever from adjustment.

The Italians, whose arrest in Paris was announced by a previous steamer, are to be tried for an attempt to assassinate the Emperor.

London Markets.—Sugar dull at a decline of 0d a 1s. Cotton firm. Rice buoyant. Tea there was a large speculative inquiry, and prices quoted at 1s 3d Congous.

Breadstuffs closed dull at prices not materially changed. The weather, though stormy, was reported as favorable to growing crops.

Provisions quiet.

New York, July 10.—Thomas Sparks, Special Policeman, died to-day, from injuries received in the riot of the 4th.

The rioters made another attack last evening, upon the Second Avenue cars, but were dispersed by the police, who used their clubs and fire-arms. Two of the rioters, Patrick Havens and Patrick Donovan, were arrested.

In conformity with the order issued by Judge Peabody, Mr. Conover, the new appointee, demanded of Devlin, the Mayor's Street Commissioner, the books and papers appertaining to his office. Devlin refused.

Death in the Watch-house.—A man by the name of Daniel Allen, belonging to Nantucket, who came to this port as second officer of ship George & Susan, was found on Thursday evening last upon the steps of the Watch-house on South Second street, having apparently partaken of drugged liquors. He remained in a state of insensibility until about half-past nine o'clock last evening, when he expired.—Coroner Edwards summoned a jury of inquest, who were unable to agree as to the real cause of his death.

☞ It is easier to suppress the first impure desire than to satisfy all that follow.

SPECIAL NOTICES.

We call attention to a medicine advertised in our paper, for sale by J. H. Thacher and W. R. Preston,—for the cure of Dysentery, Diarrhea, and other affections of the Bowels. If what is said of it is true, by those that have given it a trial, it should be used in every family. No medicine is more worthy of universal commendation than Dr. Wilson's Dysentery Powders.—Please try them. july2 2w

IF ALL OUR READERS

Who are troubled with liver complaint, Jaundice, or Dyspepsia, will read the advertisement in another column of Dr. Sanford's Invigorator, and then do as we have done—get a bottle, we should not see so many sickly, half-dead, despairing people as now meet our gaze at almost every corner, for certainly there never was a remedy invented of which so much is said, and that performs so nearly what its proprietors say it will do. It came to us so highly recommended that we could not fail to try it, and a trial has convinced us, without a doubt, that it is the best family medicine in use. We take it for Headache, Sour Stomach, Billiousness, and any of the little bodily ills that are common, and it does produce a pleasant state of feeling to the sick, and what is better, after using it a few times, those little ills grow less and less, and there is a prospect of being entirely free from them by a continuance in the use of the Invigorator. Stocking Weavers' Strike.

Portsmouth, July 2, 1857.

To the inhabitants of Portsmouth and its vicinity:

We, the undersigned, wish to call your attention to the present Strike of Stocking Weavers in this city. We think to awake your sympathy when we place before you the reasonable excuse for such strike. The trade is spread, more or less, through the States; and for the kind and quality of work as made in Portsmouth, nowhere can we find that the workmen are making it at so low a rate as here. In Massachusetts, where the same kind of work is made, and with one and the same market, the workmen receive at the rate of 20 per cent. and upwards over us.

We appeal to every reasonable person, and ask whether it is right that we should make goods equal to those made in other places, for so much less? If we have submitted to a reduction of prices in time past, can we not with confidence ask for a renewal of the former rates, or at least an equal right with others? We have borne the grievance too long—but now necessity has forced it upon us to remonstrate. House rent, fuel, food, clothing,—all these have steadily increased in price; in fact, it has become a problem with us how are we to live by our labor?

Signed, by order,

WILLIAM ALTON, JOSEPH WAIN,
JOHN JENKINS, JAMES MURBY,
1w jy8 JOHN ARNOLD.

Trevorton Coal.

Mined by the Trevorton Coal & Railroad Company, Northumberland County, Pennsylvania.

Office, 13 Trinity Building, New York.

This Coal is a free-burning, semi-anthracite, adapted peculiarly for SMALL PURPOSES—varying such properties as will at once upon trial satisfy the most exacting. Invalids who have used it say that it is the *least offensive* of any coal now in use, particularly those affected with LUNG DISEASE. As a SUMMER COAL IT CANNOT BE EXCELLED.

Kid, Lisle Thread and Silk GLOVES; Cotton, Silk and Thread HOSE, with a good assortment of GENTS' FURNISHING GOODS generally.

Manny's Celebrated Mower
—AND—
MOWER AND REAPER.
IMPROVED.
Built expressly for the New England States.

The Manny Mower has been extensively used for the past two years in New England, and more than six years at the West.—Its success is proved that of any other Mower or Reaper ever constructed. Over 150 *1st Premiums* have been awarded it, including the *Grand 1st Class Silver Medal* at the World's Fair, Paris, 1856.

With the two past years' *experience*, we have been enabled to make a number of very *important improvements*. We find New England farmers require a different Machine from other sections;—the fields generally being small. It must be *light*, at the same time possess *great strength*; *portable*, with facilities to *raise the cutter to pass obstructions*, and to remove from field to field. A perfect cutting apparatus, to cut the fine grasses without clogging, and so constructed as to *start* in the grass without backing, easily adjusted to cut high or low, and have a Reel to act equally well with or against the wind, and to be worked with ease by a slight team, and so easily managed and simple that any one of common ability may operate it successfully, and to be built in the most thorough manner.

With this knowledge of the farmers' requirements, and with the determination to build a *better* Machine than has ever before been constructed in this country, we offer the **Manny Mower of 1857** with confidence, as combining the qualities enumerated above, and as one particularly adapted to meet the wants of New England farmers.

☞ We invite the farmers to call and examine Machines. Orders should be sent early. Circulars, with testimonials, forwarded free, on application.

Price of Mower, $110; with Reaper attachment, $15 Extra. Delivered on board the cars at Worcester, Mass. JOHN P. ADRIANCE, Tr. & Co., *Manufacturers.*

One of the above Machines can be seen at the store of the Subscriber.

New Crockery and China Ware.

Now opening from the above vessel a splendid assortment of New Goods comprising a complete assortment of

JOHN ALCOCK'S
WHITE GRANITE DINING AND TEA WARE.

In point of style, and especially DURABILITY, this ware has no equal among the other manufacturers of Europe, for while the Glazing of Alcock's Ware is *proof* against any test, almost every other make will crack in the glazing, causing the ware to have an old and worn out look, at first using.

A beautiful assortment of
BAND AND WHITE CHINA,

Solar Oil and Fluid Lamps, Lanterns, China and Glass Vases, Britannia Tea and Coffee Pots, elegant Tea Trays and Waiters.

Table Cutlery of every description, and all kinds of GLASS WARE for Table use.

PEDAL BASS MELODEONS.

No. 511 Washington Street, Boston.

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and pure. Their action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,

Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; and by means of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently loud to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON

Is designed for parlor and private use. The construction is similar to the Church Instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of the great volume of power of the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. In short, we will promise our customers an Instrument equal, if not superior, to any Manufacturer, and guarantee an *easier and perfect satisfaction.*

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine or test the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,

who have examined our Instruments, and will give their opinion when called upon:

Chickering & Sons, Hallett & Cumston,
T. Gilbert & Co., Wm. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woodward & Brown,
Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRANCIS & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and see that every thing connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, which orders are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $120 '00. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ This is the number of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize being drawn, and result of drawing forwarded to all parties interested.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Herald*. Write plain and direct your orders, direct to S. SWAN & Co., Atlanta, Georgia.

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States, Provinces, Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below give proof that none MORE SUCCESSFUL, A LARGER PRACTICE, or more satisfactory and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that there can be no earthly reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the most learned and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and worthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

Agency IT, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

The Medicine THAT NEVER FAILS!

IS DR. WILSON'S

DYSENTERY POWDER,

Which cures Dysentery, Diarrhœa, Cholera Morbus, and all the affections of the Bowels attended with Pain and frequent Discharges.

This Medicine is now being introduced into all parts of the United States and British Provinces, and great success attends its use everywhere.—These Powders are now offered to the world as a PERFECTLY SAFE AND EFFECTUAL MEDICINE, for the purposes they are recommended and in nine cases out of ten

ONE POWDER WILL CURE THE WORST CASE,

when they are taken in the first stages, and almost invariably *two will effect a permanent Cure;* and unlike all other preparations, which, if they check the disease, leave the person in a condition that requires physic after it, which is not the case with the Dysentery Powders, for they *regulate the Bowels*, tone up the system, and leave it in a healthy state.

These Powders are put up in boxes, with full directions on each box, and sold for **50 Cents.**

Please try them; if they do not give *perfect satisfaction*, return them and take your money.

KEEP YOUR OWN DOOR CLEAN.—"John," said a clergyman to one of his flock, "you should become a teetotaller—you have been drinking again to-day." "Do you never take a wee drap sometimes," inquired John. "Ah, but John, you must look at your circumstances and mine." "Verra true," quoth John, "but, sir, can you tell me how the streets of Jerusalem were keepit so clean?" "No, John, I cannot tell you that."—"Weel, sir, it was just because every one keepit his own door clean?" replied John, with an air of triumph.

BURNING THE DEAD.—The Paris Academy of Medicine has set the papers to writing and the people to thinking earnestly of the return to the practice of burning the dead. They say that in the summer time the Parisian hospitals are crowded with the victims of pestilence engendered by the foul air of the graveyards in the neighborhood. The vicinity of the cemeteries is a constant source of mortality; their putrid emanations filling the air, and the poison they emit empregnating the water, are held chargable for the many new and fruitful diseases of the throat and lungs, which baffle all medical skill.

☞ Marshal Radetzky, the Austrian commander, is said to be in a precarious state of health. He is more than 90 years old, but until lately has been active, and competent to perform most of the duties of military life.

S. D. & H. W. Smith,
—MANUFACTURERS OF—
Melodeons, Organ Melodeons,
—and—
PEDAL BASS MELODEONS,
No. 511 Washington Street, Boston.

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tone full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS, Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON Is designed for public and private use. The construction is similar to the Church instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced and skillful workmen. In short, we will promise our customers an Instrument equal, if not superior, to any Manufacturer, and guarantee an *entire and perfect satisfaction.*

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine or test the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,
who have examined our Instruments, and will give their opinion when called upon:

Chickering & Sons,	Hallett & Cumston,
T. Gilbert & Co.,	Wm. P. Emerson,
Brown & Allen,	A. W. Ladd & Co.,
George Hewes,	Woodward & Brown,
	Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES.
Prepared by an old Physician of 40 years experience

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 5181, Post Office, New York City, can have them sent to their respective addresses by return of mail.

WALTON AND BALLOU.

The attentive reader has observed, in perusing the letters of Dr. Buckminster and Mr. Walton, to Mr. Ballou, a kind regard for his welfare, and a full acknowledgement of his personal courtesy, mingled with a dread and abhorrence of his doctrines. In Mr. Walton's letter, or rather its postscript, there is a statement that Mr. Ballou's preaching was attended by crowds of hearers, and a disclaimer of envy on that account. We do not doubt the honesty of the disclaimer, and we know the statement to be true.

The universalists sold their small house near Vaughan street, and dedicated their new house in 1808. Mr. Ballou was installed pastor, Nov. 8, 1809.

Rev. Dr. Buckminster addressed his letter of admonition to Mr. Ballou, Dec. 28, 1809; and Mr. Walton did the same, Nov. 19, 1810.—During the year that had passed, that spacious house had become quite full, abounding, more than any other, in young men; so that Mr. Walton, though not envious, yet felt that he had great cause for apprehension and alarm, lest so popular a preacher of what Mr. Walton deemed a soul-destroying error, should sweep all the youth into his net, and carry them away into endless, hopeless captivity of sin and misery. This may account for the sternness of his rebuke in his first letter; and his intense hatred of the doctrine of universalism, which he supposed to be a device the devil, doubtless induced him to charge Mr. Ballou, (in his second letter,) with *intentional* perversion of the scriptures.

To Mr. Walton's first letter, Mr. Ballou gave the following answer.

FROM THE REV. HOSEA BALLOU TO THE REV. JOSEPH WALTON.

PORTSMOUTH, Dec. 11, 1810.

Rev. Sir:—It is with pleasure that I hasten to acknowledge the receipt of your "friendly admonition," bearing date December 7th, which came to my hand late last evening, which I assure you is received as a token of friendship, and a mark of particular attention; and merits, as I conceive, a grateful acknowledgment as well as an early answer.

Your admonition begins by taking notice of what you conceive an egregious error which you have heard me suggest at two several funerals. You say that I "spake as if death was originally designed by the Almigty for the good of mankind." This statement you consider of such a dangerous nature that it renders an admonition necessary. But, dear sir, there are two important ideas contained in the above short sentence, and you have not distinguished between them, nor informed me whether it be both or only one which is thus reprehensible.

That *God originally designed death*, is one idea; that he *designed* it for the *good* of *mankind*, is another idea. In order to do you justice and to attach no other meaning to your communication than such as I conceive to be your real sentiments, I must suppose that you would not wish to assault the first of those ideas, as it is an item of your creed that "God foreordained whatsoever comes to pass;" of course you believe that God *originally designed death*.—But that God designed death for the *good of mankind*, I do not know it to be an article of your faith, and therefore may, without doing you any injustice, suppose that you believe that God originally designed death, but *not for the good of mankind*!—Here, sir, I acknowledge that my sentiment differs from yours; as you have given me no reason why God should not have designed death for the *good* of mankind, I have only to consider the "friendly admonition" with which you oppose my idea.

I would query why the idea that God should design death for the good of mankind, renders me justly admonishable?—Would the idea, should I avow it, that God designed death for the *damage* of mankind, render me commendable? So it seems; but at this expense I cannot avoid admonition! I would further query what interest God could have consulted which required him to design death for the *damage* to those creatures whom he made subject to death? And I think it expedient to ask how God can be justified, in the sight of his rational creatures, if the idea be once established that he designed evil against them, even before they existed?

I feel it to be my duty, dear sir, to call on you to support this high allegation against the Father of our spirits. I would not pretend that you designed to bring an allegation against our Creator, but I am satisfied that every unprejudiced mind must see the nature of an allegation in what you are disposed to maintin. For if we say God, our Creator, designed death for the damage of those dependent beings whom he has made, it is giving him a character which, I believe, the wisest of men would find it difficult to justify.

Again, if the notion be true that God designed death for the damage of mankind, is it not from hence evident that he was an enemy to mankind when he thus designed? Now, if God be considered an enemy to mankind even before he made them, I wish to know what reason can be given why mankind ought to love God since creation?

In relation to a number of scriptures which you have quoted, seemingly with a design to illustrate the foregoing subject, I can only say that if any or all of those passages relate at all to the subject, *that relation* is out of my sight. And I can truly say that I am glad there is nothing, in any part of the scripture, so contrary to good sense and reason as to support the notion that God is an enemy to the works of his own hands. I believe, sir, if I prove from scripture that God designed death for the good of mankind, it must be considered a substantial support of what you wish to oppose; and will also be considered as placing the scripture doctrine on the most reasonable principle.

1st—I will show that death is not a token of God's enmity towards mankind. As a proof of this, see Rom. 8—38, 39, "For I am persuaded that neither *death*, nor life, nor angels, nor principalities, nor powers, nor things present, nor things to come, nor height, nor depth, nor any other creature shall be able to separate us from the love of God, which is in Christ Jesus our Lord." This passage is a full and positive proof that neither *death* nor anything else, is a token of God's enmity to mankind.

2dly—I will now show that *death* was designed by God for the *good* of men.—Which to do, I must learn of Jesus He is the truth. Was his *death* designed by by the eternal Father for the good of mankind, or not? Was his death a token of God's love to the world, or was it a token of his enmity? See Rom. 5—8, "But God *commendeth* his *love* towards us, in that while we were yet sinners, Christ died for us." This same apostle, believing in Christ, who he says was delivered for our offences, and was raised again for our justification, in a short but comprehensive inventory of the things which are ours, has placed *death* among them. See 1st Cor. 3—21, 22, 23, "Therefore let no man glorify men; for all things are yours; whether Paul, or Apollos, or Cephas, or the world, or life, or *death*, or things present, or things to come; all are yours; and ye are Christ's; and Christ is God's." Again he says, to the Phillippians, 1, 21, "For me to live is Christ, and to *die is gain*."—Nothing appears more evident than that Christ was designed for the good of mankind; and as he is the head of every man, so his death is considered in the scriptures a gracious benefit to every man; as the Apostle expresses it, "That he, by the grace of God, should taste *death* for every man." And again, "As in Adam all die, even so in Christ shall all be made alive." Who can impartially consider those scriptures and suppose that God designed *death* for a damage to mankind? I view *death*, sir, as an appointement of God, a friendly messenger, sent to dissolve a tabernacle of corruption and vanity, at the dissolution of which, "the dust returns to the earth as it was, and the spirit unto God who gave it."

Your admonition in the next place suggests that if I "will read the whole chapter (meaning the 3d chap. of the 1st of John) and seriously consider it, and pray to God through Jesus Christ, to open" my "understanding,' that" I "may understand the scriptures." I "would not misapply and pervert them, as" you "fear" I "do."

Rev. sir, are you sufficiently acquainted with my preaching and writing on the scriptures to warrant the propriety of the suggestion that I am in the habit of misapplying and perverting the holy writings? Are you sufficiently acquainted with my retirel studies and religious exercises to warrant the suggestion that I got along without acknowledging the wisdom of God? I humbly request you to reconsider this part of your admonition, and see if it do not wear the appearance of judging another, who must stand or fall to his own master. In the meantime, I wish to observe that all friendly advice to be constant in fervent supplication and prayer would be received by me as a mark of *Christian fellowship* and *friendship*. But I will ask you the question, if you would be willing to have me to go into your desk with you in presence of your church and congregation, and there read the whole of the above-named chapter, then in humble and solemn prayer to Almighty God, through Christ Jesus, implore a just and true understanding of his word and truth contained in that portion of his written will, and close my performance with a candid dissertation on the chapter? Grant me liberty to do this in your hearing; after which I will not object to your pointing out any *misapplication* or *perversion* which you may think you discover. By what law is a man condemned without first hearing his defence?

Again, your admonition suggests that I did not, at either of the funerals where you heard me perform, speak one word of the necessity or nature of repentance. In this particular I believe you made a mistake at both places, which mistake I believe I can rectify to your recollection. In the first place, I wish to observe that I as much believe in those scriptures which speak of the necessity of repentance as I do in any part of the sacred writings. But after all, you and I may entertain very different ideas respecting the *preaching* of repentance. The opinion that repentance is preached when a public speaker tells his congregation that their eternal salvation depends on their repentance, that eternal misery must inevitably be their doom unless they repent, is an opinion to which I have no reason to subscribe.

Preaching repentance, I conceive is *teaching* men, and giving them such divine instructions as bring their minds to discover more glorious things than the sins and carnal vanities of this world; which *teaching* produces a returning of the mind to the things of God and his ever blessed kingdom.—The word *repent* may or may not be used in the giving of such instructions. I conceive a preacher of Jesus Christ, warmed with a spirit of eternal love, breathing forth the gracious words of truth, may successfully preach repentance as well without the use of the word *repent*, as with it. At both those places of sorrow, dear sir, I endeavored to lead the mourners' minds to the consideration of *eternal things*; I endeavored to represent God, our Creator and Governor, as a friend to his creatures, and strove to the utmost of my power to fix the love, regard and confidence of our mourning friends on God our Creator. This you will recollet, and I cannot suppose that you believe that a person can truly believe in the divine goodness, and love his Creator, as the greatest good, and put confidence in him so as to draw consolation, in the day of adversity, from such confidence, and still be a stranger to true penitence.

The many scriptures which you have quoted to prove the propriety of the doctrine of repentance, are justly applied, as I conceive; and I accord with you in their use and meaning, as far as you have explained them. I would wish to be understood whenever repentance is spoken of as a creature act, originating in creature agency, it is represented directly contrary to the scripture sense, as expressed in Acts 5—31, "Him hath God exalted with his right hand to be a *Prince* and a *Saviour* for to *give repentance* to Israel and forgiveness of sins."

From the above texts it is evident that repentance is no more dependent on creature agency than the forgiveness of sins; and that repentance is a grant of divine favor is plainly expressed in Acts 11, 18, "Then hath God also, to the Gentiles, *granted repentance* unto life." By the above testimonies the idea that *repentance* is a *creature condition*, on which the divine favor is bestowed, is proved erroneous.

To be concluded to-morrow.

☞ A couple of good young horses, (a sorrel horse, with three white feet, and a grey mare) were probably stolen from the pasture of Mr. Wm. E. Chesley, at Rye Four Corners, about midnight on Sunday. A liberal reward is offered for the recovery of the animals or the detection of the thief.

SPECIAL NOTICES.

NEW MEDICAL SALT, *A perfect substitute for the Lancet, Leeches and Blisters!*—We commend the fortunate and enterprising proprietor, Dr. F. Coggswell, for his wisdom in sending forth his new discovery without *certificates*—so common with the nostrums of the day—and with no other backer than its real value and his own reputation. As he may be unknown to the community abroad, we take great pleasure in stating that he has long occupied a prominent position in the profession, and received (about thirty years ago) his collegiate and medical education at two popular colleges in New England.—*Boston Post.*

☞ Mr. Asa S. Tilton at his Union Store, No. 12 Market street, sells the following Medicines at reduced prices:—Dr. Larookah's Indian Vegetable Pulmonic Syrup, warranted to cure coughs, colds, whooping-cough, asthma, bronchitis, croup, catarrh, consumption, and disease of the throat and lungs. Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, Kennedy's Salve, and Holman's Nature's Restorative.

We call attention to a medicine advertised in our paper, for sale by J. H. Thacher and W. R. Preston,—for the cure of Dysentery, Diarrhea, and other affections of the Bowels. If what is said of it is true, by those that have given it a trial, it should be used in every family. No medicine is more worthy of universal commendation than Dr. Wilson's Dysentery Powders.—Please try them. july2 2w

IF ALL OUR READERS

Who are troubled with liver complaint, Jaundice, or Dyspepsia, will read the advertisement in another column of Dr. Sanford's Invigorator, and then do as we have done—get a bottle, we should not see so many sickly, half-dead, despairing people as now meet our gaze at almost every corner, for certainly there never was a remedy invented of which so much is said, and that performs so nearly what its proprietors say it will do. It came to us highly recommended that we could not fail to try it, and a trial has convinced us, without a doubt, that it is the best family medicine in use. We take it for Headache, Sour Stomach, Billiousness, and any of the little bodily ills that are common, and it does produce a pleasant state of feeling in the sick, and what is better, after using it a few times, these little ills grow less and less, and there is a prospect of being entirely free from them by a continuance in the use of the Invigorator. LADIES AND GENTLEMEN:—We would call your attention to Prof. O. S. Wood's Hair Restorative. From our long acquaintance with the proprietor, and with numerous individuals who have used his preparation with perfect success for the last two years, we feel no hesitation in recommending the article as superior to any of the preparations now in use for the same purpose, viz: for restoring gray hair to its original color, a sure and perfect cure for baldness, and a never-failing preventive for the falling of the hair.

It is decidedly the best and most popular in use for beautifying, preserving, restoring and strengthening the hair, relieving diseases of the skin, and removing scurf, dandruff, and all eruptions and feverish heat from the scalp.

We speak in relation to the above from what we know, having been personally acquainted with numerous persons who have used the Restorative for the above purposes, with the most gratifying results.

It is not often we notice a patent medicine.—Indeed, we think we have never puffed one before; but Professor Wood's "Hair Restorative" is something so superior to most of the preparations of the day, that we cannot forbear asking the attention of our readers to it.—[Catholic Vindicator.

FROM CALIFORNIA.

TWO WEEKS LATER.

NEW YORK, July 13.—Steamer Star of the West, from Aspinwall 4th, arrived this morning. She has $1,500,000 in specie. Steamer Granada sailed from Aspinwall same day, for Havana.

U. S. steamer Roanoke, and sloop-of-war Cyane, were off Aspinwall; the latter bound to Boston, with 50 of Walker's soldiers. The former has 250 of Walker's men, two-thirds of whom are sick.

The crops in the southern part of California are suffering severely from drouth.

Gen. Lane has been elected delegate to Congress, in Oregon, by a largely reduced majority.

Advices from Peru state that Vivanco still held Arequipa, but was surrounded by government troops, and would soon yield. In Nicaragua, Rivas refuses to act in concert with the allied generals, and a collision is expected soon between the Leon party, who favor Walker, and the Chamoristas.

The Golden Age, from San Francisco, June 20, brought down nearly $2,000,000 in specie. The latter passed steamer Sonora, with the passengers and mails of June 5; and on July 3d also passed the John L. Stephens, with the mails of June 20.

It is stated that Thos. Nye, formerly of the house of Nye & Parkin, Canton, is now in the Island of Formorsa. Nye sailed in clipper ship Kelpie, in 1848, from Hong Kong for Shanghae, and was supposed to have been lost, together with his vessel and crew, in a typhoon. Recent developments at Canton lead to the belief that the Kelpie was driven ashore at Formosa, and that her crew are now held there.

Shirley's Universal Renovator, OR, FURNITURE POLISH.

J. F. SHORES, Jr., No. 1 Congress Block,

HAS just received a supply of the above article for cleansing and restoring to their original lustre all articles of varnished or polished furniture, patent leather, hair cloth, oil paintings, oil cloths, &c. This article is used and highly recommended by many of the first furniture and piano forte manufacturers in New York and Boston

TO HOUSE KEEPERS the value of this compound is inestimable; as with it you may restore the *original lustre* of every article of varnished or polished furniture If will restore the lustre to *marble*.

TO CABINET MAKERS AND FURNITURE DEALERS it is an article of inscalculable value, as a simple application brings out your polish, *varnished* in its lustre, and far more durable than the polish produced by any other means, and at a much less expense of time, labor, and material.

TO CARRIAGE MAKERS AND HOUSE KEEPERS this compound will be found to be invaluable. Your carriages, when soiled by use or exposure, if cleaned with this Renovator, will exhibit all the brilliancy of the original polish—provided the varnish is not worn off; for it not only removes the dirt, but it adds to the varnish a body, unsurpassed in elegance and durability.

All who wear Patent Leather Boots or Shoes should procure a bottle of this compound. You need but to use it occasionally, and your *Boots* will look well and retain their original lustre, till they are worn out. In bottles of 1 pint—50 cts. each.

I have used this compound, and it answered my expectations, and came up fully to the recommendations. J. F. SHORES, Jr.

THUNDER SQUALL.—On Sunday morning, about 7 o'clock, a thunder shower gathered very quickly in the west, and passed round southwardly, apparently over the sea. No rain fell in this city, save at the outskirts, but the lightning was very sharp and the thunder proportionally heavy. So far as we can judge from reports, at the time of writing this, the shower passed from Great Bay or the head of Piscataqua River, southeasterly toward the ocean.

Another portion of the shower passed to the northward, and we hear of a great fall of water in Eliot, &c. The fall of rain was uncommonly heavy, but confined to very narrow districts. At Newington, near the Bay, down across Portsmouth Plains, and thence to Sagamore, there was a little deluge, but little or no rain fell this side the Creek, or in Greenland.

The lightning struck in various places about here, and doubtless did other damage besides that we report below.

On the farm of Winthrop Pickering, Esq., in Newington, a large oak tree was struck, and considerably shattered.

A valuable horse in the pasture of the late Hon. James Pickering, on the farm adjoining, was instantly killed.

The old Globe Tavern, on Portsmouth Plains, was struck, and one corner shattered and set on fire. At the northeast corner, a large flag-pole runs up through the piazza—surmounted with a topmast. The lightning passed down this, till reaching an iron brace running into the corner of the house, it passed over that, and down on the corner to the cellar, where it expended itself.

No person was injured, though a woman in the cellar at the time, was very much frightened by the dancing lights about her. The family were generally in the other end of the house; but all felt the shock. The clapboards were ripped off the corner of the building, the post split, through to the inside, and some little finish torn off the room; and the gilding on the frames of a mirror was crackled and turned dark.

The fire was confined to the outside, and was speedily extinguished; though, had the shock taken place before the shower, the old Tavern would doubtless have been much damaged, if not destroyed.

We are also told that an ox was struck and killed, on the farm of Mr. Odiorne, at Sagamore.

☞ It is rumored that a young married man who has been in business in Portsmouth for a few years, has within a few days eloped with a young woman a native and resident here. Both the parties have heretofore borne excellent characters, and we hope the report will not prove true.

T. B. Aldrich, the genial companion and poet of delicate fancy, is in Portsmouth, recruiting for his health. We hope, that, invigorated by our New Hampshire air, (which inspires such writers as Aldrich and Laighton) he may return to his duties wholly restored to health. We understand that Ticknor & Fields are about publishing a collection of his poems, which will be warmly welcomed by his many admirers.—*Exeter News Letter.*

GRANITE HOUSE, BOAR'S HEAD, Hampton, July 12, 1857.

Messrs. Editors,—Quite a comfortable place of a hot day, I assure you; that is, after you get here,—but the getting here! that is dreadful. When will our farmers learn that a few trees by the wayside are not only ornamental but also useful as shelter to man and beast in both hot and cold weather? Lafayette Road is a fine one, but if its illustrious namesake had travelled o'er it under the heat of a July sun nearly at its meridian, I don't think he would have borne it in pleasant remembrance.

Yesterday afternoon I ventured on the eastern side of the Piscataqua, extending my jaunt some distance below Fort McClary. This fortification presents rather a dilapidated appearance, and a few discharges of the heavy artillery of the present day against its walls, would be apt to make it rather an unpleasant situation.—The old barracks now used as a hen-house, wood-shed, &c., are in a tumble-down state, and hardly fit to be put to their present uses. Kittery must be growing, for we saw two new houses in course of erection.

At the Navy Yard the new Ordnance building is nearly completed outside, the new magazine is progressing, men are at word digging for the foundation of a new Coal Shed near the Machine shop, and the Vandalia, having been re-planked and sheathed, has again been taken into the Dry Dock.

We found on our arrival at the Granite House, your well-known and long-in-office Deputy Collector, Mr. Edmonds, with his family, enjoying the sea breezes incident to this location. But very little company has as yet appeared at Boar's Head. The fact is, that while our Rye houses are coming up, those of Hampton are going down. Of the company, "Granite" takes the lion's share. The Head is continually washing away, and those who visited here a dozen years ago immediately perceive the diminution in the extent of its outermost point.

I had supposed, previous to this, that Boar's Head was a "watering-place," but am disabused of that idea by observing that nearly all eschew water, in lieu whereof they drink champagne and kindred decoctions. A number of young bucks insisted upon our entering the "Union" to "take something;" but, pondering on the old adage, "In Union there is strength," we concluded there might be something in the Union altogether too strong for us, and therefore persisted in declining.

I attempted to take a dip in the surf, but was so tormented by flies that I was obliged to fly myself.

I am told that a horse belonging to Mr. Lewis of Hampton, started from the depot last evening, ran down the track a long distance with a chaise, and finally rolled over and over down a high embankment, from whence he ran into a swamp. Both horse and chaise were recovered without injury.

The showers of Sunday were scattered in a curious manner. Rain fell in torrents at Boiling Rock, on Lafayette Road, and on Greenland Road from the Plains, while our city, Hampton, and other places escaped the blessing.

If any of your readers wish to witness, free of expense, a spectacle which far outvies the most costly exhibition of pyrotechnical skill, let them stand on the road through the "Willows," at Great Swamp, about 9 o'clock, P. M. Then on either hand countless myriads of fire-flies may be seen, flashing, glancing, glimmering among the foliage of the low bushes, presenting an appearance similar to what might have been expected at the far-famed Field of the Cloth of Gold. The scintillations of light emitted from the diamond-spangled night-robe of nature, present a scene of fascination to all lovers of the beautiful.

Yours amphibiously, SEAL.

NEW YORK, July 13.—An attack was made late Saturday night upon the Metropolitan Police force, and the Hospital buildings at Seguine's Point. About one hundred oystermen, and others, hostile to the selection of that locality for a temporary quarantine, participated in the assault.

The assailants fired over a hundred shots upon the policemen, and were finally driven away by Capt. Walling bringing out his cannon and howitzers. It is supposed that several of the assailants were killed and wounded. None of the police were injured.

The greatest excitement relative to the attack prevails upon Staten Island.

The Sheriff of that county is making active preparations to resist any future attack. A serious riot occurred last evening between the German and Irish population of the 17th Ward, and the Metropolitan police force.

Sergeant Helden, of the 17th Ward police, it is feared, is fatally wounded, and several of the police were more or less injured. Six or seven of the ringleaders were arrested, and at a late hour all was reported quiet in that Ward.

FATAL AFFAIR BETWEEN DEMOCRATIC AND AMERICAN CONGRESSIONAL CANDIDATES.—*Cincinnati, July* 11,—The Enquirer learns that a quarrel recently took place in Morgan Co., Ky., between Mr. Mason, Dem., and Mr. Cox, K. N.,—candidates for Congress, in which Cox was shot by Mason, and killed. Both these persons have represented the 6th District in Congress.

CONVICTION FOR MURDER.—*Pittsburg, July* 11.—In the case of Henry Fife, Monroe Stewart, and Charlotte Jones, implicated in the murder of the Wilson family, at McKeesport, a verdict was rendered this evening, of guilty of murder in the first degree. The trial has lasted eleven days and produced the most intense interest in the community.

NEW YORK, July 12.—The weather has been intensely hot to-day, (Sunday) the thermometer reaching near 100. The heat of the day continues this evening, with but a slight abatement. There is now no indication of rain, which is very much needed.

WARM WEATHER GOODS.

Trevorton Coal.

Mined by the Trevorton Coal & Railroad Company, Northumberland County, Pennsylvania.

Office, 13 Trinity Building, New York.

THIS Coal is a free-burning, semi-anthracite, adapted peculiarly for FAMILY PURPOSES—having such properties as will at once upon trial satisfy the most exacting. Invalids who have used it say that it is the *least offensive* of any coal now in use, particularly those affected with LUNG DISEASE. As a SUMMER COAL IT CANNOT BE EXCELLED.

HAVE opened this day a good assortment of Lawns and Batiste CRAVATS.

Also, Black Silk Cravats of the Best makes.

Kid, Lisle Thread and Silk GLOVES; Cotton, Silk and Thread HOSE, with a good assortment of GENTS' FURNISHING GOODS generally.

Manny's Celebrated Mower
—AND—
MOWER AND REAPER.
IMPROVED.
Built expressly for the New England States.

THE MANNY MOWER has been extensively used for the past two years in New England, and more than six years at the West—its success is beyond that of any other Mower Or Reaper ever constructed. Over 150 1st *Premiums* have been awarded it, including the *Grand 1st Class Silver Medal* at the WORLD'S FAIR, PARIS, 1856.

With the two past years' *experience*, we have been enabled to make a number of very *important improvements*. We find New England farmers require a different Machine from other sections;—the fields generally being small. It must be *light*, at the same time possess *great strength*; *portable*, with facilities to *raise the cutters over obstructions*, and to remove from field to field. A perfect cutting apparatus, to cut the fine grasses without clogging, and so constructed as to *cut* in the grass unknown for heavy, easily adjusted to cut high or low, and have a Reel to cut equally well with or against the wind, and to be worked with ease by a light team, and so easily managed and simple that any one of common ability may operate it successfully, and to be built in the most thorough manner.

With this knowledge of the farmers' requirements, and with the determination to build a *better* Machine than has ever before been constructed in this country, we offer the **Manny Mower** of 1857 with confidence, as combining the qualities enumerated above, and as one particularly adapted to meet the wants of New England farmers.

☞ We invite the farmers to call and examine Machines. Orders should be sent early. Circulars, with testimonials, forwarded FREE, on application.

Price of Mower, $110; with Reaper attachment, $15 Extra. Delivered on board the cars at Worcester, Mass. JOHN P. ADRIANCE & Co.,

Headache, Sick Headache, Foul Stomach

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a few doses of your Pills. I have given them to children, which they cleanse at once. If they will c be others as they do me, the fact is worth knowing.

Yours with great respect, KD. W. PREBLE.

Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice since they came into my hands, and hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of the organs. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them.

Fraternally yours, ALONZO BARL, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HAVERLAND, LIV. CO., MICH., NOV. 16, 1855

DR. AYER: Your Pills are the perfection of medicine they have done my wife more good than I can tell you She had been sick and pining away for months. We tried off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others who had to pay from fifty to twenty dollars doctor bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be patronized.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. No regulate the system and purify the blood perfectly the latest they are the very best remedy I have ever known, and I can recommend them to my friends. Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Patriarchal Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured me of a most malignant form of erysipelas in the face and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair, of the most virulent character, she has tried your Pills, and they have cured her. ASA MORGRIDGE

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawks, of the Methodist Episc. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 5, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Nothing relieved me. Your Pills came, and the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, BATON ROUGE, LA., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even Deafness, and Partial Blindness, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN INCIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects, and yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous disease of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and children. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves hundreds from consumption it prevents more than those it cures. Keep it by you, and cure your colds while they are curable, nor neglect them until no human skill can master the terrorsome monster that, fastened on the vitals, eats your life away. All know the dreadful fatality of lung disorders, and as they know too the virtues of this remedy, we need not be more than to assure them that it is worthy of their trust. We speak to not, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their ease

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRENCH & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to impartiality and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to the Maryland Lotteries, and forward by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Tenary combination. Prizes vary in amount from $50 to $100 00. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawing numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Georgia are legally authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize being drawn, and result of drawing forwarded to parties interested.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18 1y

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the drawing of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL, AT FEW EXPENSE, OR MORE SATISFACTORY, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents issued in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I officiated the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who transacted more business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the most learned and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

Answer 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules and practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. THOMAS EWBANK,
Commissioner of Patents.

The Medicine THAT NEVER FAILS!

IS DR. WILSON'S

DYSENTERY POWDER,

Which cures Dysentery, Diarrhœa, Cholera Morbus, and all the affections of the Bowels attended with Pain and frequent Discharges.

This Medicine is now being introduced into all parts of the United States and British Provinces, and great success attends its use everywhere.—These Powders are now offered to the world as a PERFECTLY SAFE AND EFFECTUAL MEDICINE, for the purposes they are recommended and in nine cases out of ten

ONE POWDER WILL CURE THE WORST CASE,

when they are taken in the first stages, and almost invariably *two will effect a permanent Cure;* and unlike all other preparations, which, if they check the disease, leave the person in a condition that requires physic after it, which is not the case with the Dysentery Powders, for they *regulate the Bowels*, tone up the system, and leave it in a healthy state.

These Powders are put up in boxes, with full directions on each box, and sold for **50 Cents.**

Please try them; it they do not give *perfect satisfaction*, return them and take your money.

City Hotel, Portsmouth, N. H.

BY WM. S. HADLEY.

THE SUBSCRIBER has the pleasure to inform his friends and patrons, and the travelling public generally, that he has leased this well-known, commodious and pleasant House, and would invite travellers and others to make "themselves at home" on the premises—promising to spare no reasonable effort which may conduce to the comfort and satisfaction of visitors.

While acknowledging the liberal patronage with which we have been so long favored, in our old quarters; we would solicit a continuance, now that our accommodations are so much increased and improved. WM. S. HADLEY.

Portsmouth, June 15, 1857.

Granite House,

No. 5 Pleasant Street, Portsmouth, N. H.,

By GRANT & LEWIS.

THE Subscribers having leased this well-known and popular establishment, long occupied by Col. Wm. S. Hadley, as an

EATING-HOUSE AND HOTEL,

would invite the patronage of the public, whether citizens or visitors from abroad.

The House has been refitted and newly furnished, and will be conducted as heretofore—Permanent Boarders or transient visitors accommodated

Atlantic House,

RYE BEACH,

IS now open for visitors. The reputation of this House is too well established to need any lengthy description of its advantages. The Proprietor will, as heretofore, devote himself to the comfort of his guests.

Passengers by the Eastern Railroad will stop at the North Hampton station.

Rye Beach, June 20. 6w J. C. PHILBRICK.

SAGAMORE HOUSE,

FROST'S POINT, RYE, N.H.,

IS NOW OPEN FOR PUBLIC ACCOMMODATION.

TRANSIENT and permanent boarders accommodated on reasonable terms. Persons desirous of visiting this spacious old retreat, and leaving the Railroad, will stop at the Depot in Portsmouth, where MR. WILLIAM D. PERKINS' COACH will be in readiness to convey them to the House.

The SCHOONER SIBYL, commanded by CAPT. RUFUS A. PREBLE, will touch at the Point daily, to convey passengers to and from the Isle of Shoals.

Pleasure Boats in readiness for sailing or fishing parties. GEORGE W. TOWLE.

Rye, July 1, 1857.

Appledore House,

ISLES OF SHOALS,

IS now open for Public Accommodation.

The schooner SIBYL, (one of the beautiful yachts built by the late Geo. Steers,) will run daily to this Island from Pier Wharf, in Portsmouth, immediately after the arrival of the morning train of cars from Boston, and return in the afternoon.

The Sibyl is commanded by Capt. RUFUS A. PREBLE, a thorough seaman, who will give every attention to the comfort and enjoyment of his passengers.

The Sibyl has a magnificent cabin, water closets, tanks, and every accommodation which a first class Packet requires.

The advantages this purely Ocean Retreat possesses over all others are well known. Resting on the broad bosom of the Atlantic—free from heat, dust and noise—it is peculiarly fitted to restore health to the invalid, and rest to the care-worn and weary. j22 THOMAS B. LAIGHTON.

The Surf House,

ON RYE BEACH,

IS now open for the reception of Permanent and Transient visitors. This beautiful Hotel was formerly the UNION HOUSE—and has been purchased (of Mr. O. B. Philbrick) by the proprietors of the Ocean House, and will be conducted in connection with that popular establishment, by NATHAN F. SIEBBINS,

Rye, July 8, 1857. 2w *Proprietor.*

On hand for Rye Beach.

THE Subscriber respectfully informs the public, that he will run a Hack in connection with the Cars on the Portsmouth & Concord Rail Road, to RYE BEACH, daily.

Passengers by taking Cars on the Boston & Maine, and Portsmouth & Concord Railroads, stopping at Greenland, will find this a pleasant and convenient route.

☞ Arnold Mockeritz, a child three years and nine months old, who, for a few weeks past, has been on exhibition as a "bearded boy," in the Bowery, New York, died suddenly on Tuesday night. Deceased was only 36 inches in height, yet measured about the abdomen 34 inches, 27 inches around the chest, and 21 inches around the head. He had a beard and moustache, the hair of which was from one quarter to half an inch in length. An inquest was held upon the body, when it was ascertained that death was caused by congestion of the brain, produced by distension of the stomach. The deceased was born in Prussia, and was the fifteenth child of his parents.

A post mortem examination showed a large cancerous mass growing upon the kidney, and weighing two pounds. He drank about four gallons of water per day, and the way he was stuffed with eatables we do not wonder at his death.

☞ John B. Gough delivered his 63rd Temperance lecture in Worcester, which was his farewell address in America, on Thursday evening. It was sixteen years since, in that same city of Worcester, he had been induced to take the pledge, which has been the means of lifting him from the deepest degradation and wretchedness, to an honorable position in society—of giving health for sickness, and happiness and joy for the most terrible woes. He is now engaged by the London League and the Edinburg Temperance League, to deliver *four lectures a week, for three years*, or six hundred lectures. Eight months of each year are to be spent in lecturing in England and four in Scotland.

☞ At Sands, Nathans & Co.'s Circus, in Manchester, just as the hurdle leaper had finished his daring feats, with a powerful and spirited horse; by some mistake, when the horse was to leave the ring, the cloth at the regular entrance was not taken away, and he jumped through a place at the side, where the cloth was low. He jumped directly into a living sea of human heads; the circus was crowded, and the people were packed closely to the very edge of the ring; but, strange to say, no one was injured. The throng parted and averted their heads, giving clear room enough for his feet, which the sagacious animal was really very careful of. As the place was near the corner, the horse cleared himself from the crowd at two bounds, and released them from danger.

A DESPERADO IN CHARLESTOWN, MASS.—Sunday afternoon an Irishman named Taylor, belonging in Somerville, visited Charlestown, and in consequence of the very warm weather, drank a number of times, which had a tendency to make him feel very pugilistic. He finally brought up in Chapman street, where he commenced a fight, knocking down men, women, and children, without regard to age or distinction. Mr. T. T. Deering, an officer at the State Prison, happened to be passing with his little son at the time, when the fellow made at him and knocked the little boy down. Mr. Deering paid the Irishman off in his own coin, and in less than half a minute he was measuring his length in the gutter. Mr. D. then passed on, and the Irishman managed to get up, when he assaulted another gentleman who was passing, and in turn was again knocked down, and received a severe drubbing. The police, upon being made aware of the facts, visited the place and arrested Taylor, when it was found necessary to procure the services of a carriage to take him to the watch house. He was severely beaten, which will be a good lesson for him.—*Traveller.*

FLIGHT OF MORMONS FROM SALT LAKE.—One of the officers of a steamer which arrived at St. Louis, July 6, from the Upper Missouri, states that at Omaha City, he was informed that a party of sixty Mormons had arrived on the 2d, encamped in the town, and intended to start down the river in a few days. They were loud in their denunciations of the leading men of Utah and over their firm belief that a large number of the inhabitants of the valley, as soon as they see a chance of protection by the arrival U. S. troops, will gaddly avail themselves of the opportunity of withdrawing themselve from the yoke they are now groaning under. These persons were a portion of the dissatisfied citizens of Salt Lake City, and their escape (that is the word they use) was the result of a well devised and cautious stratagem. They left Salt Lake about April 20th.—*Missouri Democrat.*

A party of several hundred Mormons, just from Utah, and *en route* for the southern part of Kansas, where they propose to settle, passed Fort Lovenworth on Tuesday. They are heartily sick of the tyranical rule of the Mormon leaders, and were fearful if they remained of suffering violence during the anticipated conflict between the United States government and the Brigham Young oligarchy.—*Quindaro (Kansas) Chindowan.*

SHOOTING FUGITIVE SLAVES ON THE FOURTH OF JULY.—The Nashville (Illinois) correspondent of the Chicago Tribune says that the citizens of that place "have just been engaged in celebrating this anniversary of our independence, by holding an inquest over the body of a fugitive slave, who was shot last night in the vicinity." The correspondent says:—

"It was reported in town yesterday that three runaway slaves were in the neighborhood, and last night a large crowd started out in search of them. After scouring the country for several hours in vain, most of the crowd returned, but a detached party of some half dozen, in returning, met with the unfortunate fugitives in the road, some two miles east of the town, and ordered them to surrender.

The evidence before the jury on the inquest was, that one of the negroes made fight with a pistol in each hand, and was shot by one of the party in self-defence.—But the wound showed that he was shot while running, for a gentleman who had examined the wound, told me that the hole made by the bullet was much larger behind than before. He was shot through the abdomen, and died in about an hour and a half after. The other two fugitives made their escape, though they were fired upon as they ran, and it is thought by the party that one of them was wounded."

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES,
Prepared by an old Physician of 40 years experience
THIS combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular: and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warrant ed purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.
These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

THE BEST
Planing, Tonguing & Grooving Machine
IN THE WORLD.
PATENTED Nov. 21, 1854, and Nov. 13, 1855.—These Patents were obtained for improvements upon the celebrated Woodworth Planing Machine, the Patent for which expired, Dec. 20, 1856. By the combination of these several inventions, a machine is produced of *unrivalled excellence.*
A GOLD MEDAL for the invention was awarded by the Mass. Char. Mech. Asso., at their exhibition of 1856.
Machines of all kinds and sizes, from $150 to $2000.
ALL MACHINES WARRANTED to give entire satisfaction, and to be superior to any other machines now in use.

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk Railroad Spikes
ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which they are attributed their rare strength. They are everywhere considered far superior to the hand made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

Morning Chronicle.

WEDNESDAY, JULY 15, 1857.

The attacks of the Southern Democracy upon Gov. Walker of Kansas, are giving the administration some trouble. It was thought that Walker's position, as a Southern man, who had been recommended by the South for even the post of Secretary of State, would be a sufficient guaranty to the slave States. Walker could do no different when he reached Kansas, than Reeder and Geary had done; — and now the fire-eaters throw over their own man, and ask his recall, expecting the same acquiescence as in former cases. It is reported that three of the cabinet are willing to yield and add another to the list of political martyrs; but Gen. Cass sticks to his squatter sovereignty; and for the time Walker is safe. What the South will do does not yet appear; but it is singular that in the State of Mississippi they should pass resolves approving the administration of Gen. Pierce, and say nothing of Mr. Buchanan's. We shall see what they can make of the agitations; but for one thing we may be thankful—that if excitement is revived upon this question now, they can't charge the agitation upon Massachusetts; it will be a bed of their own making, and they can lie down in it. Massachusetts is pretty well satisfied with the position of affairs. The free State party in Kansas thus far have triumphed, and if there is the least shadow of "fair play" they will triumph, by at least four to one in the popular vote of the territory, whenever that vote can be had.—*Newburyport Herald.*

We have no doubt of a two-thirds vote, or even larger, for freedom, *if there is any fair play* there. But we have seen no such play yet, from the day when Douglas caught President Pierce in the Nebraska trap, down to the last advices by telegraph. When we see Kansas *come in as a free State*, we will make a note of it.

A Tight Place for Senator Douglas. Senator Douglas was compelled on the 4th to listen to some disagreeable truths at Chicago. It was at the laying of the Corner Stone of the new Baptist University at Chicago, to which he had given the valuable site. The people of Chicago have raised $175,000 for the object, and the corner stone was laid on the 4th. Mr. Douglas was complimented highly upon his generosity, and was called upon for a speech, but he had a severe cold, and excused himself. Mr. Arnold spoke in his place, and uttered a splendid oration in favor of freedom and against the spread of slavery. Douglas had no means of escape.

Hospitality in Keene.—We copy the following notice from the Keene Sentinel.

The General Association of N. H., will meet in Keene, on the 25th of August next, at 10 o'clock, A. M. The hospitalities of the village will be extended to all members and friends who attend, and who shall send their names, enclosing a Postage stamp, to the Chairman of the Committee of arrangements by the 15th of August next, mentioning definitely, who will be with them, and how they will come, whether by cars, or their own conveyance. Such will receive a card by mail, introducing them immediately to families without further direction. The Chairman of the Committee is Mr. S. Hastings.

The General Association is that of (orthodox) congregational and presbyterian ministers; and is not a mass meeting, but is composed of delegates from the district associations, throughout the state. It is accompanied, however, by the meetings of the N. H. Bible and Domestic Mission Societies, and attended, commonly, by large assemblies,—being the great annual gathering of that denomination in the State. The plan of entertainment is excellent, if it can be carried out.

☞The Fourth Annual Meeting of the N. H. State Teachers' Association will be held in Concord, on the 4th and 5th days of August. There is a long list of teachers who will be present and participate in the exercises, and the literary exercises on the occasion will be interesting.

Among the proceedings on Tuesday, H. Brickett, of Reed's Ferry, will read an essay on "The Motive Power of the School Room," and Rev. Lyman Whiting will deliver a lecture. On Wednesday, lectures will be delivered by E. Knight of New Londen, and M. C. Stebbins of Nashua. Discussions and business transactions will consume the remainder of the time.

☞A resident of South Danvers informs the Salem Gazette, that, within a circuit of three miles of his residence, the onion crop returned to the raisers, one hundred thousand dollars, in cash! This will give an idea of the celebrated onion crop to that town. It is supposed that the destruction by the maggot, may affect this crop throughout the country, to the amount of $150,000.

☞In Wayne, Ashtabula county, Pa., a young man named Forbes, was ramming down the cartridge of a cannon, on the 4th, when it exploded, and the ramrod went through his body.

WALTON AND BALLOU.

The following paragraphs are brief extracts from Mr. Ballou's answer to Mr. Walton's letter of admonition.

The next particular which your "friendly admonition" occupies, is the subject of *Universal Salvation* in the following words: "I could not but observe with what *emphasis* you, at the grave, mentioned those selected texts of scripture which you supposed would confirm your hearers in the doctrine of Universal Salvation. Would Christ or the Apostles, preach Universal Salvation in one place of scripture and in another contradict it? I believe not." In the above particular, sir, I agree with you in all which you express. I do not believe that Christ or any of his Apostles ever contradicted the glorious doctrine, in which they all preached, of Universal Salvation. And until this contradiction can be shown in their preaching, you and I have full liberty to believe in God as "the Saviour of all men." Christ gave himself a ransom for all men; tasted death for every man; is the propitiation for the sins of the whole world. He says he will draw all men unto him, and he also says that "him that cometh unto me I will in no wise cast out." St. Paul says that God will have all men to be saved and to come come unto the knowledge of the truth. To which testimony we might add an immense number of scriptures from the Old and New Testaments; and as you agree that Christ and his Apostles would not preach Universal Salvation in one place and contradict it in another, so you must, of necessity, subscribe to the *uniformity* of the scripture doctrine in the salvation of all men. * * * * * *

Your concluding query is the following: "My friend, is there the least room for us to believe from this scripture (meaning 2d Cor., 5—10, 11) and many others, that the wicked who have lived impenitent and in a disbelief of the gospel, or without the true knowledge of God and of Jesus Christ whom God hath sent, have eternal life in the fruition and enjoyment of God?" This query I will endeavor to answer as plainly as possible.

1st. Unless we grant that a man has eternal life in Jesus Christ, given him before the foundation of the world, we cannot justly call him an unbeliever because he does not believe he has this eternal life in Christ. Nor can we say, with the least propriety, that he does not know the truth because he does not know that which is not.

2d. If we allow that a man has eternal life in Christ, we must allow him to be an unbeliever if he do not believe it; and that he does not know the truth, as it is in Jesus, if he be ignorant of this gift of eternal life.

3d. While a man is in a state of unbelief he is not in the enjoyment of the truth.

I conceive, sir, these observations must appear reasonable to any reasonable man; and therefore I suppose they will appear reasonable to you. * * * * * *

Having noted the most important sections of your "friendly admonition" in as concise a manner as was convenient, permit me, dear sir, to make a few observations on the doctrine of Universal Salvation, that being a subject to which you allude in your epistle, though you did not see fit to plant any particular arguments against it. This doctrine I openly profess, and preach as a doctrine which I conceive is plainly taught in the scriptures of the Old and New Testaments; a doctrine which all good men in the world desire the truth of; a doctrine the most worthy of God of any ever published; a doctrine the best calculated to fill the soul of the believer with love to God and to our fellow creatures; a doctrine which harmonizes the divine attributes, the scriptures and every principle of reason and good sense, in a surprising and astonishing manner; a doctrine, more than any other, calculated to destroy the hurtful animosities existing in the religious world, and to produce general fellowship and brotherly love; and in a word, I believe it to be the only doctrine which can be supported by reason or scripture, to a mind not improperly biased by tradition. Though I am sensible of your greater experience, yet I am willing to say to a man of your piety and christian candor, that any arguments which you should see cause to lay before me, on the above subject, shall, by the blessing of God, receive an early attention and a judicious discussion. * * * * * *

I believe I may venture to say that unless the belief that *God is not the Saviour of all men* can be maintained by positive scripture as an essential article of Apostolic faith, I cannot be justly *admonished* for *apostatizing* from the true faith. May I not, with great propriety, call on my Rev. friend to show, if he can, that such an article of faith was ever required by Christ or his Apostles as a term of Christian fellowship and charity?

Let us look into the written word of God and see what is there required of us to believe. See Rom. 10, 9, "If thou shalt confess with thy mouth the Lord Jesus, and shalt believe in thine heart that God hath raised him from the dead, thou shalt be saved." Acts 13, 37, "And Philip said if thou believest with all thine heart thou mayest. And he answered and said, I believe that Jesus Christ is the Son of God." Mat. 10, 32; "Whosoever, therefore, shall confess me before men, him will I confess also before my father which is in heaven." Luke 12, 8; "Also I say unto you, whosoever shall confess me before men, him shall the Son of man also confess before the Angels of God." Not to multiply quotations, permit me to query whether there be in those passages, or in any other scripture on the same point, any intimations given, that the candidate must believe that this precious Saviour will not, through the peace made by the blood of his cross, reconcile all things to God?

Are you fully satisfied, dear sir, that that you are authorized to *admonish* an *apostate*, one who confesses with his mouth, the Lord Jesus, and who believes in his heart that God hath raised him from the dead? Why did not Philip demand of the Eunuch a particular confession of a belief in *limited grace* and *salvation?*—Was there not the same authority to require this article of faith then, as now? If Jesus had promised, in his word, that he will confess before his father in Heaven, whosoever confesseth him before men, are you satisfied with the authority by which you denounce, disfellowship, and deny those little ones? The thought is truly solemn! I feel a *chill* in every vein of my body, when I consider the vain traditions of a corrupted church, in which it has long been a religious habit to anathematize those who confess Christ before men, because they *cannot* believe in certain tenets never required by Christ or his apostles!

Rev. sir, I can say, in the sincerity of my soul, that I believe that Jesus of Nazareth is the true Christ, I believe him to be the Son of the living God, who was delivered for our offences and was raised again for our justification. And though I feel myself the most unworthy of the subjects of salvation, yet I should be ungrateful not to acknowledge the goodness of God my Saviour. Whatever men may think or say of me, I know that my soul experiences joy unspeakable in sweet meditation on the glories and inexpressible beauties of my Redeemer; and the thought that I am owned as his child before the angels of God is infinitely better than to receive the admiration of men who are disposed to judge without knowing the heart. * * *

In hopes that nothing contained in this letter will be considered inconsistent with the true spirit of an humble believer in Christ, I remain, sir, your humble servant, for Christ's sake, Hosea Ballou.

☞On Sabbath, July 5, the Congregational Church in Raymond, had an accession of 22 persons by profession of faith. The F. W. Baptist Church, 2 by profession. The Methodist Church has received several during the last few months, but we know not the number.

☞The Free Will Baptist Church in Newmarket has received 13 by profession, besides those named a few weeks ago.

Price 75 cents per bottle.

We call attention to a medicine advertised in our paper, for sale by J. H. Thacher and W. R. Preston,—for the cure of Dysentery, Diarrhea, and other affections of the Bowels. If what is said of it is true, by those that have given it a trial, it should be used in every family. No medicine is more worthy of universal commendation than Dr. Wilson's Dysentery Powders.—Please try them. july2 2w

IF ALL OUR READERS

Who are troubled with liver complaint, jaundice, or Dyspepsia, will read the advertisement in another column of Dr. Sanford's Invigorator, and then do as we have done—get a bottle, we should not see so many sickly, half-dead, despairing people as now meet our gaze at almost every corner, for certainly there never was a remedy invented of which so much is said, and that performs so nearly what its proprietors say it will do. It came to us so highly recommended that we could not fail to try it, and a trial has convinced us, without a doubt, that it is the best family medicine in use. We take it for Headache, Sour Stomach, Billiousness, and any of the little bodily ills that are common, and it does produce a pleasant state of feeling to the sick, and what is better, after using it a few times, these little ills grow less and less, and there is a prospect of being entirely free from them by a continuance in the use of the Invigorator. LADIES AND GENTLEMEN:—We would call your attention to Prof. O. S. Wood's Hair Restorative. From our long acquaintance with the proprietor, and with numerous individuals who have used his preparation with perfect success for the last two years, we feel no hesitation in recommending the article as superior to any of the preparations now in use for the same purpose, viz: for restoring gray hair to its original color, a sure and perfect cure for baldness, and a never-failing preventive for the falling of the hair.

It is decidedly the best and most popular in use for beautifying, preserving, restoring and strengthening the hair, relieving diseases of the skin, and removing scurf, dandruff, and all eruptions and feverish heat from the scalp.

We speak in relation to the above from what we know, having been personally acquainted with numerous persons who have used the Restorative for the above purposes, with the most gratifying results.

It is not often we notice a patent medicine.—Indeed, we think we have never puffed one before; but Professor Wood's "Hair Restorative" is something so superior to most of the preparations of the day, that we cannot forbear asking the attention of our readers to it.—[Catholic Vindicator.

☞The young Sunday school teacher, Manvil Austin, charged with the murder of James Birch, near Ball's Cross Roads, Alexandria, has, after examination before the County Court, been discharged, on the ground of having killed Birch in self-defence. The decision was received with loud applause.

We see it stated that very small additions have been made, during the past year, to the Orthodox Congregational churches of Massachusetts. Above the number lost by death, excommunicated and dismissed, they have gained only 285, which is less than one convert to each church.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: SUBDUE INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a quill dipped into a solution of it, to affect the entire system.

POLICE COURT.

Before Justice Odell.—July 14.—A young man was accused of assaulting Robert Shillaber, jr. Plea not guilty.—Proved guilty; and sentenced to pay a fine of $3; costs $5, 75; and give $30 bonds for good behaviour and keeping the peace. He paid the fine and costs, and procured a good surety on his bond for good behaviour.

EASTERN RAILROAD MEETING.—The annual meeting of the stockholders of the Eastern Railroad was held in Boston on Monday. George M. Brown, Esq., of Dorchester, presided. The recommendations of the Directors of the road, embodied in their recent report, were adopted, without much opposition.

The resolutions related to the liquidation of debt, and renewal of dividends.

The following gentlemen were chosen Directors for the ensuing year:—John Howe, Brookline; Samuel Hoopor, Boston; Geo. M. Brown, Dorchester; John C. Lee, Salem; Nathan D. Chase, Lynn; Micajah Lunt, Newburyport; Henry H. Ladd, Portsmouth. All but two of them received 2217 votes each, being the whole number thrown. The other two fall a hundred short, two opposing candidates receiving a small vote.

There was a great degree of unanimity among the stockholders, and the best feeling. After voting those living in other places a free pass to their homes, the meeting adjourned sine die.

☞ The Annual Meeting of the Eastern Railroad in New Hampshire was held in this city on Tuesday, when the following Directors were chosen:

Ichabod Goodwin Portsmouth.
Daniel P. Drown, do.
Stephen A. Chase, Salem.
Isaiah Breed, Lynn.
Benjamin T. Reed, Boston.

Ichabod Goodwin was then chosen President; Daniel P. Drown, clerk; and J. B. Parker of Boston, treasurer.

The people of Lawrence and Methuen, have taken the pearl fever, and pearls of all sizes have been found, varying in value from $500 to $1000. We should not wonder if our clam and muscle flats should turn out a crop before long.—*Newburyport Herald.*

☞ About 2000 barrels of new potatoes were shipped on Thursday, from Norfolk to New York, and other markets. The price in Norfolk is $3 per barrel. Apples are very plentiful, but small lots are being shipped—price $3 per barrel for rather inferior quality.

NEW MEDICAL SALT; *A perfect substitute for the Lancet, Leeches and Blisters!*—The new medicine, the Antiphlogistic Salt, is rapidly working its way to popular favor in this city—having cured Rheumatism, Rush of Blood to the Head, Croup and Bronchitis.—*Lynn Reporter, Mass.*

Dr. C.'s Agent in Portsmouth is Jos. H. Thacher. See advertisement.

THUNDER STORM.—A severe thunder storm was experienced at Wilmot Centre, N. H., on Sunday afternoon, during which the barn of Mr. Thomas Brown was struck by lightning and burned. The family were all at meeting with the exception of one daughter, who was found by the neighbors courageously clearing the house of furniture, &c.

MAINE NEWS.—In Ellsworth, an unknown man attempted to set fire to a barn, when he was shot by some persons who were watching. He made his escape, but left the trail of his blood for a hundred rods. The Selectmen have offered a reward of $200 for his detection.

ARRIVAL OF THE ARAGO.—*New York, July* 14.—Steamship Arago arrived at midnight with London dates of July 1. She has nearly 200 passengers, including Duncan McRae, American consul at Paris.

At anchor in Cowes Roads, frigate Susquehanna, also ship Viking, from Callao.

NEW YORK, July 14.—The city remained quiet throughout the night. There was no one killed. Six policemen and eight prisoners were more or less hurt.

Three regiments were kept under arms all night, and dismissed this morning.

At the inquest into the death of Meyer, it was proved that he was the notorious well known as Jack Spratt, and that he was not in the riot, but while committing a burglary in Broadway.

MORE RIOTING IN NEW YORK.

NEW YORK, July 13.—There is a rumor that the riot of last evening has been renewed, and that the Seventh Regiment has been called out. The Police and Commissioners have repaired to the alleged scene of disturbance.

Four o'clock, P. M.—The riot going on this afternoon in the 17th Ward is of a very serious character. A mob of 500 Irish and Germans attacked the Metropolitan Police with missiles and fire-arms. The police were driven back, as were also a squad sent to their relief. Another detachment of 100 men was immediately sent to the scene of conflict, and a requisition has been made for a detachment of military.

This riot, it is said, was premeditated, but was not to take place until night, when it was intended to commence with an attack upon the 17th Ward station house.

The rioters have been fighting among themselves the whole afternoon, occasionally attacking strangers who ventured among them.

Several persons were badly beaten, on supposition that they were policemen in disguise.

Four or five hundred policemen are on the ground, and the military are held in reserve in the Arsenal.

It is said a member of the Common Council, and many of the ex-police, are active among the rioters.

A quorum of the City Council did not meet to-night, in consequence of which the police are still deprived of the use of the station houses.

Mayor Wood is not to be found.

At last accounts matters were comparatively quiet.

The riot was commenced by an attempt of Coroner Perry to hold an inquest over the man who was killed yesterday, the mob opposing his action on account of his being an American.

In the Supreme Court, this morning, Judge Roosevelt dissolved the injunction restraining Mr. Conover from interfering with the books and documents of the Street Commissioner. The case then came up before Judge Peabody on the writ of certiorari, but he declined to proceed until after hearing counsel.

A viler set of men than "many of the ex-police" are rarely to be found. The new police have their hands full, and a little more than they can handle conveniently. Then Mayor Wood is to carry his quarrel, and that of the rowdies into the city election, and also into the State election,—and the N. Y. Journal of Commerce is to help him! The Traveller says;

The *animus* of the rioters in New York, still continues to be exhibited by the testimony in the inquest cases. At the inquest on the body of a policeman on Saturday, it was testified that the mob who killed him, used such expressions as "kill the Black Metropolitan," accompanied with the vilest oaths. An old police captain says, he had never known so much bitter feeling among the "fighting boys" against the police, as at the present time, and he attributes it to the unfortunate difficulty which was initiated by Mayor Wood. Another desperate riot took place on Monday afternoon, in which, the telegraph tells us, some of Mayor Wood's old police took an active part.

HOMICIDE ON THE HIGH SEAS.—At 11 on Tuesday night a sailor named Littleton Goodwin, was arrested on charge of murdering the first mate of the ship Ceylon, William H. Gould, belonging in Exeter, N. H., on the 17th of May, on the passage home from Penang. It seems that the mate and Goodwin were on the best of terms before the affray. While in Penang Goodwin procured a little goat, and took it on board of the vessel for the purpose of bringing it home. On the day of the murder, he was seated on the forward hatch cutting up a yam with his sheath knife, for the purpose of feeding his goat, when the Captain gave an order to the mate which was transmitted by the mate to Goodwin, who answered the mate.

He did not start the moment the order was given, and the mate approached him with a belaying pin, and struck him on the head with it. He immediately jumped up, and in order to prevent himself from receiving a second blow from the pin, defended himself with his sheath knife, and during the affray stabbed the mate in the abdomen very severely. He shortly after died from the effects of the wound. Goodwin was allowed to assist in working the ship home, and after she arrived at the wharf last night, he aided in furling the sails. He then went to the captain, and asked him to go with him to the station house, as he wished to give himself up.—The Captain complied, and the officers of the Harbor station took him into custody. He was brought before a U. S. Commissioner's Court and held for examination.—*Boston Traveller.*

☞ The Bellows Falls (Vt.) Argus says that Henry Abbott was sentenced, at a recent term of the Bennington County Court, to three years' imprisonment for bigamy. His father is in State Prison for the same crime.

The above refers to old Dr. Abbott and son, who played so many tricks in Manchester.

"Eliza, my child," said a prudish old maid to her pretty niece, who would curl her hair in pretty ringlets. "If the Lord intended your hair to be curled, he would have done it himself."

"So he did, Aunty, when I was a baby, but he thinks I am big enough now to curl it myself."

☞ Col. Fremont is quite ill at the Brevoort House, in New York.
